ANDHRA PRADESH LEGISLATIVE ASSEMBLY

Wednesday, the 24th August, 1983.

The House met at Half-past Eight of the clock

(Mr. Speaker in the Chair)

ORAL ANSWERS TO QUESTIONS

Non-Issue of S.T. Certificates To Bentoriyas In Srikakulam District

81—

*484—Q. Dr. M. V. Krishna Rao (Ichapuram) :—Will the Minister for Social Welfare be pleased to state:

(a) the reasons for not issuing S. T. Certificates to Bentoriyas living in Srikakulam District; and

(b) the reasons for not following the instructions contained in the Government of Andhra Pradesh Memo No. 2624/F2/77-13, dated 20-5-81, in connection with scheduled Tribe certificates to Bentoriyas by the Revenue authorities of Srikakulam District?

An asterisk before the name indicates Confirmation by the Member.
Levying of Two Types of Taxes on Tree Tappers

(a) whether it is fact that the tree tappers are burdened by two types of taxes i.e., excise duty for tapping trees and payment of Haq-E-Malikana to the owner of trees; and

(b) if so, whether there is any proposal to simplify the same and levy only one tax payable to one agency as tree tappers are uneducated?

Levying of Two Types of Taxes on Tree Tappers

Conducting of Judicial Enquiry on Police Firing on Students of Sir C. R. Reddy College, Eluru

87—

*419-(K) Q.—Sarvasri Allu Venkata Satyanarayana (Palacole) K. Bhaskara Rao (Achanta) and Ch. Venkateswara Rao (Tanjukul) :—

Will the Chief Minister be pleased to state:

(a) the reason for not disclosing the report pertaining to the Judicial Enquiry conducted into the police firing on the students of C. R. Reddy College of Eluru on 10-12-81;

(b) whether it is a fact that cases were filed illegally against the students and youth leaders who participated in the State-wide agitation resorted to as a protest against the firings:

(c) whether there is any proposal with the present State Government to withdraw these cases?
Pollution of Water of Tungabhadra Near Alampur Town

Will the Chief Minister be pleased to state:

(a) whether the Government are aware of the fact that the waters of Tungabhadra near Alampur Town are getting polluted because of the "Rayalaseema Paper Mills"; and

(b) whether any steps have been taken either to prevent it or to make alternative arrangements to supply drinking water to the public of Alampur?
Oral Answers to Questions. 24th August, 1933.

1. Shri. Lokanath (Andhra):—The Government do not maintain that the
situation which has been described by you has, in fact, been the
cause of any injury to the lives or health of the people. The deplorable
state of affairs in certain parts of the country is due to the
Government's efforts to control the spread of the disease, and to
the desire of the people to return to their homes as soon as it is
practically possible. The Government are determined to do all in their
power to check the extent of the disease and to prevent its
spread.

2. Shri. Laxmi Prasad:—A large number of cases have been reported
in this respect, and the Government are taking all possible measures
to prevent its further spread. The Government have already
appointed a special committee under the chairmanship of
Shri. M. N. D. to inquire into the matter, and the committee
will report their findings at an early date.

3. Shri. Ram Mohan:—The Government are fully aware of the
seriousness of the situation, and are doing everything possible to
prevent its further spread. The Government have already
appointed a special committee under the chairmanship of
Shri. M. N. D. to inquire into the matter, and the committee
will report their findings at an early date.

4. Shri. Ram Mohan:—The Government are fully aware of the
seriousness of the situation, and are doing everything possible to
prevent its further spread. The Government have already
appointed a special committee under the chairmanship of
Shri. M. N. D. to inquire into the matter, and the committee
will report their findings at an early date.

5. Shri. Laxmi Prasad:—The Government are fully aware of the
seriousness of the situation, and are doing everything possible to
prevent its further spread. The Government have already
appointed a special committee under the chairmanship of
Shri. M. N. D. to inquire into the matter, and the committee
will report their findings at an early date.

6. Shri. Laxmi Prasad:—The Government are fully aware of the
seriousness of the situation, and are doing everything possible to
prevent its further spread. The Government have already
appointed a special committee under the chairmanship of
Shri. M. N. D. to inquire into the matter, and the committee
will report their findings at an early date.

Annual Financial Statement (Budget) for 1983-84: Demands for Grants—Education.

