(1) Mr. Mahendran:— The Minister for Education in his reply to the question of Mr. S. V. Raju, stated that there would be examinations in four centres in the state. The students from the north zone would appear at the 1192 centre for Examinations in October, for which 500 students have applied. The Examinations will commence from the morning of 17th October. Any student who wishes to appear for the examinations may approach the Assistant Collector at the examination centre. Thank you.

(2) Mr. V. Reddy:— Mr. Speaker, there is a question in the name of Mr. S. V. Raju, who represents the Guntur constituency. He says that there is an urgent need for more centres in the state for Examinations. I support the view that more centres should be provided. It is not possible for all the students to appear for the examinations in the same centre. There should be arrangements for centres in various parts of the state. The Minister for Education should take steps to provide more centres.

by merit alone..." The Court, having regard to the facts, held that the allotment of seats in Medical Colleges in other States to the students of Andhra Pradesh by merit alone was not consistent with the provisions of Rule 304 of the All India Medical Council and was therefore illegal.

The matter was heard on 28th July, 1986.
Matters Under Rule 304:
re: Allotment of seats in Medical Colleges in other States to the Students of Andhra Pradesh.

Mr. B. Vedula, President, All India Medical Students Association, New Delhi.

I am pleased to inform you that rule 304 of the All India Medical Council Rules, 1985, was amended in the year 1987-88. The amendment was in the matter of allotment of seats in medical colleges in other States to the students of Andhra Pradesh.

The amendment was made to the effect that the allotment of seats would be made on the basis of merit and not on the basis of the demand for seats in the State of Andhra Pradesh. The students of Andhra Pradesh would be entitled to get a seat in the medical college of their choice in the other States.

I am enclosing a copy of the amendment for your information. I would be grateful if you could take suitable steps to ensure that the students of Andhra Pradesh are aware of the new rule and are able to benefit from it.

Yours sincerely,

[Your Name]

President, All India Medical Council.

Government Bills: The Andhra Pradesh Medical Practitioners Registration (Amendment) Bill, 1986

28th July, 1986

The Andhra Pradesh Medical Practitioners Registration (Amendment) Bill, 1986

This bill is proposed to amend the existing law for the registration of medical practitioners in the state of Andhra Pradesh. The amendments include changes in the conditions for registration, the fees payable, and the provisions for the renewal of registration. The bill seeks to ensure better regulation and control over the medical profession, thereby protecting the public interest.

The bill has been introduced to address the need for stronger regulations and to improve the standards of medical practice in the state. It aims to provide a legal framework for the registration of medical practitioners, ensuring that only qualified individuals are permitted to practice medicine.

The amendments in the bill include provisions for the prohibition of unqualified persons from practising medicine, the introduction of a system for the periodic renewal of registration, and the imposition of fines for violations of the registration rules. These changes are expected to contribute to the overall improvement of the health sector in the state.

The bill is an important step towards creating a more transparent and accountable medical profession, ensuring that patients receive quality care from qualified practitioners. It is hoped that the implementation of these amendments will lead to a significant improvement in the public health standards in the state.

The bill has been thoroughly discussed and debated in the state assembly, and the amendments have been carefully considered to ensure that they align with the overall objectives of the medical profession and the public interest.

The bill has been passed unanimously, and it is anticipated that it will be enacted into law shortly. The implementation of these amendments is expected to bring about a significant change in the medical practice in the state, ensuring that the public is protected from unqualified practitioners.

In conclusion, the Andhra Pradesh Medical Practitioners Registration (Amendment) Bill, 1986, is a crucial step towards creating a more regulated and accountable medical profession. The amendments included in the bill are expected to contribute to the improvement of public health standards, ensuring that patients receive quality care from qualified practitioners.

Discussion commenced at 10 a.m. and continued till 10.15 p.m.

The President: Sir, let us now consider the Income and Expenditure of the Waif Board.

Mr. Smith: Sir, may I ask for some information regarding the expenditure on education and medical treatment?

Mr. Brown: Sir, I would like to draw your attention to the fact that the income from the sale of property has decreased significantly this year.

Mr. Johnson: Sir, we need to increase the budget for the education department to ensure that our children receive a proper education.

The President: Gentlemen, let us adjourn for a short break before we continue with our discussion.

Break of 10 minutes.

The President: Gentlemen, we will now continue with our discussion on the Income and Expenditure of the Waif Board.

Mr. Smith: Sir, I would like to suggest that we allocate more funds to the medical department to improve the health of our children.

Mr. Brown: Sir, I would like to express my concern about the lack of funds for the improvement of the infrastructure of our institutions.

Mr. Johnson: Sir, I would like to inform you that the income from the sale of property has increased by 20% this year.

The President: Gentlemen, let us adjourn for the day.

Adjourned at 10.30 p.m.

Income and Expenditure of Wakf Board.

Wakf Board.

Mr. Tahir Ali Khan presented a report on the income and expenditure of the Wakf Board for the year 1985.

The report stated that the income of the Wakf Board for the year 1985 was Rs. 2,500,000 and the expenditure was Rs. 1,500,000. The profit for the year was Rs. 1,000,000.

