Oral Answers to Questions. 26th August, 1983. 119

(1) Dr. M. Servant:—I beg to ask the Minister of Agriculture whether it is the Government's intention to introduce a new Bill this Session to provide for the establishment of a Commission under the Indian Councils Act, 1919, for the regulation of certain private markets in India. If so, its details will be published. If not, is the Ministry prepared to lay before Parliament a statement outlining the steps it is taking to meet the needs of the traders concerned?

(2) Mr. C. W. Rowntree:—I beg to ask the President of the Board of Trade whether he is aware that in certain parts of the country, especially in the north of England, there has been a considerable increase in the cost of living in recent weeks. If so, what steps is the Board taking to meet the situation?

(3) Mr. R. D. F. Milner:—I beg to ask the Secretary of State for India whether, in the opinion of the Government, the treaty of 1924 with Persia is still valid and should be continued?

(4) Mr. J. G. Gray:—I beg to ask the President of the Board of Trade whether it is the Government's intention to raise the standard of agricultural prices in the near future. If so, what steps are it taking to meet the needs of the farmers?

Oral Answers to Questions

Sri M. M. J. Thomas Choudary (Dichpalli):— It has to be reported by the Village Munisif. Whether such a report has been given by the Police Patel? If so when it was given? Whether any action is taken against the Police Patel so far?

Ms. L. Nageswari:— Where is the Phillur? Who is the Superintendent of Police there?
We are making a terrible departure from the procedures which were in vogue in the House for generations. The new type of forces that are unleashed into the society or the State is something strange. It is a very unfortunate thing which you are doing in the society. The advent of this Government, I am not making aspersion on this...
government and certainly I am not attributing to the Chief Minister. It is the responsibility of the government to arrest such persons.

Sri N. T. Rama Rao:—Government is not taking this matter so lightly. I am sorry. It is a very serious matter. We know the obligation of the Government to do justice by establishing peace and order in the State.

(b) if so, the action taken or proposed to be taken to curb dacoitics and improve Law and Order situation especially in twin cities and surrounding areas?
Construction of "Retaining Walls" to Nizampatnam Irrigation Canals

(a) whether the then Minister for Roads and Buildings had in 1980 sanctioned the construction of Retaining Walls to Nizampatnam Irrigation Canals, passing through the heart of Tenali, at a cost of Rs. 22 lakhs;

(b) whether it is a fact that the said walls were completed in June, 1980;

(c) whether it is also a fact that those walls collapsed in 1982; and

(d) if so, whether action has been taken against the persons responsible for the same?

(d) The particulars of Telugu Ganga scheme will be placed on the Table of the House.)
Agreement Entered into Between the Government of Andhra Pradesh and Tamilnadu for Drawal of Water from River Krishna for Madras City Drinking Water Supply.

Whereas considering the acute scarcity of drinking water supply for the Metropolitan City of Madras and the limited water resources available to the State of Tamilnadu to meet such requirements, the Governments of Maharashtra, Karnataka and Andhra Pradesh agreed on the 14th April, 1976 to spare 5 TMC each out of their respective shares of Krishna waters, to enable the Government of Tamilnadu to draw upto 15 TMC of Krishna water per annum for water-supply to the City of Madras.
And whereas it was thereafter agreed as a meeting convened by the Union Minister of Agriculture and Irrigation on the 27th October, 1977 and attended by the representatives of the States of Karnataka, Tamilnadu, Maharashtra and Andhra Pradesh, that the Government of Tamilnadu shall be permitted to draw not more than 15 TMC in a water year from Srisailam Reservoir during the period from 1st July to 31st October, through an open lined channel from the point of off-take to be agreed upon the Government of Andhra Pradesh and Tamilnadu, between Srisailam and Samasila designed to carry a discharge not exceeding 1500 Cusees and the agreements for the conductor system shall be as agreed upon by the Government of Andhra Pradesh and Tamilnadu and that the Government of Tamilnadu and that the Government of Tamilnadu shall bear the cost of arrangements for conveying water from Srisailam reservoir to Poondi and the maintenance and operation charges thereto;

And whereas the aforesaid 1977 agreement was subject to formal ratification by the respective state Governments;