Mrs. Godfrey:—Sir, I should say that I have no complaints against the education system in the State and I think it is good as in any State or anywhere else in the country. But I see a large portion of our children is being admitted into private schools. Why?

I asked some of the Headmasters and principals of the private
school as to the reasons why the children want to be admitted into our schools. We have the same educated teachers. We have the same syllabus and everything. I think the only problem is that our schools are not well housed. Our children are sitting in the schools for five to six hours. I have seen a school, where the roof may fall down in any minute. So we cannot sacrifice our children by putting them in these unwanted buildings. I have been pleading all the time to say that the Government should put up a few government buildings so that they may feel safe and all amenities are provided for them. Now the Government schools don’t have proper amenities. They don’t have toilets, water facilities or play-grounds etc. Then how do you expect our children to stay for five to six hours. They are in such insanitary conditions. That is why most of the parents are rushing their children to private schools to get admissions. The education in our schools is the same. If you go with a certificate, you are admitted into any Government college or a private college. I request the Government to see that certain buildings are put to house our children. I read that Rs. 55.66 lakhs have been sanctioned by the Government for secondary school buildings. I don’t see any school buildings coming up. This is my great sorrow and this is my complaint to make to the Government. They should put up their own schools. In the private school they have all the amenities for the children. I think it is rightly so. We have have to educate our children and we have to educate all the citizens to make them a whole man or a whole woman. The environment and discipline are necessary from early childhood rightly upto 14 to 15 years; not in the college life. So, I request the Government to take cognisance of the buildings for our children to house them. Last time, when I was an M. L. A. I just toured for inspection. After I came out of the school, the beam of the school fell down. It is very good that the children were outside. Or else, at least five to six deaths would have taken place. We are not prepared to send our children to such schools having such bad conditions and having such risky conditions.

Regarding Mid-day Meals, if you want to give, see that it is not a substandard one. Our children are not going to take it. I request that special inspectors should be sent to see that our children are given perfectly good food. If not, don’t give at all. It is very surprising and really unfair to see that the meals that is being given to the poor children is substandard. That aspect should be looked into, carefully because it concerns to the life of the children. About the colleges, it is causing so much agitation in the minds of the people. I request that all the private managed professional colleges should be taken over by the Government. We are really selling our education. Actually if I have Rs. 1 lakh or Rs. 2 lakhs I
can get one admitted into any medical college though he is incapable or fit for it. We are sacrificing the lives of the citizens or the people in the hands of those Doctors who are not qualified. They don't have the potential for it. They just paid and got the degrees and are practising on the other people. That is why we find such a poor calibre in the Government hospitals and people prefer to go to private doctors and private nursing homes. The engineers are turned out from some of the engineering colleges. You see that the old people of years and years ago, are still alright. Now the engineers are constructing the roads, and in a few years you find pitfalls. The bridges are going down. Dams are breaking down. It is all because they are paying and getting their degrees and certificates. It is very very wrong, particularly in education. The supreme and meritorious students should get into these professional colleges. So, a very serious action should be taken against the private colleges which are taking so much donations. I request the Government very firmly to take over these colleges or else, close them down and open your own professional colleges where the students get in through their merit. We want people who have the real aptitude in the profession and who will really shine in that profession and do good for the citizens of our country. Thanking you.

Annual Financial Statement (Budget) 24th August, 1983.

for 1983-84:

Demands for Grants—Education.

Sri Ahmed Sheriff:—Sir, I have gone through the entire Budget. Nothing has been said in regard to minorities, particularly Muslims. Muslims are very much worried about their problems. Where there are Urdu Schools, there are no Teachers. We have represented constantly to the Department. But the Government is not appointing the Teachers. Urdu Training Scheme was there which was running successfully earlier. But now, there are no Teachers to appoint. Who is responsible for these vacancies? With this, our children are suffering. Once upon a time, in the University, we used to have 80% of the students belonging to Muslim community and now they are only 8% or even less. Therefore, I request the Government through you, Sir, to look into the miserable conditions of the minorities and provide all facilities like other communities.

