THE
ANDHRA PRADESH LEGISLATIVE ASSEMBLY DEBATES
OFFICIAL REPORT

Twenty-Second Day of the Sixth Session of the
Andhra Pradesh Legislative Assembly

ANDHRA PRADESH LEGISLATIVE ASSEMBLY
Thursday, the 13th March, 1980.
The House as Half-past Eight of the Clock
(Mr. Speaker in the Chair)

ORAL ANSWERS TO QUESTIONS

Mr. Speaker:—First question is postponed.

Mr. Speaker:—He wanted the Minister concerned.

Mr. Speaker:—I never said that I will summon the Ministers from Delhi.

Mr. Speaker:—I have postponed the question.

* An astersik before the name indicates confirmation by the Member.

[415]

88—1
Mr. Speaker:—I have repeatedly said that I am not going to give you any reasons.

I have postponed the question.

Sir M. Venkaiah Naidu (Udayagiri):—Sir, as mentioned in Kaul and Shakdher at page 106 "After a question is placed on the printed list of questions for a day, the right to ask for postponement is connected to the member and not the Minister who is to answer the question. But, in exceptional cases some specific questions, which the Prime Minister desired to be postponed for answer by him personally, have been postponed under orders of the Speaker." So much so, the Ministers are not entitled as by right to seek postponement of the question placed on the printed list and have to seek the permission of the Chair and the Chair is fully competent to grant the permission or to refuse. Here, neither the Revenue Minister nor the Member concerned sought the permission of the Chair for the postponement of the question.

It is you that suggested it and I am following it.

Sri M. Venkaiah Naidu:—It is the Chair that has postponed; no objection.
Mr. Speaker:—That is what I told you. I will not be satisfied and you will not be satisfied. Yesterday you suggested a course. Probably you are not aware of the decision of the Members, I am following it.

It is not in the Chambers; it is only in the House.

Mr. Speaker.—I will tell you: It is a peculiar situation when the Chief Minister is not here. He is in the hospital. I can only have a talk with the Chief Minister and not individual Ministers. It is not proper on my part to ask each and every Minister like that. The only course open to me is to consult the Chief Minister and see that the things are alright. Since the Chief Minister is not available, the whole thing is happening. If you repeatedly want me to tell something about it what can I do. He is hospitalised. Immediately after he arrives

here, I will see that everything is alright. If you are not able to appreciate my assurance, what can I do.

Mr. Speaker:—Just I want to put a straight question.

Sri M. Venkaiah Naidu:—In fact we asked it.

Mr. Speaker:

The Hon. member goes on talking that something has happened behind his back.

The Chief Minister is responsible for the Cabinet. The Chief Minister is responsible for the Cabinet. Mr. Speaker, I am helpless.
Mr Speaker:—I have given the permission. If you want, I will show the permission.

Let us proceed with the regular business. The meeting was adjourned by the Deputy Speaker at 8.40 a.m.
Definition of Golla Caste as nomadic Tribe

251—

*3934-(W) Q.—Sarvasri M. Omker, M. Yarraiich Reddy (Bhadraclam) Smt. G. Dhana Suryavathi (Nidumolu) and Smt. M. Swarajyam (Thungathurthy) :—Will the Minister for Tribal Welfare, Commerce and Export-Promotion be pleased to state:

(a) whether it is a fact that ‘Golla’ (Yadav) caste is defined as nomadic and semi-nomadic tribe in G.O. No. 3874/RH2/63-1, dated 31-1-1965 at serial number 29:

(b) whether it is also a fact that the said G.O. in respect of the Golla (Yadav) is not being complied with till today; and

(c) if so, the reasons therefor?

Gopa Caste (Yadav) :—Gopa Caste (Yadav) is defined as nomadic and semi-nomadic tribe in G.O. No. 3874/RH2/63-1, dated 31-1-1965. This G.O. is not being complied with till today.

Government of Andhra Pradesh, Ministry of Tribal Welfare, Commerce and Export-Promotion.

Mr. Speaker:— List of Nomadic and Somo-Nomadic Tribes as issued by Government G.O. No. 3874/RH-2/63-1 dated 31-1-1965.

