Zuari is part of Birla; but Zuari includes some other interests also.

Zuari is part of Birla; but Zuari includes some other interests also.

Sri B. Ayyapu Reddy:—After the Speaker has given the ruling, what is the point prolonging the discussion.

Mr. Speaker:—I.D.B.I is after all our Government concern. The Congress-I is not able to rule. Why don’t you hand over the Government to Birlas.
Mr. Speaker: — There is no use of beating a dead horse. I don’t think I am satisfied with the answer but no better answer is likely to come. Why do you waste time over this.

Loss Due to the Non-Compliance of Orders of C. E. By the S. E. of Nagarjunasagar Right Canal

154—

*6206 Q.-Sarvasri N. Raghava Reddy (Nakrekal) and A. Lakshminarayana (Miryalaguda) :—Will the Minister for Major Irrigation be pleased to state:

(a) Whether the loss to the tune of Rs. 2.65 lakhs sustained according to the Audit Report of 1978–79 (pages 114 and 115) due to the non-compliance of the order of the Chief Engineer by the Superintending Engineer of Nagarjunasagar Right Canals will be recovered from the persons responsible for the same;

(b) the steps to be taken by the Government to avoid such things in future; and

(c) whether enquiry will be conducted into the reasons and necessary action will be taken?

Sri G. V. Sudhakar Rao (Minister for Major Irrigation) :—

(a) & (b) Open tenders by giving wide publicity in four newspapers, have been called for the supply of 49 Nos. concrete mixers of 10/7 Cft. capacity. Five Firms have tendered for the supply of various brands of concrete mixers at the rates varying from Rs. 17,520/— to Rs. 24,950/—. Three firms have also offered to supply different brands of concrete mixers 10/7 cft capacity at Rs. 14,750/—, cft Rs. 14,460/— and Rs. 13,095/— each on rate contract. Out of the above firms, it is seen that only one firm viz. M/s. Sridhar Engineering Company, has quoted for ‘Miller Concrete Mixer’ with 5 HP Kirloskar Engine which is standard equipment. The Superintending Engineer, Nagarjunasagar Canals Circle, Vinukonda has accepted the offer of M/s. Sridhar Engineering Co., for supply of ‘Miller Concrete Mixer’ with Kirloskar Engine at Rs. 18,100/— each as it is a standard equipment, after discussions with the Chief Engineer, N’sagar Right Canals. Since no other firm including the three firms on rate contract have offered for this standard Miller Mixer, comparison of the rate of ‘Miller Mixeres with Kirloskar Engine’ with other brands at cheaper offers does not arise. Since the SE, has placed the above orders after discussions with the Chief Engineer, non-compliance of the orders of the Chief Engineer by the Superintending Engineer, does not arise. Therefore the question of recovery of Rs. 2.65 lakhs being the difference between the cost of Miller Mixer and other cheaper offers does not arise;
An enquiry was conducted by a Fact Finding Team constituted by the Government. The Team has gone through the records and came to the conclusion that the Superintending Engineer, lightly preferred the best available which justified the extra cost.

Sri G.V. Sudhakor Rao: A fact finding committee was appointed by Govt. Memo No. 453 Ms. E2 7712 dt. 12-12-1978. The Members of the said Committee are Mr. K.R. Bakthavatsalam, Dy, Secretary, Irrigation & Power and Mr. N. K. Sharma, S. E., Mechanical, Government Letter dt. 15-11-1959, reply to the above fact was sent to the Accountant General as extra expenditure on the purchase.

12th March, 1981. Short Notice Questions and Answers

Sri K. Prabhatara Reddy:—Sir, I have already admitted that the lapse has happened on the part of the Police Department but not by the local Police. It is only by the Railway Police.

Sir, I have no information of that kind at present with me. If that is the case, I will pass on the information to the concerned officer of the rank of Additional I.G., who is looking all these things.
Sri M. Venkaiah Naidu:—Sir, what about the action against the people who cremated that dead body without conducting the post-mortem?

Mr. Speaker:—He has given assurance.

Sri M. Venkaiah Naidu:—No, Sir, he has not given assurance.

Sri K. Prabhakara Reddy:—That will be done only after the enquiry is conducted.

Sri M. Venkaiah Naidu:—Sir, by keeping the local police how he expects a fair enquiry there? It is a matter of common-sense.

