Short Notice Questions and Answers

Mr. Deputy Speaker: Order No. 4347/78 dated; 1 July 1978, pending completion of enquiry he was placed under interim suspension. That was in July but that, too, was cancelled.

Mr. Deputy Speaker: I am sorry, we cannot go on discussing like this.
ANNOUNCEMENT

re: Answers to Questions (Starred and unstarred) placed on the Table.

Mr. Deputy Speaker:— "I am to announce to the House that the answer to 48 Starred Questions and 141 Unstarred Questions received from the Government till 4.00 p.m. on 28th September, 1978 are placed on the Table of the House today. They will form part of the proceedings.* A copy each of these answers will be sent to the Members who have given notice of the Questions and another set of answers (Starred and Unstarred) will be placed in the Legislature Library for the use of Members".

Business of the House

Mr. Deputy Speaker;— There is an Assurances Committee for that purpose and if necessary it will go into that...

Mr. Deputy Speaker:— I am sorry and we cannot help it! I have already told that they will form part of the proceedings.

Ms. Deputy Speaker:— No please. That is not the point. If 10-10 a.m. that is the case, we would not have got all these questions and motions. I am sorry. You cannot get up like this and go on speaking.

We have done and taken immediate action.

Mr. Deputy Speaker:—This we will convey to the Minister and he will certainly take action and inform you please.

Mr. Deputy Speaker:—We will pass it on to the Government for taking necessary and immediate action and also to inform the members concerned.
Mr. Venkat Rao, you have to seek my permission please, but I have not admitted it. Anyhow, what is that matter.

They cannot represent All India Radio.

They are not Radio, They are not All India Radio, I am bringing this matter to your kind Notice.

Sri V. Sobhanadeeswara Rao:—When it is not All India Radio, it is not All India Radio.

Mr. Deputy Speaker:—If you want to bring to my attention, please don't bring any inferences.
Mr. Deputy Speaker:—I am not allowing anybody. Please sit down. Nothing will go on record.

I would like to tell the Hon'ble Members here, let it be Mr. Jaipal Reddy or others, when I have permitted Mr. Venkat Rao to speak, I can not allow others before I hear him. Definitely you will also be given an opportunity, whether you represent All India Radio or not but it is not proper for anybody to interrupt a member when he is speaking and that too without my permission.

(Interruptions)

(Many members rise from Opposition and Treasury Benches)
I am not allowing please. You cannot stop, when I have allowed a member to speak.

Mr. Deputy Speaker:—It is not against you or against anything else. That is his personal experience. It is not against you.

Sri S. Jaipal Reddy—Sir, the Chief Minister has been good enough to refer to my gesticulations.

(Interruptions).

No, I am on my legs...
We are here to lend Co-operation. I would like to make it clear that it will be responsive co-operation but not conventional co-operation. We will respond in the measure what we get the response of the Government.

Dr. M. Channa Reddy:—Mr. Speaker, I have some observations to make Honourable Sri Jaipal Reddy talks about the responsive co-operation. What I said was when one Member, Sri Venkata Rao is on his legs and making some statement, if it is irrelevant I am prepared and the House is prepared to submit to your discretion. Before just hearing the word ‘radio’ people got up like shock. It really shocks all of us. What I want is let the whole thing be heard whether it is grievances or not because I have not at least fully understood what he said. What I surmise is that it is not properly reported. That is certainly the business of the House. Whatever it is, we will leave it to the Presiding Officer and the Speaker. What I really wanted was let the Member get a full opportunity to express himself. I don’t want anything beyond that.

Mr. Deputy Speaker:—How can it be possible...if objectionable language or if it is a matter which is not permissible, I will definitely disallow it.
Mr. Deputy Speaker:—Now, let me make it very clear that as you are aware we do not have Zero hour and as a matter of fact, have not been allowing anything to be raised immediately after question hour, let it be either Sri S. Jaipal Reddy or Sri P. Venkat Rao. But I thought it proper to give him an opportunity, so that if it is a matter of urgent nature, we can inform the Government. So, keeping that in view I thought of allowing and accordingly, I allowed Mr. Venkat Rao, thinking that there is nothing wrong in allowing him. Similarly we have allowed so many times, in the House as well as in the Council. We have allowed also members to have some comment regarding the information and working of All India Radio and Press also. There is nothing new here and as far as the Assembly is concerned, when I have permitted a member, there is nothing wrong if he says anything objectionable. But, certainly, the Speaker is here to expunge, to take action, to disallow, or to dishonour what I want. But at least here, you have not allowed a member to say about the All India Radio. You have not allowed him to say a word about it. I am very sorry, we have to learn... Even yesterday also, I had to observe these things. Let us maintain the decorum of this House and we have good traditions of the Andhra Pradesh Legislative Assembly and am happy and fortunate that you have been all along giving me all co-operation, atleast on the days when I was sitting here as a Speaker.

