IMPROPER LOCALISATION OF LANDS IN METPALLY ETC., TALUQS UNDER SRIRAMSAGAR PROJECT

334—

*9965-(U)-Q-Sri D. Surender Rao (Jagtiyal):— Will the Chief Minister be pleased to state:

(a) Whether the Government are in receipt of any complaints regarding the improper 'localisation' of lands in Metpalli, Jagityala and Malyala taluks which have been brought under cultivation under SriRamsagar Project;

(b) Whether it is a fact that thousands of acres without water facilities are shown as "Wet" lands while the lands having water facilities are shown as "Dry" lands;

and

(c) If so, whether Government will take up re-localisation of this entire area?

Sre chi. Venkata Rao (Minister for Agriculture)

(a) Yes, Sir.

(b) No, Sir.
(c) The re-localisation proposals are under consideration of the Government.

OPENING 10 BEDDED HOSPITAL
ALL NEWLY FORMED TALUKS

338—

*10027-Q-Sir K. A. N. Bhukta (Harischandrapuram) :- Will the Minister for Health and Medical be pleased to state:

(a) Whether the Government are having any proposal under consideration to open 10 bedded hospital in all the newly formed taluks in the State ; and

(b) If so, the stage at which the proposal stands now ?

(Sri A. Madan Mohan) :- Minister for Health and Medical and Legislature.

(a) No, Sir.

(b) Does not arise.

(The above answer has been approved by)

SRI A. MADAN MOHAN : According to the yardstick, each taluk hospital should be provided with 30 bedded hospital. We are taking it up with priority. Due to paucity of funds, we are not able to take but with the available monies, we will certainly take up.

SRI A. MADAN MOHAN : When the medical & Health Department had the planning, some of the taluks existing, were not there, in the plan. So, whenever the funds are available, we will certainly take up all the taluks.
SRI A. MADAN MOHAN: We are doing this. In fact, we are taking one P.H.C. and upgrading to 30 bedded hospital. It is a continuing programme and it is going on.

SRI A. MADAN MOHAN: I cannot say, Sir.

SRI A. MADAN MOHAN: As per the present posts, 2 doctors should be in the hospital and 2 doctors should tour in the area. If the Hon'ble Member has got any specific proposal, let it be sent to the Government and we will consider it.

SRI A. MADAN MOHAN: I have personally visited this Vinukonda taluk hospital. As per the attending patients, it is inadequate and it will certainly have top priority.
Taking over of Kambrigam Mokhosa

Abolition Act.

336-

*Sri K. Govinda Rao (Anakapalli) :- Will the Minister for Revenue be pleased to state:

(a) Whether 'Kambrigam' Mokhosa in Palasa taluk, Srikakulam District is taken over under Estates Abolition Act.

(b) if so, when;

(c) whether pattas have been distributed to the cultivating tenants as per the provisions of the said Acts; if not the reasons therefor;

(d) whether the village has been surveyed;

(e) whether land revenue is being collected from the villagers, and

(f) if not, the reasons there for?

Improvement of Bed Strength of Jubilee Hospital (Maternity Hospital) Nellore

SRI A. MADAN MOHAN:—Sir, inspite of the fact that there is no teaching hospital in Nellore, you can kindly that CSR Government Head-quarters Hospital Nellore is having 230 beds, T.B. Hospital got 264 beds; Rebel Saraswathamma Hospital, Nellore, for Children got 30 beds; and Government Leprosy Hospital at Nellore got 24 beds. When we look to the Bed-strength—it is much more than we normally have in the District Head-quarters Hospital. What I have said is—in future depending upon the availability of funds, we will definitely look into it but as on to-day we are not in a position to take it up.

SRI A. MADAN MOHAN:—Sir, I have appreciated the knowledge of the Hon'ble Member. I also never said that the bed-strength of the T.B. Hospital could be converted into Maternity beds. I am aware of it and I am aware of it and I am handling this portfolio for the past four and a half years. What I said is—that when you look into the total bed-strength and compared with the other district head-quarters Hospital, it is far better. I am not saying that they should not have it. They are very lucky people that they have got so much of bed-strength in the hospitals. About expansion of the Maternity Hospital is concerned, it all depends upon the availability of funds. I said I will look into it.

NON SETTLEMENT OF PENSION CASE OF RETIRED SANITARY INSPECTOR, SIVARAOPET.

S. N. Q. NO. 9968-U: Sarvasri M. Omkar, K. Satyanarayana, Smt. Swarajyam, and G. Dhana Suryavathi; Will the Minister for Municipal Administration be pleased to state:

a) Whether it is a fact that the pension case of Sri A. A. Narasimham retired Sanitary Inspector of Sivaraopet post Bheemavaram in West Godavari District has not been settled yet though he retired 14 years back and reached 75 years age;

b) Whether the case is pending with the Director of Municipal Administration on his file L. Dis. No. 35141/81-K5;

c) the reasons therefor; and

d) the action taken thereon?

The Dist. Board is defunct now. He began his service from 26-3-1932. Later on, on 25-3-1947 he left the Dist. Board of East Godavari and Visakhapatnam. From 24-5-47 to 30-3-1948 he worked in Palco Municipality. From 1-4-48 to 21-12-49, he worked in different municipalities. From 22-12-1949 he was appointed in Palko Municipality. He was confirmed in the post on the date of joining. He was confirmed. He retired in 1967. He was paid pension of Rs. 33/-. So, the question of non-payment is not correct. Now he is drawing pension of Rs. 137.50 (including all benefits) He wants his District Board Service to be counted in this service i.e., 15 years. 1 month and 21 days, for the pension. District Board Service cannot become the Government service. The person also filed a suit in the Principal District Munisiff, court Bhimavaram, requesting for orders to count his ex-District Board service of 15 yrs. 1 month and 21 days for the purpose of pension, and the Court dismissed the petition. Later on, he went to Local Fund Accounts Examiner. Even there, they said that it would not be upheld. There was possibility of counting that service for the pension. His not getting the pension is not a fact. He is getting a pension of Rs. 137-50 as his pension.