Then, Sir, with regard to the burning point of capitation fee, there should be exemption for minority institutions. I request the Minister to go through the particular piece of legislation from the Karnataka Government, where they have given exemption for the minority institutions, which come under the Constitution. I will refer a sentence of that Legislation, which reads as follows:—"Application of the Ordinance to the Minority Institutions—Nothing in this
Ordinance or Rules made there under shall apply to minority educational institutions to the extent to which they are inconsistent with the rights guaranteed under Article 30 of the Constitution of India. Under this provision, the minority institutions are protected. Whereas in Andhra Pradesh, all the Minority Institutions are closed and we have gone to High Court and got stay orders. I request the Hon’ble Minister to look into this matter and protect the Minority institutions. He must come to the rescue of these institutions and pass orders to see that these institutions run well. Particularly, the Engineering College, Sultan-Ul-Uloom Engineering College is suffering. There is National I. T. I. It is also suffering.

With regard to Oriental Language School, which is having aid from the Central Government as well as from the State Government there is one Officer by name Mr. Shanker Rao, who is there for the last 15 years. He is simply ruining the institution. There is lot of corruption and I request the Education Minister to look into these affairs. It is in a very bad state of affairs and it should be looked into for rectification.

Then, there is Urdu Academy. It was a separate entity. The Urdu language was also official language. We have to improve the language and we have to adopt progress methods. We have also given representations in regard to the sentiments of the minorities. I request the Hon’ble Minister to see that this Academy should be maintained separately as a separate entity and it should be given a proper allotment as in Utter Pradesh. There, the Government have allotted Rs. 20 to 25 lakhs whereas this Government has not allotted anything and the Academy is now an insignificant one. I request the Hon’ble Minister to retain the Urdu Academy as it was and let its glory and significance be brought again.

24th August, 1983.

Demands for Grants—Education.

(Mr. Speaker in the chair)

Sri P. Ananda Gajapathi Raju:—Mr. Speaker Sir, I am asked to reply to the debate on Education Demand. For replying to this debate I have noted down some of the points which our Hon'ble Members have raised in their various speeches. But nevertheless I am compelled to state that this year-1983-has been a water-shed year, as far as the education goes in the State. Because, a number of decisions which were hitherto not taken; or not taken because of lack of conviction; or not taken because of encouragement, have been taken up this year.

We find that the total out-lay has increased tremendously from Rs. 757 lakhs to Rs. 3,081 lakhs. This has indicated that there has been a greater emphasis on education this time.

Of course I do admit that the Demands for education need to be further increased because of certain anomalies in the situation but nevertheless there are some financial compulsions which make it impossible for us to increase the allotment beyond this level.

Nevertheless, I would like to state that compulsory education for children between the age groups of 6-16 years was to be completed by the year 1960 and this is being further extended to the year 1990, and this is a stupendous task in front of this Government. We find that we are below the national average. The national average of literacy is some 30%, and we are still somewhere in 28%-even below the national average. Therefore there is need to increase educational facilities not only at the Primary and Secondary level but also at the collegiale level—but this means that more facilities have to be provided and it also involves a lot of financial commitment.

Nevertheless I would like to bring it to the notice of this august House that the educational set-up and the system has been changing day by day. Yesterday, there was a question on industrialisation of job oriented education were to be introduced, then the problems would be solved but now it is not just a question of job oriented or vocational education. Education is becoming more complicated in that. You find that in western countries people are going in for high technological industry and in this case we do not have the faciliton to provide high technological importation of skills which are prevalent and which are needed to be done. Therefore when industry is becoming more capital intensive and when industry is becoming more less labour oriented,
then we find that the students who are going out of colleges do not find a place in the society and the economic society today. Therefore it would be in fact counterproductive to go on increasing the colleges indiscriminately and going on increasing the facilities indiscriminately. What is required is the proper mix, the proper combination of courses which have to be offered. Therefore the Government has come forward with a few concrete programmes this year to take up in the interest of the students community at large.

You find that in order to complete all the school buildings in the State you require over Rs. 200 crores and that too, it will escalate year by year. But nevertheless this year more than Rs. 10 crores has been earmarked for building of elementary or secondary schools in the State. You also find that there is a component of British Aid, amounting to Rs. 1.5 crores. Therefore if this British Aid is properly utilised, then, in future, as an ultimate result of the assistance given, we may get an amount of Rs. 26 crores in order to see that the school buildings programme is given a fillip. It is with this idea that the Government has come forward to specially grant a certain amount of money and to earmark certain amount of money for school buildings programme. The school building programme will create certain amount of incentive in the rural areas for children to come forward and study; and also for the parents to give enough encouragement to their children.

