MATTER UNDER RULE 329

re: Mass Casual Leave by the Employees of Revenues Department in Anantapur during the Jamabandi 1979.

Sri D. Muniswamy:—Sir, with your kind permission I will 10-10 p.m. quote the words of the District Collector. 'If you don't rectify it within 24 hours my boot will take action against you.' This is very unfortunate. These are the words coming from the mouth of a District Collector, an I.A.S. officer and if his behaviour is like this what can we expect from the Collector and the Sub Collector, Penukonda. At Kadiri he insulted one member of the Revenue staff in filthy language. These two incidents made the entire revenue people of Ananta-
pur district to take out procession. About 600 employees have decided
to go on strike on 5th July particularly in Rayalaseema district. I came
to know that recently the Government rented Mr Commissioner of
Land Revenue to enquire into this incident. I request the Minister
to enquire this properly and do justice and take action against the
District Collector and Sub Collector. If the Government
could transfer immediately these two district officials from that district,
I think the relations will be smooth hereafter. This is a problem
concerning not only the staff but the public also. Hence I request the
Minister to take immediate action on this.

Calling Attention to Matters of Urgent Public Importance

re: (2. Imposition of Heavy Penalties on Nagarjunasagar Left Canal Command Area.

Attention is invited to the following points:

1. The River Narmada has been flowing above the danger level continuously since 8th July, 1979, and the water level in the river is expected to rise further in view of the monsoon. The river is likely to breach the banks at several places and cause flooding in the downstream areas. The State Government has already taken necessary steps to evacuate the affected people and to take measures to prevent damage to property.

2. The Nagarjunasagar Left Canal Command Area has been declared a flood-prone area. The Government has taken measures to prevent damage to property and to protect the lives of the people in the area. The following action has been taken:

- Construction of flood barriers and embankments to contain the floodwaters.
- Distribution of emergency relief materials to the affected population.
- Deployment of rescue teams and medical aid to the affected areas.

3. The imposition of heavy penalties on those responsible for the breach of flood control measures will be proceeded with as per the provisions of the Flood Control Act, 1979.

4. The State Government has requested the Central Government to expedite the release of funds for the flood relief operations.

5. The State Government has appealed to all sections of society to contribute towards the flood relief fund.

6. The State Government has requested the Armed Forces to provide assistance in the flood relief operations.

The above measures will be reviewed from time to time in the light of the prevailing situation.

Yours sincerely,

Sri C. Sri G. Mr, Speaker:—Papers laid.
Short Discussion on the Change of Office Hours

This idea took a freakish birth in the fertile brains of the Government. They can be a paradical essay in revolution. I am therefore compelled to compare the leader of the Government to Don Quixote. In that case I will be compelled to find a companion to him in Sanco Panja and I can find one in Revenue Minister.
I am afraid the Chief Minister does not appear to appreciate the distinction between a factory and an office. In the Western countries there are different systems of Government. There, the Government only governs. The entire developmental economic activity is conducted and spear-headed by the people and by the entrepreneurs. Here, the developmental activities are spear-headed by Government. So, office has something to do with the people.

In Western countries there are more factories than offices. In our country we have more offices than factories.

This is a standing reputation of the theory that morning timings would bring about increase or improvement in the efficiency of the functioning of the Government.

What our offices are lacking, is honesty and not efficiency. Mr. Speaker Sir, you will appreciate the point that honesty cannot be brought about by change in office timings. You have asked the choice of employees only among the three new proposals of the Government. There was no option for the employees to exercise in favour of the old timings. How can this be an opinion poll?
304 26th June, 1979.  

Short Discussion on the Change of Office Hours.

Is the Government prepared to conduct a fresh opinion poll on only one proposal from 7-30 am to 2-15 p.m.?

The Government has announced a three-day week or a five-day week. People are compelled to spend two days in the State capital, two days in the District Headquarters and two days in Taluk headquarters, for the work that can be done in a day.

I appeal to the Government not to stand for consideration of their prestige, which has now come into effect has proved to be a miserable flaw.

10:50 a.m.

The Government has sprung into action with all the might of its command, saying “employees are going to the offices with broad smiling faces.”
We will not laugh on this Government. We give the solemn assurance to the Government, through you Sir, that we shall fight to the finish, and
shall not yield an inch towards the Government, through you Sir, to the Government, through you Sir, in the face of you Sir.
There are factories in Hyderabad and all over the country which work for 24 hours with three shifts.

The Indian Co-ordinating Committee of Working Women have also meet here and they have also given their views about this change of timings. The new office hours are from 8 a.m. to 9 a.m. and 9 a.m. to 5 p.m. The main object in advancing office working hours is to see that officials work during the best part of the day when they are fresh, while at the same time they are able to spend more time with their families by going home early. Short Discussion on the Change of Office Hours.

The change in office hours raises several questions. It is important to consider the implications of this change. The decision to change the office hours was made after careful deliberation. Staff members were consulted and their views were taken into account. The new office hours are designed to improve efficiency and provide better service to the public.

The new office hours are as follows: Monday to Friday, 9:00 AM to 5:00 PM. The change will take effect immediately. Staff members have been informed and areexpected to adjust their schedules accordingly.

The change has been implemented after a comprehensive review of the current office hours. It was found that the current hours were not optimal for staff productivity and customer satisfaction.

The change is expected to result in increased productivity and customer satisfaction. Staff members will have more time to focus on their work, while customers will benefit from longer office hours.

The change has been met with mixed reactions from staff members. Some are enthusiastic about the new hours, while others are concerned about the impact on their personal lives.

In conclusion, the change in office hours is a positive step towards improving productivity and customer service. Staff members are encouraged to adapt to the new hours and make the most of the increased working time.

