Sri P. Ramachandra Reddy:— Sir, personally I think, this is the question pertaining to the Industries Department. This agreement will take place between the Industries Department and the pulp manufacturers and paper industries. It is better to refer this to Industries Department and ask for the details, or let the Industries Minister answer it. I have no objection. This is only my suggestion.

Mr. Speaker:— Do you want that it should be postponed?

Sri P. Ramachandra Reddy:— If they want, let it be answered.

I would like to put only two supplementaries about this. 20, 80 are printed as thousand, meaning 2,000. Now we are having 2,000. It is normal.

Forests will not be there after ten years, therefore the Minister should carefully examine this point and see as to whether this Government is going to formulate a new policy only to supply 50% rate? Whether the Government is prepared to do that?

...
remaining 50% you have to depend on farmers. Because you can stop the supply, they will immediately withdraw. Therefore what I am asking is you should call for a meeting and tell them that the Government will supply only 50%. The remaining 50% they have to supply on private people. Then the private forest will grow in the State and in the country and the national wealth will be safeguarded.

16/4. The execution of the work could not be taken up immediately due to paucity of funds. An amount of Rs.15.00 lakhs is provided in the Budget Estimate for 1983-84. Since the existing bridge at Km. 16/4 is very narrow and heavy lorries cannot ply over this, it is proposed to construct two bridges in Km. 16/4 on 1st priority. After finalising tenders for this, work it will be taken up execution. As there is a weak and narrow bridge in Km. 16/4 across Pedalanka drain, lorries cannot ply over this bridge and materials cannot be carted to the other side. Hence the reach from Km. 16.40 to 24.414 will be improved after completion of the bridge work. In addition to the above, an estimate under repairs for periodical renewals from Km. 1.00 to 12.00 i.e., from Bantumilli to Krithivenu was sanctioned for Rs. 3,23,000 and the agency for the work was also settled and the site for the work was handed over to the Contractor on 25-5-1983. I would like to ask you one question. Some of the starred questions were postponed at the request of the Ministers. Why should they be placed on the Table of the House? If it is the practice, we will never agree for postponement. The Speaker will have to see that it is answered on the same day. Here some of the questions were postponed at the request of the Minister and the Department and they cannot be postponed. Why should they be placed on the Table of the House?

Mr. Speaker:—The departments never asked for postponement.

Sri M. Venkaiah Naidu:—My questions are there. What happened to my question? You have given a general observation. I am not talking about today’s question.

10.30 a.m. Mr. Speaker:—What can I do?
Handicapped people are going to be deprived. Therefore you are requested to ask the Government to reconsider the issue and see that the handicapped people are given seats in private engineering colleges.

Re: Communal riots in old city.

Sri A. Madan Mohan:— Sir, This issue was raised in this House only a few days back. We have been cautioning the Government to take necessary precautionary measures, so that it will not recur again. It is really unfortunate that inspite of the fact that the Opposition parties have been cautioning the Government about the possible out come of the situation, in this actually the old city is involved, Government has not taken necessary precautions. I will not go that far as to add or impute motives to the Government to say that Government's hand is involved. When you look to the series of incidents that took place and also the callous indifference that is shown by the Government in tackling the issue one is forced to come to the irresponsible conclusion that Government has certainly failed very miserably. Whether it has failed deliberately or because of its incapacity and inefficiency is a matter which we leave it to the people to judge. Whatever it is, Government cannot take refuge under any excuse. If it is deliberate, naturally there cannot be a greater and social crime that this because of the inefficaciveness, inefficiency and immaturity and unimaginative approach of the Chief Minister or the Government. Even then it is not excusable, in the sense, no Government which lacks capacity to rise to the situation in sorting out the problems has the privilege to continue in the Government.

