9-20 a.m.

Sri S. Jaipal Reddy:—Sir, she did not follow my question. I think the Minister will follow English better. The point is I doubt
whether it is constitutionally and legally valid for any Government to impose certain conditions on the theatres. Secondly, is it desirable to develop only a particular language? Will it not amount to linguistic fanaticism? Is it not necessary to refrain from entering into that process?

Smt. B. SarojiniPulla Reddy:—To protect the interests of all the languages restrictions are essential. Whether it is according to rules, that particular point I will certainly get it confirmed and give an answer.
3rd March, 1980.

Oral Answers to Questions.

Sri Ch. Parasurama Naidu.—In my own view there is absolutely no doubt as to the constitutional invalidity of the order brought out. Will the Hon. Minister secure the opinion of the Advocate General as to whether the order is legal one? Otherwise, there is no point in all the above discussion.

Smt B. Sarojini Pulla Reddy:—We certainly would do so.

regarding damage of spring channels due to cyclone.

Mr. Deputy Speaker:—The Minister for Revenue is not very much here. Can we postpone the question?

Mr. Deputy Speaker:—He took the permission of the Speaker.

Mr. Deputy Speaker:—We can ask the Revenue Minister when he is present.

Mr. Deputy Speaker:—Other Minister can reply. Will it satisfy you?
Sri S. Jaipal Reddy:—The question has been addressed to the Minister for Panchayat Raj and it concerns works in Panchayat Samithis.

Mr. Deputy Speaker:—When we referred the question to Panchayat Raj Department they said it pertains to Revenue Department. Naturally we have to refer it to the Minister for Revenue. Today he is not here. I will make some other Minister reply as soon as the other questions are over.

Mr. Deputy Speaker:—I will ask somebody to reply on his behalf.

Sri S. Jaipal Reddy:—When the rule categorically says that a question cannot be postponed without the prior knowledge and consent of the Member who puts the question, how the question was postponed? Secondly even if some other Minister is prepared to answer, the question is can any other Minister just give the answer without being authorised by the concerned Minister.

Mr. Deputy Speaker:—The Minister has authorised. Incidentally, he has some business in the Council. With my permission he has gone to the Council. I will get the question answered after his return.

Sri Nallapa Reddy Srinivasul Reddy:—A question cannot be answered after the question hour is over.

Sri S. Jaipal Reddy:—The Council meets at 10’0 clock. Is the House to presume the time of a Minister?

Mr. Deputy Speaker:—I appreciate your point.

Sri S. Jaipal Reddy:—Our experience is very sad and bitter. Ministers are treating the House with contempt. They are not answering the questions posted on the agenda. Respect should be shown in performance.

Sri B. Venkatarama Reddy:—It is not in the case of all the 9-30 a.m. Ministers. We never intended to do.
Mr. Deputy Speaker: —No question of violating or exempting the rules as such. He has authorised some other Minister in that regard to reply on his behalf.

Mr. Deputy Speaker: —I personally wanted that the Minister himself is present so that he can satisfy you. Now I will go to the next question.

Sri S. Jaipal Reddy: —It is highly reprehensible. The Minister for Revenue authorised the Minister for Harijan Welfare to answer. The Minister for Harijan Welfare also is missing in the House.

Mr. Deputy Speaker: —That is what I told you.

Sri S. Jaipal Reddy: —He should obtain the permission of the Member. If the Revenue Minister has authorised the Minister for Harijan Welfare to answer the question, except for any inevitable reasons, the Minister for Harijan Welfare should be available in the House. He must be good enough to obtain the permission from the Member. The House cannot be treated like this.
Oral Answers to Questions. 3rd March, 1980

Mr. Deputy Speaker: — specifically he has authorised the Minister for Harijan Welfare.

Sri P. Sundarayya: — Then, where is he?

Mr. Deputy Speaker: — He took my permission. But then I was not convinced because he may not be able to do justice?

Mr. Deputy Speaker: — He is very much serious?

Mr. Deputy Speaker: — I will go to the next question. It is a post poned question from 20th.

Mr. Deputy Speaker: — To-day itself. If you are particular about that, to-day itself I will ask him. He has taken the permission of the Speaker. Of course, he has authorised the Minister for Harijan Welfare to reply on his behalf.

Sri V. Sobhanadriswara Rao: — It is already a post-poned question. If you are interested in the reply, the Minister is very much prepared to reply to that. Please wait for tomorrow, so that the concerned Minister may reply.

Sri S. Jaipal Reddy: — We must be permitted to table a Privilege Motion against the Revenue Minister. If the House is allowed to be taken to be granted, then it will be very difficult for us to participate in the discussions of the House.

Sri Ch. Parasurama Naidu: — The business of the House cannot be stopped for a single failure. The only alternative for the Members or the aggrieved member is to move a Privilege Motion.
Mr. Deputy Speaker:—Let us not go into that. There are so many practices, and precedents. We have precedents where other Ministers have replied on behalf of the Ministers concerned.

Sri N. Srinivasul Reddy:—Will be reply to-day!

Mr. Deputy Speaker:—To-day he will reply.

re: Supply of water from Thungabhadra to the lands in Thungabhadra Project Ayacut in Adoni and Kurnool.

