Mr. Speaker;—If you want me only to single out this question, I do not know what importance is there. There are other so many important questions also. I do not consider that this is the only important question. You are making a mountain out of a mole. What is hundred tonnes? You are making a mountain out of it.

Mr. Speaker:—We will take all the details.

Raid by Excise Enforcement Wing

193—

Q.—Sarvasri P. Janardhan Reddy and J. Chittaranjan Das:—Will the Minister for Excise be pleased to state:

(a) whether any raids have been conducted from January to June 1987 in Twin Cities by the Excise Enforcement wing; and

(b) if so, the number of sale points covered, the quantity of liquor seized and the number of cases booked on account of the raids?

The Minister for Excise (Sri P. Ashoka Gajapathi Raju):—

(a) Yes, Sir.

(b) (i) Number of sale points covered . . 8,589

(ii) Quantity of liquor seized . . 34,646 Litres

(iii) Number of cases booked . . 1,101.

Mr. Reddy:—It has been a drawback.

Mr. Chittaranjan Das:—Mr. Speaker, is there any report of any death during these raids?

Sri P. Ashoka Gajapathi Raju:—As far as I know, the Excise Department has been taking the assistance of the Police in conducting the raids. There is no case reported of any death during these raids.
Oral Answers to Questions.

Sri P. Ashoka Gajapathi Raju:—The law of the land is being observed. Anyone breaking the law of the land is being dealt with. The Enforcement Department does this work. Identify some points.

Mr. Speaker:—What precautions do you take? What are the norms for conducting the raids?

Sri P. Ashoka Gajapathi Raju:—First of all, those who are running illicit distillation do not apply for Government permission. It is an illegal activity. Naturally, raids take place.

Sri P. Ashoka Gajapathi Raju:—The norms are there in the sense they are expected to be there.

Mr. Speaker:—Do you have anything? Otherwise, you say no.

Sri P. Ashoka Gajapathi Raju:—The norms are there in the sense they are expected to be there.

Mr. Speaker:—There are norms to take the assistance of the Police and identify the places and raided them.
Mr. Speaker:— He is prepared to answer your question. There are two things now. One is that the raids take place. It is the question of the Excise Department, identifying the places, taking the assistance of the police and destroying the illicit distillation etc., as per law. What are laid down under Excise rules for them to do? Now, you say that the contractors are taking law into their own hands. Are they doing so? Since 1984, the Excise Department have been taking three Platoons of A. P. S. P. to assist them during the raids.

Sri P. Ashoka Gajapathi Raju:— Since 1984, the Excise Department have been taking three Platoons of A. P. S. P. to assist them during the raids.

Sri P: Ashoka Gajapathi Raju:— I am "prepared," for "anything. Why should it be postponed?"
Sri P. Ashoka Gajapathi Raju :- These are all illegal sale points.

Sri P. Ashoka Gajapathi Raju :- These are all illegal sale points.
Sri P. Ashoka Gajapathi Raju:—This activity is basically illegal. Any Government is expected to enforce the law of the land. That is what we are exactly doing. If any specific case is brought to our notice, I will definitely look into it.

Mr. Speaker:—The Members are agitated about the contractors taking law into their own hands and dealing with the excise offences by themselves. That is all a simple question.

Sri P. Ashoka Gajapathi Raju:—As far as my information goes, on any information received by the Department, the Department acts. It may be a private citizen or anybody that gives the information.

Mr. Speaker:—The Contractor himself is taking law into his own hands and acting.

Sri P. Ashoka Gajapathi Raju:—Contractor is not expected to take law into his own hands. If there are any specific cases, we will definitely look into them.

Sri Mohd Amanulla Khan (Chandrayangutta):—Each and everybody know that. Are you satisfied Sir? I think, you are not also satisfied.
Sri P. Ashoka Gajapathi Raju:—In fact, Excise Department has been assisted in the State by three A.P.S.P. Platoons Sir.

They are two illegal forces fighting against each other, Sir. If they bring specific cases, we will deal with them.

The contractors themselves taking law into their own hands and conducting the raids without the knowledge of the Excise Department and the Police Department. That is why what they want is an assurance that illegal forces should not be encouraged and they must be stopped.

Sri P. Ashoka Gajapathi Raju:—Hon'ble Members have been attributing motives. Here again it starts. If anybody tries to attribute motives to everybody, it is not possible to function.

Mr. Speaker:—They are not attributing motives to the Government or anything. Certain facts are brought to the notice of the Government.

Sri P. Ashoka Gajapathi Raju:—The unfortunate thing is one illegal activity against another illegal activity. We are dealing with the Excise offences with the assistance of the police and conducted certain raids. Law takes its own course, Sir.

(Interruptions)

Mr. Speaker:—The answer has come specifically from Hon'ble Minister that it is a war between persons engaged in the anti-activities.
and the other. It is a private war between illicit liquor dealers and the contractors and any specific matter which is being brought.

As per Section 47-A of the Indian Stamp Act, 1899 where the Registering Officer appointed under the Registration Act, 1908, while registering any instrument of conveyance, exchange, gift, partition or
settlement, had reason to believe that the market value of the property which was the subject matter of such instrument had not been truly set forth in the instrument, he could, after registering such instrument refer the matter to the Collector for determination of the market value of such property and the proper duty payable thereon.

As per the latest amendment to Section 47-A, which came into force with effect from 16-8-86, the Registering Officer has to keep the document pending and refer the matter to the Collector for determination of the market value of the properties stated in the document, if the value noted in the document is lower than the prevailing market rate at the time of registration.

The Collector, determines the market value, taking into account the nature of the land i.e., wet, dry or garden, etc., and its fertility the irrigation and other facilities like power nearness to market/road. The values adopted by the parties in the previously registered document are also taken as guiding factors for fixing the values wherever necessary. In respect of sites, the location of site i.e., whether located in commercial, industrial, residential or slum area and infrastructural facilities like nearness to market and commercial complexes, transport facilities available, etc., and the values adopted in the previous transaction are taken into consideration for fixing the value.

re: Illegal activities of District Educational Officers, Khammam.

From my point of view, they may not be important but the Members still go on insisting and are inquisitive about getting it included. The question hour is not meant for getting assurances or promises. It is meant just to highlight the importance. Every question you want to get assurance or promise so on and so forth. I will again discuss with the Leaders of the Parties and we will come to an understanding how best we can do from tomorrow onwards.