Sri K. Prabhakara Reddy:—Sir, whoever it is, as I already said, necessary action will be taken against the people and I do not think we find as it is any prima-facie case against any officer concerned, except the Head Constable who was on duty on that day and made enquiries. Of course, we will ask the Railway police Authorities to take action against him.

Sri M. Venkaiah Naidu:—I protect over the reply. He has already come to a conclusion saying that thing has been done as the constable has already told. It is a grave mistake on the part of the police.

Sri K. Prabhakara Reddy:—Sir, I have already admitted that action would be taken against that fellow and we will ask the concerned authorities because he is not our State Government Employee. He is a Railway Board Employee.

What action does the Minister propose to take on the local Police also?

Sri K. Prabhakara Reddy:—I have already admitted Sir. We will see that the culprits are booked definitely.

re: Short supply of water to Tungabhadra
Low Level Canal from Tungabhadra Dam.

Sri H. Satyanarayana:—This matter is very urgent in the sense that ground-nut crop in 60,000 acres—which is a commercial crop—is likely to be affected. The reason is that we are not getting sufficient water from Tungabhadra dam. The Hon'ble Minister may say that the water released from Tungabhadra dam is about 1880 cusecs. Though they have released 1880 cusecs at the dam site, by the time it comes to our area, we are only getting 630 cusecs. As a matter of fact we are entitled on the Andhra side for 730 cusecs of water. Unfortunately during the last 15 to 20 days we did not get more than 681 cusecs on any day. I have got statistics to show that starting with 681 came to 612 on 7-3-81. The Speaker may kindly note this. As a result, we are not getting sufficient water: this is a well-known proposition. Unfortunately, the Superintending Engineer and the Executive Engineer who work for the Andhra side at Tungabhadra project are not putting pressure or persuading the authorities there. When I put supplementaries during question hour, the Hon'ble Minister who

Unfortunately, the Superintending Engineer and the Executive Engineer who work for the Andhra side at Tungabhadra project are not putting pressure or persuading the authorities there. When I put supplementaries during question hour, the Hon'ble Minister who
knows everything said that we are getting more water. That is why I have to explain at length now. We are not getting sufficient water and we are getting only 612 cusecs. You also know that in this month and also next month the crop will be there till April first week. Because of the summer there will be a lot of evaporation and even the 612 cusecs may be lessened and this is the most crucial time. If we do not get sufficient water the crop which is in part formation will wither away and there will be no crop at all. I request the Hon'ble Minister through the Hon'ble Speaker to make such arrangements as are necessary or at least contact the Karnataka Government and see that we get water immediately. Time is of the essence. If you get water by 1st April, there is absolutely no use. I request the Hon'ble Minister to take such steps as are necessary to get our entitlement.

Sri K. Venkataramayya,—We have given a question on Tungabhadra high level canal. Tungabhadra has two channels—high and low level canals. My question relating to high level canal has been clubbed with that of Sri Satyanarayana. He is interested in the low level canal. I may be permitted to raise my question separately. Otherwise I do not get any reply. My question may be taken up separately and it may be answered.

Mr. Speaker :—If the Minister is prepared and is having information, he may satisfy all the three members.

Sri G. V. Sudhakar Rao:—Mr. Speaker, Sir, as the hon. Member has spoken in English, you will kindly permit me to make my statement in English. Before I make the statement, I wish to draw the attention of the House to one fact—that there is drought in the
Tungabhadra area and we are persistently at it and we are trying to persuade the Tungabhadra Board authorities to release as much water as they can. Three days back there was a meeting of the Tungabhadra Board; in K.C. Canal there is this problem. Government will do maximum to get as much water as possible. Now, with your permission, I make a statement on low level canal and not on other issues that have been raised in this House.

As per the approved working table of the Tungabhadra Board for the water year 1980-81 the quantity of water for Kharif season that could be drawn from the Tungabhadra Project Low Level Canal from 1-6-1980 to 18-12-1980 is 14.52 TMC, For Rabi season from 19-12-80 to 20-4-81 the quantity is 9.523 TMC of water.

2. Due to prevailing drought conditions the Karnataka Government was requested at the highest level to releases extra water to save the Kharif crop to an extent of 43,579 acres As against 14,52 TMC entitlement the total drawal during the Kharif season was 15.63 TMC i.e. 1.11 TMC extra.

