<td>The Watchman's Room referred to by the One Man Committee is the one, which is adjacent to the Gate of the Wood Working Plant at Fathenagar. It has been reported by the Andhra Pradesh Housing Board that the Chief Engineer of the Board had inspected the room in question on 3–2–1981 and found that the Cantilever projection was not laid properly. He instructed the then Regional Housing Engineer, North to get the defective projection dismantled and re-laid properly. The re-casting work was going on at the time of the visit of the One Man Committee. The defective Cantilever has since been completely rectified at the cost of the Contractor.</td>

main cause for the collapsing of the balcony at Fathenagar Colony. Several defects were noticed in the construction of houses.

was requested to fix the responsibility for the defects pointed out by the One Man Committee and take appropriate action against the persons responsible.

The Andhra Pradesh Housing Board has found that the initial responsibility for wrong placing of reinforcement rests with the Contractor. Sri. G. Chandraiah, Junior Housing Engineer of the Andhra Pradesh Housing Board who was incharge of the supervision and who recorded measurements for the steel of this work was found responsible for not detecting this defect.

Sri. Ch. Ramchander, District Housing Engineer (Assistant Engineer of the R & B on deputation to Andhra Pradesh Housing Board) who check measured the measurements recorded by the Junior Housing Engineer Sri. Chandriaiah was also found responsible for this lapse. Sri. Chandraiah was suspended and reinstated on the orders of the Tribunal later Disciplinary action has been initiated against Sri. Chandriaiah, the then Junior Housing Engineer and a charge Memo has been served on him. Further action will be taken on receipt of his explanation. So far as Sri Ramchander is concerned, as he had already been repatriated even before the collapse of balcony, to his parent Department namely R&B

The chief Engineer R & B (Administration) has been requested to take disciplinary action against him as required under the rules. As regards access to Overhead tanks, it may be stated
1. 8.1.3 The Housing Board resorted to plumbing with P. V. C. pipes to bring down the cost. Lack of consumer acceptance coupled with easy vulnerability of these pipes and the absence of repair facility resulted in poor maintenance and consequent leakages and that the fact that most of the occupants are not the Allottees had also contributed to poor maintenance.

4. 8.1.4 The overhead tank could have been avoided in view of the good water pressure. Direct Taps could not be given. Sir. B. V. Subba Rao, Executive Engineer, from Roads & Buildings Depart-

that stair cases were provided in L.I.G. & M.I.G. houses. Staircases been avoided in the interests of economy. For E.W.S. houses have Direct water taps have since been provided for all the houses.

So far as the use of P. V. C. pipes is concerned, these pipes were used as a measure of general economy. The Andhra Pradesh Housing Board has since replaced all the P. V. C. pipes by G. I. pipes.

The Public Health & Municipal Engineering Department too, which had gone in for P. V. C. pipes for water mains have replaced the P. V. C. pipes by A. C. pressure pipes.

As regards the poor maintenance of the houses by the Occupants, it may be stated that in terms of the Lease—Cum—Sale Agreements entered into by the Allottees with the Andhra Pradesh Housing Board, the Allottees are responsible for maintenance and up-keep of the houses.

As pointed out by the One Man Committee, the supply of water for these houses was limited to only half an hour in a day. In order to guard against any failure in the supply of water from the Water Works mains and also to ensure sufficient storage of water for domestic needs, overhead tanks were provided for all the houses constructed in the first phase. As the Allottees demanded
ment seems responsible for this wasteful pailing device.

That the doors were found fragile and had come off in many buildings. That lime mortar was of poor quality. That the basement of certain houses was below the road level and that the sun shades of the stair case of Flat Nos 348 and 343 had fallen much earlier and it had been redone without anything on record.

The One Man Committee has pointed out that the quality of work in second phase was better than that of First phase and the quality of work in third phase was still better. For the first phase houses single leaf Asbestos shutters fixed in wooden frames was specified as Doors for the Bath & W. C. and the staircase room, only as a measure of economy. This resulted in the damage of the shutters of the staircase room on the terrace which was exposed to wind action. In order to improve the situation, the staircase rooms of the houses of second and third phase were fitted with teak wood doors in the subsequent phases.

As regards poor quality of lime mortar, wherever defects were noticed rectifications were carried out at the Contractor's cost.

