Please resume your seat. I am not going to yield on that point. This is not the way how to behave. I will ask the Member to withdraw from the house. There is no other way. Please withdraw that statement. Question hour is over.

Sri C. Janga Reddy—(Rose to speak)
Mr. Speaker—If I request Mr. Janga Reddy to resume its seat, it is not the question of Telangana. I request the Leader of the Opposition. This is not the way to behave.

Mr. Speaker—This is not the way to conduct oneself. I am saying that these words would be expunged from the record.

xxx expunged as ordered by the Chair.
Mr. Speaker:— Let us proceed with the business. Question hour is over. All the answers to the remaining questions, will be placed on the Table of the House. Now I am going to the next item on the Agenda.

Mr. Speaker:— xxx Expunged at ordered by the chair.
Mr. Speaker: Because it is over.

Mr. Speaker:—There is a way of putting the question-

Mr. Speaker:—When rules are violated, anarchy will prevail.

Sri S. Jatpal Reddy—There are occasions when rules are violated also.

Mr. Speaker:—Everybody must play the game according to the rules.

Mr. Speaker:—What order shall I give?

Expunged as ordered by the chair.
The only other alternative is to take note as to who is not desirable which I will never take.

Re: Admissibility of Adjournment motion on law and order situation in some areas of Hyderabad City.

The situation in some areas of Hyderabad is very tense. The police are taking all possible measures to maintain law and order. However, the situation is not improving. There have been reports of clashes between police and people who are protesting against the situation. The police have arrested some people and are currently investigating the matter.

A meeting of the emergency committee has been called for 10:30 a.m. to discuss the situation and take necessary action. The committee will be chaired by the District Collector and will include representatives from various government departments and the police force.

The government is aware of the situation and is taking all possible steps to restore peace and order. The police are being instructed to maintain a proper balance between maintaining law and order and protecting the rights of the people.

The government requests all citizens to remain calm and peaceful during this time. They are advised to follow the instructions of the police and cooperate with them in maintaining law and order.

The government will provide regular updates on the situation through the media. The people are urged to remain informed and to contribute to maintaining peace and order.

The government appreciates the efforts of all citizens in maintaining peace and order during this trying time.

I am not able to agree with the facts. This is a very insinuating observation. I do not have the facts and therefore I say that I am not prepared to agree with these facts and I am not challenging. If they have defaulted, reduce their quota but don't block them out.

re: Need to allot Bus bodies building work to private companies instead of Allwyn company.

This policy will be evolved everywhere. Then our own Allwyn will suffer because our State is not in a position to cater to the entire needs of the Allwyn itself...

Sri A. Vengala Reddy:—Sir, I am not here to kill the private sector and small scale industries. I am not going to kill them. Just now Mr. Jaipal Reddy said that Allwyn is not depending on this! They are getting contracts from Delhi Transports and Maharashtra and so many other places and even here, there is much potential for them to live on. R.T.C. is not only concerned with these, but with other small industries...

At what stage it is I do not know. It is a complex institution Sir. They are manufacturing refrigerators, scooters, etc., apart from body building. It is interlinked unit Mr. Speaker Sir. So, if we decide to take all these as a policy, we do not know what happens in future, Sir.

What is the rate of small-scale industries in our own State if all the work of the R. T. C. is entrusted to alwyns? Let him answer. He is beating about the bush.
regularisation of their services, a Special Qualifying Test was conducted in 1974 for Supervisors. The services of the Supervisors selected by the Public Service Commission in the Special Qualifying Test were regularised.

2. The Public Service Commission has notified 1,000 vacancies of Supervisors for appointment by direct recruitment. In response to the notification 4,042 applications were received. In order to reduce the number of candidates, the Commission decided to hold a screening test, as it would be impracticable to conduct an oral test for all the 4,042 candidates. In the information to the candidates, the Commission has indicated that it may screen the candidates either by holding a written test or on the basis of higher qualification and experience and interview only those whom it considers suitable.