Therefore, as I mentioned earlier the literacy rate is very low in the State. It has been very low for the long time. It is much below the national average and therefore we are trying to give it a fillip by appointing and creating 14,625 special, category teacher posts for schools and convert the single teacher schools into two teacher schools. We also want to see that 2,117 special language pandits posts are created on a consolidated basis, so that the language or importation of languages does not suffer.

Non formal education also is existing. There are 4,020 non formal educational centres and we want to give it a fillip because we find that in rural areas children are not coming into the education mainstream. In order to bring them in to the education mainstream, there is need to emphasise and further emphasise to non-formal education.

Regarding the Mid-day meal, you find that there is a certain amount of problem. I do not deny the fact that there are certain problems. There are bound to be some problems when a programme is newly started. When a programme is newly implemented, there are bound to be teething problems but these teething problems will be sorted out as days go by and also by the valuable suggestions given.
by the Members in this House. I would also like to mention that there is no question of discrimination either by caste or creed. You find that S.Cs—S.Ts and B.Cs., are included in the programme and at the same time whose parental income is less than Rs. 3000 per annum. Therefore when that question of Rs. 3000 per annum parental income is created that means that this is given to all the economically backward and to that extent there is no discrimination in this programme.

Regarding supply of text-books and note-books this year, the Government went through a lot of exercises in order to see that the note-books and text-books were supplied in time with desired right quantity. There may be a marginal deficit but nevertheless out of 228 class note-books, I think, 98 or 99 per cent of the books have been supplied.

Similarly about the Text-books also. While releasing the text-books to the schools it was seen that it was done through the Deputy Inspectors of schools, who are given the books on credit basis.

Regarding the examination reform, you find that this year the Government has fallen heavily on students who are copying and tried to dissuade mass copying, because mass copying has become the bane of the Society. Students come forward with this copying and then get degrees and diplomas and when they go into the society, they find that they do not have a place there. Therefore in order to make the system more equitable, it was found that it was necessary to take immediate steps in reforming all examinations.

About Residential Schools, 23 residential schools were opened this year and this is a new concept and definitely it will give it a fillip in the education in the districts.

Adult Education is also going to be given a lot of encouragement this year.

Regarding Capitation Fee, let me mention that the Central Advisory Board of Education, where all the Ministers of Education of all the States are Members commended the action taken by this State Government regarding the abolition of Capitation Fee. They wanted this legislation also to be taken up by other States, so that there would be a uniformity through out this country.

Now the question is that some Members said that the capitation fee and donations are yet being collected from the students. In this connection I would like to mention that if there are any such incidences, they can please bring to the notice of the
Government. Besides, I would also like to mention that the rules pertaining to the capitation Bill have not yet been formed. Even though the Act has been passed, the Rules under the Act have not yet been formed. Once the Rules under the Act are formed definitely the Government will not hesitate in taking steps to see that the capitation abolition is implemented.

Regarding the Women's University, this year the Government established a Women's University exclusively for vocational courses and therefore for only is the Government thinking of starting a Women's University at Tirupathi but also taking branches to various district headquarters as and when moneys are available or able to be procured. Therefore the Government is taking definitely the steps to see the women's education is encouraged in this State.

I would also like to mentioned that that for I.A.S., I.F.S., I.P.S., and other U.P.S.C., examinations, the Government is definitely taking steps to see that the students from the State get higher enrollment in these Central Services from the State.

I would also like to mention that the dignity of labour is very important. To-day the students community does not want to go with solid hands. The policy of a clean job a desk job is something which should be forgotten. What is required is dignity of labour and students should not forget that solid hands means the "National Building Effort". Therefore there is a fillip given to the N.C.C., Scouts and Guides even in this Budget.

About the cultural affairs, I would like to mention that the lost glory of Telugu Culture is being re-established. What is being said about the 'cut of funds' for the cultural affairs must be understood in the dimension that there is a trade arm between the benefit. There is a trade arm between the achievement and the past. You cannot go on increasing the cost indiscriminately beyond a point. Besides, if there is a need for rationalisation and the Government have taken a bold step in this direction.

So, regarding the other activities of the Government State archives, Public Libraries, Sports and Youth Services the Government is definitely taking steps to see that these get a fillip in this particular area. Therefore in Youth Services, one Hon'ble Member was gracious enough to point out that obscene posters etc., were being shown. But to this extent we are not encouraging such things and we do not want to see that such tsing are encouraged. Because we want the youth to be ideal, we want the youth to be imaginative
and we want the youth to be shown the new direction to the efforts of the State.