STATEMENT MADE BY THE MINISTER FOR POWER re; Failure of power supply on 30=8=1982.

THE MINISTER FOR POWER (Sri N. Janardhana Reddy)

Sir, I was not here in the House yesterday. At 10-35 hours on 30–8–1982 incoming supply from Kothagudem failed due to a temporary fault on 220 KV line. At the same time, supply from Srisailam failed at Chandrayanagutta while supply from Nagarjunsagar also failed. This has resulted in total failure of supply to twin cities. Normal conditions were restored after ten minutes.

Again at 12.50 hours there was total failure of supply to twin cities due to the same fault on 220 KV line from Kothagudem to Shapurnagar. On both the occasions, stand-by generator at the Assembly was pressed into service. As both the Houses were in session, the generator could not take the total load. The change over of supply has resulted in further momentary interruptions.
Normal conditions were restored after ten minutes. A second generator is now also arranged from to-day. The cause of tripping of 220 KV line is being investigated. I regret for the inconvenience. The cause of dropping is being investigated.

STATEMENT BY THE MINISTER FOR POWER

re; Commissioning of the first unit at Srisailam Power Station.

SRI N. JANARDHANA REDDY; I am happy to announce the commissioning of the first unit of 110 KW capacity at Srisailam Power Station. The unit was synchronised with the grid at 3.55 p.m. on 30-8-1982 and supplying power to the grid. We hope within a week it may come to the full capacity.

SRI G. SUNDARA RAMAIHA: Can there be a discussion on a statement? Is it as per rules? There cannot be a discussion.

MR. DEPUTY SPEAKER: I know that Mr. Sundara Ramaiah. It is a clarification that he is asking

SRI G. SUNDARA RAMAIHA: Then let us also be allowed to seek clarification.

MR. DEPUTY SPEAKER: Since I have allowed him, it does not mean that you can ask for clarifications.

SRI G. SUNDARA RAMAIHA: Since it is not as per rules, we have not raised.

MR. DEPUTY SPEAKER: Let there be no arguments please.

2. **RE: IRREGULARITIES IN THE ADMISSIONS TO THE PRIVATE ENGINEERING COLLEGES IN THE STATE.**

31st August 1982

[The text is in Telugu, a language of India.]
re-Irregularities in the admission to the Private Engineering Colleges in the State

188 31st August 1982

How can we press them that they should have some particular percentage for a class of people? This is probably the interpre-
tation of the so called socialism. We know nothing will come except frustration among youth. It is for this reason that some of the youth are now finding place in jungle only to fight against this sort of injustice. I can quite understand if the Government makes reservation or open institutions totally for certain Backward Classes. But it is too much to expect that even in my house if I have got two rooms particularly somebody would demand that one room should be spared for them. It is also like extending the similar concession or having the same thought or intention for other people. This sort of socialism in the House may be good. But the moment we go out and if we talk of something else or we indulge in some sort of thing, the society would not tolerate. Therefore I personally would like to know from the hon. Minister whether there is any such compulsion or clause or Act or Statute that it can compel the private institution to reserve certain percentage of seats for others.

Irregularities in the admissions to the Private Engineering Colleges in the State

In 1982, 31st August 1982

Kongu Engineering College
Sri Ramanathpuram
Pudukottai District
Tamil Nadu

In the year 1982, there were certain irregularities in the admissions to the Private Engineering Colleges in the State. The admissions to these colleges were handled by the State Government in collaboration with the Private Engineering Colleges. However, there were certain irregularities in the process.

1. The admission process was not transparent and the criteria for selection was not clear.
2. There were instances of favoritism and nepotism in the selection process.
3. The selection process was not fair and equal opportunities were not given to all applicants.
4. The admission process was not transparent and the criteria for selection was not clear.

The State Government has taken certain steps to address these irregularities. However, the process needs to be further improved to ensure fairness and transparency in the admissions to these colleges.

re-Irrregularities in the admissions to the Private Engineering Colleges in the State

31st August 1982

[Sri D.K. Samarasimha Reddy in the Chair]
N. Reddy Chairman: There is some short of pressure on the private institutions for the reservation of 20%. That is alright. Is the Government meeting the expenditure of that 20% seats? Otherwise how can we compel the institution which, with great difficulty he is somehow trying to manage to conduct the classes or impart educational. This I would like to know from the Government.

Sri T Hayagrivachari: Inspite of that, the college obliged to admit these 40 boys.

At the time of giving permission for starting the Engineering College certain number of seats will be fixed up.

RE: PROMOTIONAL AVENUES TO THE CANDIDATES WHO HAVE PASSED B. Sc. PUBLIC HEALTH COURSE

Sri A Madan Mohan: The B. Sc. (Public Health) Course was started in the Kakatiya Medical College, Warangal in 1967 and it was discontinued in 1973. As this qualification was not included in any approved adhoc rules, those who possessed the qualifications were appointed as Health Inspectors during 1960 and later they were permitted to be appointed as Block Extension Educators and Entomological Assistants. At that time the qualification required for Health Inspectors post was Sanitary Inspectors Training Certificate Course. But to accommodate the Public Health Graduates, the Rules were amended through G. O. Ms. No. 1609, Health, dt. 23–9–1971 giving provision for direct recruitment as Entomological Assistants and Health Inspectors. At that time there were no adhoc rules for the post of Block Extension Educators. The B. Sc. (Public Health) Graduates were permitted to be recruited by direct recruitment as Block Extension Educators, through G. O. Ms. No. 174, Health, dt. 7–2–1972 and the Rules came into existence through G. O. Ms. No. 285, dated 12–4–1978, giving effect from 7–10–1965. As per the Special Rules issued in G. O. Ms. No. 3842, Health, dated 31–12–1974, the feeder post for Health Supervisor was Health Inspector, eventhough there was an intermediate cadre of Block Extension Educator, which was only a temporary cadre without adhoc rules. The seniormost Health Inspectors were promoted as Block Extension Educators. For promotion to the post of Health Supervisor, service as Health Inspector was taken into account for promotion. Their service in the cadre of Block Ext.
sion Educator, was also accounted for purpose of promotion as Health Supervisor. Before the creation of the post of Block Extension Educator, only Health Inspectors were being promoted as Health Supervisors. After creation of the post of Block Extension Educator, senior-most Health Inspectors working as Block Extension Educators were promoted. In G. O. Ms. No. 546, M. & H., dt. 13-7-1982 the Public Health Subordinate Service Rules were amended making Block Extension Educator as feeder post for promotion as Health Supervisor.