It has happened not once, twice but thrice. Day in and day out. 11-30 a.m. inspite of the fact the Assembly is in Session, we are hearing about the deaths. We have made it very clear that we are not interested in the sects irrespective of the fact to which party or sect they belong to, there should be severe action against them. Unfortunately, the Government has failed. Every to this day, the Government is not position to say as to how many people they could identify, who were responsible in creating this situation where innocent lives are being lost every day and to what extent the Government has been successful.
in trying to prosecute such of those unsocial elements who are responsible for this. We have always said that religion would like to preach all these things. It is only a few unsocial elements irrespective of their cast, community, race and religion because of their sadistic temperament or social frustration or limited constipated thinking that they get themselves involved in trying to fan and torment such communal tensions. After all, it does not take much time for this Government with a huge administration and police apparatus being at its disposal to lay their hands against these few individuals. The Government, certainly has failed and miserably failed as pointed out by my friend Mr. Rajab Ali. As far as my party is concerned, it has been on record and continues to be on record that it is our motto and our conviction that while we tolerate and appreciate a religion, which should be confined to domestic affairs. But in our social action and reaction or social mingling or political activity this factor should not play any role much less a very narrow role. We always stood by this and sometimes at the point of being misunderstood by the same people of this country we still steadfastly stood by this conviction and stood by this philosophy and we continue to stand by this because we are convinced of one particular aspect, the solution either to the economic situation or social disorder does not lie in the hands of any religion or caste. One should have a scientific relevance and scientific bent of mind and sort out problems in their proper perspective and more dispassionately, impersonally and objectively. Unfortunately this Government is blind to objectivism, political perspective, impassioned and impersonal approach. When you look to the series of incidents that are taking place after the advent of the government not 1, 2, 3, 4, 5— it sometimes behaved in a much more narrower sense, conservative and constipated sense. They even trying to serve or represent a particular sect. It is really unfortunate. Well, it is neither you nor I or other leaders of opposition would be able to help themselves when people have really given a massive mandate to this government. At the same time, the people did expect that this Government would certainly be able to crawl an inch upwards than what the previous governments were doing to meet their aspirations and to really live up to their expectations. It is really unfortunate that day by day the expectations of the people are getting dwindled and they are becoming disillusioned and frustrated.

Now when the Assembly is in session and when there are people to question about the propriety of this Government in not being able to handle this particular situation, right under their nose? I do not know what will happen later. I can understand a sporadic incident taking place in Srikakulam or Adilabad or Anantapur. It is taking place here, which is said to be the citadel of the Government. If the Government is not
Matters Under rule 329:  
re: Communal Riots in old city.

... a position to control this inspite of our protesting every day in this House, I am really in a state of disillusionment as to what this Government can really do. Sir, our apprehensions and fears--I only wish and hope -- do not come true. But our apprehensions and fears are when the House is in Session and such instances do recur here, what will happen when the House gets adjourned SINE DIE. After that, it will be difficult for any political party to function in an effective manner even in trying to bring it to the notice of the Government. I do not know how they are going to tackle it. I have said and it is a fact and it is part of history of Hyderabad and Andhra Pradesh that people living here irrespective of the caste, community, race or religion have always lived in brotherhood. Unfortunately this is a stigma on the culture, harmonious blending and harmonious living. I do not know how this black chapter is going to be erased from the minds of the people. Apart from the social and cultural aspect, there is a sense of fear and insecurity prevailing in the people living in the twin cities--much more in the old city, whether they belong to a majority community or minority community. How are you going to tackle this problem of fear and insecurity? How are you going to erase the impression of insecurity and the sense of fear that is gripping them? Would I be wrong if I have to ask this Government that as a civilised government a responsibility is cast on their shoulders to see that such fear is erased from their minds and provide a sense of protection? If you do not do that, you have miserably failed. It is my charge against this Government, I am asking as to how many cases they have been able to prosecute, and how many have been identified. You have miserably failed. It only smacks of your disinterestedness. I would not like to use strong words or strong phrases against this Government on this occasion.