What about this G.O. issued in 1965?

Sri M. Venkaiah Naidu: — You kindly get the Original copy tomorrow.

Surendra Pratap Singh: — I don't think.

Sri M. Venkaiah Naidu: — Let us confirm. It is not clear.
Mr. Speaker:—At any rate, he will place the whole correspondence on the table.

Mr. Speaker:—They will not be called Collas.

Welfare of Tribals in Agency areas

(a) whether it is a fact that the State Government had worked out a comprehensive plan with a financial outlay of 160 crores for promoting the welfare of tribals living in the Agency areas and in the plains over a period of 5 years;

(b) the time by which the scheme is likely to be implemented;

(c) the amount that has been allotted so far; and

(d) the details of the said comprehensive plan?

Sri K. B. Siddaiah (Puttur) ;—Will the Minister for Tribal Welfare, Commerce and Export Promotion be pleased to state: (a) whether it is a fact that the State Government had worked out a comprehensive plan with a financial outlay of 160 crores for promoting the welfare of tribals living in the Agency areas and in the plains over a period of 5 years;

Dicisions Taken in the Conference of Housing Ministers held at Delhi in November, 1978

257—

*3869-Q.—Sri Poolla Subbaiah:—Will the Minister for Housing and Harijan Welfare be pleased to state:

(a) whether a conference of the Housing Minister of all States was held at Delhi in the month of November, 1978;

(b) if so, the decision taken to increase the number of houses to be built; and

(c) whether a copy of the decisions taken will be placed on the Table of the House?

Recommendation on Group 1

Problem of housing activities in the private sector:

The Conference recognises the need for promoting housing activities in the private sector and recommends that the State Governments and Union Territories should consider measures to eliminate the adverse effects of rent control on the condition of the housing stock and on new construction activity. Taking into account the difficulties created by the Urban Land (Ceiling and Regulation) Act, 1976 in the way of building activities, the Conference recommends that the States and Union Territories should actively encourage the speedy construction of dwelling units under Section 21 of this Act.
2. The Conference also recognises the need for preservation of the existing housing stock as long as possible and therefore, recommends that the States and Union Territories should enact legislation to set up Building Repairs and Reconstruction Boards in large cities on the lines of the Maharashtra Building Repairs and reconstruction Board. Pending the establishment of such Boards, the existing public housing construction agencies should be entrusted with the repairs and reconstruction work and public funds should also be made available for building repairs and maintenance.

3. As regards the cooperative sector of housing, the Conference recommends that it should be given greater encouragement and made more popular among the economically weaker sections of society. The State Governments and Union Territories should devise ways to promote cooperative societies among the economically weaker sections of society and should in particular make serviced land available to individuals and housing co-operatives in these sections at reasonable rates through public agencies like the Housing Boards etc. after development. In order to make housing finance available to individuals intending to acquire apartments in group housing schemes, the Conference recommends that the States and Union Territories enact legislation on the lines of the Maharashtra Apartment Ownership Act, so that such apartments can be mortgaged against housing loans.

4. The Conference further recommends that the State Government and Union Territories should consider exempting houses constructed at a cost below Rs. 12,000 from stamp duty, registration charges and municipal property taxes (in the last case for 5 years).

Recommendation on Group 2

Use of public funds for housing Schemes

The Conference notes that hitherto public spending on housing has benefited the better off classes disproportionately and considers that the States and Union Territories should so devise their housing programmes that the houses are constructed for the lower income groups at least in proportion to the percentage of households in these groups, and the cost of the houses should be within the paying capacity of the beneficiary groups. The Conference also recommends that the State Governments should embark on programmes of sites and services on a much larger scale, to cater to the needs of the large number of homeless people in the lowest income categories among economically weaker sections.

2. In any case, the Conference recommends that public housing agencies should not build houses costing more than Rs. 42,000

3. The Conference also requests the States and Union Territories to encourage Public Sector Undertaking to build houses on
ownership basis on land already allotted to them and also help them to formulate suitable housing schemes for their employees. The Conference further recommends that the Government of India should consider the delegation of powers to Union Territories to guarantee loans from HUDCO to the Housing Boards.