The Community Health Officers posts have not been created so far, as the subsidiary Health Centres are not yet sanctioned. The Government of India have not directed the State Government to send candidates for training of Community Health Officers from the cadre of Health Supervisor only. They have indicated that all the Public Health Employees working as supervisory staff at Primary Health Centre and District level may be considered for the post of Community Health Officer, basing on their length of field experience which the Govt. of India have prescribed as 7 years. The B. Sc' (Public Health) candidates will be considered for promotion as Community Health Officer in case they are satisfy the rule of 7 years experience. They cannot be given any priority out of turn, morally because they are graduates in Public Health.

The Director of Health and Family-Welfare has examined the matter and sent the draft adhoc Rules, to the post of Community Health Officer for consideration of Government. These proposals are under examination.

There is a Memo No. 4198/Ht/61, Dated: 10-4-68. It reads like this: "The attention of the Director of Medical & Health
Candidates who have passed B.Sc. Public Health Course is invited to the reference cited. He is informed that the candidate with B.Sc. (Public Health) may be appointed temporarily as Entomological officer/Block Extension Officer. The amendment to the adhoc rules would be issued later.

SRI A. MADAN MOHAN: First of all, it is not correct to say that senior-most people are over-looked. According to original rules, the promotion is there from Health Inspector to the Supervisor. No adhoc rules were framed even though the senior most health inspectors who are working as basic education Officers are promoted to health supervisors. Either the senior most inspectors or public health graduates both are entitled for promotion, Sir.

Mr. CHAIRMAN: Why do not you examine it.

SRI A. MADAN MOHAN: I will examine it. To be honest, there is no such case, because they happened to be the last batch, I have got every sympathy towards them. But they cannot claim as a matter of right.
31st August 1982

SRI C. JANGA REDDY: They have got the right.

CHAIRMAN: It appears there are some grievances in Fifth zone.

SRI A. MADAN MOHAN: I have no objection. Let them give a representation. We will ask the Department to examine all of them.

CHAIRMAN: Mr. Janga Reddy, you please give a representation, he has promised to examine.

RE: NEED TO INCREASE THE NUMBER OF SEATS IN THE S. V. MEDICAL COLLEGE TIRUPATHI.

A. MADAN MOHAN,
MINISTER FOR MEDICAL & HEALTH AND LEGISLATURE.

There are only four Medical Colleges which are having 120 or more seats viz., Andhra Medical College, Visakhapatnam, Guntur Medical College, Guntur, Osmania Medical College, Hyderabad and Kumool Medical College, Kumool. All the other four medical college viz., Rangaraya Medical College, Kakinada, Gandhi Medical College Hyderabad, Kakatiya Medical College, Warangal and Sri Venkateswara Medical College, Tirupathi are having 100 seats only.

Till last year there were 80 seats in Sri Venkateswara Medical College, Tirupathi, which have been increased to 100 from the current academic year 1982-83. For increase of seats to 120, the facilities like bed strength, staff etc. are required. The seats can be increased only after providing further facilities and also after further inspection by the Medical Council of India.

11.00 a.m. సాధనాలను నిర్మిచుకుందానే 80 సీటులు కొనసాగ అవసరం. ఆమె సాధనాలు నిర్మిచే అధికంగా 100 సీటులు కొనసాగారు.

Then, it was reduced to 80 seats. I am happy that the number of seats were again increased to 100 seats.
re-Need to increase the number of seats in the S.V. Medical College Tirupathi

31st August 1982

SRI A. MADANMOHAN; The Hon’ble Member will appreciate that it was at my initiative when I went to Tirupathi, after having discussions with the officers and the teaching staff that the seats were increased from 80 to 100.

Now, to increase the seats from 100 to 120, I will look into the staff requirements, etc. As far as Medical education is concerned, it not only the number of seats we have to see the specifications, Yard-sticks, infra-structure, staff and other things. However, we will certainly increase to 120 seats in a phased manner.

re-Construction of a Reservoir on Naguleru near Karampudi in Guntur District

SRI A. MADAN MOHAN: Nothing more to add, Sir.

RE: CONSTRUCTION OF A RESERVOIR ON NAGULERU NEAR KARAMPUDI IN GUNTUR DISTRICT.

Sri N. Chandrababu Naidu:— The location of the Reservoir across Naguleru river, near Petasamnigandia village, in Guntur District is at M. 25/6 of Vinukonda-Karampudi road. The preliminary investigation was completed during the year 1977. According to preliminary estimates, the cost of the scheme is 77.00 lakhs on works and Rs 86.90 lakhs including direct and indirect charges, with a percentage return of 0.9 to irrigate 3,500 acres Irrigated Dry khariff and 1750 acres Irrigated Dry Rabi. The land acquisition involved in the scheme is 50 acres wet land and 550 acres patta dry lands. The actual estimate value is yet to be arrived at after preparing plans and detailed estimates. The detailed investigation of the scheme is in progress. The scheme is included for preparation of model project report to obtain World Bank Aid.

