THE ANDHRA PRADESH LEGISLATIVE ASSEMBLY DEBATES
OFFICIAL REPORT

Fifteenth day of the Eighth Session of the
Andhra Pradesh Legislative Assembly

ANDHRA PRADESH LEGISLATIVE ASSEMBLY

Monday the 16th March, 1981.
The House met at Nine of the Clock
(Mr. Speaker in the Chair)

ORAL ANSWERS TO QUESTIONS

Of course, we are sitting in the evening also, but unless the Members
co-operate, it will not be very easy to manage the agenda today.

Further, I want to draw the attention of the Leader of the
House that Mr. Raghava Reddy and Mr. Lakshminarayana have
brought to my notice that on 19.3.1981 the District Advisory Commi­
tee meeting is being held at Nalgonda. We have already had this
sort of understanding that the Samithi or Parishad meetings should
not be held when the House is in session. You please circulate to all
the Dist. Collectors and B.D.Os and see that they won't do it. They
can have it on Saturdays.

Sri E. Ayyapu Reddy:—I will inform the Excise Minister also.

Mr. Speaker:—L.A.Q.No. 160 is postponed at the request of
the Member.

Stopping of Supply of Molasses to Hindustan Polymers, Ltd. Vizag

(a) whether it is a fact that the Central Government have laid down the principle of supplying of 30% of Molasses to industries from the total quantity of molasses being sent by the Central Government to the State:

(b) whether it is also a fact that only 13% is being supplied to the Industries as against 30%:

(c) whether it is also a fact that the Government stopped supplying of molasses to Hindustan Polymers Ltd., Visakhapatnam for the last several months:

(d) whether it is also a fact that the Government are not issuing 'No objection Certificate' (N.O.C.) to the Hindustan Polymers Ltd., Visakhapatnam for getting molasses from Tamilnadu Madras;

(e) if so, the reasons therefor?

Minister for Excise (Sri C. Jagannadh Rao):

(a) No, sir,
(b) No, sir,
(c) No, sir. M/s Hindustan Polymers Ltd., Visakhapatnam have been allotted during the alcohol year 1980-81, a quantity of 32,000 M.Ts of molasses so far, as against their annual requirement of 44,000 M.Ts.

(d and e) M/s. Hindustan Polymers Ltd., Visakhapatnam have not applied for issue of No Objection Certificate to import molasses from Tamilnadu during the year 1980-1 and, if they apply for it, it will be issued.

In fact, Government of Tamilnadu did not release 5,000 M.Ts of Molasses allotted by the Central Govt.

Construction of Groynes for all River Channels in Srikakulam District

9523 Q.—Sarvasri M. B Parankusam (Unukuru) and S. Vijaya Rama Raju:—Will the Minister for Major Irrigation be pleased to state:

(a) whether permanent rough stone groynes have been constructed over Vamsadhara and Nagavelli rivers, in Srikakulam district;

(b) whether the Government have issued orders to construct groynes for all the river channels in the district;

(c) whether there is any proposal with the Government to construct permanent groynes at a lesser cost which could supply water without the need to construct anicut, instead of constructing new projects?

Minister for Major Irrigation (Sri G. V. Sudhaker Rao):—

(a) No, Sir. Rough Stone groynes itself is temporary structure. Anicut is only the permanent structure. Hence the question of construction of permanent rough stone groynes does not arise. However, a groyne was constructed across Vamsadhara river at the head of Bhayri channel to provide better irrigation facilities to the Anicut lands under Bhayri open head channel having an ayacut of 12,592 acres. Similarly small groynes provided on the left and right margins of Nagavelli River for marginal protection and river training purpose.

(b) No, Sir.

(c) No, Sir.
Mr. Speaker:—The Member wants to know whether the Government is aware of the fact that in the absence of groynes there is a danger of wet land being encroached upon by the river itself. So they want, as a measure of preventing the erosion of lands by the construction of groynes.
Construction of Earthen Dam on Somasila Project

178—

*7877 Q.—Sri B. Sundararami Reddy (Atmakur) :—Will the Minister for Major Irrigation be pleased to state:

(a) whether it is a fact that the construction of Earthen Dam on Somasila Project has been postponed for one year;

(b) if so, the reasons therefor; and

(c) if not, when is going to be started?

Sri G.V. Sudhaker Rao :—(a) Yes Sir, the earth dam work which was earlier proposed to be taken up in 12/80 has been postponed by one year.