4. The Conference recommends that Housing should be included by the Government of India in the priority sector.

Recommendation on Group 3

Difficulties experienced in the implementation of Housing Schemes financed by HUDCO:

The Conference noted the suggestions made by the various delegations regarding the disbursement of loans by HUDCO and also the difficulties pointed out by them. The Conference noted that more than 50% of the population in the country lives below the subsistence level and the housing schemes will have to be oriented towards the needs of this section of society. The Conference, therefore, considered that there is more a case for reducing the present ceiling cost in order to bring the housing schemes within the reach of the poorest classes.

Recommendation on Group 4

Central assistance for development of Urban areas:

The Conference recommends that the Integrated Urban Development Programme should be continued in the Central Sector during to 6th Five Year Plan. The Conference further recommended that additional allocations should be made for this programme in the final 6th Five Year Plan, and that assistance for small and medium towns should be stepped up.

Recommendation on Group 5

Problems of Local Self Government and Octroi:

The Conference noted the views expressed by the delegates about the problem of local government in relation to their democratic functioning and difficulties of resources mobilisation with particular reference to the question of abolition of Octroi and devolution of resources from the States to the local bodies. The Conference recommended that the State Governments should soon hold elections to the Municipal Corporations and other Local Bodies which are under supersession. The Conference further resolved that the State Governments and Union Territories should communicate their views to the government of India on the question of devolution of resources as well as the constitutional position of the local bodies and the Government of India should then examine this question from all angles.
Recommendation on Group 6

Pollution Control Act:

The Conference urges all the State governments and Union Territories to adopt the Water (Prevention and Control of Pollution) Act, 1974 and make all the rules and notifications required under the Act so that there is uniformity in the measures taken to control water pollution in the country.

2. The Conference also requests the States and Union Territories governments to ensure that assessment and collection of the cess under the Water (Prevention and control of Pollution) cess Act, 1977 are made and the amounts sent to the Central Government regularly to facilitate regular disbursement every year.

Recommendation on Group 7

Improvement in Techniques and use of materials for construction;

The Conference recommends that State Governments and Union Territories should:

(i) promote the use of local materials and innovative techniques in their housing projects as recommended by National Buildings Organisation, with special emphasis on the reduction of consumption of scarce materials like cement, steel, etc.

(ii) provide facilities for operation of the National Buildings Organisation Regional Liaison Cells, such as suitable office accommodation, telephone (at office as well as at residence) conveyance and supporting technical staff;

(iii) take full advantage of the technical expertise available with National Buildings Organisation and its Regional Rural Housing Wings in building houses at lower cost and establishing local building material industries; and

(iv) set up monitoring cells to watch the progress of implementation of the recommendations made by National Buildings Organisation and Expert Panel Development Groups and supply data to National Buildings Organisation Monitoring Cell at regular intervals for evaluation, etc.

Recommendation on Group 8

Review of action taken on the recommendations of the last Housing Ministers Conference:

The Conference noted the action taken on the various recommendations of the 9th Conference of the State Ministers of Housing and Urban Development held at Calcutta.
Recommendation on group 9

Review of the recommendations of the State Chief Town Planners meeting:

The Conference endorses the recommendations passed in the Conference of States Chief Town Planners held on the 9th November, 1978.

re: (1) Not starting work on Basidge across Godavari river at Ramagundam.
Calling Attention to Matters of Urgent Public Importance:

re: Non-filling up of posts of Professors and Civil Surgeons in Urology.

Sri A. Madan Mohan (Minister for Health):-Sir, In November and December, 1977, two posts of Professor of Urology—one at Guntur Medical College Government General Hospital, Guntur and the other at Gandhi Medical College, Hyderabad/Gandhi Hospital, Secunderabad were created. The Director of Medical Education submitted proposal for filling up of the above two posts. The proposals were originally placed before the Departmental Promotion Committee at its meeting held on 4-5-1978 for consideration and making its recommendation. The Departmental Promotion Committee deferred the proposal pending reference to Medical Council of India for clarification in regard to the eligibility of the candidates for promotion as Professor of Urology with reference to their qualifications and the rules in force.