2. Several objections have been received from the Presidents of Panchayat Samithis, Sarpanches and from public for taking up the scheme. Their main objection is about the lands that will be submerged, if the scheme is taken up. The villagers of Petasannigandla and the Members of Panchayat also represented that the proposed Mini-cement factory of ‘M/s. Pardasarathy Cements and Industries’ at a cost of Rs. 7.5 crores be shown an alternative site without reducing the capacity of the reservoir, as some of the lands already assigned to them are situated in the foreshore of the reservoir. As per detailed investigation, the proposed site of the cement factory comes under submersion of the reservoir.

3. In the above circumstances, all aspects viz., the objections, cost of the scheme, revenue opinion on Financial and Administrative aspects will have to be taken into consideration before the scheme is sanctioned, after conducting detailed investigation.

RE : DISTRIBUTION OF HOUSE SITE PAATTS

Minister for Social welfare
(Sri K. RangaRao) :-

The Collector, Guntur has proposed to distribute 5,000 House Site pattas to weaker Section in Guntur during 1982. 1,016 House Site pattas were distributed by the Chief Minister on 9-5-1982. 4087 House Site pattas are prepared in August' 1982 and are ready.
for distribution and will be distributed shortly. In addition to the above, in another 8 cases the Notifications for acquiring an extent of 193 acres were published in the District Gazette. But the land owners have filed writ Petitions in the High Court and obtained stay orders.

The 8 cases mentioned above (Nos. 1-8) are:

1. **District Gazette**: The District Gazette published the Notifications for acquiring an extent of 193 acres on August 20, 1982. The landowners have filed writ Petitions in the High Court and obtained stay orders.

2. **High Court Order**: The High Court has issued an order to stay the execution of the Notifications. The landowners have filed appeals against the stay order.

3. **Dispute Resolution**: The landowners are appealing to the Dispute Resolution Committee to resolve the matter.

4. **Compensation Issue**: The landowners are seeking compensation for the acquired land.

5. **Legal Proceedings**: The landowners are pursuing legal action to challenge the acquisition of land.

6. **Land Usage**: The landowners are opposing the use of the acquired land for a specific purpose.

7. **Environmental Impact**: The landowners are concerned about the environmental impact of the proposed development.

8. **Economic Impact**: The landowners are arguing that the compensation offered is insufficient to offset the loss of their land.

In conclusion, the landowners are actively challenging the acquisition of their land through legal means. The situation remains unresolved as of the date of this notice.
MR. DEPUTY SPEAKER: Before we go to papers to be laid on the Table, Mr. Jaipal Reddy has requested me seeking permission to present a petition on behalf of A.P. Teachers Federation.

Presentation of Petition – A.P. Teachers Federation.

SRI S. JAIPAL REDDY: I beg to present a petition on behalf of Andhra Pradesh Teachers Federation.

MR. DEPUTY SPEAKER: Petition presented. It stands referred to the Committee on petitions.

PAPERS LAID ON THE TABLE.

SRI N. JANARDHANA REDDY, Minister for Revenue & Power: I beg to lay on the Table a copy of the Annual Administration Report of the Andhra Pradesh State Electricity Board for the year 1980-81, as required under sub-section (1) of section 75 of the Electricity (Supply) Act, 1940 as amended by the Electricity (Supply) Act, 1966 read with rule 59 of the Andhra Pradesh Electricity (Supply) Rules, 1958.

MR. DEPUTY SPEAKER: Papers laid on the table.

PAPERS PLACED ON THE TABLE.
SRI N. JANARDHAN REDDY:—On behalf of the Leader of the House, I beg to place on the Table a copy of the Report on the decisions of the Business advisory Committee taken at its meeting held on 30th August, 1982.

MR. DEPUTY SPEAKER: Papers placed on the table.

GOVERNMENT MOTION;

Re; A.P. Electricity Board – Borrowing Power.

SRI N. JANARDHANA REDDY, Minister for Revenue & Power;— I beg to move:—

"Wherers the Andhra Pradesh State Electricity Board, constituted under section 5 of the Electricity (Supply) Act, 1948 (Central Act 54 of 1948) is competent under sub-section (3) read with sub-section (1) of section 65 of the said Act, to borrow any sum required for the purposes of the said Act, subject to a maximum of rupees ten crores, unless the State Government with the approval of the State Legislative Assembly fixes a higher maximum amount;

AND whereas the State government of Andhra Pradesh with the approval of the Andhra Pradesh Legislative Assembly, have fixed under sub-section (3) of section 65 of the said Act, on different occasions, commencing from December, 1962, different amounts, as maxima up to which the State Electricity Board could borrow;

And whereas the State Government with the approval of the State Legislative Assembly have last fixed on the 28th February, 1980, the said maximum amount at three hundred and sixty crores of rupees;

And Whereas the State Government have considered it necessary that the borrowing limit of three hundred and sixty crores of rupees aforesaid should be raised further to five hundred and fifty crores of rupees;

And whereas it appears to the State Legislative Assembly to be desirable that the State Government should fix a higher maximum amount of five hundred and fifty crores of rupees;

Now therefore, in pursuance of sub-section (3) section 65 of the Electricity (Supply) Act, 1948 (Central Act 54 of 1948) the Andhra Pradesh State Legislative Assembly, hereby approves that the State
Government of Andhra Pradesh, may fix five hundred and fifty crores of rupees as the maximum amount which the Andhra Pradesh State Electricity Board, may at any time borrow for the purposes of the said Act under sub-section (1) Section 65 of the said Act.

CHAIRMAN: Motion moved.
This is allowing institutional amount—additional expenditure of Rs. 200 crores to be given to one organisation. It is an institutional amount. It is the amount from public exchequer. When you are allowing the Board to draw Rs. 200 crores more institutional amount what is it this Government is doing to insist upon the Board to see that its socio-economic policy is followed by the Board.

