re: Demise of Sri N. Amarnath Reddy, Member of Andhra Pradesh Legislative Assembly.

*An asterisk before the name indicates confirmation by the Member.*
Condolence Motion:
re: Demise of Sri N.Amarnatha Rddy,
Member of the Legislative Assembly.

The legislature of 1972 had Sri N.Amarnatha Rddy as a Member. 1972 had been a period of great struggle and sacrifice. Sri Rddy had been a member of the assembly and had served with dedication and commitment. His demise is a great loss to the party and the people of the state.

Sri Rddy had been a strong advocate of the party and had always stood by its principles. He had been a joint force in the assembly and had played a vital role in its operations. His contribution to the party and the state will always be remembered.

This motion is a tribute to Sri Rddy's dedication and commitment to the party and the state. We express our deepest condolences to the family and Friends of Sri Rddy.

10 a.m. *Sri Basheeruddin Babu Khan (Bodban) :—Mr. Speaker, Sir, late last night I heard the news of the sad demise of our colleague Amarnatha Reddy in the Delhi hospital. I have not been long in this House and I have not known many Members personally so far. But somehow, in Amarnatha Reddy it was a kind of rapport which I could feel although he was on the other side of the House. Whenever he rose to speak, I think it was common experience in all our Members to hear that Amarnath Reddy speaking with passion for the cause or the subject he deliberated. He came fully prepared and I have found often he was carrying notes. He carried the legal books concerning a particular aspect of the Law and would read out extracts and convince the House in a very constructive manner that he was convinced for the cause he was talking of in the House, one of his friends who is a neighbour of mine told me that Amarnath Reddy although he had this illness-disease of the heart—since very long time he had concealed this because of the people whom he was serving.

re: Demise of Sri N. Amarnatha Reddy, Member of the Legislative Assembly.

Definitely, most of the people whom he was serving and particularly the ryots were hoping that he would be permitted to continue to do the job of serving his people and particularly the ryots. I particularly feel very humble to-day that one of my colleagues, one of our colleagues has departed and I would like to pray that his soul may rest in peace, that his wife and children, close relatives and friends and colleagues in the Congress party will suffer the loss with fortitude.

(d) The District Collector, Khammam reached Bhadrachalam on the forenoon of 15th August, 1986. He was unable to reach Bhadrachalam as all road and rail communications leading towards Bhadrachalam were totally disrupted. The Collector has effectively supervised rescue and relief operations from the Control Room set up in the Collectorate. At the time he crossed the R & B Bridge from Sarapaka to Bhadrachalam, water was over flowing the bridge and it was at a great risk to his life that he took this courageous action. On 16-8-1986 at 3.00 a.m. Flood level had touched a record of 75.6 feet.

(b) the amount spent so far; and

(c) the time by which, it is likely to be completed?

A.—

A statement is placed on the Table of the House.

Statement Regarding Construction of Auditorium at Agricultural College, Bapatla.

During 1971-73, it was contemplated to provide an auditorium with a seating capacity of 650 Nos. at Agricultural College, Bapatla since there were no proper facilities for conducting meetings, seminars, and cultural functions of the College. Accordingly, administrative sanction has been issued by the University for construction of the proposed auditorium at a cost of Rs. 5.50 lakhs. The planning and designing work of auditorium was entrusted to the M/s. J.J. Associates, who have provided the required plans and designs for the auditorium. The work was technically sanctioned for Rs. 5.50 lakhs by the University. The work has been entrusted to the lowest quoted contractor Sri T. Ganga Rao, when tenders were called for the work. During the year 1973, the then Vice Chancellor Sri M. R. Pai, I. A. S., has suggested to increase the seating capacity from 650 to 1200, since the student community of the College will be 800 and with staff and others put together, it will be up to 1200. Accordingly, the plans were revised to accommodate 1200 seats in the auditorium and revised plans were approved by the University. As per the revised plans, the cost of the work has been estimated to Rs. 16.25 lakhs at the prevailing rates.

2. Due to the change of plans and designs, there was some delay in proceeding with the work. Due to these changes and time-lag, the contractor put forth a claim for increasing the rates due to escalation of the market rates on account of the delay and indecision by the University in allowing him to proceed with the work in time, i.e., within his agreement period.

3. The Board of Management, who accepted the plea, increased the rates for the part of the work which has been done after completion of agreement period of the prevailing S. S. R. rates of the period of execution. On account of this, the work has been abnormally delayed till the Contractor's claims were settled. Even after revising the rates, the Contractor has taken his own time to complete the work. Meanwhile, due to severe cyclone storm in 1977, a part of the building collapsed. This once again tempered the early completion of the work. The work was finally completed including re-construction of collapsed part of work by November, 1979.