And whereas the Governments of Karnataka, Tamilnadu and Maharashtra had ratified the aforesaid 1977 Agreement and the Government of Andhra Pradesh had ratified the agreement subject to the specific condition that the restrictions imposed in the agreement do not in any affect the rights of the State of Andhra Pradesh to utilise the water of Krishna River for purpose of Irrigation and other consumptive uses;

And whereas following the decisions above mentioned, the Chief Minister of Andhra Pradesh and Tamilnadu met on the 15th June, 1978 at Hyderabad and agreed to commence investigations on the above project and to get the progress of investigations monitored by a Liaison Committee;

And whereas the investigating carried out by the Governments of Andhra Pradesh and Tamilnadu have established the technical feasibility of the project;

And whereas the Government of Andhra Pradesh have scheme for utilisation of Krishna waters for Irrigation and other purpose within the State and schemes of both the States have common components.

Now therefore, these presents witness that the Governments of Andhra Pradesh and Tamilnadu do hereby agree and bind themselves, their successors and representatives as follows:

1. (i). The Governments of Andhra Pradesh and Tamilnadu agree that the point of off-take of the lined channel referred to in Clause (iv) of the 1977 agreement shall be near about Chennamukkapalli Rudhapah Taluk.
(ii) The Government of Andhra Pradesh agree to construct the components of Madras City Water Supply Scheme specified in Schedule (A) which are within Andhra Pradesh boundaries, with its own men and materials, the cost being shared as described in the following clause.

(iii) The Government of Andhra Pradesh and Tamilnadu agree to share the expenditure on the construction improvements including lining and maintenance of the components specified in Schedule 'A' and Srisailam reservoir in accordance with the guidelines specified in Schedule ‘B’.

(iv) The Government of Andhra Pradesh and Tamilnadu agree that in respect of the Madras Water Supply Scheme transmission losses in the water conductor system from Srisailam reservoir to Andhra Pradesh-Tamilnadu border be restricted to 3 TMC in a water year. The Government of Andhra Pradesh agree to carry out necessary remedial measures to restrict the losses to 3 TMC. The cost of such remedial measures will be shared by Andhra Pradesh and Tamilnadu in the water conductor system proportionate to the benefit derived where the water conductor system is common and where the water conductor system is intended exclusively for Tamilnadu, the entire cost of remedial measures shall be borne by Tamilnadu.

(v) The Government of Andhra Pradesh also agree to provide a storage space of 5 TMC in Kandaleru reservoir for Madras City water supply and arrange to issue water required for Madras City water supply at the Tamilnadu border from a combined irrigation-cum-water supply canal on the lines indicated in the schedule of supplies made out in Schedule ‘C’ subject to the limitation that total quantity of water made available State border is 15 TMC less losses in any water year as per sub-clause (iv) of this clause.

2. The Governments of Andhra Pradesh and Tamilnadu agree that the component works detailed in Schedule ‘A’ will be executed by the Government of Andhra Pradesh in accordance with the details furnished in the Joint Project Report mutually agreed upon by both the Governments. Any change in the Joint Project Report in respect of hydraulic particulars of bed levels and fully supply levels of canals governing the water supply to Madras City, shall be affected only with the approval of the Liaison Committee.

3. The Government of Tamilnadu do hereby agree to bear the proportionate cost of the Project as determined by the guidelines detailed in the Schedule ‘B’. The broad pattern of provision of funds by both the Governments will be agreed to in advance of the commencement of the execution of the project. The payments by Tamilnadu will be made in advance for half year in April and October.
against the forecast of expenditure by the Andhra Pradesh Government for the ensuing half year, the accounts of sharing cost being finalised at the end of each half year, to be adjusted in the succeeding half year. The forecast will be for each component of the Project and the payment by the Government of Tamilnadu will be regulated as may be agreed by both the Governments.

4. The Government of Tamilnadu also agree to bear the proportionate cost of maintenance of the entire storage-cum-conveyance system in accordance with the guidelines included in Schedule ‘B’. The amount will be paid in advance every year in April against the forecast of expenditure that will be made by the Andhra Pradesh Government, the actual expenditure being adjusted in the succeeding financial year.

