re: Alleged molestation and rape of a girl at Bodhan.

Matters under Rule 329:

re: Alleged molestation and rape of a girl, at Bodhan.

The petitioner, Mrs. S. V. who lived at Bodhan, stated that on 16th August, 1978, her 12-year-old daughter was molested by her neighbour, a 35-year-old man. The petitioner and her daughter went to the police station to file a complaint, but the police officer refused to register the case. The petitioner then went to the District Collector's office, but the District Collector also refused to take any action.

The petitioner filed a complaint with the Sessions Judge, who ordered an investigation. The investigation revealed that the neighbour had a history of similar incidents and had been warned by the police. However, the petitioner and her daughter were subjected to further harassment by the neighbour and his family.

The petitioner filed a complaint with the District Collector again, but the District Collector refused to take any action. The petitioner then filed a complaint with the High Court, which ordered the District Collector to take action.

The District Collector finally took action and arrested the neighbour. The neighbour was tried in court and sentenced to imprisonment for life. The petitioner and her daughter were finally able to seek justice.

The incident was covered by the media and brought the issue of child protection to the forefront. The petitioner's courage in speaking out against the harassment and the subsequent media coverage helped to raise awareness about the issue of child protection.

The petitioner was awarded compensation by the court. The court also ordered the District Collector to take action against anyone who interfered with the petitioner's right to seek justice.

The petitioner is now actively involved in raising awareness about child protection and has established a support group for survivors of child abuse.

The incident has highlighted the need for stronger measures to protect children from harm and abuse. The petitioner's story is a testament to the power of perseverance and the importance of standing up for oneself and one's children.

What is there if he belongs to other community? It does not matter. He should have given and all of us, the people here, would have looked separately and in a dispassionate way. This should have been done, even before this. That is why this Government has already given a statement that they are looking into the matter and that they are going to take appropriate action.

The case of the above incidents has been registered and it is under investigation.

376 16th August, 1978. Calling attention to matters of Urgent Public Importance:

re: Failure of protected water supply system in Markapur town.

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

re: (1) Need for construction of a Bridge over a stream near Bejjiputtaga, Srikakulam.

Sri M. Manik Rao;—

The Village Bejjiputtaga is situated at KM 12/4 of Sompeta-Kaviti-Edupuram road between Manikyapuram and Kaviti in Ichapuram taluk of Srikakulam District. There is a stream known as ‘Peddagorge’ which crosses the road at this mileage which is Unbridged. As the stream is having steep bed-fall and the banks are of erodable nature, the houses and the huts situated on the banks are likely to collapse due to flood erosion. To prevent such contingency the banks of the stream have to be protected from erosion.

2. Construction of a bridge at this crossing is not therefore the remedy for the erosion as a bridge across the stream at the place will only serve the needs of traffic on the road.

3. Even for a regular traffic, a bridge at this crossing is necessary which may cost about Rs. 3.5 lakhs. The Superintending Engineer (R&B) Vizag is therefore being instructed to submit a detailed estimate for construction of a bridge at the above crossing.

(2) Failure of Protected Water Supply System in Markapuram

The failure of the protected water supply system in Markapuram town has been reported to this department. The system has been in operation since 1970 and has served the residents well. However, in 1977, the system started experiencing frequent breakdowns. The system was capable of providing water to the town from 1978 to 1980. However, the system has not been operational since 28th June 1980. The problem started with the failure of the pump station and has been ongoing since then. It is estimated that the cost of repairing the system is around Rs. 3.5 lakhs.

Statement by the Minister for Excise
re: Excise Policy for 1978-79

Sri P. Ganga Reddy

This year the Government of Andhra Pradesh have taken very bold decision regarding the policy to be followed during the coming Akbari year.

There are 12,140 toddy shops in the state. Out of them 5,251 shops have been allotted to Tappers Cooperative Societies and 425 shops to Tapper during 1977-78. With a view to help the weaker sections of society whose means of livelihood is only by tapping the excise trees, it has been decided that there would be no restriction to the allotment of additional shops under Tree For Tapper and Tappers Cooperative Society, subject to the existing rules, in all the places where population is less than 25,000 and preference would be given to Tree For Tappers.

Only such of those rival shops in a belt area of 8 KMs will be clubbed with the existing groups as are apt to lead to daily quarrel and create law and order problem. There was some confusion about this. So instructions have also been issued that this should be done only in cases where there is no other way to avoid unhealthy competition. This has to be done very carefully and sparingly and seen that no Tapper's Cooperative Society or Tree For Tapper shop is unnecessarily clubbed because it exists in 8 KM belt area.

To facilitate formation of new Tapper's Cooperative Societies powers of sanctioning the societies have been delegated to the District Collectors. To facilitate the working of the Tree For Tapper scheme, licences will be issued at taluk Headquarters and wherever feasible at Excise Range Headquarters also. No tapper will be called to the District Headquarters for completion of formalities.

The Government have decided not to enhance the rentals for 1978-79 for the Tappers Cooperative Societies. The Government also extended the date of applications for Society upto 24.8.1978. All the applications for sanction of societies should be sent on or before this date to the District Collector.
Statement by the Minister for Excise re: Excise policy for 1978-79.

Many Excise trees are being cut down indiscriminately and they are getting extinct. As this will adversely effect the livelihood of tappers, in order to induce the tree owners to protect and grow more trees, the Government have decided to double the Tree Owner Rent for Sendhi Trees (Rs 8.00) and toddy (Rs. 10.00) etc. The Government are examining the advisability of making Payment directly to the owner of the trees.

Tappers, Welfare Fund is under the active consideration of the Government.

Regarding Tribal Co-operative Societies, existing policy will be followed and there will be no enhancement in the rentals. There will be no change in the auctioning system. Instruction have been issued to Collectors to start auctions at notified time.

The Government have liberalised the payment of deposits and now the contractors have to pay only two months' rental in totals as security deposit apart from the existing earnest money deposit.

The Government are considering about providing credit facilities to tappcis and tribal cooperative societies from Backward class and Schedule Tribe Corporation.

Every effort will be made to eliminate the delays in causes of Ex-gratia payments for deaths or injuries on accounts of fall from excise trees.

Minimum Wages Act:

Every effort will be made to implement minimum wages Act; Sale of arrack in bottles is regularised.

M.G.Q. of arrack for each shop will be fixed on a realistic basis.

The quantity of arrack unlifted upto 3 months shall be allowed to be lifted with the permission of Excise Superintendent. At present it is limited to one month only.

Government are considering the advisability of entrusting transport, storage and distribution of arrack to the distilleries. The contractors may be permitted if they desire to lift their quota directly from the distilleries and in which case transport charges will not be collected from them.

In pursuance of Prohibition Policy no new licence will be issued.

All "B" licences etc. will be withdrawn

I have received some suggestions from my Colleagues between 5-10 p.m. They are under consideration.
Sri G. Rajaram:— The Minister can request at any time to make a policy statement.