This shall not add to the image of the Government. I am not interested as to what image this Government has as a political party and that too as an Opposition Leader. But, I am certainly concerned about the people living in the twin cities--about their sufferings and sense of insecurity. The Government, has to erase this impression and provide necessary security and protection to all the people irrespective of the caste, community, race or religion. It is a basic necessity and basic and primary obligation of any civilised government. I would once again urge upon the Government to realise and see through the realities of the situation and take action against anybody who is responsible, however mighty he might be and see that he is prosecuted and deterrent punishment is awarded so that this shall not be repeated and nobody dares to repeat all such incidents.

- That the riots took place on that day.

It is prayed that the appellant be discharged from the charge of rioting.

Sri A. Madan Mohan:—Earlier when the Chairmen who was adjourning that Chair. I raised this objection. I said it is an important and urgent matter. It is something like when Rome is burning Neero is fiddling. We are engulfed in communal flames in the twin cities and more so in old city. Inspite of our warning and many cautions, today is the last day of asking and eliciting information and also to find out as to what is working in the mind of the Chief Minister inorder to ensure and control the situation and to give protection to those who are feeling a sense of insecurity. You have no authority to say. This is in a careless and indifferent manner the Government is functioning. I can understand if it is an ordinary issue. To-day is the last day of the session you have majority. It is all right secondly, when
Matters Under rule 329

situation of this order is actually agitating the minds of people outside and inside and for the Finance Minister to come and say before this house that he is deputising the Chief Minister does not speak of the chivalry, it speaks of cowardice. I charge this Government. I would request you as the Presiding Officer to exercise your discretion and say whether this situation calls for the presence of the Chief Minister or not.

Sri N. Bhaskara Rao:—The Council of the Ministers that are responsible for any situation and I am authorised by the Chief Minister to read this statement.

Sri A. Madan Mohan:—I am not interested in this stereotyped oft-repeated statement prepared by some of the bureaucrats. We would rise certain questions. It is the Chief Minister who has to answer. It is he who is going to deal with the law and order situation in his capacity both as Chief Minister and as Home Minister. It is not the Finance Minister who is dealing with it. He is not responsible. I can understand famous axiom jointly and severally the entire Cabinet is responsible and whenever it suits they will shed off and when it is inconvenient they will try to own the responsibility. Even the Finance Minister has to read out stereotyped statement prepared by bureaucracy. I cannot understand, because he is not the right person to answer all the serious doubts that are in the minds of the members. We are here to represent the mood of people, feelings and aspirations, serious suspicions, doubts of the majority of the community, irrespective of race or religion. We are here to reflect those views. It is only the Chief Minister who can answer and not the Finance Minister. I can understand when you said that he sought your permission. But it is a very, very extraordinary situation. I would like you to exercise your discretion as a presiding officer and see whether it is in fitness of things, whether it is going to add to the dignity of the House and whether it is in conformity of the principles of parliamentary democracy. If you think that we are only trying to exhaust our lungs here, you can read it and draw your own inferences but there are people outside who will draw their own inferences.

Sri N. Bhaskara Rao:—This is not the first time that I am reading. As a matter of fact on several occasions I deputised the leader of the House. Leader of the House has utmost responsibility to this House.
It is a sensitive consensus and issue nothing if more important and serious than his presence in the House which is representing six crores of people of Andhra Pradesh. He can understand and reply also. It cannot be passed on. It is such a serious and sensitive issue. I have not gone to the Council. If C.M. is not in the Council then what is it he is doing. It is more or less the last day. He knows it. It is only because of him the House is preponed. I request the Speaker to send word to the Chief Minister and let him come to the House and answer the issue.

Mr. Speaker:—It is up to the Chief Minister. On his behalf he is replying.

Mr. Speaker:—I dont know. You raise your protest. That is there.

Sri A. Madan Mohan:—We are here to protest and they are there to behave as they like. There are occasions where the Speaker belonging to my party reprimanded us. I say this with a sense of pride. Whether it is B.V. Subba Reddy or Pidathala Ranga Reddy or Ayyadevara Kaleswar rao or Jagannadha rao or Prabhakar Reddy they have reprimanded us when we were the Ministers. They have not sought permission. They have reprimanded. Even the permission was refused.

Mr. Speaker:—I have told you that the Chief Minister has taken my permission.