On receipt of the reply from the Medical Council of India, the proposal were again placed before the Departmental Promotion Committee at its meeting held on 5-2-1979. The Departmental Promotion Committee recommended the names of the eligible candidates for inclusion in the panel for promotion as Professors of Urology. The Government accepted the recommendations of the Departmental Promotion Committee and approved the panel of names on 15th May 1979. The Director of Medical Education was requested to submit proposals for giving postings to the officers included in the panel. Before the receipt of the proposals from the Director of Medical Education, one Dr. G. Shyamsunder who is senior in the lower category (Assistant Professor) to the officers included in the panel for promotion as Professor of Urology has submitted a representation dated 21-5-79 stating that he is eligible for promotion as Professor of Urology and that his case may be considered for promotion. While the representation of the officer is under consideration of the Government, Proposals for posting of the officers included in the panel have been received from the Director of Medical Education. Since the representation of Dr. Shyamsunder is under consideration, no postings to the officers included in the panel could be given. Before final orders are issued on
the representation of Dr. G. Shyamsunder, Dr. D Vyasaranayana Rao one of the officer included in the above panel, filed a Representation Petition In the Andhra Pradesh Administrative Tribunal seeking direction for his promotion as Professor of Urology. On a Representation Miscellaneous Petition filed by this doctoer, the Andhra Pradesh Administrative Tribunal has issued direction on 18-2 1980 to maintain status quo ante as on the date of the order. In view of the directions of the Andhra Pradesh Administrative Tribunal no further action could be taken either on the representation of Dr. G. Shyamsunder or on the question of giving postings to the officers included in the panel

Sri A. Madan Mohan.—Sir, the petition of Dr. Shyam Sunder was actually addressed to the Hon'ble Chief Minister and the petition was directed to me to look into the matter. Then naturally the entire facts were to be placed on the file and sent.

Sri G. Sundara Ramaiah.—Sir, Then what is correct we are not able to understand. Now the posts are vacant for the last two years and they are not able to fill up the posts. Is it the functioning of the Government? whether by interference or whatever it is, are the posts going to be filled up or not. We want an assurance from the Minister.

Sri A. Madan Mohan.—Sir, once the Tribunal gives its final decision in this a matter, we will be able to take up this matter or if the present Tribunal orders to maintain the status quo ante is vacated, then the Government would be able to move in this matter.
Papers Laid on the Table.

It was observed that in some institutions there was no proper scrutiny of caste certificates while appointing Scheduled Castes candidates for the various categories of posts. The Committee therefore recommends that the caste certificates should be closely scrutinised before giving employment.

This Committee recommends the Government to expedite the amendments in the Municipal Corporation, Hyderabad Subordinate Service Rules as desired by the Corporation to enable the Municipal Corporation to extend the concessions to the Scheduled Castes while considering them for the promotion to higher posts in the establishment.

All the parties in Nation are exploiting the conditions of the Scheduled Castes. I request the State Government which is having majority Scheduled Caste Members in their party, to consider them and give proper places because there are some fit persons who can render service to the harijans and harijan welfare. I request the state Government to consider them while appointing Chairmen since they have some knowledge in the concerned departments. I also request that the educational facilities that are now given are not adequate when compared to the neighbouring States of Tamilnadu Kerala. in those states any matriculate boy will get a job. There is job security there. whereas here S.Cs who have registered during 1972 (S.C. Matriculates) are not given jobs. I request the Government should take serious steps to implement the scheme like the other State of Tamilnadu Kerala and Karnataka. I thank you for giving me time.

Annual Financial Statement (Budget)

for 1980-81:

Demands for Grants.

The Central Government has decided to provide financial assistance to various departments and agencies for the year 1980-81. The "Demands for Grants" for the year have been prepared in accordance with the principles laid down by the government. The demands include grants for various schemes and projects aimed at improving the infrastructure and providing essential services to the public.

The demands for grants have been classified into different heads, such as education, health, agriculture, and infrastructure development. Each head of demand has been further divided into sub-heads based on the specific requirements of the department or agency.

A detailed breakdown of the demands for grants is provided in the financial statement. The statement also includes the expected benefits and outcomes of each grant, along with the allocation of funds to different areas.