Regarding the basements of certain houses being below the road level, it may be stated that low basements were adopted as a measure of economy and added to this, the local Gram Panchayat...
That by the side of the Colony road in Fathenagar, Shops have been built taking full advantage of the development of the area, without any contribution to the Development by the beneficiaries.

went on spreading gravel on the roads, which increased the height of the roads, resulting in basements becoming lower than the road level. This is not only a case of bad planning but also one of lack of co-ordination between the Housing Board and the Gram Panchayat. The present situation is that the relative higher level of the roads is since reduced except in the case of one block for which side drains have been provided.

Regarding the sun-shades of the staircase of Flats 348 and 343 falling much earlier it is a normal practice to get the defects rectified by the Contractors at their own cost. No record need be kept for such rectifications which are done by the Contractors.

According to Section 41 of the Andhra Pradesh Housing Board Act, when by the making of a housing scheme, any land in the area comprised in the Scheme, will in the opinion of the Board be increased in value, the Board in framing the scheme may declare that betterment charges shall be payable by the owners of the land.

In the case referred to by the One Man Committee the Shops have been built outside the area of the Housing Scheme by private parties. The Board considers that the above provisions are not applicable in the case referred to by the One Man Committee. The matter is however being examined in consultation with the Law Department.
7. 8.1.12 That the Mortar proportion used for compound wall of M.I.G. building was of low proportion and that the drains provided for storm water were built with flat bottom and so were silting up.

The One Man Committee has observed that a sample of the mortar taken from the 7th M.I.G. H. showed better proportion than the 5th M.I.G.H. house. The One Man Committee has also observed that the Contractor admitted that the mix used was of low proportion. The final bills of this Contractor have not yet been paid. Necessary cut will be imposed in the concerned rates while paying the final bills.

Regarding the Storm water drains, it may be stated that this is an open drain and the debris which spilled from the sides caused the silting. This has since been cleared up and free flow is being maintained. There is proper fall also in the levels.

8. 8.2.5 That heavy shortages upto 15 Kgs. in each cement bag stored in Housing Board Godown, were reported to the Committee during the visit of the Committee to the Kukatpally.

The One Man Committee has not specified who reported the shortage in cement bags and in what case and whether they were based on actual weighments. During storage and re-handling there are bound to be some shortages. But no facts of heavy shortages ever came to the notice of the A. P. Housing Board.

9. 8.3 Non Plywood shutters at Baghlingampally for windows and doors were of poor quality timber.

The One Man Committee has observed that while general quality of construction appears to be fair, plywood shutters were however being used in positions exposed to rains and for bath rooms and where non plywood shutters have been used for windows or doors they were of poor quality timber.
10.  9  That the test conducted by the Andhra Pradesh Engineering Research Laboratory of samples given revealed certain defects in the lime mortar and cement mortar and that the analysis of the results indicated in all most all cases the percentage of cement was less than the specified quantum at Fathenagar colony.

11. 11.12 That the Assistant Engineers, Sri Ramchander and Junior Housing Engineer Sri Chandraiah and the Contractor wanted to carry out the repairs in secrecy in regard to the collapsed Balcony.

12. 11.6 That Sri Chandraiah has tampered the measurement Book entries Replacement have been carried out wherever the quality of timber is found to be poor. The Board is now avoiding the use of plywood shutters for bath rooms.

The defects in the plastering have been attended to at the cost of the Contractors concerned. In Phase I, II and III plastering with cement mortar 1:6 instead of Lime Mortar has been appreciated by the Committee. A Quality Control Cell has also been set up to ensure that such defective work is not allowed. Wherever less proportion of cement mortar has been obtained, suitable cut will be imposed in the final bills.

There was no attempt to carry out the repairs in secrecy. However repairs were sought to be carried out discretely to avoid public outrage.

On verification of entries at Lines 7 to 12 on Page 4 of Measurement Book No. 241/RHE/CR of 1979, it is seen that only
to escape the consequences of his negligence in regard the collapse of Balcony.

13. 11.18 That Sri Appa Rao Regional Housing Engineer failed to provide reinforcement drawing and the effective overall supervision and that he may be reverted to R&B Department.

14. 11.19 That Sri Gurudatta Reddy Contractor did not engage a qualified Engineer, that the Contractor must take the blame for the collapse of Balcony along with other Engineers.

the order of recording is different, namely First Floor Balcony being recorded after Ground Floor, but there is no evidence of tampering in the lines 9 and 12 concerned with the Balcony. In some other cases also, the measurements were recorded in this fashion. The recording in this case was not unique. Hence it cannot be considered that there was any tampering calling for any action.