(b) Special Employment Scheme for educated unemployed candidates belonging to Scheduled Castes, Scheduled Tribes, Backward Classes and Economically Backward Classes registered in the Employment Exchanges has been launched by the Government on 15th August, 1978. This Scheme envisages investments in training, infrastructure, margin money and stipends in order to provide productive jobs and employment opportunities to the unemployed candidates belonging to Scheduled Tribes, Scheduled Castes, Backward Classes and Economically Backward Classes who have educational qualification of matriculation and above.

(c) No, Sir. It is not the intention of Government to provide wasteful doles unrelated to the development of economy. However to mitigate the hardship to the educated unemployed youth belonging to Scheduled Castes, Scheduled Tribes, Backward Classes and Economically Backward Communities the State Government has launched Special Employment Schemes for training these candidates in shortage and heavy demand categories like Refrigeration, Air Conditioning, Radio, T V. and Instrumentation Mechanics, Draughtsman (Civil and Mechanical Stenography and Typewriting Higher Grades, Welders Fitter and Automobile Mechanics. and the trainees are given stipends during the training period ranging from Rs. 45 to Rs. 100 per month depending upon duration, place and type of training.

BUSINESS OF THE HOUSE

Mr. Deputy Speaker:—Today's matter under Rule 329 is postponed for tomorrow.

Sri Ch. Parasurama Naidu:—I have given a Calling Attention Motion. It has been admitted and notice has been given. But today it is not included in the Agenda. Perhaps because the answer was given to a question on the same matter. But, the Calling Attention has got a wider scope in which we can get more information on the subject whereas the question is confind to the question alone.

Mr. Deputy Speaker:—I will check up. I will see that it is taken up either tomorrow or day-after.

Calling Attention to Matters of Urgent Public Importance:

re: Supply of water from Thungabhadra to the Lands in Thungabhadra Project Ayacut in Adoni and Kurnool.

3rd March, 1980.

The Hon'ble Member of Parliament,

Sir,

I hereby draw your kind attention to matters of urgent public importance.

1. The Water Supply from Thungabhadra to Ayacut in Adoni and Kurnool:

The supply of water from Thungabhadra to the lands in the Thungabhadra Project area in Adoni and Kurnool has been a matter of concern. The total quantity of water supplied during March 1980 was 1,48,725 MCM, which is 79% of the estimated requirement. Similarly, the quantity supplied from March 1979 was 1,02,148 MCM, which is 76% of the estimated requirement. The deficiency in water supply from Thungabhadra has been a recurring issue. The deficiency of 46,577 MCM in March 1980 and 36,677 MCM in March 1979 has caused serious problems for the farmers in the area. The deficiency in water supply has affected the agricultural activities and the livelihood of the farmers. The deficiency in water supply has also led to the decrease in the yield of crops, which has affected the income of the farmers.

2. The Indian Water Supply Scheme:

The Indian Water Supply Scheme was launched in 1979 to improve the water supply situation in the area. The scheme aims to supply 2,280 MCM of water per annum to the area. The scheme has been implemented with the help of the government and the local authorities. The scheme has been launched in 15 areas, out of which 10 areas have been completed and 5 areas are under implementation.

3. The Status of the Project:

The project is under implementation and the work is expected to be completed by the end of the year. The project is expected to supply 6,080 MCM of water per annum to the area. The project is expected to benefit 17,165 farmers in the area and increase the yield of crops.

4. The Need for Immediate Action:

The matter of urgent public importance is the supply of water from Thungabhadra to the lands in the Thungabhadra Project area in Adoni and Kurnool. The deficiency in water supply has caused serious problems for the farmers in the area. The deficiency in water supply has affected the agricultural activities and the livelihood of the farmers. The deficiency in water supply has also led to the decrease in the yield of crops, which has affected the income of the farmers. The Indian Water Supply Scheme was launched in 1979 to improve the water supply situation in the area. The scheme aims to supply 2,280 MCM of water per annum to the area. The scheme has been implemented with the help of the government and the local authorities. The scheme has been launched in 15 areas, out of which 10 areas have been completed and 5 areas are under implementation. The project is under implementation and the work is expected to be completed by the end of the year. The project is expected to supply 6,080 MCM of water per annum to the area. The project is expected to benefit 17,165 farmers in the area and increase the yield of crops.
5. Sir, it does not help me. Of course, the Government is very much interested in all these things, but the most important thing is they have given money to that. My request to the Minister is only some token amount is now given so that at least the foundation stone may be laid, and I also learnt they are making arrangements to give money next year. During this summer season they can go ahead with the construction so that at least the people in those areas will be happy to know. I am very happy that the Minister had agreed with me. Mere agreement will not take us anywhere. So, I request the Minister to make a categorical statement that it will be taken up this year, I may bring to the notice of the Deputy Speaker that sometime back even a programme was drawn by the Chief Minister to lay the foundation stone but unfortunately it did not fructify. I request the Minister to see that some amount is given (five or six lakhs) so that the foundation stone is laid and the work taken up. That will ensure them that it will be taken up next year also.