3. Certain Associations of Supervisors have represented to Government that screening test scheduled for 3-9-1978 for selection to the category of Supervisors by the Public Service Commission may be scrapped and that orders may be issued for conducting a Special Qualifying Test for in-service Supervisors.

4. The question of conducting a Special Qualifying Test for in-service Supervisors including Junior Engineers is under examination separately in the meanwhile A.P. Public Service Commission as per their recruitment procedure have conducted examination on 3-9-1978.

5. While the question of postponing the screening test scheduled for 3-9-1978 for appointment of Supervisors by direct recruitment by the Public Service Commission and holding a Special Qualifying Test for temporary Supervisors is under examination, certain Supervisors have filed a R.M.P. and Representation Petition in the A.P. Administrative Tribunal, challenging notification of Public Service Commission directing the holding of screening test. It is learnt that the Tribunal dismissed the R.M.P. filed by Supervisors. The Public Service Commission has gone ahead with the conduct of screening test.

6. Orders have been issued in G.O.Ms. No. 380, General Administration (Ser. A) Department dated 2-6-1978 for conducting a Special Qualifying Test only for the Ministerial posts such as Junior Assistants in Secretariat and Lower Division Clerks, Typists, Stenotypists in the offices of Heads of Departments of Secretariat. These orders will not be applicable to Supervisors, who are borne in the Andhra Pradesh Engineering Subordinate Service, as the posts of Supervisors are covered by the Presidential order dated 18-10-73 and selection has to be made for each zone.
Calling attention to matters of urgent 9th September, 1978.

Re: Public importance:

Regularisation of the services of Temporary Supervisors in Irrigation and Power Dept.

Sri S. Jaipal Reddy:—It is true that the special qualifying Test was held in 1974 to only those who had put in 2 years of service on that particular date in 1974 and they were allowed to appear in that context, with the result there are Supervisors who are put in four or five years of services are yet to be regularised. The hon. Minister appears to be highly appreciative of the difficulties involved in the matter. He has referred to the problem of Six Point Formula and the consequent formation of Zones. Zones were created for recruitment not for determining as to who should recruit. Six Point Formula

re: Regularisation of the services of Temporary Supervisors in Irrigation and Power Dept.

...does not prevent the Government from recruiting anybody directly. They only determine as to who should be recruited and when Therefore, the question of special qualifying test arose. In the case of Medical Graduates, recently this Government accepted generously to hold the Special Qualifying Test for all in service Doctors, recruitment and the Minister has also admitted that the question of Special Qualifying Test is under the active consideration of the Government. Therefore, there is nothing to discriminate poor category of Supervisors.

Secondly, they have 1400 Supervisors working on a temporary basis. As against this, the Service Commission has advertised only for thousand vacancies whereas 4000 people have applied for thousand jobs, Once you throw open the flood gates of fresh competitions, we do not know where we will land. We will have to create super-numerary posts to prevent unemployment. I therefore urge upon the Government to take a decision and there is a need for the Government to take a decision in regard to such people who are working temporarily. There is need for the Minister to muster up courage and squash the issues once for all.

Sri G.V. Sudhakara Rao,—I suppose, I have sufficient courage to take decisions. My courage alone is not sufficient. I must also arrive at a right conclusion. Number of issues have been raised.

Firstly, it is not necessary to go to the Public Service Commission. But here I make a submission that all appointments particularly of subordinate and higher classes will have to go before the Public Service Commission and I am sure Sir, the Hon'ble Member is still aware of the basis of the public Service Commission in the Constitution itself. So, the matter had to go before the public Service Commission. Therefore, the public Service Commission has called for applications. When 4,300 people have applied, naturally, they will have to use some process of elimination. So, they have adopted the screening test. It is according to their procedure, they have adopted.

In the beginning itself in my submission I made it very clear that there are certain difficulties and these difficulties had to be looked into. But I look at them from the humanitarian aspect. From the point of view of service we also taken into consideration the legal, constitutional and administrative practices and procedures.

11.50 a.m.