Sri A. Madan Mohan:—I am nobody to question your discretion. But you should have exercised your direction in view of the extraordinary situation that is prevailing in the House and the issues that are involved debated and discussed on the last day. After all he has not

left the city. He is within the city we are prepared for 3 or 4 hours to listen to his reply, so that it may entitle us to raise the doubts that we have in our minds.

Mr. Speaker:- He will answer.

Sri N. Bhaskara Rao:- I will attend to their doubts.

Sri A. Madanmohan:- We have never prevented the House. We are conducting ourselves in a most responsible and dignified manner. It is this Government and Chief Minister who is very callous.

Sri N. Bhaskara Rao:- Chair has already asked me to read. I am making a statement.

The situation in the old city continued to be quiet till 16-9-83.
Matters Under rule 329:

re. Communal riots in old city.

Sri N. Bhaskar Rao:- I have taken note of the seriousness agitating the minds. I could read as well. The council of Ministers is responsible and the Chief Minister has authorised me to read the statement. If they have any doubts I am here to clear. (interruptions.) The situation in the old city continued to be quiet till 16-9-83 (interruptions) I request the Hon. Members to hear. I will answer subsequently.

Mr. Speaker:- You cannot demand like that.

Sri N. Bhaskara Rao:- What all happened till last night I will place the information furnished by the Government. The situation in the old city continued to be quiet till 16-9-83. Adequate and elaborate arrangements were made for Sandal procession on 13-9-83 Panka procession on 14-9-83, Urs of Dargah Hazrath Yousufin Nampany on 15-9-83 and Bakrid on 18-9-83 and all the festivals passed off peacefully the situation in the old city of Hyderabad was disturbed at about 9.30 pm on 16-9-83. On 16-9-83 with a stabbing incident that occurred in a lane near Sudha Talkies in which one person died and another who was accompanying the deceased sustained multiple stab injuries and is progressing in the hospital. As a protest and to mourn the killing of the person and the stabbing of another person on the night of 16-9-83 some of the local people were found wearing black ribbons on 17-9-83 morning. The shops in the localities of Gowlipura Laldarwaja Sultan Shahi Aliabad and Shalibanda were closed. Some youth indulged in sneaking attacks with knives in lanes and by lanes in the Moghalpura police station area. As a result 4 died and 3 were injured. The police were able to contain the trouble and the situation was normal by about 2 p.m. on 17-9-83. On 18-9-83 there were sneaky attacks at one place near Kandikal gate early morning and at five places in the night between 8 and 10 pm. at Dabirpura, Kanchan Bagh Mogulpura in city and. Sashttripuram localities in R.R district in these incidents 4 persons died and 7 persons injured. The Police have arrested 90 persons till late last night and are continuing the arrest. Some knives and lethal weapons have also been seized. Intensive and mobile pickets have been pressed. Armed police brought from outside the State are deployed in all patrolling sensitive areas. More mobile parties have been pressed into service to ensure vigorous patrolling. This is the information and the Police has
taken all necessary steps and about 90 persons have been arrested. Hon'ble Member Mr. Narendra has said that no electricity bulbs were there in that area. Steps have been taken earlier also. The city is normal, I am told now.

Sri M. Bhaskara Rao:—If I reveal the names it will further aggravate the situation. I appeal to the Members not to press such things. As all of you are agitated, the entire House is agitated and in the interest of peace and calm in the city. Let us not press those things.

They have attempted to attack. Commissioner also say the situation but he did not give any orders to fire on those people.

342 19th September, 1983.

Mr. District Magistrate,

Subject: Non Availability of Fertilizers in Srikakulam District due to Black Marketing By Dealers

Ref: Rule 329

A matter of grave concern has been brought to our notice regarding the non-availability of fertilizers in Srikakulam District due to black marketing by dealers. It has been reported that due to black marketing, dealers are selling fertilizers at a higher price than the government fixed rate, thus creating a shortage of fertilizers in the market.