4. When the work was in progress, the Indian Council of Agricultural Research, Team has visited the Campus and advised to
cut down the expenditure from Rs. 16.25 lakhs to Rs. 10.00 lakhs duly deleting sanction of the items from the approved estimates. But some of the items suggested to be deleted were not possible to effect since without some of them like A.C.sheet roofing and flooring plastering and painting etc., it was not be possible even to complete the skeleton of the building to the present available shape. Hence, the essential items of the work have been carried out and the building has been completed excluding the proposed covered verandah around the building, false ceiling, acoustic treatment and electrical fittings, furniture etc. The total cost of the work incurred in the auditorium so far was Rs. 12,23,145. Since electrical fittings, false ceiling, acoustic treatment, furniture and stage arrangements were not provided, the building could not be put to use for the intended purpose. Hence it is lying unused from 1979. The auditorium can be commissioned, if the above items of works are carried out. The above items will cost a sum of Rs. 17.00 lakhs with the present market rates. This amount include stage decoration, 1200 chairs, acoustic treatment, false ceiling, electrical fittings, screen and projectors etc., excluding the outside verandah of the auditorium. Then an amount of Rs. 17.00 lakhs is required for commencement of the Auditorium and to make it functional in part and other side for Screening even films etc.

5. Due to economy measures, the work could not be taken up. However, after providing funds the auditorium can be commissioned within 6 months time from the date of necessary sanction to the estimate.

for Deputy Secretary to Govt.

(a) whether the State Government has taken up the work of the Power House on the left branch of Srisailam Project; and

(b) if so, the details there of?

A.—

(a) and (b) Project report for installation of 9X110 M. W. reversible pump turbine units on the Srisailam Left Bank Power Station was first submitted to Central Electricity Authority in March, 1984 for technical clearance. Based on the comments received from the Central Electricity Authority and Central Water Commission, the Project was up dated and revised project report was submitted to Central Electricity Authority on 1-5-1985. The Central Electricity Authority has accorded techno-economic clearance on 13-5-1986 for an estimated cost of Rs. 418 crores. In September, 1986 Planning Commission also conveyed its acceptance 'in principle' the feasibility of the Project subject to adequate financial provision being made by State Government in the State Plan during 7th Plan. It is proposed to take up this Project during 1987-88 and completed in 5-6 years.

Water for Vijayawada Thermal Station

86—

3442 Q.- Sri V. M. Ranga Rao:- Will the Minister for Power be pleased to state:

(a) whether there is any proposal to draw the water required for the Vijayawada Thermal Station through pumping system; and

(b) if not, the steps taken by the Government for protection of foundations of Prakasam Barrage as there is a 12 feet water level at all times?

A.—

(a) Yes, Sir. There was a proposal to draw water for Vijayawada Thermal Station through pumping system for a short closure period of canals for maintenance of the barrage gates. However on detailed examination it is now considered that pumping is not necessary as barrage gates are being maintained properly by alternative arrangements.

(b) The maintenance of 12 feet water level at the barrage has nothing to do with the safety of the foundations of the barrage. Whenever there are scour's in front of the barrage during floods they are being attended to by filling the scour's with rough stones under regular maintenance.

A. P. Administrative Tribunal Orders

88—

6339 Q.—Sarvasri Ch. Vidyasagara Rao, Baddam Bal Reddy and A. Narendra:—Will the Minister for Power be pleased to state:

(a) the number of orders of the A. P. Administrative Tribunal pronounced in the years 1985 and 1986 have been confirmed by the Government and number of orders annulled within three months from the dates of such orders prescribed under the proviso to clause 5 of Article 371 of the Constitution of India in the Energy, Environment, Science & Technology Department;
(b) whether it is a fact that the Government are indiscriminately and arbitrarily exercising the powers vested in them to annul an order of the A. P. Administrative Tribunal including interim orders;

(c) if so, whether any guidelines have been framed in the matter of annulling the orders of A. P. Administrative Tribunal; and

(d) if not, the protection afforded to the interests of the service personnel against indiscriminate and arbitrary excise of powers of annulment vested in the Government?

A.—

(a) 1985 .... Nil

1986 .... Two

One Annullled One deemed to have been implemented.

(b) No, Sir.

(c) Necessary guidelines have been issued by Government as in the U. O. Note No. 189/SPF/B/81-5, General-Administration (SPF-B) Department, Date: 22-8-1981.

(d) Does not arise.

Amalgamation of Handloom Co-operative Societies

89—

3094-(A) Q.—Sri Y. Venkata Rao:—Will the Minister for SSI & Textiles be pleased to state:

(a) whether it is a fact that Handloom Co-operative Societies running on loss were amalgamated with the profitable societies as a result of which they are also running on loss after amalgamation;

(b) if so, the action taken thereon; and

(c) whether the Government have written off any loans to Handloom Co-operative Societies which are closed down?

A.—

(a) In the process of reorganising the Primary Co-operative Societies into viable units, the nonviable societies were merged with either viable or potentially viable societies. The societies whose losses exceeded their own funds were ordered for liquidation but were not ordered for merger. In few cases, where the losses of merged societies did not exceed their own funds, they were ordered for merger. In most of the cases where the societies were ordered for merger, either they did not sustain loss or their loss was negligible. The result of effect is that after amalgamation the nucleous society did not sustain loss.
In few cases however, the amalgamation resulted in the nucleous Societies to borrow higher credit limits.