3. The month-wise discharger as per working table finalised, the releases from the Tungabhadra Reservoir into the Low Level Canal at the Andhra Pradesh border to ensure irrigation for an extent of 1.7 lakh acres for Rabi season are as follows:

<table>
<thead>
<tr>
<th>Month</th>
<th>Discharge (c/s)</th>
</tr>
</thead>
<tbody>
<tr>
<td>January</td>
<td>575</td>
</tr>
<tr>
<td>February</td>
<td>705</td>
</tr>
<tr>
<td>March</td>
<td>699</td>
</tr>
<tr>
<td>upto April</td>
<td>600</td>
</tr>
</tbody>
</table>

Therefore, the question of Andhra Pradesh getting a normal discharge of 735 c/s, water does not arise as the maximum discharge required during 2/81 is only 705 c/s.

4. In view of the prevailing drought conditions the need for the drawal of extra water was again discussed at the highest level on 19-2-1981. as a result of which 5.503 TMC could be drawn into the Low Level Canal as against the eligibility of 4.404 TMC for the period, 19-12-1980 to 18-2-80.

5. Tungabhadra Board has been requested to ensure 735 c/s of discharge at A.P. Border in the Low Level Canal. Though a discharge of 1800 c/s into the Low Level Canal is being released at Tungabhadra Dam to ensure the required discharge at the border, the discharges realised are less than 680 c/s. It is reported that this shortfall in the discharge is due to unauthorised irrigation and overdra-

wals in the Upper reaches in Karnataka area. The Superintending Engineer, Tungabhadra Board has reported that with a view to ensure the required discharge of water at the border, he checked all the places where unauthorised tapping is reported. The Executive Engineer, Low Level Canal Ballary, has also made night patrolling arrangements with the field staff to prevent unauthorised drawsal by the ryots during the night time. The Superintendent of Police Ballary and the Deputy Commissioner, Ballary have been approached by the Superintending Engineer, Tungabhadra Board to provide protection to the field staff engaged in the night and to the Board property with a view to ensure that the required discharges are maintained at the border.

6. The Principal Secretary, Irrigation and Power and Chief Engineer (Major Irrigation and General) Andhra Pradesh discussed this matter with the Chairman, Tungabhadra Board, Chief Engineer (Tungabhadra Project) and Secretary (Tungabhadra Board) on 8-3-81 at Hyderabad. The Chairman instructed the Board officials to take all possible steps including obtaining the Police help from Karnataka Government to ensure 735 cusecs discharge in Low Level Canal at Andhra Border. It is hoped that the position would certainly improve hereafter.

re: (3) The decoity in Kothapalem village, Madhira taluq, Khammam district on 2-3-1981

Sri K. Prabhakar Reddy:—On the intervening night of 1/2-3-1981, five unknown culprits armed with axes, sticks and a gun went to Kothapalem, h/o, Remidicherla village in Madhira Police Station limits, woke up a ryot sleeping in his fields and forcibly took him to the village. They asked him to tell names of rich ryots in the village and when he told the names, one of them asked him in broken Telugu to show the house of Sri Narasayya, one of the rich ryots. The person who spoke to the villagers in broken Telugu was interpreting his answers to others in some language which is not known to the villagers. The culprits entered the compound of Sri Narasayya and tied him to a pole of the pendal and indiscriminately beat him and stabbed the inmates who were sleeping under penciis. While one was keeping watch over persons whom they beat, three persons entered into the rooms of the thatched house, the doors of which were not locked. Meanwhile on hearing noise two neighbours namely Sri Ramayya from the next door and Sri Rama Rao from opposite house came out from their houses. One of the culprits who was armed with a gun and keeping watch outside the house opened fire twice in two directions in which they came. The firing resulted in the death of Sri Rama Rao and injuries to Sri Ramayya on his thigh and forehand. They carried away two suit cases containing clothes valuables and ransacked them in fields. They have taken only gold ornaments worth of Rs. 15,000 and cash Rs. 1,000 and abandoned the suit cases and clothes. In all, 5 inmates and one farm servant of the complainant received stab or axe injuries and two neighbours received pelted injuries of which one died on the spot. Of the remaining 7 injured, four were admitted in Government Hospital, Madhira and 3 at Headquarters Hospital Khammam. All the injured are out of danger and they are progressing. The culprits appear to be non-locals who do not know local language. The Superintendent of Police, Khammam and Deputy Inspector-General of Police, Warangal Range visited the scene on 2–3–1981. Special Police parties were formed to work out clues in this case and sent them to neighbouring villages and police stations of Krishna District. Patrolling is being made in the village and in the neighbouring villages to boost up the morale of the public.