Therefore by and large, I would like to see that this year there has been a fillip given to the Education and definitely education is finding an important place in the programmes of this Government. To say that there is no normality in the Budget is just to say that there is nothing wrong in doing something new. In other words, when we do something new, it should be appreciated when we do something novel, it should be appreciated. If it is not appreciated, then at least it should not be condemned.

Regarding the examination reform, I just mentioned in my earlier speech that examination reform is being done and if decentralisation is necessary in this regard we will definitely do it.

Regarding the University Inspection and the Administrative Report, said by Sri M.V. Krishna Rao-Garu, definitely we will get hold of this Report and do the needful in this regard. Regarding the College which was referred to in Bandar, definitely this matter was brought up before the Hon'ble Chief Minister and he mentioned that we are giving them two years' time to provide necessary facilities to run this College. If the facilities are provided, definitely we are not having any objection in seeing that this College is run.

Then, Smt. K. Prasuna mentioned that elementary education facilities should be given a boost. Definitely, if it is a school building programme, this Government is definitely giving it a boost and there is no discrimination in school. If there is a feeling that there is any discrimination, then, we would request you to kindly bring it to our notice so that we could take action in this regard.

Mrs. Godfrey mentioned that school buildings construction and facilities in schools have to be increased. I may mention here that for all it requires lot of finances and finances is the main constraint. Within our resources that are at our command, we will definitely see that the school buildings programme is given a fillip.

Regarding the rationale for Telugu University, I would like to mention that Telugu University is definitely the encouragement to the Telugu Language. Because one Hon'ble Member mentioned that there is no English University in England, there is no Punjabi University in Punjab but I would like to mention that there is a Tamil University in Tamil Nadu and therefore because there is a Tamil University exclusively to work for the interest of Tamil Language, definitely we also would like to take a view from that and start Telugu University here to see that Telugu is given encouragement.
Sri A. Madan Mohan:—Are they your mentors?

Sri P. Ananda Gajapathi Raju:—Sir, I would like to mention that whenever a good thing is done, anywhere, it is worth picking up.

Sri A. Madan Mohan:—Do you consider that it is a good move?

Sri P. Ananda Gajapathi Raju:—Sir, definitely. I object to it.

Mr. Speaker:—Let him complete this reply please.

Regarding Single Teacher Schools, as I mentioned earlier in my speech, they will be converted into Two Teacher Schools and to that extent, new appointments will be made.

Regarding Sri Satyanarayananaguru’s request that a Sports stadium should be constructed in each district, that also will be considered.

Regarding the Constitutional Provision for exemption of minorities, let me state that the State has not in any way discriminated against minorities because definitely, we want to see that Urdu language is encouraged. We want to see that Urdu Academy is kept as a separate entity and to that extent, the State is definitely encouraging the minorities.

Regarding Captation fee, this august House and the Legislative Council also have passed the Bills and enacted them in order to see that the Captition fee is not collected in any institution.

I would like to mention that there is new dimension given to the Education this year and I would like to appreciate this, when all the other Members appreciated the same.

I have just rounded up the debate and this is not question hour if the Members want to put separate questions in this regard.

Sri A. Madan Mohan:—Sir, regarding my right to put questions and asking for clarifications, I would like the Hon’ble Minister for Education to know that it need not be the question hour. When discussion is closed very member has got inherent right to ask for clarifications and he is duty bound to answer them.

Sri P. Ananda Gajapathi Raju:—Sir, definitely when certain matters are raised, I would answer them but as in the question hour, I am not duty bound to cover on each and every aspect, because each Member spoke for about half an hour and if you want to cover each and every aspect, it will take a long time.

Mr. Speaker:—The Hon’ble Members want certain clarifications.
Sri P. Ananda Gajapathi Raju—Sir, them. I will cover generally.

Sri N. Indrasena Reddy—Sir, what about the University autonomous? What about the Syndicate and Senate elections?

Sri P. Ananda Gajapathi Raju—Sir, regarding the Senate and Syndicate elections, it was mentioned in this august House earlier that it would be conducted as soon as possible.

Sri P. Ananda Gajapathi Raju—Sir, regarding the Senate and Syndicate elections, it was mentioned in this august House earlier that it would be conducted as soon as possible.