The situation is so critical that farmers are facing difficulties in purchasing fertilizers for their crops, which is affecting the overall agricultural production.

We urge you to take immediate action to control black marketing and ensure the availability of fertilizers at the government fixed rate. This will help in maintaining the agricultural production and ensuring food security.

Yours sincerely,

Statement by the Minister for Agriculture re. Parcha Tobacco.

It was wrongly quoted. I would like to offer a clarification. As regards the 300 crores promised by the government, has it happened to his earlier promises? Government has given a moral assurance that they will do something. What happened to his earlier promises? 160 crores have been promised. He has given a moral assurance that Government will do something. When he wants to help the farmer, when he wants to go to his rescue, is it the way?

RULING GIVEN BY THE CHAIR

Re: Privilege Motion Against Telugu Daily ‘Enamudu’

Mr. Speaker:—Sri. V. Laximinarayana Rao and twelve others have given a notice of privilege motion against the Telugu Daily ‘Enamudu’ for publishing incorrect news on the tax levied on country liquor in its issue dated 11th September, 1983. When the matter was brought before the House on 13th September, 1983, Sri Lalshminarayana Rao while reiterating that the matter must be referred to the Privilege Committee, stated that it was an established fact that the paper had published a false report knowing fully well that it is a false one. The daily published that the amount of revenue was 40 crores, whereas the actual amount is only 5 crores, and as such the paper has misled to defame the Finance Minister and hence the member contends that this amounte to a breach of privilege.

Sri Jaipal Reddy while opposing the privilege motion contended that the members who are deeming it a case of privilege are confusing the Legislature with the executive. If the activities of the member and the executive are questioned, it is, not the same as questioning the activities.
Ruling given by the Chair. 357
Privilege Motion against Telugu
Daily "Eenadu"

19th September, 1983.

of the member in his capacity as a member of Legislative Sri Venkaiah-
naidu contended that it is the duty of the papers to inform the people
what has happened in the House of the Legislature. The press has also
to discharge its duties and the press misreports of the proceeding of
the House, then it will be a different matter. He also contended that if
Mr. Laxminarayana Rao feels that the paper is trying to black-mail
or do mischievous things or indulging in bad activity, there are other
provisions available to the Government.

As mentioned by kaul and Shakdher in Practice and Procedure
of Parliament—

"In order to constitute a breach of privilege, however, a libel upon
a member of Parliament must concern his character or conduct in his
capacity as a member of the House and must be based on matters
arising in the actual transaction of the business of the House. Reflec-
tions upon members, otherwise than in their capacity as members do
not, therefore, involve any breach of privilege. Similarly, speeches or writings containing vulgar charges against members or criticising their Parliamentary conduct in a strong language particularly in the heat of a public controversy, without, however, imputing any mala fides, are not treated by the House as a contempt
or breach of privilege."

I have also gone through the May's Parliamentary Practice and
Procedure and also the 'Practice and Procedure of Parliament' by
M. N. Kaul and S. L. Shankdher.

The matter may be misleading as contended by the Honorable
members Sri V. Laxminarayana Rao and others but nevertheless there
is no breach of privilege involved in it.

But however, I appeal to the press in general and Eenadu in parti-
cular to be fair and impartial and free from political or personal bias
and more accurate in publishing the proceedings of this Honorable
House in future.

re: POINT OF CLARIFICATION
Constitution of House Committee.

Mr. Speaker:—I am to announce that the House committees are usually constituted by the Presiding Officers when there is unanimous opinions in the House about such constitution of the Committees. In the case pertaining to the allegations made by Dr. Rajasekhara Reddy against Transport Minister the Leader of the House agreed for constitution of the Committee and left it to the Speaker to constitute the Committee but the opposition demanded that the House Committee should consist of Members at the ratio of 50:50 from the Ruling and Opposition parties. Generally the House Committee consists with Members proportionate to the strength found in the Assembly and demand made by the Opposition is the first of its kind and as such the Presiding Officer is not given full option to constitute the Committee.