Matters Under Rule 329:
re: Attack by the students of Malakpet Junior College on the students of Mumtaz College

Sri K. P. Abhakara Reddy:—Mumtaz College is situated in Malakpet Colony. Asafia High School functions in a separate building within the perimeter of Mumtaz College. To the south of Mumtaz College near the entrance, the Government Junior College, Malakpet and High School are situated. Mumtaz College and the Government Junior College are separated by a compound wall.

On 7-3-1981 at about 12-00 Noon a group of Government Junior College, High School Section boys approached the main gate of Mumtaz College and got into an argument with a group of Mumtaz College boys over alleged teasing of one of the school girls. Before the two groups exchanged blows, Sri Raheem Khan, Member of the Disciplinary Committee-cum-English Lecturer of Mumtaz College intervened separated and pacified the groups.

At about 12-15 p.m. Mohammad Munnavar Ali Khan a student of B.Sc. (Final) along with Shafeez, Aziz Mohd. Khan and five other students left the College premises to have tea near the bus stop.

On the way near the shop of a milk vender about 8 to 10 persons assaulted this group with sticks and in the process, Munawar Ali

Khun, Safeez Ahmed and Aziz Mohd. Khan received minor injuries. The Mumtaz College students ran back to the College followed by the assailants.

The assailants were joined by Malakpet Junior College boys and there was free exchange of stone throwing by both the groups. The roof of Malakpet Junior College was damaged. Just then three unknown persons came in a Jawa Motor Cycle and one of them inflicted a knife injury to M.A. Hameed, a B.Sc. 1st year student on the right side of the stomach. The assailants who came on a Jawa Motor Cycle made good their escape. On information Circle Inspector of Police, Chaderghat and Asst. Commissioner of Police, Div. VII with available force and Peter VI i.e. patrolling vehicle with force mobile rushed to the spot and got the situation under control.

M.A. Hameed was rendered first aid and sent to Osmania General Hospital. All the injured, in all five were treated as out-patients. On a complaint from Sri Rahim Khan, Lecturer of Mumtaz College, a case in Cr. No. 16/81 us 147, 148, and 321 IPC was registered at Police Station Malakpet and investigation taken up by the Circle Inspector of Police, Chaderghat.

During the course of investigation, it has come to light that Brahmam, Raju, Prashant, Venkatesh, residents of Malakpet Colony and Satyanarayana, ex-student of Govt. Junior College, Malakpet, resident of Saidabad are responsible for the above offences.

They are all absconding from their residences. There is definite clue about the persons who have come on a Jawa Motor Cycle and participated in the incident. Persistent efforts are being made to trace them out and arrest them.

It is incorrect to say that the Police failed to maintain law and order as they reached the spot in time soon after receipt of information and controlled the situation. At present, one platoon of Armed reserve is posted at Mumtaz College and the local police is patrolling the area. The situation is normal.

The latest position is that three persons who came on Jawa vehicle were arrested. One Balraj is notorious person and who is involved in number of cases. Further investigation is going on.

re: Law and Order situation in Warangal Taluk due to high-handedness of arrack contractors.

Sri K. Prabhakar Reddy:— It is not a fact that the law and order situation has come to its lowest ebb in Warangal Taluk and particularly in Warangal city area due to the high-handedness of the arrack contractors of Warangal group. Some really incidents have occurred and action has been taken by the police promptly on the basis of complaints received. police to detect the illicit sellers. The contractor's men naturally held
the excise and police officials with information about illicit distillers,
in controlling sale of illicit liquor as it hampers their business. A
complaint was lodged at Mills colony Police Station on 12-9-1980 by
Smt. Zainab Bee stating that her son Shaik Hussain was missing.
A case in Cr. No. 97/80 under manmissing was registered on 12-9-80
in Mills Colony Station and investigated into. During the course
of investigation it came to light that the deceased was taken away by
the then Excise contractor's men to his arrack depot at Warangal
and was beaten up resulting in his death. So the section of law was
altered to 302 I.P.C. on 19-11-1980. However, the dead body could
not be located. As the investigation was in progress, the Crime
Branch, C.I.D. took over investigation on 6-1-1981. The C.B.C.I.D.
has made satisfactory progress in the collection of valuable evidence
in tracing the dead body of Shaik Hussain which was abandoned in
Yellandu Forest of Khammam District. All possible steps are being
taken to finalise the investigation quickly.