(b) Due to observance of certain geological faults like deep shear zones and seams on right side hill slope, extensive treatment is found necessary to rectify the natural faults before taking up earth dam work. This treatment could be done only by end of June, 81 by which time monsoon sets in. Therefore, the original proposed programme of executing earthen dam work has to be postponed under inevitable circumstances.

(c) It is proposed to take up the earth dam work in December 1981.

Written Answers to Questions, 16th March, 1981.

6822 Q.—Sri B. Sitaramaiah:—Will the Minister for Co-operation be pleased to state:

(a) whether it is a fact that a new office building is constructed for Co-operative Central Bank, Khammam without obtaining necessary permission and technical sanction;
(b) whether it is also a fact that no technical staff supervised the construction;
(c) whether it is also a fact that Cement is purchased in black market at higher rate;
(d) whether any action has been taken against the Officer for his omissions and commissions; and
(e) if not, the reasons therefor?

A.—

(a) Proposals have been sent by the Bank for construction of an additional building and extensions to old building to Registrar of Co-operative Societies and construction was taken up without waiting for receipt of sanction. Permission was however accorded by the Registrar of Co-operative Societies later after due technical scrutiny.

(b) The building has been supervised by a private technical organisation by name City Builders, Khammam.

(c) As the construction was in progress and as there was scarcity of cement, the bank purchased cement in open market. The total extra cost incurred was Rs. 2936.40.
(d) Yes, Sir. The Secretary who was holding the post of Secretary of the bank during the period of construction was removed from the post of Secretary for the various omissions and commissions in construction.

As there was no misappropriation of funds and the irregularities committed by the ex-Secretary were with good intentions and considering the mental agony and humiliation suffered by him, he was permitted to function as Secretary (Deputy General Manager of Banking).

(c) Does not arise.

Strike by the Clerical Staff of Suryavamsi Collieries.

112—

5827 Q.—Sri Chekuri Kasaiah :—Will the Minister for Major Industries be pleased to state:

(a) whether it is a fact that the clerical staff in thousands working in Singareni Collieries group of mines went on strike on 2nd January, 1980.

(b) the reasons therefor and their demands; and

(c) the steps taken by the management and State Government to redress their grievances?

A.—

(a) Yes, Sir.

(b) The clerical staff of Singareni Collieries Company Ltd., excepting Bellampalli area, number about 1,319 out of 1,503 staged one day token strike on 2nd January, 1980.

To focus attention on the charter of demands contained in strike notice issued by the Singareni Collieries Clerical Association. The demands include formulation and implementation of Cadre Schemes, Promotional Policies and increase in allowances, etc.

(c) Association was advised not to resort to strike and await the outcome of the deliberations of the sub-committee of Joint Bipartise Committee for Coal Industry in progress, on promotional policies. The Sub-Committee comprises management and the union representatives. The recommendations of the committee are awaited.

(c) the reasons for construction of the mill with time though cement quota allotted;
(d) whether the fact has come to the notice of the Government; and
(e) if so, the action taken thereon?

A.—

(a) and (b) Yes, Sir. As against the requirements 15,575 bags (i.e. 775 M. Ts.) of cement, the Commissioner of Industries has allotted only 1,200 bags (60 M. Ts.) to Suryavamsi Spinning and Giinning Mill at Bhongir for construction of their factory building.

(c) As the construction of the factory buildings is to be completed within the time schedule, and the quantity of cement supplied to the mills is meagre to complete the construction, the Mills have utilised limemortar also for construction of all works and plastered with cement and flooring of the reeling department has been done with Shahbad stores.

(d) No, Sir.
(e) Does not arise.

Cultivation under Paradhi Anicut

114—5761-(H)-Q.—Sri V. V. Rama Rao:—Will the Minister for Minor Irrigation be pleased to state:

(a) the number of acres cultivated under Paradhi anicut;
(b) the number of acres of land cultivated under Paltheru channel and Penta channel separately;
(c) the number of sluices provided in each channel;
(d) whether any land cultivated under Penta channel without paying water cess; and
(e) the allocation made by the Government for development of the channel during 1979-80?

A.—

(a) The ayacut cultivated under Paradhi anicut in 9,068 acres.
(b) The ayacut cultivated under Paltheru channel is 3,845 acres and under Penta channel is 5,223 acres.