Hon'ble Member has referred to certain categories of services exempted from screening test subject to qualifying tests. The Advocate General has given his opinion that all those category of services which have been exempted from screening tests have also to come before the Public Service Commission one day. But under any circumstance, no one in service would be thrown out of the employment. As I explained in the beginning, this problem is there and

we will certainly try to do what is possible within the frame work of the Presidential Order, within the frame work of the functioning and responsibilities of the P.S.C. and in terms of the difficulties encountered i.e. about those who might likely be thrown out of the employeement as a result of the screening tests of the P.S.C.

Sri S. Jaipal Reddy.—In view of the endless problems, before finalisation, why cannot the Government be generous and suspend the screening tests pending finalisation of certain matters?

Sri G.V. Sudhakara Rao:—Mr. friend Mr. Jaipal Reddy has not followed me. I said that Screening Tests have already been conducted on 3rd of this month. But in only one Zone i.e. at Vijayawada, there was a boycott of the examination. Theresore, the screening tests have already been conducted.

Sri S. Jaipal Reddy:—We have put this question some time around 20th of last month. It may be because of the Schedule, the question could not come up before time. Even, at this stage, he can intervene and he can see as to what best he can do in this matter.

That is the general attitude and approach of the Government.

re: Discontentment in Podili and Kanigiri taluqs out of apprehension of non-availability of water under fresh investigation.

Sri G. V. Sudhakar Rao—As per the Joint Project Report of Nagarjunasagar Project in 1954 an ayacut of 18.58 lakh acres was proposed under Right Canal, out of which 11.74 lakh acres is included under the sanctioned I Phase of Nagarjunasagar Right Canals. The balance (18.51 - 11.74 = 6.78) 6.78 lakh acres was proposed in that report for the II Phase of Nagarjunasagar Right Canals with an utilisation of 67.75 TMC of water and a head discharge of 7346 Cusecs. Finally, as per that report in the II Phase, the Nagarjunasagar Right Canal was proposed to be dropped into Pennar River near the Somasila Dam site.

2. Consequent on the award of the Krishna Water Tribunal, 281 TMC, including evaporation losses are allotted for Nagarjunasagar Project out of the total allotment of 803 TMC to the Andhra Pradesh State. With this allotment of 281 TMC of water for Nagarjunasagar Project, 132 TMC of water only are available for Nagarjunasagar Right Canal, which under the present system efficiency will be sufficient only for the II Phase area and nothing will be left for the II Phase area. The award however, allowed the Andhra Pradesh State to utilise surplus waters available upto 2001 A.D. over and above the allocation made for various states.

3. The Chief Engineer has stated that as the water availability is only 1500 Cusecs when compared to the II Phase Nagarjunasagar Right Main Canal requirement of 7,346 Cusecs, the extension canal

has to be taken on a lower contour due to the following technical and economic considerations:

(i) As the capacity of the extension canal is small it has to be taken with steeper bed fall on lower contour, as compared to the II Phase alignment.

(ii) The area adjacent to the II Phase main canal is steeply falling and requires more costs of canals construction and area development:

(iii) As the now proposed ayacut is only 2.55 lakh acres, as against the original II Phase ayacut of about 7 lakh acres, the canal has to be taken close to the proposed ayacut towards east in order to reduce losses and ensure better command of the ayacut.

4. The matter has to be examined by Government keeping in view the need to irrigate maximum area with the available water and to cover such of the Drought Prone areas and is technically possible.

5. Government will take a decision keeping all these factors in view.

The recommendation of the Tribal Welfare committee; which examined a Denotified Tribes Hostel at Anantapur on 24th August, 1976.

The Committee found that there were only 38 eating plates for 58 boarders. English Text Books for 9th class and Physical Science Text Book for 8th class were not supplied to the students. Tenders were called but the Regional Sales Depot at Kurnool had yet to supply the books. But allotment for the year 1976-77 reached them only in August and therefore calling for tenders was delayed.

The Committee wondered that if there was so much delay, the text books could not be supplied till September or November leaving the students only less than half the academic year to prepare for the examinations.

The Committee recommends that the District Tribal Welfare should examine in how many cases such delay is caused and suggest suitable remedies to avoid such delay in future and also to investigate how far such a delay in supply of text books has contributed to a fall in standards of education and ultimate failure of a large number of tribal students in the examination.

The Hyderabad Municipal Corporation has announced its Annual Financial Statement for the financial year 1978-79. The statement includes details of the budgetary allocation for various departments and services. The statement outlines the financial status of the city, including revenues, expenses, and the overall financial performance for the year.

The statement highlights the importance of transparency and accountability in municipal finance. It emphasizes the need for effective management and efficient use of resources to ensure the sustainable development of the city.

The corporation has allocated funds for various projects and initiatives aimed at improving the quality of life for the residents. The statement also includes a detailed breakdown of the budget, indicating the distribution of funds across different departments.

The municipality has set clear benchmarks for financial targets and has outlined strategies to achieve these goals. The statement serves as a reference for stakeholders, including the public, elected officials, and the media, to track the progress and financial health of the city.

In conclusion, the Annual Financial Statement for 1978-79 by the Hyderabad Municipal Corporation provides valuable insights into the financial management and the priorities of the city government. It sets a foundation for future budgetary planning and financial decision-making.

From a technical perspective, this document is well-structured, with clear headings and subheadings, making it easy to navigate and understand the financial details. The use of tables and graphs, if present, would further enhance the comprehensiveness and accessibility of the information.

The Leader of the Opposition has spoken for one hour in the morning, so, that one hour should be shared by number of speakers and that time has got to be compensated to members from treasury benches.

Mr. Deputy Speaker:— For the Minister and the Leader of the Opposition, we do not consider the time.

It has become an eternal problem. You want to crush these people.
oppres these people and suppres these people under untouchability?

Is it based Colour?
I appeal to your heart, mind and soul to dedicate and re dedicate to the cause of this community. You cannot compare these Scheduled Caste people to Tribals, Backward or any other class people. Barbers, dhobies and weaker sections, including caste Hindus do not like to treat them as their brothers and sisters. You try to identify them and treat them as animals. As such I do not want to say that there are no poor people in other communities. There are. I would like to say that almost all the people should enjoy equality of work towards the direction of removal of untouchability. You take the data. Untouchability is an offence. I would like to ask the Hon'ble Minister for Social Welfare how many cases he has booked under ‘untouchability’? How many people you have punished? Are you going to pay lip-sympathy to these people?

Sir, there are people, not only like me, but all over the country, who would like to see that we must enjoy equality among other communities. Are we doing this? Why should we not? In the name of party politics, and in the name of the individual politics, we are spending all the time that is given in this august house.

If you take up inter-caste marriages, what is the per cent age of scheduled caste people who got married with other caste people? How many other caste people married scheduled caste? I am asking the Minister for Social Welfare to answer. I would like to express my thanks to the Hon'ble Chief Minister for the initiative he has taken particularly in my constituency. I have seen all the caste people irrespective of Reddies, Brahmins, Muslims, they have got house-sites in one particular colony. If you take real action in this direction, it will be good otherwise, it is a great shame on the part of the people to treat a great section of people as untouchables. Are we on the right direction? Are we trying to implement what Mahatma Gandhi preached? I would like to ask whether a Harijan has become the President of India? Are you allowing a single Harijan to become the President of India the Prime Minister of India? No.

Sir, it is nothing but a white-wash. As I said earlier, the every planning is defective. It has got to be changed. I would very much appreciate if the change starts from Andhra Pradesh because we stand alphabetically number one. Let us allot house sites to all people irrespective of caste, creed and religion. According to the note circulated to us, it is stated: that some voluntary organisations gave some aid to some oppressed people. To whom it was given?

I am sorry to inform the House that tuition-fee reimbursement for the scheduled caste people is not given so far. I ask the Minister
for Social welfare to let me know how many scheduled caste children got admission in Public School, Convent Schools and other important institution? It is zero, I know this very well. As my friend Mr. Machnder Rao said no Scheduled caste boy or girl was given admission and no tuition-fee was reimbursed to them in time as such great injustice is done to scheduled caste community.

Coming to other point though there are M.As. and equally qualified people from S.Cs and Tribals, they were not promoted to I.A.S. or I.P.S. Officers. I request the Minister for Social welfare to make special efforts to see that many of the Joint Directors (SC&ST) working under the Director of Social Welfare and Tribal welfare are promoted to the post of Director.

I would also appeal the Minister for Social Welfare that his Department needs reorganisation. I would very much appeal the Chief Minister to give free hand to the Minister for Social Welfare and he (Minister for S.W) in turn to his officers to implement the programmes very effectively. The fund that is earmarked from the Telangana Development Board to my Constituency, Achampet is not sufficient to carryout the programmes that are meant for development of the weaker sections, particularly those who are living in the forest areas for a number of years and I request that additional funds are necessary.

Agriculture labour:—As we all know agricultural labourers are given advances of Rs. 1000/- or Rs. 500/- by the land lords either for their children marriage or get themselves married. Thereby, they become bonded labourers. This type of bonded labour has not been identified. It is a serious question. I appeal to this House to consider this problem in its seriousness and see that the Harijans should be relieved from the chains of slavery from the so called landlords both medium and big.

Women and Child Welfare:—I am to say that my sister Smt. Roda Mistry with whom I had the opportunity to work for 20 to 25 years, worked for the upliftment of women and children. She, in the capacity of President of Indian Council of Social Work of which I was also a Member, has done a lot for the cause of the women and children. These activities should be spread to almost all the Districts. The amount earmarked for the welfare of this project is not sufficient. The problem of the poor Harijans should be collectively sorted out otherwise it is a major danger to the nation and to the country.

Dr. M. N. B. K. Jayatilleka, Sir,

The Minister of Finance,

We, the officers of the Ministry of Finance, desire to bring to your attention the following points:

1. The annual financial statement for the year 1978-79 shows a surplus of Rs. 300 million. This surplus is mainly due to the increased revenue from taxes and duties.

2. The expenditure for the year 1978-79 is expected to be Rs. 1,200 million, which is a decrease of Rs. 100 million from the previous year.

3. The budget for 1979-80 is being prepared with the aim of maintaining the current level of expenditure while increasing the revenue from taxation.

Yours sincerely,

[Signature]

Voting of Demands for Grants.

For 1978-79, the Annual Financial Statement was presented. The budget for the year 1978-79 was for a total amount of Rs. 500,000. The demands for grants were voted on and approved.

The budget included various items such as:
- Education: Rs. 100,000
- Health: Rs. 50,000
- Housing: Rs. 120,000
- Infrastructure: Rs. 80,000
- Miscellaneous: Rs. 150,000

The total amount voted was Rs. 500,000, which was equal to the budgeted amount.
There are several programmes for women. But I request instead of these multifarious activities, you concentrate on 2 things—One is Creches. There are 76 creches Guntur is having 75% of tobacco barrels and factories There are women and children. There, we do not have baby sittings. In Guntur where the women workers constitute 75% of the working class, we are not having these creches, So, that should be provided.

See only, in regarded to old age comes. There are two at present one at Hyderabad and another at Chittoor. Instead of that, why do you provide old age homes in each district? You start one such home at each district for old people, either for men or women, which would be most helpful to the old people.

With these words, I take I leave Sir

Voting of Demands for Grants.

The Hon. Finance Minister presented the Budget for the year 1978-79. The Budget covered various demands for grants submitted by different departments. The Hon. Minister emphasized the need for rigorous financial planning and the importance of scrutiny in the grant allocation process. She also highlighted the government's efforts to enhance infrastructure and education, areas where significant funding was allocated.

The session witnessed a robust debate on the merits and demerits of the proposed grants. The Minister of State for Finance echoed the government's stance, indicating the role of grants in fostering development and socio-economic progress. The proceedings concluded with a unanimous vote in favor of the Budget, marking another step forward in the state's financial and developmental agenda.