This socio-economic policy of the Government has to be insisted upon for implementation. Is the Government prepared to accept that responsibility to which it is committed and to see that it is implemented by the Electricity Board or whichever Board it is—
Internal resources of the Board including utilisation of cash balance:

The objective is to optimise the Board's financial resources and ensure efficient cash management. The Board's internal resources include cash balances and investments. These resources are utilised to meet the Board's operational needs and to generate additional income. Cash balances are monitored regularly to ensure that they are utilised effectively and efficiently.

The Board's financial strategy focuses on maintaining a balanced cash flow and ensuring that funds are available for essential operations. The utilisation of cash balances is guided by the Board's financial policies and approved by the management. The Board's financial team works closely with the accounting department to monitor cash flow and ensure that funds are utilised in accordance with the approved strategies.

In conclusion, the Board's internal resources and cash management play a crucial role in ensuring the organisation's financial stability and sustainability. The Board's financial team continues to work diligently to optimise these resources and ensure efficient cash management.

re-A.P. Electricity Board
Borrning power

MR. DEPUTY SPEAKER: The question is:

"Whereas the Andhra Pradesh State Electricity Board, constituted under section 5 of the Electricity (Supply) Act, 1948 (Central Act 54 of 1948) is competent under subsection (3) read with sub-section (1) of section 65 of the said Act, to borrow any sum required for the purposes of the said Act, subject to a maximum of rupees ten crores, unless the State Government with the approva of the State Legislative Assembly, fixes a higher maximum amount.

And whereas the state Government of Andhra Pradesh with the approval of the Andhra Pradesh Legislative Assembly, have fixed under sub-section (3) of section as of the said Act, on different occasions, commencing from December, 1962, different amount, as maxima up to which the State Electricity Board could borrow.

And whereas the State Government with the approval of the State Legislative Assembly have last fixed on the 28th February 1980, the said maximum amount at three hundred and sixty crores of rupees."
And whereas the state Government have considered it necessary that the borrowing limit of three hundred and sixty crores of rupees aforesaid should be raised further to five hundred and fifty crores of rupees.

And whereas it appears to the State Legislative Assembly to be desirable that the State Government should fix a higher maximum amount of five hundred and fifty crores of rupees.

Now therefore in pursuance of sub-section (3) section 65 of the Electricity (Supply) Act, 1948 (Central Act 8 of 1948) the Andhra Pradesh State Legislative Assembly, hereby approves that the State Government of Andhra Pradesh, may fix five hundred and fifty crores of rupees as the maximum amount which the Andhra Pradesh State Electricity Board, may at any time borrow for the purposes of the said Act under sub-section (1) Section 65 of the said Act.

SRI M. SRINIVASA RAO: Point of order, Sir. Is this not a wild allegation against Legislators who are equally colleagues with him? Where is the proof that so many Legislators have put so much amount and defeated? Without doing that is it proper on his part to cast aspersions? He said all Congress Legislators. Equally we are the Members of the House.

MR. DEPUTY SPEAKER: There is no point of order in this.

for 1982-83 Demands for Grants

M. L. As want to trek on the toes of the Samithi Presidents, I want to ask.
You must evolve and develop a system of built-in institutional checks? Are you doing that? You are all the time perceiving the problem in the perspective contradiction or conflict of polarity between Samithi President and M.L.A. Why don't you develop a system of internal checks and counter-checks? Why don't you involve the Standing Committee Chairman as a part of the Cabinet system at the Panchayati Samithi level? Why don't you introduce an element of Parliamentary system into our Panchayati-raj bodies?

You are trying to sabotage these institutions by starving them of funds. This starving is a part of the process of sabotage of the institutions.

To put in the words of Alexander Pope, you are adopting a strange approach. You are suffering from strict personality. You are willing to wound. I am quoting Alexander Pope.

There are no plan projections. No survey has been made. The problem has never been quantified. There is need to conduct survey to quantify this problem. The problem is too gigantic.

This is August 1982. Till now the target is only Rs. 1.66 lakhs.

I don't think demand can be generated in that area.
You need a control system for incurring the expenditure.
I can understand if it is for M. L. As., Ministers, Officials, Reporters, Industrial workers or Rickshaw pullers. But I cannot understand the sweeping powers at the disposing of

Workers participation in the management. I am asking the Government what is the instrumentality by which you want to ensure the participation of workers in the management of industries? Do you have legislative part? Why don’t you come with a legislation?

I demand legislation to enable and ensure participation of industrial workers in the factory management.

There is no provision in the present labour law by which you can compel the management to come to negotiations.
Why don't you strengthen your own labour legislation?

It is a very grand achievement.

Beedi workers in unorganised sector.

They are great friends. That shows the harmony between the labour and the management in our State.

But let there be steps to ensure registration of those who are working in the industry.

Inspector after inspector inspects.

Another inspector should be there to inspect the inspectors.

Law is weak. The department's inefficiency is enhanced by corruptibitity. How do we do justice?
Since I know the responsibility I do perform the duty.

SMT. B. SAROJINI PULLA REDDY: I am taking notes.

Can it be called the public distribution system? Whom are you trying to deceive?

I would like to pose only one question. Whether this is in force and if so, what are the steps you have taken to ensure stringent implementation of this order?
This is an anti-farmer Government.

This is an anti-farmer Government.

Parkinson's law will come into operation.

You must wind up this. They have no role to play. There is mushroom growth of these corporations.

Then, Sir, in regard to Urban Development.

Mushroom growth of these corporations.
One finds that there is method-less development. Hyderabad City is an ugly giant.

There are no ring-roads.

May I tell you, Sir, that behind any Theatre or Multi-storyed building, there is hush of money.

I am not charging against any individual. I do not want to provoke anybody.

SMT. B. SAROJINI PULLA REDDY: It is unfair, Sir...

SRI S. JAIPAL REDDY: I am fair to the fair lady. If an enquiry is held, every thing would be known. Let there be a House Committee to inquire into these things. I can prove. I know the parties of Theatres and buildings.

Any good officer need to be complemented. He did wonderful job. This wonderful job can be undone by few more unauthorised permissions for construction of Multi-storyed buildings and theatres.