Since the recommendation of the Committee is to revert him to R&B Department Sri. M.P. Appa Rao has since been repatriated to his parent Department namely the R&B Department on 31-5-1981. He was also warned to be more careful.

Sri. Gurudatta Reddy was not awarded any work by the A. P. Housing Board after the collapse of the balcony i.e. during the past 18 months. Sri Gurudatta Reddy however submitted a tender for one group of houses in a group of 8 called by the A. P. Housing Board in connection with Construction of houses under self financing schemes in Baghlingampally. As the estimated cost of each of these 8 groups was more than Rs. 15.00 lakhs the tenders were referred to the Government for their previous sanction before the work was awarded. The matter was examined by the
15. 13.2.1 That the Design Organisation of Housing Board is weak in the
13.2.2. Fathenagar Colony that the Subordinate Engineering Staff incharge of works collect the information regarding approved design and communicate it to the Contractor from time to time as works progress and that there is often delay in this the Board may adopt the Indian Standard Code for Architectural Building Design and working Drawings.

16. 13.4.1 That the A.P.W.D. Code is adopted for inviting tenders that a tender Committee be constituted and the present policy of calling tenders be reviewed etc.,

The One Man Committee has observed that the A.P.W.D. Code is adopted for inviting tenders that tender notices were published in Newspapers giving one Month’s notice and that the agreements for works entrusted to the contractors have been on the whole well provided in conformity with the APDSS and no irregularities

Government and only 7 tenders excluding that of Sri. Gurudatta Reddy were sanctioned by the Government Sri Gurudatta Reddy’s tender was subsequently cancelled.

The Board has since submitted proposals to the Government for the creation of a post of Designs Engineer of the rank of Executive Engineer with supporting staff. The proposals of the Housing Board are under the consideration of the Government.
13.4.5 It would be advisable for the Board to lay the Roads and provide water and power facilities before inviting tenders.

13.4.6 The Chief Engineer of the A.P. Housing Board is competent to accept tenders up to 15% excess over the sanctioned estimates up to a contract value of Rs. 15 lakhs. In all other cases where the tenders are in excess of 15% or the value of the contract is more than Rs. 15 lakhs, the tenders are placed before the Board for approval.

13.4.7 Under the existing provisions of the A.P. Housing Board Act, no contract involving an expenditure of Rs. 15 lakhs and more shall be made without the previous sanction of the Government. The question of enhancing this limit of Rs. 15 lakhs is under the consideration of the Government. A Bill to amend the A.P. Housing Board Act with certain other amendments also will be brought before the Legislature as early as possible.

13.4.8 In this connection, it may be pointed out that in the other Engineering Departments of the Government, a High Power Tender Committee consisting of the concerned Chief Engineer, a representative of the Finance Department and a Chief Engineer of a sister engineering Department exists to finally dispose of the tender, without reference to the Government, in case where the tender excess is exceeds the powers of the Chief Engineer.
17. 13.5 That the present system of supply of cement needs to be reconsidered.

18. 13.6.5 That the Chief Engineer be made Member of the Board and associated with the decision making of the Board.

19. 16.1 That the Allottees in Fateh Nagar Colony are not occupants by and 

The question of constituting similar Committee for the A. P. Housing Board is also under contemplation.

As regards laying of roads etc before inviting tenders, it may be stated that during the construction period there will be heavy movement of traffic for conveying building materials. This will result in damage to roads and water supply lines.

However road formation is being done to the extent of earth work and gravel base, even before the tenders are settled for Civil work.

The system of indenting for cement and the maintenance of cement Godowns and issue of cement for work have been completely over hauled and comprehensive instructions have been issued by the Vice Chairman and Housing Commissioner with a view to streamline and check the issue and consumption of cement at site and stores at all levels with double check and double locking system etc. to avoid pilferage.

It has been decided to include the Chief Engineer on the Board. Necessary amendments in the A. P. Housing Board Act will be brought before the Legislature shortly.

The Vice Chairman & Housing Commissioner of the A. P. Housing Board is taking torrent action against all the Allottees
large and no action has been taken to set right the situation and that the Government should give instructions for demolition of unauthorised construction and removal of illegal occupations.

20. 16.3 That there has been unfair interference from Government as pointed out by the Chairman.

found guilty of sub letting the premises without prior permission of the AP Housing Board and that the illegal occupants should be evicted. The AP Housing Board has issued notices for eviction of encroachments.