5. The Liaison Committee now functioning will continue to monitor the progress in the implementation of the scheme and also ensure effective co-ordination between the two Governments after the completion of the Scheme.

6. The Government of Tamilnadu shall utilise the Krishna waters exclusively for drinking water supply and not for any other purposes.

7. The Government of Andhra Pradesh and Tamilnadu agree that the Madras Water Supply Project will require a minimum of three years and a maximum six years for completion. The Governments will take all possible measures for early completion. In furtherance of this objective and pursuant to the provisions of clause 3 of this agreement, the Government of Tamilnadu agrees to pay to the Government of Andhra Pradesh in advance each half year a sum of Rs. 30 crores in April and October commencing from April, 1983 in each of the years 1983-84, 1984-85 and 1985-86 together with additions on account of cost adjustments based on actuals to cover the cost of component works mentioned in schedule ‘A’.

8. Subject to the foregoing provisions, nothing in this agreement shall be construed as abridging or taking away the rights of the Government of Andhra Pradesh to utilise the waters of the Krishna River for any purpose including irrigation.

9. Without prejudices to the components mentioned in Schedule ‘A’ the Government of Andhra Pradesh may add any other component from time to time for the maximum utilisation of the waters of the Krishna River within the State for any other purpose.

Mr. L. R. Reddy:—Mr. Speaker, may I draw the House's attention to the fact that my question was placed on the Order Paper yesterday. I had hoped to be able to be here in time to answer it. I did not have the opportunity to answer it yesterday. I hope the House will grant me permission to answer it today.

Mr. Speaker:—Mr. L. R. Reddy, you may answer the question.

Mr. Ch. Reddy:—Mr. Speaker, I refer to your query on the Table of the House.

Mr. Speaker:—Mr. Ch. Reddy, I have already answered your question.

Mr. Ch. Reddy:—Mr. Speaker, I would like to know whether you can lay it on the Table of the House.

Mr. Speaker:—Mr. Ch. Reddy, I can lay it on the Table of the House.
Short Notice Questions and Answers. 26th August, 1983.

1. *Q:* Can you provide detailed information on the effects of climate change on biodiversity? *A:* Climate change has profound effects on biodiversity, including shifts in species distributions, changes in population sizes, and increased extinction rates. These effects can be exacerbated by habitat loss, pollution, and invasive species.

2. *Q:* How can we mitigate the impact of deforestation on wildlife? *A:* To mitigate the impact of deforestation on wildlife, it is important to implement sustainable forestry practices, restore degraded ecosystems, and create protected areas. Additionally, reforestation efforts can help to maintain habitat diversity and support local communities.

3. *Q:* What role do human activities play in the decline of coral reefs? *A:* Human activities, such as overfishing, pollution, and coastal development, are major contributors to the decline of coral reefs. These activities disrupt the balance of marine ecosystems and can lead to the loss of diverse marine life.

4. *Q:* How can we ensure the conservation of migratory species? *A:* Conservation efforts for migratory species should focus on protecting critical habitats along migration routes and implementing international agreements to regulate trade and protect vulnerable species.

5. *Q:* What is the impact of global warming on polar bear populations? *A:* Global warming is having a significant impact on polar bear populations by causing a loss of sea ice, which is vital for hunting and breeding. This loss of habitat has led to increased competition for resources and a decline in population numbers.

6. *Q:* How can we address the issue of plastic pollution in oceans? *A:* Addressing plastic pollution in oceans requires a comprehensive approach that includes reducing plastic waste generation, implementing effective waste management systems, and increasing public awareness about the impacts of plastic pollution.

re: Assault on Workers by B.M.S. Workers in E.C.I.L.

It is submitted that on the 5th February, 1985, a strike was called by the BMSSU in ECIL units. The strike was a declared strike and was called by the trade union. The management, however, did not permit the strike to proceed. The striking workers were prevented from going on the strike and were beaten up by the management security. The workers were also prevented from going to the factory gates. The strike was declared illegal and the workers were arrested.

In these circumstances, the workers resorted to an agitation. The management, however, did not permit the workers to go to the factory gates. The workers were also prevented from going to the factory gates. The strike was declared illegal and the workers were arrested.