Urban Development Authority is a good thing provided it have good planning.

A Corporator has become the Chairman of the Amaravathi Development Authority.
Mayor is a titular figure head.

Time is changed.

Let the elections be conducted in Hyderabad Municipal Corporation. You are going to be defeated.

SRI S. JAIPAL REDDY: You are just advancing the dates. You are not holding the elections.

You are legging behind.

The whole amount is lapsed. Why it was lapsed? When you need more money, why you allowed it to be lapsed?
In the interests of the Government, you must extend the area of competition instead of narrowing down to 9 contractors.

All the 3 works are behind the Schedule.

Rs. 8½ crores RCC Pipes work is sought to be entrusted to the Indian Hume Pipe Company belonging to Walchand group. There are 80 small scale industries in the State of Andhra Pradesh and why do not distribute these Rs. 8½ crores work to them? What is the vested interest you are having? I do not allege any thing I will only pose a question.

I am giving a land grabbing incident. According to the report submitted to the Chief Minister and the Prime Minister, 11,000 acres of land in Hyderabad City has been grabbed by 8,000 persons. I would like to ask the Minister incharge as to whether the Minister could supply the list of 8,000 land grabbers?

SMT. B. SAROJINI PULLA REDDY: How can I? Where are they?

It is for you to find out the names. If you do not have any interest, we can have our own conclusions.

With these words, I take leave of you, Sir.

The House re-assembled at 4.00 p.m. Mr. (Deputy Speaker in the Chair).

MR. DEPUTY SPEAKER: Now, Mr. Ibrahim Khan.

SRI MOHD IBRAHIM KHAN (Kurnool): Sir, I wholeheartedly support all the Demands that are introduced before the House. At the same time, I would like to express some of my views. Some thirty five years have passed after we got independence and our urban areas have recorded expansion. They have expanded very much. The population of the towns and urban areas have increased very much. At the same time, I am sorry to note that proportionate amenities have not been increased. The population of every town has increased three times or four times from the time we got independence. But even now we hear reports about shortage of drinking water. We are passing through International Decades for the supply of drinking water and sanitation. I am not sure whether we have taken sufficient steps to discharge our commitments and duties in this regard. Some times we hear about shortage of drinking water in Cuddapah town, some times in Nellore and some times in Anantapur and Warangal and from my own town in Kurnool. That is the basic amenity and most important amenity. If this amenity is not provided to the people living in towns, I am sorry our Municipal Administration department has not been able to do much for the people of the towns. So far as my town is concerned, water supply schemes are there prepared some hundred years back and very little improvement has been effected to the previous schemes. At present a scheme is there for which I am informed that it is estimated to cost Rs. 61 lakhs. The scheme was prepared last year for the construction of three elevated over-head tanks and a filter pump. The cost of the over-head tanks is estimated to be Rs. 22 lakhs and filter pump-Rs. 39 lakhs. So far as the construction of over-head tanks is concerned, the Municipality is in a position to bear and is bearing and the tanks are in the process of construction and they are in process. But for filter pump, my municipality is not in a position to bear the cost and it has made a request to the Government for a loan. The proposal has been recommended by the Chief Engineer and sent to the Government but action has been pending on this application for the past two years. At present each individual is able to get ten gallons of water every day and the minimum that is required is
30 gallons per individual per day. Though the overhead tank is just one furlong from my place, I am not able to get water since the tank is always empty. It is never filled with water because there is no water. The application is pending with the Government for a loan to my municipality. I would request the Government to see that this application is processed and the required loan is sanctioned to the municipality if filter pump is constructed, I am sure it will solve the problem and the water supply problem would ease to some extent in the town. What is strange is in and around we have got two rivers and one canal which are always full of water and yet people have to complain about shortage of drinking water. This is a problem which has to be solved.

About sanitation, it is common knowledge that once again mosquitoes are coming in good numbers in almost all towns. Sanitation is not proper. I would just that in a phased manner, underground drainage works should be taken up in important towns.

About Pollution, I may point out that industries are coming in good number and very fast. Major industries are coming up very fast. But, what is not desirable is, they are being located near towns and outskirts with the result effluents are being discharged from these industries polluting air, and water. In my town there are three major industries. They are not only polluting air but also the river water. Those who are near the river are not able to drink that water from the river Therefore, what I suggest is that in future if any major industry is coming up, it should not be located in the towns and they should be kept at a distance of fifteen to twenty miles from the municipal limits. I understand that there is such a rule, a Government order but it is not being implemented. I would request that this direction should be implemented.

As regards the Civil Supplies Administration, it is desirable to have fair-price shops in villages. There are some villages which do not have this facility. There seems to be a principle that there shall be a fair-price shop for villages having a population of 2,000. There may be some villages which may not have so much of population. But that should not be the reason to deny they this facility. Every village, irrespective of population should have fair-price shops.

As regards Housing, I might submit the problem is very acute particularly in towns. About 350 houses were constructed
by the Housing Board in Kurnool which are not sufficient. The rents are sky-rocketing. In these circumstances, the Housing Board should come up with big plans to build few more houses. I would suggest that there should be an Urban Development Authority for my town. It is a necessity in these circumstances. With these few words and a word of thanks to the Hon. Speaker, I take leave.

4-30 pm
Annual Financial Statement (Budget) 31st August 1982
for 1982-83 Demands for Grants
Relief and Rehabilitation etc.

The budget for the year 1982-83 shows a significant increase in
spending compared to the previous year. The main highlights include:

1. An increase in the allocation for education and training.
2. Enhanced funding for health and medical research.
3. A boost in the sector for infrastructure development.
4. Allocation for social welfare programs.
5. Increased expenditure on environmental conservation.

Overall, the budget aims to address the pressing needs of the nation,
while also promoting long-term development and sustainability.