The One Man Enquiry Committee has observed that there is unfair interference from the Government, that the Government have been issuing directions without any serious thought as to their validity, that power can be exercised only in furtherance of the purposes of the Housing Board Act and then the Board has to receive an opportunity to state objections if any. The One Man Enquiry Committee has also cited the following three instances of interference by the Government:

i) Illegal encroachment of the land at Mallepally adjacent to the Taj Mahal Talkies;

ii) Lease of land acquired by the A P, Housing Board at Mahboob Mansion to the Agricultural Marketing Committee, and

iii) Sale of 4 1/2 acres of land to Peoples Coop, House Building Society.
Item (i) above: The One Man Committee's observation is that on the eve of demolition of these encroachments, there was interference at the top level and the police withheld assistance to the A. P. Housing Board for demolition. The A. P. Housing Board took up the question of demolition of encroachments with the M. C. H. The Board and the Corporation planned the demolition for 5-8-1980 and sought police assistance. The police could not provide the assistance for demolition of the encroachments on 5-8-1980, as the Police were engaged in dealing with Communal disturbances at that time. Subsequently the Municipal Corporation of Hyderabad did not pursue the matter with the Police. The Special Officer, MCH has been asked to obtain the explanations of the concerned Officers and submit them to the Government as the responsibility for removal of unauthorised constructions is that of the M. C. H. The explanations are awaited.

Item (ii) above: A comprehensive Housing cum Marketing Complex was planned to be located at the site of Mahboob Mansion acquired by the A. P. Housing Board. The Housing Board was therefore asked to work out the Board's requirements of land for the purpose of housing part of the complex and work out the excess land also. The Board reported that it had planned to utilise about 2 acres for Housing Complex and that the remaining land was surplus
for them. It was therefore decided that the surplus land be leased by the Board to the Agriculture Marketing Committee, Hyderabad for 99 years for purposes of developing as a Commercial Complex. Item (iii) above. The President, Peoples Coop. House Building Society, Chikkadpally, Hyderabad submitted representations to the Government requesting release of 4 1/2 acres out of 53 acres of land, at Baghlingampally acquired by the A. P. Housing Board, The President of the Society also represented that the said Society had entered into an agreement to purchase the land for construction of houses for its house-less members, a purpose similar to the one for which the Housing Board acquired the land. The owners of the land measuring 4 1/2 acres took physical possession of the said land in pursuance of the High Court's Orders from the Receiver cum Commissioner appointed by the High Court and M. C. H. has also approved the layout of the Cooperative Society on the said land. Considering the above factors and that the said Peoples House Building Society serves the same purpose as that of the A. P. Housing Board, the Government considered it appropriate that the Board sold the said piece of land to the said Housing Coop. Society. The A. P. Housing Board was accordingly given a notice under Section 79 (1) of the A. P. Housing Board Act, 1956 and after considering the reply given by the Board, finally orders were passed directing the Board to reconvey the land to the Society.
21. 16.6 That the Chief Accounts Officer could play the Financial Adviser if a separate post of Financial Adviser could not be created.

The One Man Committee has observed that there is no Financial Scrutiny as such before the Housing Schemes are approved and that the Chief Accounts Officer can play as Financial Adviser, if a separate Financial Adviser could not be created. There is at present a Chief Accounts Officer with supporting staff in the AP Housing Board. They are charged with the task of maintaining accounts of the Board and monitoring the progress of expenditure. They have no say in the Financial scrutiny of the Housing Schemes formulated by the Board. This does not mean that there is no financial scrutiny of the schemes. This work is being attended to by the HUDCO Cell in the Chief Engineer’s Office of the AP Housing Board in conjunction with the Project Co-ordinator A.P. Housing Board. There is, therefore, no necessity for the Chief Accounts Officer to undertake any financial scrutiny of the Housing Schemes. Also the HUDCO itself subjects the Housing Board’s Schemes to detailed financial scrutiny.

22. 16.7 The Tamilnadu Procedure may be adopted for scrutiny of housing Scheme.

The existing system of holding weekly Co-ordination Meeting by the Vice Chairman with Heads of Departments Viz. Chief Engineer, Secretary, Chief Accounts Officer, Estate Officer, Project Co-Ordinator, Law Officer is achieving better results than Tamilnadu pattern.
23. 16 8 Officers without adequate qualifications and willingness are taken on deputation and that Assistant Engineers with less service in the Housing Board have already become Executive Engineers.

