Don’t you think atleast some experience is required to conduct the criminal cases in a court like Kurnool where there are lot of murder cases?

They are adopting one standard for one district and another standard for another district.

What is your opinion on the backward districts having more than one standard for different cases?

I think the same standard should be adopted for all the districts. It is not fair to have different standards for different districts.

The government should take steps to ensure that all the districts have the same standard for conducting criminal cases.

That is a good point. The government should take action to standardize the legal process across all districts.

Thank you for your response. I appreciate your input on this important issue.

Oral Answers to Questions.

(1) On the 21st March, 1979, the Secretary of State for Social Services, in reply to a question from the hon. Member for Brentford and Isleworth (Mr. Wainwright), said:

I have to bind myself to the statement in my previous answer that the indication given in the White Paper of the Department of Health and Social Security (Cmnd. 10280) that the amount of the national insurance contribution for 1979–80 would be the same as in 1978–79 has not been revised. The present estimates have been made on the basis of the provisions in the 1978 Finance Act and of the rate of pay which is proposed to be announced in the next Budget. The Budget itself will, of course, determine the exact amount of the national insurance contribution for the year 1979–80, and an announcement will be made in due course.

(2) I have to declare an interest in that I am a director of a public company which has an insurance policy with a company which is not subject to the provisions of the National Insurance Act.

Sir, in reply to the question of the hon. Member for Brentford and Isleworth (Mr. Wainwright), in the matter of the effect of the Budget on the amount of the national insurance contribution for 1979–80, I have to say that the amount of the national insurance contribution for 1979–80 will be announced in the Budget and will be subject to the provisions of the National Insurance Act. The Budget itself will determine the exact amount of the national insurance contribution for the year 1979–80, and an announcement will be made in due course.

I am bound to point out that the indication given in the White Paper of the Department of Health and Social Security (Cmnd. 10280) that the amount of the national insurance contribution for 1979–80 would be the same as in 1978–79 has not been revised. The present estimates have been made on the basis of the provisions in the 1978 Finance Act and of the rate of pay which is proposed to be announced in the next Budget. The Budget itself will, of course, determine the exact amount of the national insurance contribution for the year 1979–80, and an announcement will be made in due course.
Mr. Speaker — No please, both, Sri G. Sundara Ramaiah and Sri M. Venkaiah Naidu are not permitted to speak.

Sri M. Venkaiah Naidu :—Sir, on a point of order.

Mr. Speaker :— No point of order during Question Hour please and I have told the same repeatedly.

Reduction of Cement Quotas to Krishna, Guntur and Visakhapatnam Districts.

348-A.—

SNQ No. 3944-F: — Sarvasri E. Subba Rao, V. Sobhanadreeswara Rao, and P. Ashok Gajapathy Raju :— Will the Minister for Commerce, Export Promotion, Sugar Industries and Small Scale Industries be pleased to state:

(a) whether it is a fact that the State Trading Corporation has drastically reduced the cement quotas allotted to the districts of Krishna, Guntur and Visakhapatnam;

(b) if so, the basis on which the reduction of quota has been made; and

(c) whether any reduction has been effected in the case of allotment to Hyderabad City and other places?
21st March, 1979. Short Notice Questions and Answers

The procedure evolved by S.T.C. is so cumbersome and distribution of cement is delayed and rendering more difficulty.

re : Lock-out of Hindustan Cables Ltd.,
Moula Ali.

Sri G. Venketaswamy: Recently, elections of the Hindustan Cables Ltd. Union were conducted by the Labour Department by secret ballot method. There are two groups in the Union. The group which has been declared as a majority union by the Commissioner of Labour has secured a narrow majority of 33 votes. After the results were declared, the rivalry between two groups came to the floor and from 14th March, 1979 clashes witnessed between the workers of two rival groups. The Management apprehending serious trouble involving law and order situation declared lock-out from 11-00 a.m. on 16th March, 1979.

I convened a meeting yesterday inviting the representatives of both the groups and office bearers of Hindustan Cables Union. Both the groups assured that they would maintain industrial peace and not resort to any violence. The Management agreed to lift the lock-out from First Shift of 22nd March, 1979. It was agreed that, 21st of March, 1979 i.e. today will be observed as a weekly holiday instead of 22nd March, 1979. It was also agreed that the period of lock-out would be adjusted towards the leave of the employees if eligible. If the employee is not eligible, the period would be adjusted, as on leave, with the leave earned in future.
re: The Scheme by the A.P.S.R.T.C. to provide employment to SCs, STs, and Economically Backward Classes.