Sri P. Ananda Gajapathi Raju—Sir, regarding the building activities, let me mention that more than Rs. 25.00 lakhs have been released in each district to construct elementary and secondary school buildings. Regarding the appointment, as I mentioned in this august House earlier, we will see that these appointments are made before the end of next month.

Sri P. Ananda Gajapathi Raju—Sir, regarding Telugu in the Public Service Commission, definitely we will see that this is done.
368 24th August, 1983.  

Annual Financial Statement (Budget) 
for 1983-84.  

Demands for Grants—Education.

Sri P. Ananda Gajapathi Raju—Sir, regarding this, where there are no schools at all, let me say that this Government will positively consider that matter:

1-40 p.m.

Sri P. Ananda Gajapathi Raju—Sir, yesterday or day before yesterday this matter came up before the Hon’ble Chief Minister. He was kind enough to tell about this Bandar College. “If the provide necessary facilities in order to see that the College is put on sound footing, definitely it will be allowed to function.” Let me mention that if it is the case, it will be allowed to be admitted for Grant-in-aid.

Sri P. Ananda Gajapathi Raju—Sir, on the basis of what the Chief Minister has said, we will definitely take necessary steps.
Annual Financial Statement (Budget) 24th August, 1983. 369

Demands for Grants Education.

Sri P. Ananda Gajapathi Raju:—Sir, I was not aware of this particular fraud which she has mentioned about but if she gives me the details I will definitely get the matter enquired into.

Sri Ahmed Shareef:—Sir, I have specifically asked the Minister for Education through you, regarding the capitation fee which now in our States. In Karnataka State exemption has been given to the minority institutions. Whether this Government is considering giving such exemption to the minority institutions in Andhra Pradesh or not?

Sri P. Ananda Gajapathi Raju:—Sir, the Government is not considering in giving exemption to the minority institutions:

Sri P. Ananda Gajapathi Raju:—Sir, I mentioned in this august House a few days back answering a Calling Attention Motion that the
fee was increased. This was done because the Capitation Fee was abolished.

Sri P. Ananda Gajapathi Raju:—Sir, regarding the appointment of Language Pandits, I already mentioned that 2,117 Language Pandits will be appointed in our State.

Hon’ble Member:—Now that the College Management at Masula has given the commitment that they would construct college building within two years, within how many days it is possible to arrange for the admission in the Engineering College at Masula. I seek the clarification from the Education Minister.

Sri P. Ananda Gajapathi Raju:—Sir, as clarified some time back, the admission will be taken place as soon as possible.

Sri P. Ananda Gajapathi Raju:—Sir, this was brought to our notice sometime back during this Session and this is being considered.
Sri P. Ananda Gajapathi Raju—Sir, this was brought to our notice earlier in this House and definitely we are trying to increase the section strength in order to see that the admissions are done.

Sri P. Ramaswamy—Sir, as the Minister has given an assurance about Masala Engineering College, he knows well that there are too many colleges of the same standard which are trying to get more facilities. He can give an assurance to give the same facilities to such colleges also.

Sri P. Ananda Gajapathi Raju—Sir, if those two colleges also come forward to say that they will prepare necessary infrastructure then, definitely we are prepared to permit them also. We will consider.

Sri P. Ananda Gajapathi Raju—A course has to be started in the paper technology.

Sri G. Buchayya Chowdary—Yes certainly,

Sri P. Ananda Gajapathi Raju—Schools in the municipal area are as and they come under different categories.
372 24th August, 1983. Annual Financial Statement (Budget) for 1983-84:
Demands for Grants—Education.

Sri P. Ananda Gajapathi Raju:— His contention will be considered.

Sri V. Venkateswara Rao (Metpalli):— It is said that Rs. 80 lakhs are due by way of block and matching grants for the various universities in the State. This matter has been brought to the notice of the Minister and the amounts are still outstanding. Whether any provision is made in the present Budget for remitting all these dues?
Sri P. Ananda Gajapathi Raju:—This particular matter has come up as L.C.Q. in the Council to-day and I gave them an assurance that definitely something will be done.

Mr. Speaker:—The question is.

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-
To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

The cut motion were negatived.

Mr. Speaker:-- The question is:

To reduce the allotment of Rs. 441,64,37,800 for Education by Rs. 100/-

The cut motion was negatived. Members pressed for division.

The Cut motion was negatived.

Mr. Speaker:-- The question is:
