Written Answers to Questions. (Starred) 3rd October, 1980. 253

(2) LS/US Supervisor .......................... 2.
(3) Draughtsmen Special Grade/1st Grade ............... 1.

The request of the State Council of Diploma Engineers for ensuring proportional promotional chances among from graduate Engineers is under examination.

A—

(a) On the suggestion of the Central Water Commission in its comments to provide for extra rate of silting than what was provided in the Scheme Report, and also considering the salt accumulation over a period of 75 years, estimated to 1936 Mf., the live storage of the reservoir is proposed to be increased by raising the FRL from +62.00 M to +65.00 M, so that the gross capacity of 1121.00 Mf. at +62.00 M is increased to 3,373 Mf. at +65.00 M to ensure good performance.

(b) The villages which come under full submergence under Madduvulasa Reservoir Project are:

(1) Megguru  (2) Kottisa  (3) Lakshmipeta  (4) Gudivada; and  (5) East Devakiwada.

Originally 5636 acres of land was estimated to come under full submersion. Subsequently, while selecting land plans and schedules of Pattuwardhanam, Lakshmipeta and Gudivada villages, an additional land of 543.84 acres is estimated to come under full submersion. Thus, the total land submergeable is Ac. 6179.84. Twelve villages are partly getting submerged. It is not correct to say that not even one village will get submerged,
(c) Yes, Sir.
(d) The Scheme is one of the Medium Irrigation Schemes taken up during the Five Year Plan, on priority basis pending clearance of the Scheme.

(e&f) No orders are available on the criteria for the minimum benefit cost ratio to be adopted for clearing Major and Medium Irrigation Projects. However, the Planning Commission, Government of India, are insisting for a minimum benefit cost ratio of 1.5:1 for clearing Major and Medium schemes. In the case of Schemes, a lesser benefit cost ratio than 1.5:1 up to 1:1 in the case of Drought Prone Areas and Tribal areas is also being considered, depending upon the merits of the schemes and the areas.

Appointment of Honorary Rural Physicians in the State

99—

5504-Q—Sri K. B. Siddaiah :—Will the Minister for Health and Medical be pleased to state:
(a) whether there is any scheme to appoint 23 Honorary Rural Physicians in the State; and
(b) if so, the time by which the scheme will be implemented?
A.—
Keeping in view the problem of providing modern and adequate medical facilities in the rural areas within the easy reach of population and the high degree of unemployment currently prevailing among the medical graduates of both modern as well as Indian systems of Medicine, the State Government have given careful consideration to the scheme of Honorary Rural Medical Officer (Allopathy and Indian system of Medicine) to be located in select villages which are far from the Primary Health Centres and Taluk Hospitals. The scheme was sanctioned in the year 1975.
2. It was first experimentally sanctioned to cover 100 villages selected by the Government where the medical facilities were inadequate by appointing on the whole 100 Allopathy Medical Graduates. Later, in the same year, it was extended to 100 more villages for appointing 100 graduates in Indian Medicine Schemes also.

38—3
3. The scheme is intended to assist unemployed Medical graduates to set-up private practice in the rural areas and thus help in making available medical care to the rural population. A Person selected for the scheme is expected to work for a minimum of four hours from 9.00 A.M. to 1.00 P.M. everyday and render free service during these four hours to the patients calling on him. In the remaining 20 hours of the day, he is free to employ himself as a general practitioner in attending to the needs of the population of the village where he is located as also the neighbouring areas.

4. The Honorary Rural Medical Officers (Allopathy) are to be provided with certain life saving drugs worth Rs.100/- per month and an Honorarium of Rs. 500/- per month. This arrangement will last for 3 years from the date of his selection. He should reside at this village and shall not ordinarily leave the village without obtaining prior permission of the District Medical and Health Officer. In August 1977, the Honorary Rural Medical Officers were renamed as Honorary Rural Medical Practitioners.

5. The Honorary Rural Medical Practitioners on the Indian Medicine side are paid an honorarium of only Rs. 200/- per month. (This is for the reason that the Rural Medical Practitioners in charge of Rural Dispensaries are paid only Rs. 200/- per month) and Rs. 50/- per month towards medicines.

6. Eventhough the scheme has been under implementation since three years, the response from the Allopathy Medical Graduates, is not encouraging. To get better response from the Medical graduates Government modified the scheme, to the effect that the Honorary Rural Medical Practitioners are permitted to select for their practice any village or sub-centre they prefer, the only stipulation being that it should at least be 10 KMs away from a Primary Health Centre.

7. It has been proposed to employ a larger number of Allopathy Medical Graduates year after year during the Sixth Five Year Plan commencing from 1979-80.

8. Each year 10 Medical graduates in Allopathy will be appointed in each district. This will be repeated for 3 years. For three years, they will be assured of stay and from the 4th year onwards, a new batch of 10 will be selected in lieu of the 10 who would have already completed 3 years.
9. Although sanction was given in 1975, to employ 100 Honorary Rural Medical Practitioners in Allopathy, only 23 Allopathy Graduates had taken up the assignment since then till 1979. During the year 1979-80, the Government sanctioned the employment of 13 Honorary Rural Medical Practitioners (Allopathy) in addition to the 23 Honorary Rural Medical Practitioners already being continued, thus making the total 220 at the rate of 10 for each district, excluding Hyderabad Urban District.

Promotions to the Demonstrators of Degree Colleges

152—

2551. Q.—Sri P. Sriram Murthy: — Will the Minister for Education be pleased to state:

a) Whether it is a fact that the Demonstrators in Degree Colleges recruited in 1970 were being promoted as Assistant Lecturers by regularising their services in the same year; while Junior Lecturers recruited in 1970 having equal qualifications have not been given promotions and their services not regularised till 1976;

A.—

(a) As per the special rules for Andhra Pradesh Educational Subordinate Service, Tutors and Demonstrators were eligible for promotions as Assistant Lecturers and as such qualified candidates were being promoted as Assistant Lecturers. So far as Junior Lecturers are concerned there is provision for promoting them as Principals of Junior Colleges. However provision has since been made for promoting Junior Lecturers as Lecturers by suitably amending the special rules for Andhra Pradesh Educational Service.

b) A note is given below.

c) The anomaly in not due to the non-implementation of the University Grants Commission scales to Junior Lecturers but due to the fact that there is no provision in Andhra Pradesh Educational Service rules for the promotion of Junior Lecturers as Assistant Lecturers/Lecturers.

d) With the amendment of Special Rules for Andhra Pradesh Educational Service, Junior Lecturers can be promoted as Lecturers.

Note vide Cl. (b)

In G.O.Ms.No.1072, Education, dated 26-11-1976 Government have accepted the recommendations of the three man committee with a few modifications to extend the Fifth Plan University Grants Commission scales to Junior Lecturers working in Degree Colleges. According to the Sl.No.4,Col.6 of Annexure I of the said G.O.
"Junior Lecturers in Degree Colleges till they complete a total, whether continuous or not of 5 years service will draw the state D.A. merged scale of Rs.530-1050. After they complete the total, whether continuous or not, service of 5 years, they will come on the Revised Pay Scales, 1976 of Rs.700-1600. They should acquire the M.phil/M.Litt. degree within 5 years from the date of entering the Revised Pay Scales, 1976, or 1-6-76. whichever is later, failing which they cannot earn any future increments or they will step at the Assessment stage at Rs.1200, whichever is earlier. As per clause (d) of col.6 of Sl.No.4 of Annexure. I of the said G.O."

"In Government Degree Colleges with the Intermediate course, the posts of Junior Lecturers will be converted into Lecturers in the Revised Pay Scales, 1976. Taking into consideration the subject and the overall inter-seniority of Junior Lecturers in that subject, the senior most Junior Lecturers will be promoted in conformity with the presidential order, to these posts of Lecturers as under the revised pay scales, 1976, after their work and performance are assessed by D.P.C. and if they are found fit and suitable".

Further the University Grants Commission has not agreed for the implementation of the University Grants Commission Scales to Junior Lecturers. As such Government have issued orders in their D.O.Letter No.3303/C2/77-3, Education dated 5-1-1978 not to implement the Andhra Pradesh Revised Scales 1976 to the Junior Lecturers working in Degree Colleges, will continue to draw their own scale of pay i.e, Rs.430-800. Therefore, the V plan University Grants commission Scales ordered in G.O.Ms.No.1072 Education Dated 26-11-76 have not been implemented in respect of Junior Lecturers.

On further correspondence with Government of India they have accepted the proposal of Director of Higher Education for conversion of the 183 existing posts of Junior Lecturers in Degree, Colleges into that of Lecturers on the basis of the workload and for placing them in University Grants Commission Scales of Rs.700-1600 (Revised Pay Scale 1976) in terms of the orders issued in G.O.Ms.No.1072, Education dated 26.11.76. They have also communicated their acceptance for claiming central assistance to the extent of 80% on the additional expenditure involved upt0 31-3-1979.

The Government have issued orders in G.O.Ms.No.281 Education dated; 28-3-1980 upgrading 182 posts of Junior Lecturers as Lecturers basing on the work load as on 1-4-1976.

Sanction of Lay outs given by the Gram Panchayats.

192—

4717 Q.— Sri B. MachndarRao :—Will the Chief Minister be pleased to state :

(a) The steps that are being taken by the Government to with­hold sanction of the excess lands surrounding the twin cities, of Hyderabad and Rangareddy Districts which are under the jurisdiction of Urban Land Ceiling being utilised for construction e.g. sanction of layouts by the Gram Panchayats contrary to the standard required.

(b) Whether it is a fact that after the lands are identified by Hyderabad Urban Development Authority into residential and commercial complexes etc., the Gram Panchayats are sanctioning layouts for building construction ; and

(c) if so, the steps taken by the Government to prevent such disorder ?

A.—

(a) No specific instances of layouts given by the Gram panchayats contrary to the standard required have so far been brought to the notice of the Government by Hyderabad Urban Development authority.
(b) So far the Hyderabad Urban Development Authority has not furnished its Master plan or zonal Development plans to identify any violation of the plans by grant of construction permissions or sanction of layout plans, by the Gram panchayats. The Government in Housing, Municipal Administration and Urban Development Department have already suspended the powers relating to the control on development and use of lands and buildings under the Andhra Pradesh Gram Panchayats Act, 1964 and transferred the said powers to the Hyderabad Urban Development Authority in respect of Gram Panchayats failing in Ramachandrapuram and Moula Ali zones of Hyderabad Urban Development Authority. As such there is no question of the Gram Panchayats sanctioning layouts contrary to the required standards. In regard to other Gram Panchayats that fail in Hyderabad Urban Development Authority area and in respect of which the however of Hyderabad Urban Development Authority have been delegated for the grant of construction permissions and sanction of layouts, if any irregularities noticed by Hyderabad Urban Development Authority are brought to the notice of the Collector, Rangareddy action can be taken to cancel irregularly sanctioned layouts and construction permissions under the provisions of the Andhra Pradesh Gram Panchayats Act, 1964.

(c) In view of the remarks offered in reply to item (b) above the irregular grant of permissions and sanction of layouts by the Gram Panchayats can be cancelled for rectification of defects and thereby remedied the situation if any prevailing.

(a) and (b):—Section 3 of Andhra Pradesh Land Revenue (Additional Wet Assessment) Act, 1975 provides that in respect of every wet land in the State held by a pattadar and served by a Government source of irrigation, there shall be levied and collected by the Government from the pattadars for every fasli year commencing on the first day of July, 1974 and for each subsequent fasli year, an additional land revenue assessment at the rate of one hundred percent of the land revenue payable there on for that fasli year. According subsection (c) of section 2 of the said Act, Government source of irrigation means any source of irrigation which is owned or controlled by the Government or constructed or maintained by them but does not include a rainfed tank which ordinarily supplies water for a period of less than eight months in a fasli year. In the beginning the Managers of Milk Cooling Chilling Centers/Dairies have been authorised to appoint Commission Agents for collection of milk on fixed commission of Rs. 75/- per month for collecting milk up to 50 litres in lean and 100 litres in the flush season per day. For collection exceeding over and above 100 litres, 2 paise per litre has been paid to the Commission Agent up to collection of 200 litres and one paise per litre has been paid over and above 200 litres.

Due to administrative reasons, the Corporation issued revised instructions according to which the nomenclature of the milk collection Agents has been changed and styled as "MILK PRODUCERS AGENT". The Milk commission to the producers will be paid to the milk producers Association since it is the agency responsible for smooth running of the Association. This Association is responsible for choosing a suitable person or representative for the collection, testing of milk and proper maintenance of milk producers accounts etc. However, the milk collection Commission Agents have not agreed to the new arrangement and filed a suit in High Court. The High Court issued stay of the orders mentioned above. Therefore the old procedure is being followed for the time 9-30 a.m. being throughout the state.