(1) In the final analysis, the scheme to provide employment to SCs, STs, and Economically Backward Classes was announced in March 1979.

(2) The scheme was aimed at improving the employment prospects of these marginalized groups. The scheme covered various categories including transport, tourism, and hospitality sectors.

(3) Under the scheme, 2,400 seats were allocated for the reservation of SCs, STs, and Economically Backward Classes. This was aimed at providing equal opportunities for these groups to participate in the workforce.

(4) The scheme was seen as a step towards social justice and equality. It was hoped that this would help in reducing the economic disparities among different groups in the society.

(5) The scheme was widely welcomed by the public and the government. It was seen as a landmark measure in the efforts towards social development.

BUSINESS OF THE HOUSE

Mr. Speaker:—The copies of the Charge sheets filed against Sri Masala E anna, M.L.A. and Sri B V S Narayana, Bus Conductor are to be laid on the Table of the House now, as ordered earlier.

Mr. Speaker: I will look into it. Now, before going to Calling Attentions, Hon'ble Finance Minister will move a Motion.

MOTION

re: Expressing profound concern at the deteriorating health of Lok Nayak Javaprakash Narayan.

Sr G. Rajaram:—Sir I beg to move:

"That this House expresses its profound concern at the deteriorating health of Lok Nayak Jaya Prakash Narayan and pray to God for speedy recovery of his health."

Mr Speaker:—Motion moved.
Motion: re: Expressing profound concern at the deteriorating health of Lok Nayak Jayaprakash Narayan.

Mr. Chairperson:

In view of the deteriorating health of Lok Nayak Jayaprakash Narayan, the Government of India has through the Ministry of Information and Broadcasting issued a Press Release on 19th February 1979. It was stated that the condition of the former Prime Minister had further deteriorated and that he was on the verge of death. Despite this, the Government has taken no steps to facilitate his treatment and has instead continued to deny him access to medical professionals.

It is hereby moved that the House expresses profound concern at the deteriorating health of Lok Nayak Jayaprakash Narayan and requests the Government to take immediate steps to ensure his medical treatment and to allow him to receive visitations from his family and friends.

Moved by Mr. A.
Seconded by Mr. B.
Motion: 21st March, 1979. 309

re: Expressing profound concern at the deteriorating health of Lok Nayak Jayaprakash Narayan.

Sri S. Jaipal Reddy: — Sri Jayaprakash Narayan over the last half a century burnt a candle of his life for the service of the Nation. Sri Lok Naik Jaya Prakash Narayan has not merely been a politician but a great revolutionary and a moral leader. In 1930s he was a revolutionary Marxist, in 50s he became a leading Gandhian, in 70s he became a total revolutionary. Although his philosophy and personality underwent many incarnations and transformations he was always true to his conscience. With these few words I support the motion and pray that this soul on the planet may be saved.

Sri E. Ayyapu Reddy: — Jayaprakash Narayan is not only Jayaprakash but he is Satyaprakash. We hope and pray that he will certainly come out of the battle and will live longer to give us light.

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

re: (1) The plight of the Sugarcane Growers in obtaining Licences to convert the Sugarcane into Jaggery, due to Procedural delay.

Sri N. Bhasker Rao—(Deputising the Minister for Small Scale Industries & Sugar)—As per the existing orders, no licences for jaggery manufacture by power crushers within the zone of a sugar factory are permitted. During the previous years, it was brought to the notice of Government that cane growers in the factory zone used power crushers without obtaining licence and converted cane into gur, thereby affecting the supply of cane to the sugar factories. With a view to arrest this illegal operation of power crushers and to ensure supply of cane to the sugar factories, the Electricity Board has been advised to disconnect power supply to illegal jaggery manufacturers. The Electricity Board has advised its officers to extend power supply only to such of the power crushers as are in possession of a valid licence.
Calling Attention to Matters of Urgent Public Importance:

re: Plight of Sugarcane Growers in obtaining Licences to convert Sugarcane into Jaggery.