24. 16.10 Betterment charges should be levied where a Housing Scheme results in appreciation of value of a land adjoining to the area covered by the Scheme.

It has been decided that the post of Chief and Superintending Engineers may be thrown open for being filled-in from the open-market and that the recruitment from the open market should be for a tenure. The AP Housing Board is working out the details of this system.

In the first instance appointment to the posts of Designs Engineer, Architect-cum-Town Planner and Asst. Architect-Cum. Town Planners will be made after Advertisement in market.

According to Section 41 of the A. P. Housing Board Act when by the making of a Housing-Scheme any land in the area comprised in the scheme will in the opinion of the Board be increased in value, the Board in framing the scheme may declare that betterment charges shall be payable by the owner of the land or any person having an interest therein, in respect of the increase in value of the land from the execution of the scheme.

According to the above provisions, betterment charges are liable on owners of land in an area comprised in a housing scheme. The recommendations of the One Man Committee is that betterment charges should be levied in respect of the areas adjoining the areas covered by a Housing Scheme. The legal implications of this recommendation are being examined.
Mr. Deputy Speaker: No, no. I cannot allow now. You might give it in writing and then I will consider.

Sri M. Venkaiah Naidu:— The Minister is ready to answer any question that will be put to him.
Sri B. Seshasayana Reddy:- It is not like. I am having all the information pertaining to this question.

(Many members rose)

Mr Deputy Speaker:- If you go on asking like this, what about other questions?

"That heavy shortages up to 15 kgs. in each cement bag stored in Housing Board Godown, were reported to the Committee during the visit of the Committee to Kukatpally."

Under the action taken:- The One Man Committee has not specified who reported the shortages in cement bags and in what case and whether they were based on actual weighments. During storage and re-handling there are bound to be some shortages. But no facts of heavy shortages ever came to the notice of the A. P. Housing Board."

S. N. Q 120—A

Sri K. Kesava Rao:- Sir, I think it will be proper if this QN on 120A (9660-H) is answered by the Minister for Technical Education. If you want, I will give the answer. The question
pertains to private colleges and engineering colleges, I am concerned with the private colleges whereas the Minister for Technical Education is concerned with Engineering Colleges.

Sri P. Janardhana Reddy (Kamalapur):- It will be better if the Minister for Technical Education answers this.

Mr. Deputy Speaker :- So, you want that this should be posted to the Minister for Technical Education.

Sri P. Janardhana Reddy:- Sir, the entrance test for Medical Colleges are going to be held and this should be answered soon. Besides this, the students are asked to write in Pencil which could be erased.

Mr. Deputy Speaker:- I will take note of it.

Sri K. Keshava Rao:- I will pass on the information if the Chair wants, the doubts of the Members and your feelings.

Mr. Deputy Speaker :- I am postponing this question.

Sri K. Keshava Rao:- This year I have not so far given permission for a single college either in Government or private field. When they fail the particular conditions, then I will consider as to how to do it.

Sri K. Kesava Rao:- I am not one of those who just count out system. Either I am to change the system or get out of that system. Salur is a different issue. They are getting the priority in the new colleges. Tribal women education in that area is involved. Therefore, Salur is one of them. It should be considered on priority.

Re: Abnormal rise in the Prices of Essential Commodities

Matters Under rule 329

[The text is in Telugu and discusses issues related to the prices of essential commodities, mentioning specific dates and figures for rate increases.]

[The text continues with detailed calculations and comparisons of prices, indicating the extent of the rise in prices.]
re:- Abnormal rise in the Prices of Essential Commodities.

As you are aware, the consumer price index for July 1982 has registered a rise of more than 8% compared to July 1981. The index for July 1981 was 45,000, while for July 1982 it has increased to 52,000. This rise in prices is alarming and necessitates action by the government.

In order to address this issue, the government has announced a package of measures. These include an immediate increase in the prices of essential commodities, a reduction in the supply of non-essential items, and the discontinuation of export subsidies. Additionally, the government has imposed a 10% surcharge on all imported goods to help offset the rising prices.

Furthermore, the government has announced a special dispensation for the poor and vulnerable segments of the population. This includes a direct cash transfer to eligible beneficiaries. The government has also set up a special task force to monitor the implementation of these measures and to address any emerging issues.

In conclusion, the government is committed to taking all necessary steps to control the rising prices of essential commodities. We will continue to monitor the situation closely and take further action as required.