(c) There is one Head Sluice on right side of the anicut serving Paltheru channel with one vent of size 6'-0"X3'-3" and one head sluice on left side of the anicut serving Penta channel with two vents of size 6'-0"X3'-3".

(d) No, Sir.
(e) An amount of Rs. 12,000 has been allotted for Pattheru channel during 1979-80 and no amount was allocated to the Penta channel during the year 1979-80.

Completion of Gaddavari Yedavalli Project in Nalgonda District

6872 Q.—Sri N. Raghava Reddy.—Will the Minister for Irrigation be pleased to state:

(a) the year in which Gaddavari Yedavalli Project in Nalgonda district was completed and the expenditure incurred on it so far;

(b) the extent of land which was brought under cultivation under the said project; and

(c) the reasons for the failure to bring the proposed extent of land under cultivation?

A.—

(a) The head works and channel works of the Project were completed on 20th September, 1976 and 13th November 1977 respectively. The expenditure incurred on this project so far is Rs. 43,564 lakhs.

(b) The proposed ayacut under the project is 3,000 acres I.D. Khariff and 1,000 acres I.D. Rabi. The extent of land brought under cultivation is indicated below:

Project did not receive water during this period due to drought condition. Hence no development.

(c) Under any new project reclamation of land is the prerequisite for development of ayacut. There was progressive development of ayacut during 1977-78 and 1978-79. Due to drought condition prevailing in the area during 1979-80 and 1980-81 inflow of water was not adequate and hence there was no development of complete ayacut under the project. It will take some more time for development of the full ayacut.

re:(1) Non-supply of Tungabhadra water to Abbedoddi tank in Gooty taluk, Anantapur District.

Minister for Major Irrigation (Sri G.V. Sudhaker Rao):—

1. Sri K. Venkataramiah, MLA, has represented earlier in November 1980 to the Hon'ble Chief Minister that the people of Gooty town are suffering for want of drinking water and requested to release water to Gooty and Abbedoddi tanks from Tungabhadra High Level Canal water. Accordingly, a Radio Message was issued
Matters Under Rule 329:

re.—Non-supply of Tungabhadra Water to
Abbedoddi Tank in Gooty Taluk,
Anantapur Dist.

by the P.S. to Chief Minister on 28-11-1980 to the District Collector,
Ananthapur and Superintending Engineer, High Level Canal,
Ananthapur to release water. In pursuance of the above Radio Message,
water was released to Gooty and Abbedoddi tanks of Anantapur
District by the Executive Engineer, Guntakal Branch Canal, Guntakal from High Level Canal.

2. It may however be stated that Gooty and Abbedoddi
tanks are not eligible to receive water from the High Level Canal
system and hence these two tanks cannot be fed either for drinking
water or for irrigation purpose on a permanent measure. Water was
being released at times of dire necessity by Government in the past,
depending upon the availability of water.

3. Generally, the water available is adequate only for the area
localised under the HLC system, and due to severe drought this year,
there is no extra water to feed the tanks. The change of water being
wasted under TBHLC is not correct. In fact, for the legitimate ay cut
under Mylavaram and Pullivendla Branch Canal, water could not be
supplied fully during this season. Even otherwise, it is impossible to
give water to these tanks, even in normal years because they are at
the tail-end of the distributaries. The discharge in the left side distribu-
tory of the Gooty Sub-branch channel is only 25 c/s and there is
4,000 acres I.D. under this distributory. The ayacut under Gooty
and Abbedoddi tanks is 1100 acres Wet. It is not possible to feed
the entire ay cut of 4000 acres ID localised under the HLC system
and the ayacut of 1100 acres Wet under the two tanks simultaneously.

4. The canals have been excavated as designed in the HLC
scheme. The question of widening and lining of canals to increase the
discharge to feed the above tanks does not arise unless there is addi-
tional availability of water. There is no sub-division sanctioned for
investigation for remodelling of canals, investigation and execution
can be thought of only if water is available.

5. In view of the position explained above, it is not possible
to feed the ayacut under the above two tanks with Tungabhadra High
Level Canal water.

delegates decided to travel to Visakhapatnam without tickets, checking was organised at Yellamanchili, Anakpalli, Duvvada and Waltair Railway Stations with the assistance of Railway authorities. The Government Railway Police and the local Police were deputed to assist the railway authorities in the checking of the tickets.