It is submitted that the action of the management was illegal and that the workers had a right to go to the factory gates. The management was not entitled to prevent the workers from going to the factory gates. The workers were also prevented from going to the factory gates. The strike was declared illegal and the workers were arrested.

re: Accumulation of cloth worth crores of Rupees in Handloom Primary co-operative Societies.

1. The situation is as follows:

2. The stock of cloth worth crores of Rupees in Handloom Primary co-operative Societies is accumulating. According to the records, the stock of cloth has increased from 10 crore to 1500 crores in the last 20 years. This is due to the increase in the price of cloth and the increase in the demand for cloth.

3. The situation is alarming and requires immediate attention. The stock of cloth is creating a financial burden on the co-operative societies.

4. The government should take immediate action to prevent the accumulation of cloth.

5. The co-operative societies should take steps to sell the cloth and reduce the stock.

6. The situation is urgent and requires immediate action.

re: Accumulation of cloth worth crores of Rupees in Handloom Primary co-operative Societies.

Sr...,

Attention Sirs,

We are in receipt of a communication from the Central Office of the Handloom Primary co-operative Societies regarding the accumulation of cloth worth crores of Rupees in their accounts. It is informed that the amount is estimated to be approximately 10 crores of Rupees.

We have been following the guidelines and regulations set by the Central Government for the management of the receipt and expenditure of these funds. We assure you that these funds are being utilized for the welfare of the weavers and the society.

We request your kind consideration for the necessary action to be taken in this regard.

Yours sincerely,

Sri S. Jaipal Reddy:—There are 2 aspects here. One is the specific incident and the other is the general problem. About the merits of the specific incident, there is scope for doubt that the local police have mis-behaved. They did not even pay heed to the search warrant issued by the Magistrate. They mis-behaved and the Goldsmiths were arrested. Secondly, in regard to general issue, the goldsmiths have become highly vulnerable in this respect. I also appreciate the difficulty of the Police Department, in investigation of the thefts. Unless some one is named, it may be difficult for them. As Mr. Venkatah Naidu, Mr. Mohan Mohan and others have informed, a G.O. was issued by the Kerala Government in this behalf and that is worthy of emulation, consideration and imitation and the Chief Minister now respond.

Sri M. Venkaiiah Naidu:—Inspite of everything being brought to the notice of the Chief Minister who is also the Home Minister if this is the approach or attitude of the Chief Minister in shielding the corrupt police officials where there is prima facie case, I would only say that the people of this State would draw their opinion.

Sri N.T. Rama Rao:—I once again appeal to this House that I will do justice in this matter.

For the present, the matter is sub-Judice, Sir.

Sri A. Madan Mohan:—I would humbly request the Hon'ble Chief Minister to enlighten the House as to what 'sub-judice'? Let him explain, Sir.

Sri N.T. Rama Rao:—The matter is in the First Class Judicial Magistrate's Court and the case is not yet decided.

Mr. Speaker:—When the Matter is in the Court, it is sub-judice.

Sri A. Madan Mohan:—The Executive Magistrate is the R.D.O. with quasi judicial functions. There is nothing in the Court. I would like to urge whether it comes under 'sub-judice', or not. Let there be a ruling.

The contempt of Court proceedings are in the Court before the Judicial First Class Magistrate. The case is pending.

Sri A. Madan Mohan:—It is unfortunate, Sir. We want to know very clearly the functioning of the Executive Magistrate. He is now coming totally with another plea of contempt of the court proceedings.

There is sufficient evidence against the erring police officer. There is prima facie case.

I am not accusing the Government. As head of the Government, as Home Minister, it is the responsibility of the Chief Minister to see that the protection is given to each and every person.

Sri A. Madan Mohan:—I am passing on the complaint to you, Sir. (The paper was passed on to the Chief Minister through the Hon'ble Speaker.)

Calling Attention Matters: 26th August, 1983.

The matter came under consideration in the House on Wednesday, 30th August, 1983, when the Hon. Member (Mr. R. V. Reddy) brought up the issue of eviction of hut dwellers in Vijayawada. The Hon. Member submitted the case of a hut dweller, Mr. C. R. Reddy, whose hut was approached by the Municipal Corporation and it was scheduled for demolition on 20th August, 1983. The hon. member stated that the hut dweller has been living in the hut for 10 years and has no other means of livelihood. The city corporation had already issued a notice to vacate the hut.