So, I request you all to co-operative with me, to bear with me and also being the last day, when you want to get something to the notice of the Speaker, let us allow 5 to 10 minutes, which I thought I can give. Equally I have given everybody an opportunity. But let us not also have any objectionable things. You can express the same words and express your objectionable things. You can express the same words and express your feelings in some other language.
Mr. Deputy Speaker:—As I have allowed others, I have also allowed Mr. Venkata Rao to speak.

Mr. Deputy Speaker:—This will not go on record.

Mr. Deputy Speaker:—There is no comment made against anybody. Nothing has happened. You can raise a point of order when some thing has happened.

Mr. Deputy Speaker:—There is no point of order.

Mr. Deputy Speaker:—There is no point of order.

Business of the House.

Mr. Deputy Speaker:—If there is any objectionable thing, I will disallow.

Mr. Deputy Speaker:—I will go into the matter and I will if necessary, write to All India Radio.

Mr. Deputy Speaker:—I am very sorry. We are not having any Zero hour. I do not want any further discussion on this.
Mr. Deputy Speaker:—If you want, you can get your visitors.

Sri P. Govardhana Reddy (Mungode):—Under 329, I have given a motion about the atrocities and gundaism committed by the C.P.M. workers at Suryapet. That was not taken up, Sir.

Mr. Deputy Speaker:—I have received that motion and I referred it to the Chief Minister for taking action.

(Interruption)

Mr. Deputy Speaker:—Kindly pass on all the details to the Chief Minister.

Business of the House.

Mr. Deputy Speaker:—I am sorry. The Agriculture Minister
is not here to answer.

re: Deterioration of Law and Order situation.

re: Deterioration of Law and Order situation in Khammam Taluk.

Sri S. Jaipal Reddy:—On 17th of this month, 7 legislators belonging to Janatha Party including myself and other important office-bearers of Janatha party went to Khammam and visited number of villages. Soon after our visit, we tabled a motion and it came today Sir, in Khammam Town and villages, we are amazed to find that the law and order have totally failed. It is evident that as many as 25 murders have been committed in the last 6 months in Khammam taluk alone. I do not see that on those murders were on account of factionalism. Few of them were as a result of factionalism and the remaining were purely of criminal in nature. We had a 2 hour conference with the Collector. He also admitted that Khammam taluk particularly had witnessed in the last few months a murder wave not a crime wave. He also conceded that the forces at his disposal were not adequate. He, for example, pointed out that Khammam Town which has a population of nearly 1 lakh has only one police station. As we went to villages, the district police authorities found it necessary to send platoons of armed police along with us. When we went to villages, people received us not only with garlands but with defensive weapons. 100% of the people were having weapons in their hands because the conditions in those villages are dangerous, and terrible tension was prevailing in those villages. I have so far not seen such an area which was so terror struck where the people are holding their weapons. I would like to ask the Government as to why such conditions were created. People told us in the villages that the local police was partial and were committed to a particular section. They told us that the Superintendent of Police himself was openly committed to a particular section.

We did mention this to the District Collector. We visited the Hospital. You can understand the alarming dimensions of the crime problem in the Khammam taluk, when we are bringing to your kind notice that the district hospital authorities are not able to cope up with the situation. The number of those wounded and killed are in the increase. The people are not safe there. Whenever people go to participate in security proceedings, they were being killed. We have seen one such case at Nelakondapally. When one Shervayya went to participate in the proceedings, he was killed. We went to his home. We find that he was a poor man with a property of 1½ acres. All those persons who were killed belonged to B. C. and S. C. I do not say that people belonging to Janata Party were alone killed. It is quite possible that few others belonging to other parties were also killed. I would like to ask the Government as to why such a terrible situation was allowed to be created. Even Khammam town is not safe. Fire arms are openly being operated. The accused in one murder are committing
other murders. They are being released on bails. The police are not able to prevent these incidents. I would particularly like to bring to your notice that the Superintendent of Police of Khammam District had been in the district both as Additional Superintendent of Police and Superintendent of Police for nearly 5 years. How is it that senior officer of his cadre is allowed to remain in a particular place for a long period? What are the steps that this Government would like to take to instill security among the citizens of Khammam Town and Khammam District?

Dr. M. Channa Reddy: —Sir, in this case, for want of adequate time, the full report is not there. I got only a Wireless Message saying—"The Superintendent of Police, Khammam is submitting a detailed report through a Special Messenger to the Chief Secretary separately". This we got on 28th night. Till this morning, we did not get the comprehensive report of the Superintendent of Police. The Special Messenger is supposed to get. Therefore, I want to make it clear that the report I am having is not a comprehensive one.

Secondly, the Superintendent of Police is not there as Superintendent of Police continuously but in different capacities. He is already under orders of transfer. Because, as a routine, after 3 years we will have to change an officer. He is already under the orders of transfer. The Report I am having with me is here and I will read that.

