ORAL ANSWERS TO QUESTIONS
Enquiry Into The Sale of Fertilizers By The State
Marketing Federation

16—

*264 Q.-Sri S. Jaipal Reddy (Kalvakuriti):—Will the Minister
for Co-operation be pleased to state:

(a) whether the Joint Registrar of Cooperative Societies conduc-
ted an enquiry into the sale of fertilizers by the State Marketing
Federation;

(b) if so, the irregularities detected by him; and

(c) the action taken against persons responsible?

*An asterisk before the name indicates confirmation by the member.
Sri S. Jaipal Reddy:—

The Minister referred to irregularities found in Co-operative Marketing Society, Armoor. The question is about the irregularities in the State Marketing Federation and the Minister was good enough to refer to some of them. What about the enquiry to be conducted into the affairs of Marketing Federation? In fact he himself admitted that there was omission in the records of Marketing Federation in regard to the sale of fertilisers.

re: Glut in the tobacco market.

Glut in the tobacco market:

1. Section 7A of the Tobacco Act 1972 provides for the imposition of a tax on tobacco products. The tax rate is capped at Rs. 12 per 1000 cigarettes. However, during the year 1977-78, the tax rate was increased to Rs. 12.5 per 1000 cigarettes due to the glut in the market. This has resulted in a significant increase in the prices of tobacco products, leading to a decrease in the consumption of tobacco.

2. The glut in the tobacco market has also affected the production of tobacco. The tobacco growers have faced difficulties in selling their produce at a reasonable price, leading to a decline in their income. This has further contributed to the increase in the prices of tobacco products.

3. The government has taken steps to address the glut in the tobacco market. It has announced a scheme to provide financial assistance to the tobacco growers, which includes a provision for the repayment of the loan. The government has also directed the tobacco companies to increase the purchase price of tobacco leaves to ensure a fair price for the growers.

4. The current situation has also raised concerns about the impact of the glut on the environment. The tobacco industry is a major contributor to air and water pollution, and the increase in the production of tobacco leaves has resulted in an increase in the pollution levels.

5. The government has also taken steps to address the environmental concerns. It has announced a scheme to promote alternative crops and diversify the agricultural sector. The government has also directed the tobacco companies to adopt sustainable farming practices to minimize the environmental impact.

6. The government has also taken steps to address the health concerns. It has announced a scheme to provide awareness programs and promote the use of alternative products.

7. The current situation has also raised concerns about the impact of the glut on the economy. The tobacco industry is a major contributor to the national economy, and the decrease in the consumption of tobacco has resulted in a decline in the revenue generated from the tobacco industry.

8. The government has also taken steps to address the economic concerns. It has announced a scheme to provide financial assistance to the tobacco companies, which includes a provision for the repayment of the loan. The government has also directed the tobacco companies to increase the purchase price of tobacco leaves to ensure a fair price for the growers.

9. The current situation has also raised concerns about the impact of the glut on the international market. The tobacco industry is a major contributor to the international trade, and the decrease in the consumption of tobacco has resulted in a decline in the export revenue generated from the tobacco industry.

10. The government has also taken steps to address the international concerns. It has announced a scheme to provide financial assistance to the tobacco companies, which includes a provision for the repayment of the loan. The government has also directed the tobacco companies to increase the purchase price of tobacco leaves to ensure a fair price for the growers.

In conclusion, the glut in the tobacco market has resulted in a significant increase in the prices of tobacco products, leading to a decrease in the consumption of tobacco. The government has taken steps to address the glut, including providing financial assistance to the tobacco growers and adopting sustainable farming practices to minimize the environmental impact. The government has also taken steps to address the health and economic concerns, including promoting alternative products and diversifying the agricultural sector. The current situation has also raised concerns about the impact of the glut on the international market.
