Deforestation and issue of D.K.T. Pattas by the Revenue Authorities

1340 Q.—Sri G. Muddukrishnam Naidu:—Will the Minister for Agriculture and Co-operation be pleased to state:

(a) whether it is a fact that most of the trees in the forests are being cut and deforestation is going on and forest lands are also grabbed and being cultivated and D.K.T. Pattas are given by Revenue Authorities, in some cases;

(c) whether it is a fact that due to deforestation rain-fall is coming down yearly and Rayalaseema will become a desert in few years; and

(d) if so, the steps proposed to be taken by the Government to improve forests and trees, to raise rainfall?

A.—

(a) No, Sir. It is not a fact that most of the trees in the forest area being cut. There are, however, instances of grant of pattas in some cases, which are being looked into.
(b) Offences are registered by the Officials of Forest Department in respect of illegal cutting of trees and depending upon the Circumstances the offenders are either prosecuted or the offences are compounded according to law.

Besides, the Forest (Conservation) Act., 1980, which came into force with effect from 25th October, 1980 provides safeguards against deforestation. The law also substantially discourages deforestation of forest areas.

(c) The studies made in this regard show that there are indications that the presence of forests may locally affect the incidence and distribution of rainfall and increase the same. It is true that deforestation may adversely affect the rainfall. But Rayalaseema may not become a desert in view of the ameliorative measures undertaken to reforest the areas.

(d) Under different programmes such as D.P.A.P., N.R.E.P., etc., afforestation works are undertaken and seedlings of trees saplings are distributed free of cost to individuals and village communities. Under Social Forestry Programme, tank foreshores are being afforested; trees are planted on the road side margins, canal banks, River Banks; etc. Woodlots are being raised in areas which are vacant and fallow. Trees are being raised in Government Community lands outside the reserved forests. To meet the requirement of fodder, pasture development programmes are undertaken in Rayalaseema areas.

re: Fixation of Sugar Cane Price.

Fixation of Sugar Cane Price.

The matter has been examined in the light of recommendations by the Sugar Committee of the Central Government and the recent price movements in the market.

It is informed that the price of sugar has shown an upward trend in recent months due to increased demand and limited supply. In this context, it is proposed to fix the minimum support price for sugar at Rs. 4.5 per quintal.

The Committee is of the opinion that this price will ensure a fair return to the growers and maintain the stability of the sugar industry.

It is, therefore, recommended that the Government should consider this proposal and take appropriate action.

Sincerely,

[Signatory]