During the crushing season 78-79, the Government have issued orders for grant of licences liberally to jaggery manufacturers in laxation of all rules and have also waived licence-fee of Rs 30 for grant of licence.

In the absence of Sugarcane Inspectors in some Districts i.e. Guntur, Nellore, Kurnool, Cuddapah, Anantapur, Nalgonda, Khammam, Hyderabad, Adilabad, Mahaboobnagar and Medak, the Deputy Directors of Agriculture have been authorised to issue licences. The Director of Sugar has reported that there have been no complaints from the cane growers about delays in issuing gur licences.

re: Plight of Sugarcane Growers in obtaining Licences to convert Sugarcane into Jaggery.

21st March, 1979

Sir,

We draw your attention to the plight of sugarcane growers in obtaining licences to convert sugarcane into jaggery.

In the years 1978-79 and 1979-80, the number of licences issued was 10,000 and 15,000 respectively. However, only 2,000 and 3,000 licences were actually issued, respectively. The sugarcane growers have been waiting for over a year for the licences to be issued.

Yours faithfully,

POINT OF INFORMATION

re: Charge-sheets in connection with Sri M. Eranna, MLA's Bus Journey incident.

Sri E. Ayyapu Reddy:—Sir, Point of Order. In the two charge-sheets placed on the Table of the House by the Minister for Transport, Mr. M. Eranna, MLA, is described as 'public servant' under section 21 of IPC because he draws salary from the Government. That means, an MLA has been described as a public servant. An MLA is not a public servant under section 21 of the IPC. I have gone through it. If that is the definition of a public servant, Mr. Speaker, Mr. Deputy Speaker, Leader of the Opposition and every Member of the Opposition also becomes public servants. This requires reconsideration. I think, nobody has scrutinised the charge-sheet filed. Apart from that, these two charges are only conflicting with each other. Even the version given in the first charge-sheet is different with that of the second.

Mr. Deputy Speaker:—Only to satisfy the Members on that day, in view of the assurance given by the Minister, we requested him to place these charge-sheets on the Table of the House. It is not proper to go into the merits of the charge-sheets filed in the Court.

Sri E. Ayyapu Reddy:—I respect it and completely agree with you but there is a statement of law which affects every Member of Legislature. Therefore we allow this statement to be laid on the Table of the House without our trying to correct it, or the Government. Otherwise everybody will think — because he is an MLA he is a public servant. In the charge-sheet itself it is described like that. Unless we bring it to your notice and ask the Government to correct it, it will certainly reflect on us. That is my Point of Order.

Mr. Deputy Speaker:—We will look into this.

Sri E. Ayyapu Reddy:—There is another Point of Order. The parties have gone to law. If the Police come forward with two contradictory versions, we have to see which version is correct or on which version they are pressing the case. They cannot give to conflicting charge-sheets and ask us to decide the matter.

Sri G. Sundara Ramaiah:—PW 2 Mr. T. V. S. Narayara is taken as Public Servant, as defined in Cr.P.C. But PW 1 is not the accused; he is the resident of Allur and Member of the......

Mr. Deputy Speaker:—Let us close it now. Let us not go into those things now.

Sri S. Jaipal Reddy:—In this case, a Deputy Inspector-General of Police was asked to investigate into it. If the DIG had investigated he would be able to arrive at a coherent version of the entire incident or event. How the versions presented by the Police Department mutually are conflicting and self-contradictory? The DIG was asked to investigate into the incident, because the Government wanted to have a coherent version of the entire event. After the DIG had investigated into the incident, these charge-sheets have been filed. The charge-sheets obviously as based upon the complaints lodged by both the parties. There is no bearing whatsoever on the results of the investigation. What were the findings of the DIG actually which should have been the basis for the charge-sheets?

Mr. Deputy Speaker:—I request you not to make a statement. Let it come in the form of a proper Motion. You are at liberty to bring it.

The success of load development programme depends on adequacy of transmission distribution network. This is what is enunciated in 1974-75 Administrative Report. Whether the reverse is true? Whether the failure in load development is not due to inadequate transmission and distribution work? That has investigated and I think the whole problem lies there.

1976-77 & 1977-78, the demands for grants were inadequate. The allocations were less than the requirements. Adequate provision could not be made for these programmes in the past due to pre-occupation with generation programmes. 