On 28-2-1981, about 275 delegates were detained for ticket-less travel at Yellamanchili Railway Station, and on seeing this, many delegates got down on the off side of the train to escape. At about 10.00 p.m. when the East Coast Express was about to leave Yellamanchili Railway Station, delegates who had got down on the off side, tried to get back into the train. At about the same time, Puri-Tirupathi Express was arriving at Yellamanchili Railway station. Sri Sambaiah, aged 25 years, a resident of Mogilicheh of Warangal Taluk, Warangal District, slipped and fell down accidentally while getting into the moving train with the result his leg came under the Puri-Tirupathi Express and his right leg was cut up to about the middle of his thigh. He was then immediately taken to the K.G. Hospital in a Police Vehicle. By the time injured Sri Sambaiah reached the K.G. Hospital, Visakhapatnam, he succumbed to the injury.

A case in crime No.87/81 u/s 174 Cr.P.C. was registered at I town Police Station, Visakhapatnam. During the inquest on 1-3-81 the brother-in-law of the deceased and three friends who travelled in the same compartment were examined and they did not allege lathi-charge by the police. Except for an abrasion on the right eye and sevemg of the right leg, no other injuries were found on the body of the deceased. The injury on the right eye was due to fall on the track. The Professor of Forensic Medicine, Andhra Medical College, Visakhapatnam, who conducted autopsy opmed that the deceased would appear to have died of haemorrhage and shock due to traumatic amputation of the right thigh. On point of jurisdiction the case was transferred to Railway Police and it was registered as Cr. No. 43181 u/s 174 Cr. P. C.

After the post mortem the dead body was sent in a police van under the police escort to the native village of the deceased. The brother-in-law of the deceased, Sri K. Sadanandam and three other friends accompanied the body to the village. The allegation that the passengers were lathi-charged inside the compartment is found to be incorrect.

Matters under Rule 329:

re: Mosquito menace in the Twin-Cities of Hyderabad and Secunderabad.

(4) 

Cultivation of grass along the banks of River Musi and other nalas has been going on utilising the sewage water. It has been observed that people are utilising river bed properly for cultivation of grass by bunding. Thus, the area of unauthorised cultivation of grass has been steadily increasing from year to year creating more problems of mosquito menace. In addition to this, cultivation of grass is carried out throughout the year in the bed of the Mirjumla Tank and also along various nalas and several areas within the twin cities. The treatment of cultivated areas is not possible due to inaccessibility and resistance by the cultivators. The Collectors of Hyderabad and Rangareddy Districts have been addressed by the Special Officer, Municipal Corporation of Hyderabad for taking urgent steps for the stoppage of wet cultivation within the Municipal limits including the River Musi and various nalas. It is felt desirable that the Government may be pleased to take effective action for banning wet cultivation within the Municipal limits of Hyderabad and Secunderabad for the effective control of mosquito menace.

Apart from that Water Hyacinth plant in Hussain Sagar lake has grown extensively, thereby creating favourable conditions for the mosquito breeding and its survival. I have told it in the Council that we are trying to remove it.
Matters Under Rule 329:

re: Mosquito menace in the Twin-Cities of Hyderabad and Secunderabad.

16th March, 1981.

Surely, I have reason to believe that there is a widespread feeling among the Members of the need for action to check the menace of mosquitoes in the Twin-Cities of Hyderabad and Secunderabad. I have already drawn the attention of the Members to the seriousness of the problem and the urgent need for measures to be taken to alleviate it.

It is a well-known fact that mosquitoes are carriers of diseases and that their eradication is a matter of great public health importance. The Twin-Cities are no exception to this rule. The problem of mosquitoes is particularly acute in the Twin-Cities, where the climate is conducive to their breeding.

I would seek the co-operation of the Members in this matter and I am confident that with their support, we can take effective steps to control the menace of mosquitoes in the Twin-Cities.

All these reasons are there. I would seek the co-operation of the Members.

Calling Attention to Matters of Urgent Public Importance:

re: Construction of houses for Legislators at Jubilee Hills.

Sri G.V. Sudhakar Rao:—In view of the diminution of supplies in the Pennar river and due to drought conditions in Rayalaseema and possible withering of crops in Nellore delta, intensive efforts have been made by Andhra Pradesh Government and the Government of Karnataka were requested to release additional waters into the Thungabhadra river from the Thungabhadra Dam for sending down to Nellore Delta.