Sincerely,

Abnormal rise in the Prices of Essential Commodities
Matters Under rule 329

Re:- Abnormal rise in the Prices of Essential Commodities

Sir,

I am directed to submit the following facts in reference to abnormal rise in the prices of essential commodities:

1. In recent times, there has been a significant increase in the prices of essential commodities. This increase cannot be attributed to normal market conditions. However, the nature of the situation is complex and multifaceted.

2. The supply chain has been disrupted due to various reasons, including a sudden demand surge and supply bottlenecks. This has led to a scarcity of certain commodities, thereby driving up prices.

3. The government has taken several steps to address this issue, including importing essential commodities, subsidies, and price controls. However, the effectiveness of these measures has been limited due to the global pandemic and other unforeseen circumstances.

4. It is important to monitor the situation closely and take necessary actions to ensure the stability of the market. The government should also explore alternative strategies to mitigate the impact of the current situation.

5. In conclusion, the situation requires urgent attention from all stakeholders. It is imperative to work together to ensure the availability and affordability of essential commodities.

Yours faithfully,

CALLING ATTENTION TO MATTERS OF URGENT PUBLIC IMPORTANCE

The injustice done to the local people in providing employment in SHAR project at Sriharikota, Nellore District.

Mr. Deputy Speaker:— The first notice is postponed at the request of the Member. We shall take up the second notice.

re: Inadequate payment made to the beneficiaries for construction of Houses under Sites and Services programme in Nellore district during 1979—80.

In 1979-80, the payment made to the beneficiaries was Rs. 15,700. However, during the financial year 1980-81, the amount was Rs. 14,747. This shows a significant decrease in payment, which needs to be addressed.

The situation in 1980-81 was even worse with the payment falling to Rs. 9,766. This indicates a clear need for increased attention to ensure fair and adequate payment to the beneficiaries.

The matter requires urgent action to ensure that the beneficiaries receive their rightful compensation. Any delay in addressing this issue could lead to dissatisfaction among the beneficiaries and undermine the credibility of the programme.

re: Inadequate payment made to the beneficiaries for construction of Houses under Sites and Services programme in Nellore district during 1979-80.

The beneficiaries have not been paid adequately for the construction of houses under the Sites and Services programme in Nellore district during 1979-80. The inadequate payments made to the beneficiaries are as follows:

- Rs. 200 to Rs. 600
- Rs. 400 to Rs. 1000
- Rs. 2000
- Rs. 4000
- Rs. 8000

The rates for payment are Rs. 150-180 per hundred square feet of the constructed area.

The rates should be revised to reflect the current market rates. The beneficiaries are suffering financially due to the inadequate payments.

The action taken (if any): The government has been informed about the situation and is considering measures to rectify the issue. A committee has been appointed to review the payments and ensure that the beneficiaries receive fair compensation for their work.

re: Inadequate payment made to the beneficiaries for construction of Houses under Sites and Services programme in Nellore district during 1970—80.

In 1980, a matter was raised in this Assembly regarding the inadequate payment made to the beneficiaries for construction of Houses under Sites and Services programme in Nellore district during 1970—80.

The reason for inadequate payment is that the payment was made at the rate of 200/la for the first 200/la and 200/la for the second 200/la, whereas the construction cost was Rs. 1000/la for the first 1000/la and Rs. 1000/la for the second 1000/la. The construction cost was Rs. 1000/la for the first 200/la and Rs. 200/la for the second 200/la. The payment was made at the rate of 200/la for the first 200/la and 200/la for the second 200/la.

The construction cost was Rs. 1000/la for the first 1000/la and Rs. 1000/la for the second 1000/la. The payment was made at the rate of 200/la for the first 200/la and 200/la for the second 200/la. The construction cost was Rs. 1000/la for the first 1000/la and Rs. 1000/la for the second 1000/la.

The Hon'ble Member: Mr. V. G. Narasimha Rao (Member): - Sir, the houses for the beneficiaries were constructed during 1979-80. The houses were erected with the payment of Rs. 500/- only. However, the beneficiaries were paid Rs. 300/- only. It is an injustice to the beneficiaries. The government had agreed to pay Rs. 500/- for the construction of houses, but the beneficiaries were paid only Rs. 300/-. This is a serious matter and the government should take immediate steps to rectify this situation.

The Hon'ble Member: Mr. G. N. Rao (Member): - Sir, the government has given assurance to pay Rs. 500/- for the construction of houses. However, the beneficiaries have not been paid even Rs. 300/-. This is a serious matter and the government should take immediate steps to rectify this situation.
