Re: Enhancement in the sale price of milk by the Andhra Pradesh Dairy Development Corporation

Mr. C.V.K. Rao — You should give us permission to bring this matter for discussion. It is an important matter.
Mr Speaker — I will not give any permission

Sri C V K. Rao — There is enormous corruption in this entire thing Therefore, I am levelling a charge

re (2) Demands of beedi leaf labourers

Sri M Omkar (Narsampet) — Sir, my submission very is simple. It runs as follows

"Some lakhs of workers of the beedi leaves collection in Andhra Pradesh have been getting prepared to go on strike within a week days for achieving their long standing demand of 10 paise for a bundle of 100 beedi leaves as recommended by the Estimates Committee in its IIIrd Report submitted to the Assembly on 1-8-1974. Ignoring the recommendation of the said Estimates Committee the Forest Department has decided to pay low wage rates in three categories as 4, 5 and 6 paise for a bundle of 100 leaves as specified by it.

As against the decision of Forest Department the contractors in 1974 and 1975 owing to the strikes of the labourers had to pay 'upto 9 paise for a bundle of 100 leaves. But during the emergency period the enhanced rates were again cut down. Hence an acute unrest has prevailed among the labourers of the beedi leaves collection and the strike is due to take place within a week and a great loss to the Government and to the labourers is bound to occur.

In order to avoid the strike and the loss thereof the Forest Department has to comply with the recommendation of the said Estimates Committee. Hence this is a matter of urgent public importance."

I have raised this issue several times in the House. In order to enlighten this matter some relevant points have to be explained. The beedi leaves trade was nationalised in 71, if I am correct. Before that the fight for the increase in wage rates was there between the private contractors and the labourers. After the so-called nationalisation, the fight is between the Forest Department and the Labourers. Now the Police is used to crush the strikes or struggles of the workers. Infact this is an issue pertaining to the tribals whose number is in lakhs. Speaker Sir, before the trade was nationalised the private contractors were forced to pay 'upto 10 paise for a bundle of 100 leaves. I exhibited the contracts and the agreements arrived at between the private contractors and the labourers, but after nationalisation the Government, especially, the Forest Department defined the areas into three categories. In one category for a bundle of 100 leaves four paise, in another category five paise and in the third category six paise was fixed. I don't know the basis on which this category is made, but so far
Matters Under Rule 329
20th March, 1977. 32$
re Demands of Beedi Leaf Labourers

I know this division is unscientific. The Forest Department had to comply with the recommendation of the Estimates Committee, but on the other hand it had ignored. The workers fought and their rates were increased in 1974-75. During the period of emergency by using the police force they got their enhanced rates cut down. Inspite of severe repression in Khammam district during last year, they fought and their rates were increased up to 9 paise. So, I don't know the reason why the Forest Department is denying to enhance their rates. Our Hon'ble Minister for Forests has got lot of arguments in stock against my request. The Forest Department is entertaining some wrong notion. They believe that the labourers will be getting daily from Rs 5 to Rs 6. This is a wrong notion. I request the Minister to tell whether the Government is prepared to pay the average rate of Rs 2 daily per labourer. If the Government is prepared to pay Rs 2/- I am prepared to give up my demand. The Government is not prepared. In fact, according to my information as I have been working in the forest area, I have got close links with the tribal where there are getting not more than Rs 1/- per day. In a family consisting of 4 or 5 members, they all go and work and collect beedi leaves and tie them down in bundles. One person in the name of one family will go to 'Kalla' where these bundles are store. On record only one name of a family would be recorded and the names of others who participated in the trade are not recorded. By seeing that name if the Forest Department comes to the conclusion that one member is getting Rs 5 or Rs 6, it would be a wrong conclusion as the names of the other members of a family were not mentioned on record. The forest department is advancing argument morder to weaken the demand of the labourers by saying in other States the rates are very low. I request the government to look into the matter whether there is uniformity in the wages either in the industrial workers or other fields. Wherever the workers are conscious and fight, there, their wages will be higher and where the workers are backward, where they are not prepared to fight there, their wage rates will be lower. So, examples of backward areas cannot be shown. Hence, my request to the hon'ble Minister for Forests is that he should come forward with a clear assurance that the Committee's recommendation will be complied with.

Permit me, Sir, to read out the recommendation of the Committee: "In the forest area of the Tribal Blocks, the beedi leaves which are forest produce are collected by the Girijans on wage basis at the rate of 5 or 6 paise for every bunch of 100 beedi leaves collected by them, and it is one of the main occupations of the Girijans in the forests. During the Committee's visit to Khammam district, the Tribal Welfare Officials and most of the Girijans represented to the Committee that the wages paid now for beedi collection to the Girijans are very low and

The Committee recommends that the wage rate for collection of beedi leaves requires revision from 6 paise to 10 paise for every 100 leaves as the amount of six paise is too low a wage.

This recommendation was made in 1974. So, Sir, I request the hon. Minister to give a positive assurance in this regard.

The Minister for Forests (Sri Mohd Ibrahim Ali Ansari),—Sir, the hon. member is well aware that Andhra Pradesh is paying more than any other adjoining States. Actually our lowest rate is higher than their highest rate. It looks very simple for the hon. member to say that the rate should be enhanced by one paisa. If we enhance the rate by one paisa, it is going to cost us Rs 25 lakhs. If the suggestion of the hon. member is accepted, then all our loves for labour will be lost. We will be left with nothing. With due consideration we have appointed an advisory committee. On the recommendation of the Advisory Committee only, last year the rates were enhanced from 4, 5 and 6 paise to 5, 6 and 7 paisa. Now, at present we are not in a position to enhance them. If the hon. member so desires, we will reconstitute the Committee and ask them to reconsider and give us their suggestion. To safeguard the interests of the labour, we have Joint Commissioner of Labour on the Advisory Committee. But the hon. member wants that a representative of the labour also to be nominated on the committee. We will certainly consider and try to nominate a representative of labour also.

Sri M Omkar — The hon. Minister has referred to the Advisory Committee. The present Advisory Committee is consisting of the representatives of the Forest Department and the Contractors. The representative of the labour is not there. I had requested several times to include one or two representatives of labourers in that committee. That was ignored. Of course, now the hon. Minister has given a positive assurance. I am thankful to him. The hon. Minister has said that if one paisa is raised, there will be a loss of Rs 25 lakhs to the Government. If that account is given to the House, it will be misleading. I would like to ask the Government whether they want to squeeze the labourers out of their blood whether they want to accumulate their wealth. They are saying that they are doing much work for the welfare of the tribals. They are actually doing the work and they want reasonable rates of wages. They are not asking any grant or grante. My request is that without any hesitation the hon. Minister must take positive steps in accordance with the recommendation of the Estimates Committee. I would like to have a clear assurance that the Government will look into the matter and take decisions in accordance with the recommendation of the Estimates Committee.

Sri Mohd Ibrahim Ali Ansari —I have already submitted that we will reconstitute the Advisory Committee and ask them to consider.
(3) Stoppage of sugar cane crushing in Nizam Sugar Factory

Minister for Sugar Industries (Sri K B Narsappa) —The Nizam Sugar Factory at Zahirabad, Medak District stopped crushing on 16th March. It is reported that the factory had given advance notice about the intended closure on 10th March itself. According to Nizam Sugar Factory, they were forced to stop crushing on 16th March when no cane supplies were forthcoming.

A few cane-growers have however kept back a certain portion of their cane for seed purposes. It is estimated that the total quantity kept back by the growers for seed purposes may be between 1200 and 7500. 

75–5
1500 tonnes, Nizam Sugar Factory have stated that the factory will be willing even now to accept cane at the factory gate for the purpose of utilisation as seedcane, if any canegrower comes forward to supply cane.

It is incorrect to say the Nizam Sugar Factory has not agreed for cane to be transported outside the zone in as much as the managing Director of the Nizamabad Co-op Sugar Factory had come to Zahirabad on 12th Feb 1977 and had discussions with Mr M Baga Reddy, MLA and Mr Manik Reddy, President of the canegrowers Association and had offered to take 10,000 tonnes of cane to the Nizamabad Co-op Sugar factory and that at that time, N S F had raised no objection but it would appear that the canegrowers of Zahirabad had not responded to the offer of the said co-op sugar factory.

It is also incorrect to say that the Management of the factory had launched prosecutions against innocent and poor farmers. The factory had no power to launch prosecutions and it is only the concerned Government Dept empowered to launch prosecution for violation of the sugarcane Act, that can do so. In a few cases, where the canegrowers, in spite of repeated requests, were not supplying cane to the factory and were illegally diverting the cane for other purposes the factory reported the matter to the sugarcane Inspector.