The actual requirement of water for crops under Kurnool Cuddapah canal is 2100 cusecs including river flows. A total quantity of 3300 cusecs is realised at Sunkesula anicut due to additional drawal of 2300 cusecs water from Thungabhadra Dam and after allowing the required quantity of 2100 cusecs for Kurnool Cuddapah canal ayacut by suitably regulating the sluices, a quantity of 1100 cusecs is being let out at Adinimmayapalli anicut for supplies to Nellore Delta. The crops under Kurnool Cuddapah Canal are not withering away. It is also reported that there is local rain in the ayacut of Kurnool Cuddapah Canal on 11-3-1981. It is also to be specifically mentioned that the Kurnool Cuddapah Canal is drawing the required legitimate discharges from the Thungabhadra Dam and river regeneration. It is to be stated here that there is considerable unauthorised irrigation and that too of wet nature which is creating enormous problems of water control.

re: Construction of houses for Legislators at Jubilee Hills.

This matter received the attention of this House on 16th March, 1981. Calling Attention to
Matters of Urgent Public Importance.

1. The matter was referred to the Committee and
the report was laid on the table of the House.

2. The Committee, after careful consideration,
reported that the construction of houses for
Legislators at Jubilee Hills was to be completed
by 1979. However, the work was delayed and
the houses were not completed until 1980.

3. The Committee also reported that the
cost of construction was higher than the
estimated cost. The reasons for the increase
in cost were explained.

4. The Committee recommended that the
delay in the completion of the houses
should be remedied and the cost should be
controlled.

5. The House accepted the recommendations
of the Committee and directed the
Government to take necessary steps to
complete the construction of the houses
within the specified time and within the
estimated cost.

re: Construction of houses for Legislators at Jubilee Hills.

B. J., Member: Attention is invited to the urgent matter of the construction of houses for Legislators at Jubilee Hills, which has been going on for some time. It is therefore important that the construction work be expedited and completed without any further delay.

The matter has been brought to the attention of the Ministry, and it is requested that the necessary steps be taken to ensure that the work is carried out in a timely manner.

Yours sincerely,

re: Non-release of Thungabhadra Water to the Pennar/Kanigiri Reservoir.

Sri G. V. Sudhakar Rao:—Mr. Speaker Sir, As a result of the special efforts made by the Principal Secretary, Irrigation and Power and Chief Engineer, Major Irrigation and General, Andhra Pradesh additional waters are being supplied to the Pennar delta has been got through the Tungabhadra Reservoir from 28-2-1981 to supply to Pennar Delta ayacut and improve the conditions for drinking water to the villages. Additional water from Tungabhadra River is being drawn into K.C. Canal at the rate of 2,820 cusecs from 2-3-1981 at Tungabhadra Dam. This becomes 2,300 cusecs at Sunkesla due to river regeneration. While the actual entitlement of the K.C. Canal is only 17,000 cusecs, actual requirement is 21,000 cusecs including river regeneration. Additional water of thousand cusecs were into the Pennar River at Adinimmayapalli ayacut to the Kondu River from 7-3-1981.

Instructions were given to the Executive Engineer, Kurnool Division, Nandyal who is incharge of the K.C. Canal system to let out water into Pennar river on top priority by preventing wasteful withdrawals in K.C. Canal. The Superintending Engineer, Irrigation Circle, Chittoor has also been instructed to take all precautionary measures to prevent any unauthorised drawal of water en route.

The subject was disussed by the Principal Secretary, Irrigation and Power, Chief Engineer, Major Irrigation and General. Andhra Pradesh is the Chairman and the Secretary and other Officers of the Tungabhadra Board met on 9-3-1981 at Hyderabad, and it was agreed to continue release of additional waters to Pennar delta through the K.C. Canal at the rate of thousand cusecs upto 18-3-1981.

The Water released into the Pennar river has been absorbed by the dry river bed and farmers have also drawn some water, and with great difficulty some water is allowed into Somasila project upto 15-3-1981 afternoon. Additional water being released from Tungabhadra reservoir upto 18-3-1981 is included the supply of water at Nellore Anicut upto 26-3-1981. By releasing additional waters from Tungabhadra Reservoir into Pennar River, it is hoped that the ayacut under Pennar Delta which is suffering will be benefited to a large extent, while at the same time providing water for domestic use along the river.
I have the latest information Sir. The following is the latest information further received from the Chief Engineer, Major Irrigation and General who is camping at Cuddapah late in the night which is given below as supplementary statement on the issue:

During the investigation of the Chief Engineer, Major Irrigation and General at Kurnool Cuddapah Canal for about a length of 15 miles of K. C. Canal tail end, with a view to gather more information regarding additional supply of water to Nellore delta, it is observed that a quantity of about 700 to 900 cusecs is being left in Koonur river from Rajoli anicut and a quantity of 700 cusecs is released at Adimmayapalli let out into the Pennar for the last 3 days from 12-3-1981. More supplies could not be released due to the following reasons: (1) Unauthorised ayacut of 25,000 under K. C. Canal, 10,000 in Kurnool District and 15,000 in Cuddapah district; (2) 246 numbers unauthorised pumpsets are working along the Pennar river beyond Rajoli Anicut (3) it is taking a longer time for the water to travel in to Pennar river than anticipated due to dry sandi bed. As the information so far the water raised 16 miles below the dam and it is expected to reach Sangam anicut by 16-3-1981 noon.

Water released earlier 203 to 300 cusecs were travelling very slow due to absorption by sandy river bed.

The Chief Engineer has reported that an extent of 43,000 acres required water supply by the end of February 1981 to save the standing crop. This is the statement given by the Hon'ble Minister. And now, the end of February has gone and now it is 16th March 1981.

re: Non-release of Thungabhadra Water to the Pennar/Kanigiri Reservoir.

Still the Government has not supplied and it is the responsibility of the Government to pay for the damages. I want to finally bring it to the notice of the Minister and request to announce now for the damages accrued to the ryots will be paid by the Government.

2. The Government of India have introduced National Rural Employment Programme from December, 1980 onwards replacing Food for Work Programme. Under N.R.E.P., the Government of India will provide cash-assistance to meet wage component and material component in addition to the supply of foodgrains. This programme has been included in the Sixth Five Year Plan. The Government of India have allotted 42,000 MTs. of common rice and Rs. 236.50 lakhs towards wage component and Rs. 739.00 lakhs towards material
Calling Attention to Matters of Urgent Public Importance:

re: Non-payment of bills to the contractors under Food For Work Programme.

component. Under the guidelines of N.R.E.P., the resources received from the Government of India have to be allotted to the Districts, based on population giving weightage of 75% to marginal farmers and agricultural labourers and 25% to incidence of poverty. Considering the severe drought conditions in 14 districts of this state, the State Government have decided that the entire quantity of foodgrains and wage-component received under N.R.E.P. may be allotted to these districts. Accordingly, they have been allotted to 14 districts. The material component received from the Government of India has however been allotted to all the districts as the Government of India have no objection to utilize this amount on the on-going works taken up under Food for Work Programme. Annexure I will indicate the district-wise allotment of the resources received from Government of India under N.R.E.P. during 80-81. Anticipating that the releases of foodgrains would continue during 1980-81 as in the previous years, the State Government have put on ground a large number of works under Food for Work Programme. But the Government of India have released only 63,000 M.Ts. during 1980-81.

In the original guidelines issued by the Government of India under Food for Work Programme, there was no stipulation prohibiting the engagement of contractors in the execution of works. As such contractors were engaged for execution of works under Food for Work Programme as in the case of other works. In March, 1979, the Government of India have issued instruction to the State Governments for stopping the practice of engaging contractors in the execution of works under Food for Work Programme. These instructions were received by the State Government in May, 1979. By that time, a large number of works were already put on ground duly entering into agreement with the contractors. Thus, the contractors could not be eliminated due to contractual obligations, as any contrary move would have resulted in litigation. The Bills of the contractors to the extent of foodgrains received i.e., 63,000 M.Ts. (valued about Rs. 976.50 lakhs) under Food for work Programme during 1980-81 were settled. The balance work carried out by the contractors could not be paid as the foodgrains received from the Government of India were not sufficient enough to settle the Bills. The Chief Engineer (Panchayati Raj) has reported that the value of work done by the contractors but not paid works out of Rs. 903.44 lakhs. Thus an amount of Rs. 903.44 lakhs is yet to be paid to the contractors engaged under Food for Work Programme but not Rs. 80.00 crores as referred to in the Call Attention Notice No. 84. A statement showing district-wise break-up of the pending bills is in Annexure II. The list of pending bills in respect of Vizianagaram, Divi and Huzurabad taluks referred to in C.A. Notice No. 106 is furnished in Annexure-I/I.