Under the circumstances, it is clear that the Presiding Officer is not given full authority to constitute the Committee the manner in which it should be constituted and as such, I feel it is not proper for me to constitute the House Committee in this regard.

Mr. Speaker:—I am not going to constitute any Committee in this regard.

Sri A. Madan Mohan:—Your announcement that you are not going to constitute House Committee but what about the other things. We have not agreed for the House Committee in respect of Management mines. We have at no time agreed for the constitution of House Committee in respect of A.P. Carbides.

Mr. Speaker:—That was announced long back.

Sri A. Madan Mohan:—We said and even other leaders have insisted that there should be a judicial probe and constitution of the House Committee is not going to be proper and you will not be able to make any fair enquiry about the whole thing. Where it comes to the question of two ministers and their integrity, it is a question of documentary evidence. So, it has not been explained. Our Member has offered to submit himself to the judicial enquiry.

Mr. Speaker:—That is a different matter.

Sri A. Madan Mohan:—Why it is a different matter, Sir?

Mr. Speaker:—It is for the Government to constitute. When this matter came the Chief Minister announced that Speaker may be given the discretion, but the opposition members did not agree. They
imposed certain conditions like 50:50 ratio. Under those conditions it is not desirable.

Sri A. Madan Mohan:—Am I to presume that the Chief Minister would constitute?

Mr. Speaker:—When there are such conditions imposed why should I accept when it is not unanimous.

Sri A. Madan Mohan:—If it comes to that we are not agreed to the constitution of the House Committee on an earlier occasion also. We said it should be referred to judicial probe.

Mr. Speaker:—The entire House also accepted the proposal during the discussion. There is no condition imposed then. Then the House gave a discretion to the Speaker. They never imposed a condition. In this matter certain conditions are imposed. That is differed. If you don't agree to that also we will reconsider.

Sri A. Madan Mohan:—We have not agreed to the constitution of the House Committee on earlier two occasions, whether it pertains
Mr. Speaker :- Mr. Madan Mohan, if you do not agree for that, it is a different matter. I am least bothered. Why should I constitute a House Committee if the entire House is not agreeable?

Sri A. Madan Mohan :- I want to go on record that it is not agreeable to us. ... At the same time, let all these things be referred to judicial probe including the graft charges which are levelled against the two Hon. Ministers.

Mr. Speaker :- Whatever it may be, I am not disputing the rational. When certain conditions are imposed, where is the need for me to go into it.

Sri M. Venkaiah Naidu: —You are again leaving the matter to the House.
Point of Clarification 19th September, 1983, 361
re: Constitution of House Committee.

Are we so helpless? Shall we proceed with this practice in future also? Is it good for the Parliamentary democracy? Is it not for the part of the Government at least now to refer to the judicial enquiry in that case? Why should they shirk their responsibility? There is nothing wrong in it when the Ministers themselves said that they are ready for enquiry.

Mr. Speaker —Other ways are open.

Sri M. Venkaiah Naidu: —There is no other way for the House.

Mr. Speaker: —The Government can get it enquired. Or the public will know and decide.

Sri A. Madan Mohan: —I am asking the Finance Minister who is deputising for the Chief Minister, now that the matter is referred back to the House, in respect of the graft charges levelled against the two Hon. Minster here, Government have not refuted. I would like to ask the Finance Minister whether he is going to accept for judicial probe?

Mr. Speaker: —May the Member present the query.

Sri A. Madan Mohan: —Is that the answer? Would you also shut your ears and eyes for what he is saying, Sir? I am asking a very specific question. Now, the matter has been referred back to the House where the Speaker has expressed his helplessness in regard to the constitution of House Committee in view of the conditions that were imposed. I understand that. Now, the matter is before the House. I am asking the Finance Minister who is deputising the Chief Minister here for all practical purposes, according to his own statement and earlier occasion to-day as to whether he would accept the judicial probe in respect of two Ministers where there is serious allegation of corruption and since they had offered themselves to be submitted for any type of enquiry, I do not think the State Government should shirk from the responsibility. In his capacity not only as the Finance Minister but in his capacity of deputising for the Chief Minister would he be able to accept to concede to this?