The financial statement is an important document as it provides a clear picture of the government's plans and priorities for the year. It helps in monitoring the implementation of the schemes and projects and ensures that the funds are used efficiently and effectively.

Sri P. Ashok Gajapathi Raju (Vijayanagaram);—To-day we are discussing 5 Demands. The importance of Welfare which involves approximately 3 crores of our people has relegated the Demand of Tourism to the background. I suggest it to you, Sir, that this Demand be brought up separately for discussion in future so that it will have the quantity and quality of discussion.

Regarding Welfare, a lot of items are coming under each Demand and it is not possible for me to go through all the items. There are a few items which I wish to bring to the notice of the Government through you, but before I do it I would like to say that even...
implementation of Welfare measures is as important—in fact, more important than just allocating a budget and allowing it to go on its own course.

Regarding Social Welfare Hostels, a lot has been said. There are between 1300 to 1400 hostels in our State and most of these are in private buildings. These hostels when visited, give the appearance of concentration camps, the last of which probably we have heard during the Nazi regime. In Vizianagaram there are three hostels. An average child between 8 to 13 years of age is given 9 sq. feet of space for all he wants. Literally he has to eat, sleep and play and live in a space of 9 square feet. Then the amount per child has been recently increased from 50 rupees to 75 rupees per month. What I would suggest the Government is to formulate a minimum need per child. This of course cannot be achievable this year, but the Government may set about doing it at least in the near future. What is the space that a child requires for healthy growth in order to make him a responsible citizen and a useful citizen of our country? How can a child grow in the space of 9 square feet or 5 square feet of space. What type of discipline can you inculcate in him or her. What are the facilities of recreation for these children. Probably a newspaper or school doctares written about Bhagavat Gita are given as recreation material to the children. Please look at it as a human being and think of bringing them up as you would bring your own children. I don't think the purpose is over with just providing a few lakhs of rupees in the budget. Will that be solving this problem? The attitude requires a change and this, sir, I request the Government through you to bring about.

Regarding scholarships, there are lots of contradictions in this regard. It has come to our notice that there are quite a few people who draw scholarships from different places. Secondly, contradictory orde's are given by the Government. The District Collector, Visakhapatnam had sent a communication to all heads of institutions not to collect tuition fee and the other types of fees from listed Backward Classes which shall be reimbursed by Government. There is another order by the Director of Backward Classes Welfare addressed to the District Social Welfare Officers to restrict the stipends strictly to the eligible listed backward classes studying in the I. T. Is and other institutions run by the Government of Andhra Pradesh only. In Vizianagaram, i.e., my constituency, 113 students are suffering, 5 of them are tribals. These things require clarification. On the one hand we say we are taking welfare measures and giving scholarships and on the other we are also creating a situation where they are incapable of making use of them.

Another problem that has been discussed at length is regarding house sites. Rs. 7 crores have been allotted for acquisition, a large number of house sites have been distributed. But has anyone done an
exercise in finding out how many of these houses and house sites are being utilised by the beneficiaries? If you go round that a large number of them 50% of these sites are not being utilised by the beneficiaries. What are the reasons, why are they not getting into such places. Is it possible for a beneficiary who is allotted land in a low-lying area where the drain of the whole village lands into that plot, to physically go and live there, if such things do exist. But what is the action taken by the Government to see that such things do not recur and these people are rehabilitated properly. What I gather from the previous Demands was that the District Collectors in the State were asked to identify how many people would require house sites. Has that exercise been completed and what is the figure? Kindly let us know.

Another thing that has been happening systematically for quite a few years is this a large number of weaker sections are being deprived of their traditional occupations. For instance, there is basket weaving there is competition with plastics, besides they have to pay Rs. 75/- for bamboos where they used to pay Rs. 18/- previously. Are we trying to improve their economic activity and bring up their standard of living or are we working with cross purposes. I request the Government to look into this and to take all the trouble to see that what we profess on the floor of this Assembly is implemented. Unfortunately people like me do not have the confidence that the Government is capable and has the inclination of implementing these promises because this Government has no reputation for honesty. Their officials come in the way and corruption happens to be the biggest reason behind. I request the House to take note of it and see that the ministry runs more smoothly. Thank you.