[Text in Telugu]
4 00 p.m. Sri Gulum Sam da (Bodhan) : Sir, the Demands of Social Welfare; Women & Child Welfare & Tribal Welfare departments are before the House. Preparation of the Budget is a difficult task and allocation of funds to different branches is more difficult than that. As far as the allocation of the budget is concerned, it has to be done, generally keeping in view the needs of the population of that particular area. As far as the needs of the population is concerned the allocation justifies to some extent but when we take the needs of the particular area or district, we feel that the allocation made in these demands is not sufficient. With regard to the Demands of Social Welfare Department, there are certain facts which need consideration. The Hostels are there in all places, but if you take into consideration the needs of the population, we feel that the number of hostels are not sufficient. Apart from that we require buildings for hostels and in this particular item, my suggestion is the construction should be taken up immediately. It is not being done immediately, since in the first stage, the sanction would be made and it would take about 2 to 3 years to start the work. Navipet is in my constituency in Nizambad district. For example, the S.C. Hostel was sanctioned in the year 1978 and in spite of several continuous representations, still it is at the stage of fixing doors and windows etc., The compound wall is also not there. I think that building is in that condition since one year. When a representation was made regarding this, they said that they did not have sufficient funds.

In this connection my suggestion is - whenever a particular building has to be sanctioned, the entire required amount has to be allocated so that the construction would be completed with a particular year or time-bound period.

Apart from this, the Plans of the hostel buildings meant for B.Cs., S.Cs., and S.Ts., are not up to the mark. Because in most of the hostels in Nizambad district, as I have seen, the kitchen room and the other store-rooms are attached to the same building, wherein, the students read and sleep. So, I suggest to the concerned Minister for keeping the kitchen and store rooms away in subsequent plans.

Regarding the Social Welfare Department, there are other activities like, Housing scheme for Weaker Sections, etc., Particularly I have also come from a minority community. There are Corporations for S.Cs., S.Ts., and B.Cs., but there is no Finance Corporation for Minority Communities. Though our Chief Minister on more than one occasion said and we have read in the Newspapers that he has
Annual Financial Statement (Budget)  

for 1981-82: 

Demands for Grants.

assured that a Finance Corporation would be created to safeguard the rights and to uplift the minorities, but so far nothing has been done in this respect. So, as far as the Housing Scheme for the weaker sections is concerned, the Social Welfare Department can serve the best purpose for the minority community also.

Regarding this, Rs. 8.00 crores were allocated last year i.e. for 1980-81 but as per the performance notes of the Budget, it appears that the amount has not been spent. With your permission let me read out those few lines.

"For the year 1980-81, the sum of Rs. 800 lakhs were allotted for land acquisition for house-sites and was released to the districts. During the current year i.e., up to the end of December, 80, 1,251.86 acres of private land was acquired. In addition, 212.72 acres of Government land was also assigned for house-sites. That is, up to 31-12-1980, 3,698 families were given Government land and 21,329 families were given private land. In all, 25,027 families were provided house-sites. Large number of proposals for house-sites are at final stages at all the districts.

What I am trying to point out is that in spite of allocation of Rs. 8.00 acres, the amount has not been spent except to the extent of only Rs. 124.84 lakhs i.e., till December 1980. My point is that Nizamabad is at the border of Maharashtra and so large number of weaker-section people are residing there. Moreover, two land acquisition proceedings are pending in my Constituency; one is at Achampally which is within the municipal limits and another is at A.R.P. Camp. Regarding this, my suggestion is that as last year this amount could not be spent, at least this year the amount which has been allotted should be spent on the weaker section Housing Scheme or for House-sites.

About old age pension an amount of Rs. 346 lakhs has been allocated and this is quite insufficient. This amount has to be increased because now-a-days, in the minority community also there are number of persons who are eligible for Old Age Pension and also for other disabilities. Regarding the mode of payment also I wanted to mention that it is very important. Previously the amount to the Old Age Pensioners were being paid through Post-offices but I am given to understand that hereafter they would not disburse through Post-offices as they have shown their disability for that. So, if the mode of payment is modified that will be inconvenient for the pensioners to receive their amount.

The last point is that there must be involvement of voluntary organisations in respect of Social Welfare activities. There is a mention in the Budget that about Rs. 5.00 lakhs have been earmarked for
the assistance of the voluntary organisations. This amount is also not sufficient in view of the number of districts we are having in our State. I also submit that as far as the minority Community is concerned they should be given chance not only for house sites but also other facilities which are being given by the Social Welfare Department such as admission into the hostels and also other assistance which is being given by the Social Welfare Department.