Mr. Speaker: —Admission of Members.

Sri M. Venkaiah Naidu: If the Finance Minister is involving us on the wrong side, I would like to get clarification. Neither myself
nor the Leaders of Opposition are questioning the ruling. We also understand your position. But the issue has again been reopened by the Speaker and it is in the House. It is reopened.

Now, the question has got reopened. The issue is having serious repercussions. If he is not ready to take immediate decision, he must express his helplessness. The issue is reopened, it is continuing and very much alive. I request the Hon. Finance Minister on behalf of the Government, what is the stand of the Government in view of the Speaker's present ruling.
Point of Clarification

re: Constitution of House Committee

...
Sri A. Madan Mohan:—The issue has been discussed very clearly and I do not think there is any lurking suspicion in the minds of either Treasury Benches or Opposition in respect of what has been charged or alleged and what has been refuted. Now, to convene the meeting, for what purpose? It is for the Government whether to accept gracefully what we have demanded—judicial probe to dispel the fears and misgivings which have come up in the minds of the people as against those two Ministers or the Government should say, come what may, we are not prepared for enquiry, let the people draw their own inference.

Construction of Bus S and at Wanaparthy, Mahaboobagar Dist.

141—

Sri A. B. Lokkrishnayya: Will the Hon’ble Minister for Transport be pleased to state:

a) Whether it is a fact that the land was acquired long back to construct Bus Stand at Wanaparthy, Mahaboobagar District.

b) Whether the work has been started, and

c) If not, the reasons therefor?

A—

a) Yes Sir.

b) No Sir.

c) Corporation had acquired 3.90 acres of land in Survey No. 114 in Mahaboobagar District in December 1979 for construction of a Bus Station at Wanaparthy in Mahaboobnagar District. Construction could not be commenced owing to the acute financial crisis facing the Corporation since the beginning of 1980. Corporation, therefore, took a policy decision to accord sanction to ongoing works of Bus Stations which have made considerable progress and fixed the following order of priority to take up construction of new Bus Stations,
1. District Headquarters town:
2. Sub-divisional Headquarters; and
3. Taluk Headquarters and important traffic junctions

In Mahabubnagar District Wanaparthy, Nagarkurnool and Narayanapet are the sub-divisional towns. There is already a Bus Stand constructed in early sixties at Wanaparthy, meeting the needs of passangers. Nagarkurnool and Narayanapet do not have any passenger amenities. Priority had therefore been accorded to these places over Wanaparthy on the basis of the above criteria.

Construction of Bus Station at Wanaparthy will be taken up as and when the financial position of the Corporation improves.

a) Whether a complaint was received by the Chief Minister and the Health Minister from Mr. Suryapratap Singh who admitted his wife in Niloufer Hospital at 11-30 a.m on 15-3-83 regarding ill-treatment by the hospital authorities; and

b) if so, the action taken in the matter?

A—

a) Mr. Suryapratap Singh has given a complaint to the Chief Minister.

b) A summary of the findings of the Superintendent Niloufer Hospital is enclosed.
Summary of the findings of the Superintendent, Niloufer Hospital

The wife of Sri Surya Pratap Singh delivered a baby on 15-3-83 at 11.30 pm. Since the baby was larger than the normal babies, the Assistant Paediatrician working in Neonatal Unit has examined the baby on the following morning i.e. on 16-3-1983. There was no cause for anxiety and the child was found to be slightly jaundiced. The baby was re-examined on 17-3-1983. Though there was slight increase in the depth of the jaundice, there was no cause for anxiety since the baby was active and taking mothers feeds. The result of investigation for jaundice were within normal limits. Hence no special heroic methods were employed to treat the baby except what is necessary for the patient. The baby was examined on 19-3-83 by theChief of the Unit, who decided that no further treatment was needed. The patient discharged. At the time of discharge, the child was having rash on the buttocks due to contact with the stools and this is a common phenomenon.