The Hon. Minister for Municipal Administration and Revenue stated that the issue of eviction of hut dwellers was under consideration. The Minister assured the House that the city corporation would take appropriate action and would ensure the maintenance of law and order in the area.

The Hon. Member (Mr. R. V. Reddy) thanked the Hon. Minister for considering the case and requested that the city corporation should provide alternative housing to the hut dweller.

The Hon. Minister responded that the city corporation would provide alternative housing to the hut dweller and would also ensure the maintenance of law and order in the area.

The Hon. Member stated that the case was of utmost importance and requested the Hon. Minister to ensure the early resolution of the issue.

The Hon. Minister assured the House that the city corporation would take appropriate action and would ensure the resolution of the issue.

The Hon. Member thanked the Hon. Minister for considering the case and stated that the city corporation should take prompt action to resolve the issue.

Mr. ... addressed the Assembly on the flood situation in the State. He said that the recent floods had caused extensive damage to the infrastructure and agriculture. The total damage estimate was approximately Rs. 500 million. The situation was further complicated by the monsoon rains, which had triggered several landslides and caused widespread destruction. The government had initiated immediate relief measures, including the distribution of food and shelter to the affected areas. However, the residents were urged to remain vigilant and take necessary precautions to minimize the impact of future floods.

26th August, 1983.

The discussion was held on August 26, 1983, regarding the flood situation in the state. Several points were raised and discussed, including the impact of the floods on the economy and infrastructure. It was highlighted that the floods had caused significant damage to the state's agriculture and transportation systems. The officials also discussed the measures taken to mitigate the effects of the floods and the steps being undertaken to prevent such occurrences in the future.

The discussion highlighted the need for better planning and early warning systems to minimize the impact of such natural disasters. It was emphasized that continuous monitoring and preparedness are crucial in managing such situations effectively.

The meeting concluded with a commitment to work closely with various stakeholders to address the challenges posed by the flood situation and to ensure the well-being of the affected communities.

The recent developments in the state, particularly the flood situation, have been discussed at the meeting. The state government has been working closely with the federal government to address the crisis. The situation has been exacerbated by heavy rainfall in recent days. The state has requested additional assistance from the central government to deal with the situation.

The state has deployed its own resources to contain the floodwaters. However, the extent of the damage is significant, and the state is seeking international assistance as well.

The state has also urged the public to remain vigilant and avoid unnecessary travel. The state's disaster management team is working around the clock to ensure the safety of the population.

The meeting ended with a commitment to continue working towards a solution to the flood situation.

Discussion on Flood Situation in the State.

Worried with the current flood situation in the state, the residents are expressing their concerns. Several areas have been affected, with water levels rising in rivers and streams. The situation has led to the displacement of thousands of people. The authorities have been working day and night to manage the situation and ensure the safety of the affected people.

A meeting was held at 6:20 PM in the state capital to discuss the flood situation. Several officials from various departments were present to discuss strategies to tackle the situation. The meeting was chaired by the chief minister, who highlighted the need for immediate action to prevent further damage. The officials discussed the current situation and the measures being taken to manage the flood waters.

The chief minister urged the people to remain calm and follow the guidelines provided by the authorities. He also appealed to the international community to provide aid and support in managing the flood situation. The meeting concluded with a decision to continue monitoring the situation and take necessary actions to protect the people from the flood.

The state government has deployed several boats and helicopters to transport the affected people to safer places. Emergency shelters have been set up in various locations to provide temporary relief to the displaced people. The state has also requested the Centre to provide additional aid to manage the flood situation.

The government has appealed to the people to stay away from the flooded areas and follow the safety guidelines. The situation continues to be challenging, and the government is working tirelessly to manage the flood situation.

1958 to 1983: Discussion on Flood Situation in the State.

In 1958, there was a severe flood situation in the State. The government took several steps to mitigate the situation. In 1978, the flood situation worsened, but the government managed to control it by implementing effective measures. In 1983, the flood situation was again severe, but the government was better prepared and managed to control it with the help of various agencies.

In conclusion, the flood situation in the State has been a recurring issue. The government has been working towards finding long-term solutions to prevent future floods. However, due to climate change and other factors, the situation remains unpredictable. The government needs to continue its efforts in flood prevention and management.

May I request you to refer to my letter dated 18-8-83 in which I have briefly informed you of the grave situation arising out of the floods in the river Godavari and cyclone due to the heavy rains in the first fortnight of this month. Reports since reached the state Government so far indicate that the extent of damage to the public and private properties together exceeds Rs. 100 crores. Information so far received indicates that 56 lives have been lost and standing crop in over 2.73 lakh hectares has been totally damaged. Damages to over 75,000 houses have also been reported and several roads and irrigation sources and public buildings have suffered extensive damage.

A memorandum seeking Central assistance to meet the grave situation is being sent to the Government of India separately. The State Government has issued orders for immediate relief to the affected population by providing shelter, clothing and foodgrains. Orders have also been issued for extending assistance to the cultivators where it is possible to revive the standing crop. We have also sought an advance of Rs. 15 crores from the Government of India for essential repairs to irrigation sources and for food relief. I shall be grateful for relief of advance assistance and also for a Central Study Team at the earliest for assessing the extent of damage so that the quantum of assistance from the Government of India may be decided quickly.”

Discussion on Flood Situation in the State.

Sri A. Madan Mohan:—Mr. Speaker, Sir, at this hour of crisis one is not in doubt about the unreserved support and assistance of the Opposition parties including my party. We always stand by the Government because it is the Government which has to shoulder responsibility. So the Chief Minister need not have any doubt about the unreserved assistance and support of my party and other opposition parties.

Sri N. T. Rama Rao:—Thank you.

Sri A. Madan Mohan:—We never lagged behind in this policy it was we who shouldered in this State this responsibility on many occasions. We have that sense of responsibility and also have the experience. So in the light of this, if I have to make suggestions I am sure the Chief Minister will not take it amiss or the other members of his party including his colleagues. I wish to say that what all he has done is a narration of facts. This is not a new experience to this Government. The administrative set-up is tuned to rising to the alarming situation; they have been trained and tuned and with the varied experience of administrative ability they have stood by the Government and through the Government machinery by the side of the people. I may recall this is not the first occasion when the Chief Minister had toured in helicopters. While I certainly pay compliments to the on-the-spot decision of the Chief Minister to visit the flood-affected areas, I should not be misunderstood if I quote the experience of the earlier Government when Dr. Chenna Reddy was Chief Minister; there was the monitoring system because of earlier experience. Not only that, he has pressed 3 or 4 helicopters into service to enable several people to undertake an aerial survey: he also asked his colleagues to tour—I, as his colleague in my capacity as Health Minister did undertake the tour not by helicopter because it was difficult to accommodate so many people, I had gone along with the Secretary and Director of Medical and Health Services and right from Nellore we covered Prakasam, Guntur, Vijayawada and we came back. We personally saw to it and everywhere bleaching powder was spread and every precautionary measure was taken so that no untoward incidents take place. But this time—I am not saying that it was deliberately done, it would not be good and it would be irresponsible opposition to say or allege against the party in power—but there is a lapse on part of his colleagues—be it the Revenue Minister, be it the

in the State.

Agriculture Minister or the Minister for Health - to undertake this tour. I do not know whether they were waiting for the instructions of their Chief Minister or the Chief Minister failed to give instructions. I do understand about their predicament because Assembly is in session and the opposition is not that foolish to comment about the absence of any of his colleagues when in a situation like this they go in the interests of the people - unfortunately, I would only put it that it is only a lapse and this should not be misunderstood. This is only a suggestion which I am making.

(Interuption.)

You are not one of the Ministers and I am only making a suggestion. I hope members on the treasury bench will be able to understand; otherwise I could have been critical about what has happened. Today people - more particularly in the areas where so many villages are marooned, where people are affected - I am referring to that aspect - I don't want to make a political capital; probably we are much more or at least we are equally concerned as far as people's sufferings are concerned - don't think with our varied maturity we want to make political encashment of everything. I said in the very first instance, we extend our unreserved support in this hour of crisis. Instead of appreciating if people misunderstand I cannot help it. What I am saying is only by way of a constructive suggestion. Now, the real assessment has not been made - probably the Chief Minister would do well in instructing the Chief Secretary and the other administrative apparatus to make a proper assessment about the real human loss, loss of cattle and the loss of property and also other losses. I would also like to bring to the notice of the Chief Minister - it is a matter of recent experience when Vijaya Bhaskara Reddy was Chief Minister we had to face a similar situation. While we were facing floods in Nellore, Ongole other Circar areas and part of Rayalaseema we were facing the drought situation in Telangana and Rayalasema. There again I in my capacity as Revenue Minister and other colleagues of mine - the Agriculture Minister and the Health Minister, Mrs. Pulla Reddy - we had to undertake the tour followed by the Chief Minister's tour. I am not here to go on record to give a list of illustrations of how the previous Government has done. What I am trying to impress upon the Government is - this is a situation where we expected all your colleagues to take up this works on a war footing - mere survey by the Chief Minister will not be sufficient.

Coming to the assistance of the Government of India, we are one with you in trying to press our demand on the Government of India in time to get as much financial help as possible. I am sure with our collective approach we will not be failing in getting what is
required for the State. At the same time I wish to state that the Chief Minister would have done better in going to Delhi impressing upon them by his personal visit and by his physical appearance about the need for sending a Central team and also interim relief. Probably letter-writing is a formality. It does not mean that the Government of India does not take cognisance of situation because it has been doing not only to our State but all the States in the country. I feel that the Chief Minister's physical presence at Delhi would have really made a difference. Even now it is not too late for the Chief Minister to think about it and for that reason if he requires any of the assistance of the Opposition leaders - either of our party or other parties put together - we will stand by the Chief Minister in this hour of crisis.

7-20 p.m. These are some of the lapses which have taken place, may please be taken note of. Please see and try to rise to the expectations of the people. As far as the payment of money to the damaged houses and other things are concerned, I need not say and the Chief Minister himself has agreed that the rupee value has come down and what is being paid is a pittance and probably it shall not be a realistic approach to approach the problem.

Then coming to the land, irrespective of the central assistance, the State Government should have taken a greater responsibility in allocating more funds. Another lapse has come to our notice, which I may bring it to the notice of the Chief Minister as well as this August House. In Karimnagar District only the Collector and the Superintendent of Police have really taken pains to go round everywhere. Rest of the District Officials were absent, which is subject to correction if it is so. I think a serious view has to be taken. I should compliment the District Collector, Nizamabad. She is a lady with small children. She left them and undertook very bravely the situation. She faced and has really averted the situation. As per the statement of my colleague, Mr. Santosh Reddy, if she had not taken those steps very boldly and timely action, about 5000 people would have died. I pay compliments to that District Collector, because it is a matter where one likes to rise to the occasion. I hope the Chief Minister also would share the sentiments and try to take other necessary measures so that we can ultimately reach the people and try to rescue them from suffering and help them.

Sri A. Madan Mohan:—I have not uttered about a single word about the legislator. I said about the colleagues. you are not colleague. you are a legislator. Ministers are his colleagues. Let him undersand like that.

Sri A. Madan Mohan: It is spoiling the atmosphere. If Mr. Hari Rama Jogaiah has gone I would compliment him. If the others have not gone, may be, because they did not have instructions, or it has not struck to the Chief Minister that his colleagues also should go. So this is the time where the people expect you to go about. I am not finding fault. If you have to take every word of mine with a pinch of salt, I cannot help it. I only have to make a sad observation that his intelligence is to be a power fuel.
252 26th August, 1983. Discussion on Flood Situation in the State.

The meeting opened with the Report of the Flood Committee. It was observed that the situation was very critical in the districts of X and Y. The committee recommended the following measures:

1. Immediate release of all available water from the reservoirs.
2. Evacuation of all affected areas.
3. Immediate distribution of relief materials.
4. Setting up of temporary shelters in all affected areas.

The committee also recommended the following long-term measures:

1. Construction of additional flood control structures.
2. Regular monitoring of weather patterns and water levels.
3.增强 public awareness about flood prevention.

The committee appreciated the efforts of the state government in handling the flood situation.

In conclusion, it was recommended that all necessary measures be taken immediately to overcome the current crisis and prevent future occurrences.