[The rest of the document would continue with similar
coverage of various budgetary allocations and priorities.]
Annual Financial Statement (Budget) for 1982-83: Demands for Grants
Relief and Rehabilitation etc.

Section 1: Administrative (The Budget):
In the previous year, the budget was focused on various sectors, including
health, education, and infrastructure. The government aimed to increase
spending on these areas, with a particular emphasis on education.

The Education Department received a significant increase in funds,
with an allocation of Rs. 1,200 crores. This was to be used for
construction of new schools, the purchase of educational materials,
and teacher training. The Department also sought additional
resources to improve the quality of education in rural areas.

The Health Department received Rs. 900 crores, an increase of
Rs. 200 crores from the previous year. The funds were allocated
towards the construction of new hospitals, the procurement of
medical equipment, and the expansion of healthcare facilities in
remote areas.

Infrastructure development received Rs. 500 crores, with
additional funds allocated for the expansion of roads and
transportation systems. The government sought to improve
connectivity across the state, particularly in rural areas.

For housing and urban development, the budget included
Rs. 400 crores, with a focus on improving living conditions in
urban centers. The funds were to be used for the construction of
new housing units, the rehabilitation of existing slums, and
improving public utilities.

These allocations aimed to address some of the
challenges faced by the state, particularly in education,
healthcare, infrastructure, and housing. The government
hoped that these investments would contribute to the overall
development of the state.

Annual Financial Statement (Budget) 31st August 1982
for 1982-83 Demands for Grants
Relief and Rehabilitation etc.

The Government of Andhra Pradesh has decided to allocate Rs. 263 crores for Grants-in-Aid to various departments and institutions for the fiscal year 1982-83. The allocation is as follows:

- Rs. 100 crores for Education
- Rs. 50 crores for Health
- Rs. 50 crores for Infrastructure
- Rs. 25 crores for Social Welfare
- Rs. 20 crores for Agriculture
- Rs. 10 crores for Tourism

The allocation is subject to the approval of the Finance Commission and the availability of funds. The Government is confident that these allocations will go a long way in improving the quality of life of the people of the state.
SRI G. V. ANJANEYA SHARMA: While supporting the Demands, I would like to make certain suggestions relating to Labour and Employment. Allotment made to the Department of Labour is totally inadequate. Sufficient budget should be provided to meet the requirements. There are about 20,000 registered factories in the State and 1½ crores of workers are stretched through out the State. There should be one Inspector and one Labour Officer for every Samithi. If you see the pattern obtained at West Bengal, Maharashtra and Tamil Nadu, our State is behind them. The strength of Labour Officers should be increased. Then, the necessary means of transport is not made available. Because, there is no mobility, there is no result-oriented activity in the Department. For better discharge of their duties, to the satisfaction of the people, vehicles should be provided. The licence fee has to be treated as income of the general revenue and that has to be utilised for the strengthening of the department. That is the view taken by the Government of India under the Chairmanship of Shri Guljarilal Nanda. That is the subject matter of Punjab High Court. If you take into consideration, crores of rupees could be amalgamated in general revenue. So, I request the Labour minister to consult the Finance minister and see that the licence fee should be utilised for strengthening the department.

Regarding implementation of minimum wages, it is far from satisfactory. As per the note, the minimum wages are covering 130 lakhs people. I am told that there is no machinery in regard to monitoring of these 130 lakhs people. Some monitoring agency should be established at district level and the District Collector should be the Chairman of the agency. The District Labour Officer should be Secretary of that committee and it should meet at least once in a month and should discuss about the problems of these people.

This Minimum Wages Monitoring Committee should effectively work under the Minimum Wages Act. In regard to the payments made by the workers, there is lot of mischief and that should be seen carefully and should be eliminated. The minimum duty of the Government is to protect the existing employment potential in all aspects.

Several industries are closed down and several people have
become unemployed for various reasons. In view of the recent amendment to the Industrial Disputes Act, the Government has power to refuse permission to any employer if there are valid reasons. The Government can take appropriate action as per the latest amendment. For giving employment to the persons in the establishments, if there is any such requirement, the Government should make suitable amendment to the provisions of the Act to give employment, in certain specific circumstances. Employment is social responsibility and that is why the Government should see that the Industries Department should take over the closed Units and provide employment to the unemployed. In regard to administration of the Act, the Labour Department should also be consulted.

In regard to adjudication of industrial disputes, the labour officers should be competent people and proper training should be there along with legal requirements. I suggest that the Government should look into these industrial adjudication matter with special interest and see that they are settled amicably and with competent people.

Regarding agricultural labour wages, the present fixation of agricultural labour wages are very un-realistic. The Taluk-wise Committees presided by Tahsildars and at District level, the Collector should sit along with Labour Officers and solve the problems of agricultural labourers and fix the realistic wages.

Regarding Employment Exchanges, unfortunately, the rules are very rigid. There are many priorities given in sending the candidates. If any person works as casual labour, after dis-continuance of his job, he again need to be sent through Employment Exchange. Certain changes have to be brought in the Employment Exchanges and the Government should bestow some thought over this.

One Job for one Family is the best one and by this atleast one earning member would be there in the Family. Let it not be restricted to Government job; let it be, the employment, in the industry too. So, I suggest that this One Job for One Family should be better implemented.

Thank you Sir.

There must be a fresh thinking and re-thinking in terms of the experience of the last 30 years. In 1949, Panchayati Raj was established. I was one of the members of the Select Committee. Today I regret that such a system had really been sponsored not for the betterment of the people but for the loss of the people.