Regarding the murder of Sri Yadagiri it is reported that on
5-2-1981 at 1809 hours, a dead body was found by a cattle grazer
named Kusa Venkatiah aged about 8 years in the outskirts of Onti-
mamidipalli hamlet of Inavole village within the Police Station limits
of Wardhannapat about 20 K.Ms. away from Warangal. The police
patel received the information at 1300 hours on 6-2-1981. And after
verifying the presence of the dead body he reported the matter to
Wardhannapat Police Station at 1700 hours on 6-2-1981. The Sub-
Inspector of Police, Wardhannapat registered this case in crime
No. 21/81 u/s 174 Cr. P.C. and proceeded to the scene of offence.
He held inquest over the dead body on 7-2-1981. During the course
of inquest the identity of the deceased was established as Nagapuri
Pedda Yadagiri, son of Mallaiah aged about 50 years, Kalal, R/O Fort
Warangal. The deceased was known to be indulging in illicit distil-
lation. Since the deceased was in the habit of selling arrack illicitly
the blood relations and panchayatdars at inquest suspected that the
deceased might have been killed by the arrack contractor's men and
so the section of law altered to 302 I.P.C. on the same day and in-
vestigation was taken up by the Circle Inspector of Police, Mannoor
under the supervision of S.D.P.O. Warangal Rural Dr. P. Sunder,
Tuter For ensic Medicine, Kakatiya Medical College, Warangal, con-
ducted the post-mortem on 8-2-1981. The accused concerned in this
case also are not yet identified and the case is under investigation,

re: Law and order situation in Warangal taluk due to high-handedness of arrack contractors.

Sri Burra Ramulu, a known PDSU Extremist wing Organiser of Warangal organised a procession on 8-2-1981 and took the deadbody in a lorry. On the way to Fort Warangal, some of them entered into the arrack depot and assaulted one Devenra Chowdary and Seetharamaiah. On seeing them, the wardors of arrack depot came out and retaliated. Meanwhile police intervened and averted major clash. On a complaint from Deveidhan Chowdery, a case in Cr. No. 48/181 u/s 147 and 323 I.P.C. was registered at Matwada Police Station on 8-2-1981 against Burra Ramulu and 13 others. Burra Ramulu was arrested and released on bail. On a complaint given by Burra Ramulu and 2 others, a case in Cr. No. 49/81 u/s 324 read with 34 I.P.C. of Matwada Police Station was registered and investigated against the men of the licquer contractors. Out of 6 accused concerned in this case, 3 of the accused namely Maida Yadagiri Reddy, Seetaramulu and Kutumba Adinarayana were arrested on 1-3-1981 and further efforts are continued to arrest the other three also. The wound certificates in this case are received from the M.G.M. Hospital, Warangal on 20-2-1981 and the cases are being charged against the accused.

Thus, as and when complaints are received, they are being promptly registered and prompt action is also being taken to investigate and prosecute the offenders. In fact on complaints of harassment by the contractor's men during 1980, 4 cases were registered and investigated against them and two of them are pending trial in the court. Law and order is being maintained as effectively as necessary in the Town as also in the rural areas.

(1) Hon. Member: — Admitted, sir. As I said, I have already said that, the farmers are suffering from the advanceEMENT of the prices of the seeds. So many of them are thinking whether the government will take any steps to help the farmers. As we have discussed, there is an amendment to the Public Distribution System Act, and the government has agreed to fix the price of seeds at a certain level. So, I think it is a great step forward towards helping the farmers. I hope the government will continue to take such steps in the future.

(2) Hon. Member: — I would like to ask the government why don't you spend that money for some other welfare measure. As you know, there is a lot of need for welfare measures in the country. The government has already spent a lot of money on various welfare schemes. But I think there is a need for more such measures. So, I would like to suggest that you should consider some other welfare measures as well.