(b) In such cases a scheme was sanctioned under which financial assistance is given by way of contribution towards share capital to be recovered in five annual instalments. This enhances the credit limits of the society and enable the same to borrow higher working capital from the Co-operative Central Banks.

(c) No, Sir.

Tank at Vadiala Cheruvu

90—

(a) whether it is a fact that the Government propose to construct a tank at Vadiala Cheuuvu in Chittoor District;

(b) whether it would result in the submersion of Mollakunta and Krishnapuram harijanswada and irrigate only 500 acres;

(c) whether it is also a fact that if the tank is constructed at Madhavaram Krishnasagar, it irrigates 1,000 acres including the harijanwada of Mollakunta and Krishnapuram; and

(d) if so, whether the Government propose to modify the scheme?

A.—

(a) Yes, Sir.

(b) No village would be submerged. The total ayacut proposed to be irrigated is 704.00 acres khariff and Ac. 350 ID (Rabi).

(c) If tank is constructed at Krishnasagaram near Madhavaram village it will irrigate 1000 Ac. I. D. Khariff and 500 Acres I. D. Rabi excluding the ayacut under the Harijanwada of Mollakunta and Krishnapuram village, but involves forest submersion of 68 Acs. It is difficult to get forest clearance.

(d) There is no proposal at present to modify the scheme.

Breaches to Canals of D. P. A. P. Tank

91—

2747 Q.—Sri G. Narayanappa:—Will the Minister for Minor Irrigation be pleased to state:
(a) whether the Government are aware that breaches have occurred to the two canals of D. P. A. P. Tank (H. L. C. Drainage) in Hovoligi (village) in Urvakonda Samithi of Anantapur District; and

(b) the action taken by the Government to repair the same?

A.—

(a) Yes, Sir.

(b) The works relating to Construction of Masonry Walls for right and left canals, removal of vigitation in the right and left canals and removal of silt in both the two canals were taken up in 1986 for execution and completed; thus facilitating free flow of water through the two canals. By carrying out these works, the ayacut developed is 450 acres in the two canals during khariff in 1986. Tenders for improvements to C. M. and C. D. works of left and right canals have been called for by the Executive Engineer, Anantapur District, Anantapur fixing the last date for receipt of tenders on 23-3-87, and is proposed to complete the above works by June 1987, and the entire ayacut is expected to be developed during khariff 1987.

Pumping Scheme for Hebaka

92—

4175 Q.—Sri M. V. Mysoora Reddy:—Will the Minister for Minor Irrigation be pleased to state:

(a) whether it is a fact that the Andhra Pradesh Irrigation Development Corporation has sanctioned a pumping scheme for irrigation at Hebaka in Vallur (Mandal) Cuddapah District;

(b) whether it is a fact that there is delay in completing the said scheme; and

(c) if so, the time by which the scheme is likely to be completed?

A.—

(a) Yes, Sir. The A.P. State Irrigation Development Corporation has taken up 3 numbers. Infiltration wells on River Papagni at Lebaka (village) of Cuddapah Taluk and District.

(b) Though the infiltration wells were constructed in 11/84, power supply could not be released till 2/86 as the A.P. State Electricity Board has asked for a subsidy of Rs. 40,000. The matter was pursued with the A.P. State Electricity Board to include this scheme in any of the on-going R.E.C. Scheme, so as to avoid the payment to subsidy. Finally, the A.P. State Electricity Board has extended power supply during 2/86.
(c) The power supply is given by A.P. State Electricity Board and the pumps are procured and kept ready. Due to prolonged drought conditions in the District, the Papiagni river did not receive sufficient flows and for this reason the infiltration wells are not recharged. After the recharge of infiltration wells, the same will be operated.

Measures To Check Drain Waters

93—

6393-Q.—Sarvasri Ch. Vidyasagara Rao and A. Narendra:—Will the Minister for Minor Irrigation be pleased to state:

(a) whether it is a fact that pursuant, to Mitra Committee Report of 1965 Government have undertaken measures to check drain waters from flowing backwards in East Godavari; and

(b) if so, the state at which the matter stands at present?

A—

(a) Yes, Sir.

(b) The improvements were completed in respect of all major, medium and most of the minor drains.

Breaches To Seethaigudem Project

94—

6576-Q.—Sri K. Nageswara Rao:—Will the Minister for Minor Irrigation be pleased to state:

(a) whether it is a fact that breach has occurred again to Seethaigudem Project in Chandragundu Mandal in Khammam District;

(b) the extent of land in which paddy crop is raised under this project during 1986-87;

(c) whether water is supplied to the lands after repairing the breach; and

(d) if not, the reasons therefor?

A—

(a) Yes Sir, the tank breached due to unprecedented floods on 12-8-1986.

(b) Ac. 241.21.

(c) No, Sir.

(d) The work of forming ring bund was taken up immediately and completed by 15-9-1986.
But the tank has not filled up even up to silt level after the
bloods in the month of August 1986, as there were no sufficient rains
in the catchment area of the tank. The ryots however had drawn
water by pumping the dead storage for two wettings for the uneffected
ayacut of Ac. 108-30 Guntas.

Mr. Speaker:—Now, the House stands adjourned to meet again