If the new born baby is to be transferred from Maternity ward to sick Nursery, the doctor who advised such transfers are to write in clear terms that so and so child is admitted. Otherwise the nurse in-charge of the unit would refuse. As such the nurse who refused to receive child for admission into sick Nursery was correct and she had followed the correct procedure. It was the mistake of Mr. Surya Pratap Singh and his uncle who failed to heed the nurse’s advice on the contrary he threatened saying that he would engage the goondas to beat her etc. This frightened the nurse to a great extent. But for the duty doctor entering the sick Nursery at the time probably things would have been much worse. Further it is regretful to note the nurse who was carrying has aborted that night due to fright. Mr. Pratap Singh and his uncle have apologised to the nurse and requested her not to make a complaint to the Superintendent.

It was not true that nurses asked for mamools in this hospital and in this instance there was no much evidence to prove it. It is always a common complaint about all the persons working in any hospital and often there is no proof of it.

Construction of Bus Depot at Bodhan, Nizamabad Dt.

Q. 1093—Sri D. Sambasivarao Chowdary:—Will the hon. Minister for Transport be pleased to state:

(a) whether it is not a fact that foundation stone was laid in the year 1974 for constructing a Bus Depot at Bodhan Nizamabad Dt.; and

(b) If so the reasons for not starting the work so far?

A—

(a) The foundation stone for construction of Bus Depot at Bodhan in Nizamabad District was laid on 14-12-1976 by the then Chief Minister.

A. P State Road Transport Corporation with a view to construct Bus Depot and Bus Station Complex at Bodhan in Nizamabad District had acquired 15 acres 16 guntas of land in 1976. The then Chief Minister Sri J. Vengal Rao laid the foundation stone on 14-12-76. But when the construction was about to be commenced, the land owners filed a writ petition in the High Court and obtained stay orders and forcibly occupied the land. Owning to this reason out of 15 acres 16 guntas of land land to an extent of 7.20 acres alone is in possession of the Corporation. The writ petition on the remaining portion of the land i.e. 8.07 acres is still pending in the High Court. In view of the above litigation, the Government have modified their earlier approval and award for 2.70 acres of land was passed on 18-7-1980.
While this was the position, Corporation was caught up in severe financial problems from 1980 onwards and hence could not proceed with construction.

Now, the Corporation has proposed to construct Bus Depot at Bodhan on the land available with it. Tenders for this works have been finalised. The Contractor fixed for this work has been asked to start the work immediately. Out of the administrative sanction of Rs. 13.00 lakhs, an amount of Rs. 4.00 lakhs has been allocated during 1983-84 for constructing this Bus Depot.

Steps to Crush all the sugar cane in season by the Nizam Sugar Factory at Bodhan.

Q.-1099-Sri D, Sambasivarao Chowdary:—Will the Minister for Industries be pleased to State:

(a) whether it is a fact that due to the shifting of an unit of Nizam Sugar Factory at Bodhan, Nizambad District to elsewhere the present factory is unable to crush the sugarcane produced in the area; and
(b) the steps proposed to be taken by the Government to see that ryots who produce the sugarcane in that area are not put to loss as lakhs of tons of sugarcane is getting dried up since the present mutiliated factory is unable to crush all the sugarcane in season?

(a and b): Till recently Nizam Sugar factory had 2 units at Shakkar-nagar. Unit (1) was commissioned in 1938 and unit (2) was commissioned in 1951. During 1975-76 to 1978-79 the 2 units put together crushed 3.97 to 4.81 lakh M.T.s. Since unit (1) had outlived its economic utility the same was closed down from 1979-80 and the capacity of unit (2) was increased. As a result unit (2) crushed over 7 lakh M.T.s during 1982-83. The sugarcane raised for supply to Nizam Sugar Factory unit at Bodhan should be limited to the expanded capacity of the unit. If the ryots desire to divert all the cane in that area to the Nizam Sugar Factory because of the high State advised price paid by it and also because of the low price for jaggery and khandasari, the Nizam Sugar Factory cannot be expected to accept such cane and crush the same.