According to the Superintendent of Police, Khammam, "Sri Jaipal Reddy, MLA; and some other MLAs visited three main villages of Bachodu, GoigollaPalli and Madhpuram and three hamlets viz., Gopaigudem, Bluvarigudem and Dammigudem, out of 163 main villages in Khammam taluk. Faction and group rivalries for supremacy are existing in 9 villages namely,Bachodu, Goiollapalli, Becole Bluvarigudem, Gopaigudem, Mallipalli, Naikangududem, Madapitam and Gudurpad. It is incorrect to say that the people in these villages are living in condition of terror. 5 riotings one hurt case, 19 cases of theft and damages of electric motors and oil engines, starters, one case of dacoity, one case of mischief by fire, 5 other thefts, three cases of affray and two cases under other I.P.C. sections (miscollations) in all being 37 cases are reported in the above villages during the last five months in Khammam taluk. Police are freely registering investigating and charging cases as per law impartially against all accused. Police ‘pickets’ have been patrolling and taking security action against extremists. It would appear that the position has been explained by the Collector to Sri Jaipal Reddy and the other members accompanying him on 17-9-1978 that with a view to strengthen the existing police establishment, the question of setting up of second town police station, Khammam is under active consideration."

re: Giving of Arrack shops to Individual Societies against group Societies.

With his robust commonsense he grasped the point and in his anxiety to do justice he has intimated to the Collector to give all the arrack shops to individual societies only in which tribals are members. With the Collector, East Godavari is invited to the reference cited. The Collector is requested to reconsider the request for the allotment of arrack shops to tribal cooperative societies with a view to help the tribals. He is requested to instruct the Excise Superintendent to have a watch over
the functioning of these societies. The stay order issued in the government telegram third cited is hereby vacated. There is a great exploitation. Government cannot be an instrument in exploiting those people for the benefit of a private individual. There is a great exploitation. Sri P. Ganga Reddy:—Whatever cases are brought to our notice we will take specific action by holding an enquiry and wherever it is proved that eligible persons are being benefited we will take necessary action. I will conduct the functions, I will call for the report.

It is a policy decision. So, why not he say that groups will not be there at least in tribal areas. They will all be split up into individual societies.

Mr. Deputy Speaker:—He has passed orders to a particular case of East Godavari. I don't think it is general. He has not passed orders for the entire State.

The legislation for equal rights and opportunities for women with men in all fields of activity is a step towards ensuring that women are treated equally. The rights to property and the right to vote are essential for women's emancipation and equality. The right to property is part of our right to property, and the right to vote is an essential part of our democracy. It is important that we continue to work towards ensuring that women have equal opportunities and rights in all fields of activity.

In conclusion, the legislation for equal rights and opportunities for women with men in all fields of activity is a significant step towards ensuring that women are treated equally. We must continue to work towards ensuring that women have equal opportunities and rights in all fields of activity.

The CBI is a highly specialised organisation of the Central Government which normally investigates into cases of corruption among Central Government employees, employees of the Public Sector Organisations under the control of the Central Government, employees of the companies owned totally or partly by the Central Government and other allied organisations. It also investigates into a number of offences such as Foreign Exchange violations, offences under the Indian Customs Act etc. The CBI can also investigate with the permission of the State Government other complicated cases. The State Government have their own investigating agencies which deal with normal crime. As an expert body investigating into complicated cases it is not necessary that the CBI should be called in by the State Government for the investigation of ordinary crime or normal offences. Just as the help of the Central Reserve Police Force is sought for by the State Government on rare occasions, the services of this expert body namely the CBI, if it is felt, should be sought by the State Government only in complicated cases of a specialised nature. Therefore, instead of the previous procedure of according general consent to the CBI for investigation into routine type of offences, the State Government have clarified the matter in the G. O. Ms. No. 810, Home (SCA) Department, dated 13-6-1978. This clearly shows that the CBI’s role is by no means curtailed in the State of Andhra Pradesh. In appropriate cases the State Government will continue to approach the Central Government for entrusting complicated cases to the CBI.

Similarly the Central Government can also seek the specific consent of the State Government for the investigation of any particular offence as contemplated in section 6 of the Delhi Special Police Establishment Act, 1946 (Central Act 25 of 1946).

GOVERNMENT OF ANDHRA PRADESH
GENERAL ADMINISTRATION (ART-1) DEPARTMENT
Memorandum No. 1125/ ART-1/ 78-1 Dated. 26-7-1978

In Memo. No. 817/ ART,1/- 78-2, General Administration (AR&T) Department, dated 3-6-1978, orders were issued that when the Chief Minister passes certain orders during his tours, the District Collectors or the concerned District Officers should implement the orders of the Chief Minister first and then write to their superior officers for getting ratification of the Department, and that in case these officers have any problem for implementation, they should be brought to the notice of the Chief Minister.

2. In G.O (P) No.378 General Administration (AR&T-I) Department dated 27-5-1978 consolidated instructions for the speeding up of the disposal of Government business were forward. These instructions cover the holding of meetings between the Officers of the Departments of the Secretariat and Heads of Departments in order to speed up the disposal of the business.

3. There is yet another matter of urgent public importance and that relates to the promptness in the disposal of representations received by Government.
4. It has generally been observed that there are delays in the disposal of representations received by the Government, that the Departments are not communicative enough with the representations and that not even interim replies explaining the present stage of the matter suitably without prejudice to the final decision are sent. In respect of some matters there are certain inherent difficulties such as dispute in ownership, applicability of ceiling laws, etc., and these have to be gone into in detail. Although the Departments actively look into them still the impression created on the parties concerned is that Government are dilatory and indifferent to grievances and difficulties of the public. It is, therefore, necessary that the Departments become more communicative and send interim replies to the parties explaining the position as indicated above.

5. Further, from the time taken in the disposal of cases, particularly those which have a bearing on economic development and as also in respect of socio-economic Schemes, which are intended for the uplift and welfare of the economically weaker sections of society, one gathers the impression that the Government are not conscious of the urgency of the economic programmes and are indifferent regardless of the rights and feelings of the representationists and the general public.

6. The Government are concerned and exercised over this matter and are determined to see that this impression is dispelled and removed forthwith. In order to achieve this objective, it will be necessary to give a new orientation to the handling of these and other matters so that the business of Government is attended to with expedition and speed. The Government, therefore, direct that in respect of:

1) All those representations, which by their natural require detailed examination and consideration, and which would take time to dispose them off, interim replies explaining the position suitably without prejudice to the final decision should be sent to the parties;

2) All those representations, where further material or information is necessary in order to expedite their disposal, the representationists should be addressed immediately to furnish the same;

3) All cases there should be a time schedule for the movement of papers for examination and for the taking of decisions. The time schedule should be drawn up with an eye on the promptness with which cases relating to socio-economic development could be disposed of.

7. All the Departments of Secretariat, Heads of Departments and Collectors are requested to observe the above instructions meticulously and ensure promptness in the disposal of cases at all levels.
8. The receipt of this Memorandum should be acknowledged immediately.

I. J. NAIDU,
CHIEF SECRETARY TO GOVERNMENT.

GOVERNMENT OF ANDHRA PRADESH

ADMINISTRATIVE REFORMS—PUBLIC GRIEVANCES, REDRESSAL OF—INSTITUTIONAL ARRANGEMENTS—COLLECTORS’ CONFERENCE (1978)—DECISIONS—ORDERS—ISSUED.

GENERAL ADMINISTRATION (ART.I) DEPARTMENT

ORDER:

I. The Government for some time past, have attached the utmost importance to the question of evolving mechanisms for speedy redressal of public grievance and complaints. As a first step, a Complaints Cell was set up in the General Administration Department from 1st May, 1978 under the Secretary to Chief Minister and Ex-Officio Secretary to Government, General Administration Department. The experience gained and the demonstrable need for suitably extending the scope of this activity was discussed at the Collectors’ Conference held at Hyderabad on 18th and 19th July, 1978. After detailed discussion which covered all the ground, it was generally felt:

1. that most of the public grievances relate to problems concerning land and effective utilisation of economic resources;

2. that these are susceptible of prompt and effective redressed at the local level itself, if the institutional frame-work is suitably oriented and procedure constantly reviewed;

3. that the attitudinal change required at the cutting edge level would also be achieved with suitable training of public servants and by the personal example and conduct of senior officers;
(4) that it is absolutely necessary to ensure that the legitimate aspirations of people are met with appropriate executive action so that complaints are not merely attended to when they are made, but the ground is broken to avoid the need for public to make specific complaints of administrative delays or other irregularities in the execution of accepted performance;

(5) that though public representations are being attended to in public offices even now, what is lacking is effective communication with the result that even where action is being taken the citizens are under the impression that nothing is being done; and

(6) that there is need to bridge this communication gap by dispelling this impression and by taking the citizens into confidence.

II. After taking into consideration all the above aspects and examining them in detail, the following specific recommendations were made by the Collectors' Conference:-

(1) Every representation should be acknowledged. The latest position should necessarily be communicated at every stage of consideration of a representation to the petitioner, and if any additional information is necessary for the proper disposal, it should be elicited forthwith;

(2) As prompt and timely disposal of grievance of the individual citizen is the 'sine qua non' of democratic administration, and the root cause for grievances is the delays which occur in the disposal of representations, it is necessary to evolve a time-bound programme for the disposal of each representation and ensure the elimination of delays at all levels;

(3) It is essential that a clear-cut distinction should be made between a complaint which is required to be investigated into and redressed, and other representations in the nature of request for executive action within the framework of public policy. The latter category are susceptible of follow up action through normal departmental channels. However investigation into and redressal of public grievances with speed and diligence should be specially attended to by the officers designated for the purpose;

(4) In the larger offices in the district and in the offices of the Heads of Departments and the Secretaries a fairly senior officer should be nominated to receive the public approaching the office for various purposes so that the necessity to
approach the subordinate public servants and futile chasing of papers from desk to desk can effectively be prevented.

(5) As a large number of specific grievances relate to the functioning of the administrative agencies at the district level and below at the local level, the Revenue Divisional Officer should be the focal point for the receipt, follow-up action and monitoring of the action taken to respect of complaints relating to the local areas in respect of all department of the Government. The Revenue Divisional Office, should therefore, be vested with the necessary authority to refer the officers of other departments, complaints which fall with in their field and to call for reports of action taken thereon. The Revenue Divisional Officer may be additionally designated at the Divisional Grievances Officer. Likewise, in the Twin Cities, the Commissioner, M.C.H., will be the Hyderabad City Grievances Officer;

(6) The Collectors within their respective districts should function as the supervisory authority and co-ordinate action in respect of disposal of public grievances. The Hyderabad City Grievances Officers should be under the direct supervision of Complaints Cell under the Secretary to Chief Minister Ex-Officio Secretary to Government, General Administration Department;

(7) Collectors should set apart one day in a month when they would be available to receive representations from the general public as well as people's representatives, and critically review the action taken by the Revenue Divisional Officers in respect of the Complaints received by them;

(8) The District Officers should similarly set apart one day in a month for attending exclusively to complaints and their redressal and review the work of their subordinate;

(9) Collectors and Revenue Divisional Officers should hold meetings with Departmental Officers to which representatives of the people should also be invited and the developmental activities in the District Critically reviewed and discussed.

(10) Grievance Officers shall set apart a fixed day in a week exclusively to attend to public complaints. Wide publicity should be given to these days;

(11) That one day in a week, all District Officers should be available at their District Headquarters to attend to and receive representations etc.;
(12) The Complaints Cell in the General Administration Department may refer all Complaints to the Revenue Divisional Officers/Commissioner, Municipal Corporation of Hyderabad, Hyderabad and may not call for reports of action taken thereon, except in very special cases where complaints are of an exceptional nature. Likewise, all complaints received by Government would also be sent to the respective Revenue Divisional Officers/Commissioner, Municipal Corporation of Hyderabad for taking prompt action in the matter. Even Heads of Departments may forward complaints to the Revenue Divisional Officers/Commissioner, Municipal Corporation of Hyderabad in respect of matters within their respective territorial jurisdictions. The Complaints Cell would call for necessary statistical data about the number of complaints disposed of and the time taken to secure effective redressal;

(13) Upper Division Clerk may be given to every Revenue Divisional Officer’s Office to attend to complaints work;

(14) The Offices of the District Collectors may be suitably strengthened in order to attend to the complaints received by them with promptitude;

(15) Each Public Office in the Districts should maintain a register in which the complaints received from the public are registered. The complaints so received should be acted upon under intimation to the Revenue Divisional Officer who will co-ordinate the activity. Similarly, the complaints received by the Collector or Revenue Divisional Officer/Commissioner, Municipal Corporation of Hyderabad and those referred for action to those should also be registered in such registers as may be prescribed by Government to enable the concerned departmental authorities to ensure effective action;

(16) In each village a complaint book should be maintained so that Villagers may enter there in specific cases for redressal of their grievances. Such register should be kept in the custody of the village Munsiff or Headman and it should be the responsibility of the Executive officers of various departments visiting the villages to take note of the complaints which need to be attended to and taken necessary action. The Village Munsiff/Headman on receipt of any complaint noted in the Register should forward a full extract to the Revenue Divisional Officer concerned;

(17) The norms followed by the Complaints Cell indicated below should be adopted:

(a) Complaints either from individuals or Associations
involving service conditions, promotions, transfers, appoint-
mements, disciplinary actions, premature retirements except pen-
sion and gratuity cases, need not be dealt with by the Cell.

(b) Complaints in regard to cases which have not been pen-
ding for more than six months are not dealt with by the Cell,
unless they are of very urgent nature involving Law and Order
ill-treatment or harassment by Police and other officials or
atrocities on Harijans and weaker Sections, etc. where any
delay in taking prompt action by the concerned authorities is
likely to result in extraordinary hardship to the complainant.

(c) Complaints which are not dealt with by the Cell will be
transferred to the concerned Department in original for
necessary action under intimation to the complaint. The con-
cerned Department should, however be requested to intimate-
the result of action taken in the matter to the complaint at
the earliest.

(18) In addition to the norms followed by the Complaints Cell,
the Grievances Officers will exclude the following from the
purview of complaints prima-facie:

(i) All cases of statutory nature where original orders have
been issued by a competent authority and provision is avail-
able for appeals or revision petitions.

(ii) All Public Services-services conditions relating to sinio-
rity, transfer and promotions pay fixation, regularisation, alle-
gations etc.

(iii) All matters pending in Civil or Criminal Courts where
redressal lies in Civil or Criminal proceedings.

(19) An analysis of the Complaints which are generally received
by Collectors and at the Government level has revealed
that a large number fall into specific sectors of activity like
putting the pattadar in possession of the land assigned to him,
delays in assignments of land and house-sites, inadequate supply
of water to tail-end lands, crops pests, cattle diseases and other
public health hazards. In such a specific sectors imaginative
advance action by district authorities if taken would obviate
the need for public representations and there by the very
volume of public grievances to be attended to would be sub-
stantively reduced. The recent experience in the conduct of
the Land Possession Fortnight underlines the validity of
this approach. It is, therefore, necessary that all possible
measures should be taken by the district administration in
such a way that it should be responsive and should anticipate
specific areas of fruitful advance action.
(20) Registers of complaints in such form as may be prescribed by Government should be maintained at the village level, by the Revenue Divisional Officers, Collector/Commissioner, Municipal Corporation of Hyderabad and the Complaints Cell in the General Administration Department.

(21) The Revenue Divisional Officers and Collectors should maintain a register village-wise showing the complaints that have arisen in the local area, so that during their tour they can devote themselves to solving problems susceptible of on the spot solutions, if necessary by getting the two different points of view on any issue reconciled in the presence of the proponents.

(22) Tahsildars, Revenue Divisional Officers, District Collectors and other Districts Officers should intensively tour in their respective areas, with sufficient night halts. They should intimate their tour programmes in advance so that the people takeful advantage of their presence in the villages.

(23) The system of level jumping which has already been in vogue for some years, should be put to proper use in disposal of Government business so that more not than 2 officers attend to any more file. (24) Heads of Departments and the concerned Departments of the Secretariat should take up for immediate consideration symplification procedures in respect of matters where the public have to approach public authorities for purposes of registration, issue of permits and licences under the regulatory provisions of Law.

(25) Necessary further action to give effect to the above decisions be taken on a priority basis and wherever necessary, amendments to existing provisions be made forthwith. There should be a periodical review of the functioning of this scheme of redressal of grievances and it should be improved upon in the light of the experience gained.

(III) The Government have carefully examined the various recommendations made by the Collectors, Conference and accept them in to and direct that every effort should be made by all concerned to implement the recommendations at their respective levels both in letter and in spirit.

(IV). In order to enable the Officers concerned, to effectively implement the recommendations and to authorise them to do so, the following orders are issued:

(i) Every Revenue Divisional Officer (who may be additionally designated as the ‘Divisional Complaint Officer’) and it shall be his duty to receive and take follow-up action and monitor th
complaints relating to all the Departments of the Government, in his jurisdiction;

(b) Similarly, in the Twin Cities of Hyderabad and Secunderabad the Commissioner, Municipal Corporation of Hyderabad, shall be the Hyderabad City Grievance Officer, and it shall be his duty to receive and take follow-up action and monitor the complaints relating to all matters pertaining to the Twin Cities.

(ii) The District Collectors within their respective districts, shall function as the supervisory authority and coordinate action in respect of disposal of public grievance in their Districts. (d) All matters pending in courts of Law or in respect of which redressal lies only through judicial proceedings.

No action is necessary on categories (c) and (d) of sub-para (iii) above.

(v) Every representation received by the Grievance Officers should be acknowledged immediately and the petitioner kept informed of the stage of action from time to time.

(x) The District Officers should similarly set apart one day in a month for attending exclusively to complaints and review the work of their Sub-ordinates.

(xiii) All District Officers should earmark one day in a week and on that day, they should be available at their District headquarters to attend to and receive representations, etc.

(xiv) In every office and in the offices of the District Collectors, Heads of Departments and in the Departments of the Secretaries, one of the Gazetted Officers shall be appointed entrusted with public relations work. The people may approach him for any matter pertaining to that office and give them the necessary information. Ensure that such matters represented to him are attended to promptly.

Answers to Starred Questions.

The Officer entrusted with this responsibility should be fairly senior and should be empowered by the Head of the Office/Department to liaise with all the branches/sections.

(xv) Tahsildars. Revenue Divisional Officers, District Collectors, and other executive Officers including District Officers Regional Officers should intensively tour in their respective areas particularly in the interior and inaccessible areas making sufficient night halts. They should intimate their tour programmes in advance so that the people may take full advantage of their presence in the villages, so as to ensure redressal of grievances on the spot and to minimise the scope for complaints.

(xvi) In order to register the complaints and to keep a record of the work done, and to enable the supervising officers to review the progress of the work, it is necessary that complaints Registers should be maintained at the village level and also by the Grievance Officers. (b) the amount of expenditure incurred;

(c) the extent of land in which wet cultivation is being carried on under the said project;

(d) the extent of land to be irrigated under the said project as for estimates prepared prior to the construction of the project;
(e) the reason why there is no water in the project after the construction work of the same is completed; and

(f) the action proposed to be taken against the officials (Engineers) who had wasted so much amount?

A.—

(a) The work was started on 25-2-1969 and the main anicut and left canal are completed. But right canal work is held up in certain reaches due to objection of ryots for execution of canal in their lands.

(b) The amount of expenditure incurred on the work is reported as Rs. 1,65,848.45.

(c) Eight acres of ayacut is reported to be irrigated in the initial reach under Left Blank canal.

(d) The proposed ayacut was 110 acres in Abi in original estimate which was subsequently revised to 184 acres in Abi.

240—Sri Ch. Vithal Reddy:—Will the Minister for Minor Irrigation be pleased to state:

(b) the estimated expenditure for the same and the amount spent so far for its construction;

(c) The anicut is capable of diverting supplies only from monsoon flows. But the registered ayacut is only 63 acres.

(d) The source in question is only a diversion scheme, providing water to an ayacut of 63,000 acres. The soils are black soils. Continuous and guaranteed supply throughout crop period will be available in the case of reservoir scheme. But this is only an anicut scheme for diverting flow available in vagu in monsoon season. Water is not being drawn by the ryots, for want of guaranteed supply and also due to the apprehension that water supply may not be available throughout crop period. This is only a diversion scheme and not a reservoir scheme.

(e) Does not arise as this is only an anicut scheme providing diversion of available monsoon flows generally between July to September. Steps are to be taken to persuade the ryots to develop their lands and cultivate short term crops. Alternative of flooding near by tanks from the anicut is under the examination Irrigation & Power Department.

330-Q-Sri V. Sivarama Krishna Rao:—Will the Minister for Housing and Youth Services be pleased to state;

(a) Whether acquisition proceedings were started by the Revenue Divisional Officer, Jammalamadugu for acquisition of 48.98 acres of land for the purpose of house building;

(b) Whether the acquisition proceedings have been completed and the land handed over to the Proddatur Cooperative House Building Society; and

(c) if not, the reasons for the abnormal delay in the completion of acquisition proceeding?

(b) No, Sir.

(c) A notification under Section 4 (1) of the Land Acquisition Act was published in the A. P. Gazette on 29.6.1972. As there were certain mistakes in the publication, an erratum to the notification was sent to Government for approval on 18.7.1972. By this time, the A.P. Vacant Land in Urban Area (Prohibition of Alienation) Act, 1972 came into force from 2.5.1972 and the Andhra Pradesh Agricultural Lands (Prohibition of Alienation) Act, 1972 from 2.6.1972. The question whether the lands under acquisition attracted the provisions of these two Acts was examined in consultation with the District Collector, and there was delay in getting the required information from the Collector. The Draft Erratum was approved by Government on 18.6.1975. As a period of three years from the date of publication of Notification under section 4 (1) of the Act,
Acquisition Act. was due to expire on 28.6.1975 and as there was therefore no time to conduct an enquiry under section 5-A of the Land Acquisition Act and publish a declaration under section 6 of the Act, the notification under section 4 (1) published on 29.6.1972. was cancelled on 27. 11. 1975. Further there were three pucca buildings on the lands and the President of the Society had given revised acquisition proposals on 7. 3. 1977. The Collector therefore submitted revised Land Acquisition proposals. A fresh notification under section 4 (1) of the Act was published in the Supplement to Part-I of the Andhra Pradesh Gazette dated 6. 7. 1978.

Protected Water Supply in Villages of Darsi Tq, Prakasam Dist.

371—

2579 Q.—Sri Pellakuru Ramachandra Reddy: — Will the Minister for Panchayati Raj be pleased to state:

(a) Whether it is a fact that Protected Water Supply schemes have been sanctioned to Kunichedu, Donokonda R.S. and West Verayapalem in Darsi taluk, Prakasam district;

(b) if so, the estimated cost of them;

(c) when these schemes will be implemented; and

(d) if schemes are not sanctioned, in view of utter scarcity of drinking water, since number of years, whether the Government sanctioned them in this year?
A—

(a) For Kurichedu Village, a Protected Water Supply scheme was sanctioned in January 1977 at an estimated cost of Rs. 3.70 lakhs under Six Point Formula Programme and later in October 1977 orders were also issued waiving people's contribution in respect of that scheme. But, it has since been dropped from the Six Point Formula Programme and the allocation made there to has been proposed to be diverted to economic support programme in Prakasam district. It is considered desirable to include this fluoride ridden village in a comprehensive Protected Water Supply Project conceived and designed for a cluster of fluoride affected villages in the district which is expected to materialize soon with Dutch Assistance. Kurichedu, Donokonda R.S. and West Varapalem in Darsi taluk of Prakasam District have been included in the participants of a comprehensive Protected Water Supply planned for 32 village in Darsi taluk.

(b) The approximate estimated cost of the comprehensive Protected Water Supply scheme covering 32 village, is Rs 1.54 crores.

(c) and (d) : The schemes will be taken up shortly after the deal is finally settled and letters are exchanged between Government of India and the Netherlands Government.

A—

(a) Yes. Sir. The Scheme of constructing an anicut across Kondaveestivagu and diverting water to Akkadevata tank was taken

Closings of Jaggery market at Anakapalli

413–

1384 Q.-Sri K. Govinda Rao:—Will the Minister for Major Irrigation and Commercial Taxes be pleased to state:

(a) whether the Anakapalli Merchants Association has decided to close the jaggery market from 25-5-78 in case their demands are not settled with regard to levy of sales-tax;

(b) if so, the details of their demands; and

(c) The steps taken by the Government to consider their demands?

A.—

(a) A circular containing certain resolutions of the Association to effect that the market would be closed from 10-4-78 to 13-4-78 and not from 25-5-78, by declaring a holiday for the market owing to unfavourable conditions of the jaggery market and certain problems relating to Sales Tax was sent to the Commercial Tax Officer, Anakapalli.

It appeared in the newspapers, however, that the market would be closed from 25-5-78. The market was closed between 10-4-78 and 12-4-78 and not from 25-5-78.

(b) According to the circular the Hartal from 10-4-78 to 13-4-78 was proposed against—

(i) the launching of prosecutions against the defaulters for non-payment of tax; and

(ii) the insistence on the production of ‘F’ forms and other evidence to prove the transactions between the dealers of Anakapalli and the dealers in other States are otherwise than by way of sale.

According to the representation dated 23-5-78 of the Anakapalli Merchants Association addressed to the Minister for Commercial Taxes their grievances were against—

(i) the insistence on the production of ‘F’ forms and other evidence to prove the transactions between Andhra Pradesh State dealers and the dealers in other States are otherwise than by way of sale,

(ii) the launching of prosecutions against the defaulters for non-payment of tax; and

(iii) against the levy of interest under the provision of Section 16 (3) of the Andhra Pradesh General Sales Tax Act for delayed payments of tax,
(c) The representation of the Anakapalli Merchants' Association Anakapalli was considered by Government in a meeting held on 1-6-78 with the representatives of the Association and the concerned officers pursuant to the meeting the following action was taken by the Commercial Taxes Department:

Regarding the withdrawal of prosecutions, an offer was made to the concerned dealers through the President of the Association that the prosecutions would not be pressed, if the accused dealers gave an undertaking that they would be prompt in payment of taxes in future and agreed to compound the offences with the relevant statutory provisions. The dealers did not avail themselves of this offer. The prosecutions have since been disposed of and out of the 8 cases filed, 2 have ended in acquittal and in 6 cases a fine of Rs. 100/- was levied in each case.

Regarding filing of 'F' forms all the dealers have filed before the Assistant Commissioner and he has also granted stay of collection of the disputed taxes. The appeals are being heard and the Assistant Commissioner will dispose them off according to law. Incidentally it may be mentioned that the assessments for 1973-74 only were finalized after giving sufficient opportunity to the dealers to file necessary evidence before 31-3-1973 as otherwise these cases would become time-barred.

Regarding interest on belated payments the matter has become final as the High Court has confirmed the levy but as a measure of relief the dealers have been permitted by the Deputy Commissioner, Visakhapatnam, to pay the amount in 4 equal monthly instalments. Some of them have paid the first instalment but others have not.

is not conducting the General Body Meeting. 2. Not placing the details of income and expenditure of the society regarding the boats.
3. That some new members were enrolled and some were removed with out approval of the General Body and finally requested for the removal of the President. The matter was got enquired into by the Assistant Director of Fisheries Nellore.

(d) The enquiry report revealed that the President did not place the receipts and expenditure particulars before the Board and General Body and obtained their approval. This shows that the President has managed the affairs of the society by himself ignoring the existence of the Board as well as General Body during the course of the enquiry it was also revealed:

1. That 73 members were admitted on 10-6-77 by the Board of Directors and 32 members were removed by General Body without giving them an opportunity; and

Functioning of Milk Chilling Centre in Eluru

457—

2137-Q.-Sri Gadde Venkateswara Rao:—Will the Minister for Animal Husbandry be pleased to state:

(a) whether the milk chilling centre constructed by the side of Collector's Office in Eluru, West Godavari District at the cost of Rs. 2½ lakhs out of the District Welfare Fund is functioning; and

(b) if not, the reasons there for?

A.—

(a) The Cold Store (not a Milk Chilling Centre) was constructed at a cost of Rs. 1,54,700/- and it is not functioning now.

(b) Eluru town was supplied milk in cans earlier to 1972 from Chilling Centre, Hanumanjunction. Consumers of Eluru desired that bottled milk from Milk Products Factory, Vijayawada may be sent to Eluru for sale instead of loose milk. At that time the sale of milk was only about a truck load. It was also doubtful whether milk could
withstand transport over such a long distance from Vijayawada to Eluru for sale in the morning and evening. It was, therefore, considered necessary to construct a cold store at Eluru which could receive bottled milk once a day in one truck from Milk Products Factory, Vijayawada for storage and from there milk could be sold both morning and evening in Eluru town. By the time, the Cold Store could be constructed in 1973, bottled milk from Milk Products Factory, Vijayawada was sent only in the morning to start with. As there were no spoilage inspite of long distance transport it was not economical to run the cold storage at Eluru when the distribution could take place without re-chilling in the Cold Store.

Subsequently the sale of milk at Eluru went up to about 5000 litres after both morning and evening sales was introduced. As the entire quantity could not be sent in the morning alone by a single truck so that the milk could be stored in the Cold Store for evening supply, necessarily the milk had to be sent in two trucks both in morning and evening. It was economical to sent one truck load in the morning and one truck load in the evening, rather than sending both the trucks at one time and storing the milk in Cold Store. Thus, once again the need for utilising the Cold Store did not arise as it was considered uneconomical, to run the cold store when distribution of milk could take place to both morning and evening without keeping the milk in the Cold Store. The running expenses of Cold Store are approximately Rs. 100 per day and this has been saved. However, this Cold Store can be utilised after the proposed dairy in Eluru is established.