Thank you for your attention.

Short Discussion on the Change of Office Hours

The meeting was convened at 9.30 a.m. in the usual room of the office. The chairman, Mr. J. A. R. V. K., presided over the meeting. The members present were Mr. S. H. W. M. H. D. R., Mr. G. S. C. G. C. D., Mr. S. C. K. W. D. S., Mr. S. W. A. D. K. S., Mr. S. R. A. D. K. S., Mr. S. G. C. K. D., Mr. S. A. C. C. D., Mr. S. C. K. D., Mr. S. C. K. D., Mr. S. C. K. D., Mr. S. C. K. D., Mr. S. C. K. D., Mr. S. C. K. D., and Mr. S. C. K. D.

The chairman opened the meeting by welcoming the members and informing them that the purpose of the meeting was to discuss the change of office hours. He stated that the current office hours were from 8.00 a.m. to 5.00 p.m., except on Fridays when the office was closed at 1.00 p.m. The members expressed their opinions on the proposed change in office hours.

Mr. S. H. W. M. H. D. R. suggested that the office hours should be changed to 9.00 a.m. to 5.00 p.m. every day, including Fridays. Mr. G. S. C. G. C. D. agreed with Mr. S. H. W. M. H. D. R. and added that this would allow for more flexibility in the work schedule.

Mr. S. C. K. W. D. S. proposed that the office hours should be extended to 9.00 a.m. to 6.00 p.m. to accommodate the needs of the staff. Mr. S. W. A. D. K. S. supported this idea and suggested that additional staff might be required to handle the increased workload.

Mr. S. R. A. D. K. S. pointed out that extending the office hours would require additional resources and could lead to increased expenses. He suggested that the change should be gradual, starting with a trial period of 9.00 a.m. to 5.30 p.m.

After a discussion, it was decided that the office hours would be changed to 9.00 a.m. to 5.00 p.m. from the next Monday. The members agreed that this would be a reasonable compromise between the proposed changes.

The meeting adjourned at 10.30 a.m.

Office Hours.

The usual office hours are from 8.30 a.m. to 3.00 p.m. But with the change in the time of the closing of the office, the hours from 8.30 a.m. to 12.00 noon will continue to be the same. The new closing hour will be 1.30 p.m. instead of 3.00 p.m. This will enable the staff to have a one and a half hour break in the afternoon.

The new starting hour will be 9.00 a.m. instead of 9.30 a.m. This will allow the staff to arrive earlier and start work on time.

The new working hours will be from 9.00 a.m. to 1.30 p.m. and from 2.30 p.m. to 6.00 p.m.

During the break period, the staff will be free to take a short break and refresh themselves.

This change in the office hours is aimed at improving the working conditions and ensuring a better work-life balance for the staff.

The new office hours will be in effect from July 1, 2019.

Short Discussion on the Change of Office Hours

In recent years, we have been faced with a situation where the office hours have been insufficient, leading to increased pressure on staff members. The most recent change in office hours, effective from tomorrow, is causing concern among employees. The new hours are 9:30 AM to 5:30 PM, which is a decrease from the previous 9:00 AM to 6:00 PM. Staff members have expressed their concerns about the impact this will have on their work-life balance, especially those with family commitments.

The change was proposed by management to improve efficiency and reduce costs, but the employees feel it is an unfair burden on them. They believe the new hours will lead to increased stress and reduced productivity.

The management's perspective is that the new hours will allow for better allocation of resources and a more productive work environment. They argue that the shorter hours will reduce overtime and improve job satisfaction among employees.

Despite these differing views, it is clear that the change is causing significant agitation among the employees. They are calling for a meeting to discuss the implications of the new hours and to seek alternatives that can address their concerns.

The situation highlights the importance of consultation and communication in decision-making processes. It is crucial for management to consider the perspectives of its employees and to find solutions that balance the needs of the organization with the well-being of its workforce.

Mr. V. Reddy: Sir, I have come to discuss the change in office hours. As you know, the previous hours were from 9 a.m. to 5 p.m. However, now we are scheduled to work from 8 a.m. to 4 p.m. This change presents certain challenges.

Firstly, it affects the staff's work-life balance. With shorter working hours, we are required to complete the same amount of work within a reduced time frame. This can lead to increased stress and burnout.

Secondly, it impacts the productivity of certain departments, particularly those that require significant interaction with external clients. A longer morning shift can help in establishing a smoother transition into the day.

Lastly, it affects the public's perception of our office. People are accustomed to seeing us at our usual hours, and this change might cause confusion.

In conclusion, I suggest that we review this decision and consider alternative solutions to ensure a balanced and productive working environment.

Short Discussion on the Change of Office Hours.

26th June, 1979.

The discussion on the change of office hours was held today. The change in the office hours was proposed to be from 8:30 to 1:00, followed by a break until 2:00, and then 2:00 to 5:00. The discussion was held for approximately 30 minutes. The members present agreed that the change would be beneficial in terms of better productivity and reduced stress. The new hours would provide more time for lunch breaks and afternoons for relaxation.

The discussion was led by Mr. Smith, who presented the rationale behind the change. He highlighted the need for a balance between work and personal life. The new hours would allow for better work-life balance, leading to increased job satisfaction and reduced absenteeism.

Mr. Johnson, a long-time employee, expressed some concerns about the change. He pointed out that the new hours would mean longer days and less time for family activities. Mr. Smith addressed this by proposing additional flexibility in the workload to accommodate the new schedule.

The meeting ended with a vote to approve the new office hours. The changes will take effect immediately, and adjustments will be made as necessary.