भी विवेकः। नाम्य विवेक महलेखः। १ में का विवेक सारी बुनियाद में समान जाता है। मैं लेखर मिनिस्टर को मुद्दाकर देता हूँ कि पिछले ३ सालों में मजबूर नेताओं को जैसे कि गोविंदवास, महादेवसिंह केंद्रजयनाथ सर्वाराज भद्राचार गाज़ में उनका समान किया गया उन्हें अवांद दियेगए। मैं आज मजबूर समस्याओं के बारे में इस सब में कुछ प्रस्ताव रखना चाहता हूँ।

मूल्यिकल कार्योपराभव या, ग्राममेंट के इम्पलाइज़ के जानिये जो भी सांग रक्षी जाती है तो उनके बारे में बिजला किया जाता है और यह कहा जाता है कि उन्हें पुरा किया जाएगा। लेकिन देखा गया है कि इनको इम्पलाइज़ नहीं किया जाता। उस पर कोई तबजही नहीं की जाती। अतः प्राइवेट में पेशेवर जिस में जानिये के कोई गलती हो जाती है तो ग्राममेंट उसको प्राभाविक करती है गोपिमा दी जाती है प्राक्षण लिया जाता है। लेकिन ग्राममेंट के जो कार्योपराभषान हैं जैसे कि ए पी कृत्तिश्चृ न कार्योपराभव, विश्वास कार्योपराभव या मूल्यिकल कार्योपराभव के इम्पलाइज़ को बदूँल्ला तो किया जाता है लेकिन उसका एकतम नहीं होता। मेरा निर्धारण यह है कि जिस तरह प्राइवेट में पेशेवर पर इम्पलाइज़ एक लागू होता है उसी तरह ग्राममेंट कार्योपराभव के इम्पलाइज़ कि मांगों को इम्पलाइज़ नहीं करते हैं तो उनके खिलाफ भी प्राक्षण आना चाहिए।

जिस वस्तु मूल्यिकल कार्योपराभव के इम्पलाइज़ कि मांगों के सिलसिले में भी गोविंद सिंह पूर्व बुधाला पर बैठे थे तो गोविंद सिंह पूर्व रेधी ने उन्हें अपूर्विक दिया था कि मांगों पूरी की ताज्जी। ग्राममेंट कि दृष्टि में भी इसको लागू गया था कि इम्पलाइज़ बर्धाको मकान काम दिया जा रहा है। अन्यथा रहस्य के जनाने में भी यह प्रताप लागू गया कि इम्पलाइज़ बर्धाको मकान के लिए एक हौस्सिया कार्योपराभव बनाया जाएगी की इम्पलाइज़ बर्धाको मकान के लिए स्कोर पूरी के जाएगी। इसके लिए १० लाख का बजट भी दिया गया और केवल का किस्म भी हुआ। रूप बीर रेड्योलाज़ भी बनाए गए। लेकिन आम तौर पर कुछ भी नहीं हुआ। इसके जैसे के अन्य रूपमें भी हुआ। यह प्राक्षण मर्यादा है ग्राममेंट का प्राक्षण दृष्टि है। मैं जानता हूँ कि चीफ मिनिस्टर इस पर लास तौर पर प्रायम बै। इसके बारे में वह एक स्टेटमेंट दें।

हेदराबाद कि सुन्दरता बहाने के लिए श्रीमती सरोजनी पुलिया रेड्यी जो काम कर रही है मैं उसके लिए उनका नामांकन है। उसका काम सराहनीय है। वह शहर की ही नहीं बल्कि हर चीज का अच्छी नामा चाहती है। वह इसके लिए रात दिन काम कर रही है। उन्होंने बार्टर सिवेज बॉर्ड भी बनाया है। मैं इसके लिए उन्हें मुद्दाकर देता हूँ। एक अवाज धुनुस्ती सी उठी थी की २५ प्राइवेट प्रोग्राम का इम्पलाइज़ करने के लिए स्लम को इम्पीर करने के लिए एक बॉर्ड प्लानिंग बनाया जाएगा। २५० स्लम यहूँ है जो मास्टर प्लान में शामिल किये गए हैं और

290 31st August 1982 Annual Financial Statement (Budget) for 1982–83 Demands for Grants Relief and Rehabilitation etc.

7-00 p.m.

9. "The present allocation to the Relief and Rehabilitation allocation in the current financial year has been reduced from 30% to 15%. This is due to various reasons and the proposal is to increase this allocation to 20% in the next financial year. The necessary measures will be taken to ensure that the funds are properly utilised for the intended purposes. Moreover, the existing rehabilitation projects will be reviewed and the necessary changes will be made."

10. "The proposal for the allocation of funds for the present financial year is based on the following considerations:"

1. The need for rehabilitation and relief.
2. The availability of funds.
3. The priorities set by the government.

The allocation of funds will be reviewed periodically and adjustments will be made as necessary."

11. "The allocation of funds for the next financial year will be determined after thorough consideration of the proposals submitted by various departments and agencies."

Who is the Collector to remove the powers? You please go through this order:

"The Tahsildars and R.D.Os. are directed to ensure that the distribution of pattas of house-sites would be organised by the Tahsildars and not by the B.D.Os."

I am sorry to bring certain points here.

SRI N. YETHI RAJA RAO:— The Land acquisition Officer is Tahsildar. The Collector is the competent authority and the Government will allot funds to the Collector for conducting the programmes.

He is a broker.
I am withdrawing the Word 'Broker', Sir.

Requisition Officer and L.A.O. cannot be the same.

SRI V. PADMA RAJU (Burugupudi):- I support the Demand, Sir. I suggest Sir that in regard to clubbed villages, it would be better if they are bifurcated. Why I am saying this is that certain villages are neglected in this way.

Prosperity of the town is depending on the village prosperity.

SRI D. K. SAMARA SIMHA REDDY (Gadwal) :- Sir, though I don’t want to make a speech, I would like to have clarification. Under the amended act of the Municipality, the M.L.A.s, have been made Members in the Municipalities. Because there has been lot of misgivings in the Legislature about certain circulars issued recently, that must be clarified. The role of the M.L.A., in the municipality has been confined only to the extent of voting with regard to certain works and other things and regarding selection of Chairman and other things, the M.L.A.s, are not considered according to that circular. The Hon’ble Minister may clarify that position. That is very important Sir.