Realisation with the load development and the service conditions will be better with transmission and distribution.

Adequate provision cannot be made. How is it? Is it an erection of four months job? It has to be planned and managed. How is it that such a pre-occupation has come? I feel that this is motivated by something else other than load development and service to the consumer. It is to have ground breaking ceremonies and dedication functions to be celebrated and to stamp installed capacity and propagate that we have developed installed capacity to such height. When our installed capacity can't be utilised for generation and when the generation capacity is low what is the use of going on having trumpeting about installed capacity? Let us face the facts. What is the generation capacity? What is your pumping out capacity from the generating station and what is the network for distribution and serving to the consumer? Is it not the ultimate aim to serve the consumer and to say that adequate load development is not there? Where is the justification? I can tell you voltage conditions and the continuity of power. As a V.I.P. I think you will be having better voltage conditions or better continuity of power. As an ordinary consumer who is treated as a S.I.P. by the power department, we feel and every ordinary man feels that these service conditions are not satisfactory and you can't say. You give better conditions of service and you say if the load development is not there you can blame the citizens of Andhra Pradesh as was the case the previous year. If the situation is so bad, why can't you improve the present conditions? If you can do it, you can improve it.
Installed capacity is running away from the responsibility of meeting the demand and that is how anyone is looking at it and hereafter I feel it will not be there... 

Installed capacity is growing and demand is not growing.

The Government of India has already accepted these recommendations and they should be implemented by the State as well as by the Central Government. The Commission has stated the department and organisational which are in direct charge of development programmes should introduce performance budgeting. This should be done both at the Centre and in the States. The Government of India have recommended introduction of performance budgeting in the Government departments and agencies engaged in developmental activities. I, too, feel that unless the physical targets are denoted and physical targets are made the results will not be forthcoming. I request at least from hereafter the performance budget may also be placed on the Table of the House. I support the Demand.

The Board feels that in justice has done to the Board but when the consumers are suffering and they have been robbed, they cannot go to the Board or to the Government. Minister feels helpless. Government feels helpless and the Board feels helpless. When the Board is empowered to draft its own rules and amend the G.O.s issued by itself. Why they are shrinking the responsibility? Why the consumer only should be suffered? When a low category officer when he passes an order, it is not appealable. The Courts are having no power of review. Even the High Court says it is helpless when the rules are like that. The Minister is saying that they have no power. Then who has got the power? This is very important aspect. I want to impress upon the Government as well as the Chairman who is bodily present. He should raise to the occasion and rectify the defects. Otherwise, the consumers cannot tolerate and it will be blot and a serious setback to the administration of the APSEB.

This is the Order issued by the Government.

"The Andhra Pradesh State Electricity Board has notified terms and conditions of the supply of electricity energy in exercise of power conferred under Section 49 of the Electricity Act." These are the statutory powers. In the instant case, the appealant authority has already passed the orders. This cannot, therefore, be reopened by the Board on a representation by the petitioner. In the circumstances it is not desirable for the State Government to interfere in the matter where the APS.E.B. particularly wanted to take action on a consumer for pilferage of energy which is against the terms and conditions of Supply of Energy to the consumers.

We are not fulfilling even 25% of the demand from agricultural consumers. The electrification of a village-electrification has not even begun! We are not even fulfilling 25% of the demand for agricultural consumers. This is a serious situation. We need to take immediate steps to address this issue. Providing electricity to all villages is a priority.

In the 1932-38 period, the percentage of electrification was only 27%. In the 1974-79 period, it increased to 688%. You are aware of the fact that there are some areas where the percentage of electrification is very low. Some of the M.L.A.s have made a reference to Duryodhana who refused to give even 5 villages to the Pandavas. But the Minister is better than Duryodhana in some respects. I request him to be kind enough to give more electricity to villages in backward areas.

The current situation is such that it is necessary to make an all-over review of the financial position. It is clear that the current fiscal year is running at a deficit, and the deficit is expected to increase further. It is also clear that the financial position is not only a matter of concern for the current fiscal year, but it is also a matter of concern for the future.

The government has decided to take steps to improve the financial position. The steps include the introduction of new taxes, the reduction of subsidies, and the improvement of the overall economic situation.

In conclusion, the financial position is a matter of concern, and the government is taking steps to improve it.

That is the All India average today.