Mr. Tahir Ali Khan thanked the members of the Wakf Board for their contribution to the income of the Board and urged them to continue their efforts.

Mr. Ali Hussain Khan, a member of the Wakf Board, expressed his satisfaction with the report and praised the efforts of the staff of the Board.

Mr. Ali Khanuddin, another member, pointed out that the income of the Board could be increased by diversifying its sources.

The meeting adjourned.

re: Income and Expenditure of Wakf Board.

The Members of the Board shall be appointed by the State Government by notification in the office, i.e., Gazette, from any one of the following categories of persons, namely, first preference Members of the State Legislatures and Members of the Parliament representing the State.

All Wakf properties are given to the Telugu Dhasham Workers on nominal charges in the whole of Andhra Pradesh and they are taking Wakf properties. They are not doing their duties properly and they are doing the work of the Presidents and Ex-Ministers better. They are having a lot of Wakf properties.
Ha'f-an-Hour Discussion: Income and Expenditure of Wakf Board.

Sri Mohd. Mukarramuddin:— What I submit is the very object of this discussion is to allow the Members to make specific points. He is making specific allegations against the Wakf Board. These specific allegations have to be looked into.

Mr. Deputy Speaker:— I will adjourn the House exactly at 1.30 p. m.

Sri Mohd. Amanulla Khan:— I will prove.

re: Income and Expenditure of Wakf Board.

Sri Mohd. Mukarramuddin :—I have specific allegations on which the Government has to take action against the Wakf Board.

Sri Mohd. Mukarramuddin :—Let me say some specific things. It is a long standing misappropriation and we have to narrate all those things.

Sri Mohd. Mukarramuddin (Charm nar):—Under Sec. 15 of the Act, the Wakf Board can only superintend the various Wakf properties in accordance with the objects of the Wakf Board Act. In the last Assembly Session the Minister had given a list saying that there are 47 Wakf properties which are under the management of the Wakf Board. Now the present list shows that there are 442 properties. That means whatever was given by the Minister at that time was incorrect information furnished to the House. 442 Wakf properties are under the direct management. Sec. 43 (a) requires that whenever a property is taken under the direct management of the Board that could be only for five years. That is the maximum period. Sec. 43 (a) sub-clause (4) specifically provides that the accounts should be audited by a Chartered Accountant. That audit has not so far been done. This is a specific allegation against the Board on which the Government can supersede.
the Wakf Board. As regards the statement of income and expenditure furnished by the Minister, it shows that for the last six years Rs. 81 lakhs was the income whereas the expenditure was Rs. 89 lakhs. That means Rs. 9 lakhs have been overspent. From where has the money come? If they had taken from any other institution, it is misappropriation. Thirdly, the Wakf Board....

Mr. Deputy Speaker:—The House is adjourned to meet again at 4.00 p.m.

(The House then adjourned at 1.32 p.m. till 4.00 p.m. in the evening)

HALF-AN-HOUR DISCUSSION

re: Income and Expenditure of Wakf Board arising out of S.N.Q. No. 5936-D answered on 21-7-1986. (Con’d.)

Sri Mohd. Mukarramuddin:—I have to continue my morning session’s speech, Sir. I shall just put forward few points for the consideration of the Minister.
Half-an-Hour Discussion: 28th July, 1936.

The Wakf Board can appoint a Mutawalli only for a limited period. If there are any rivals, they can act under Section 92 Cr. P.C. But the Wakf Board has failed to take action in respect of direct management. There are certain cases for consideration. The property of the Wakf Board can be within the direct management over 5 years under Section 43 (a). Another point is that the accounts of the Wakf Board were not audited and here, it failed in its duty.

The Chairman of the Wakf Board, without any authority of the Wakf Board, has appointed Qurramp Nafeez as Public Relations Officer on a salary of Rs. 1,000/-. This has been done without the authority of the Board too when the Wakf Board did not have finances. This appointment is also illegal. This is where the Chairman has squandered the amount.

The Chairman has purchased two Ambassador Cars. The Wakf Board does not have money and it is running in deficit budget. This purchase of Ambassador cars cannot be for the welfare of the Wakf Board. It is again the squandering away of the fund under the direct management of the Chairman.

The Chairman had invited Begum Rasool to the office of the Wakf Board and for that Rs. 21,000/- has been spent without any account and without any authority of the Wakf Board. These accounts have not been submitted to the Wakf Board and the Board has not approved that expenditure. This is quite contrary to the Wakf Act. I request the Government to take necessary action against the Wakf Board on this.

Under Section 11 of the Wakf Act, out of four categories, persons could be appointed. Now it is for the Government to see whether there are any persons appointed in those four categories on the Board or not. If there are no persons appointed from those four categories, it is the duty of the Government to take action to appoint persons to the Wakf Board, only from among those four categories.

I am thankful to you, Sir, for giving me this opportunity. Let the Minister reply, Sir.

re: Income and Expenditure of Wakf Board.

 Lah. released the Above from the Board. He said that the income and expenditure of the Wakf Board had been released. The income was divided into three parts: income from land, land with buildings, and other income. The expenditure was divided into three parts: general expenses, maintenance of the property, and other expenses. The income was higher than the expenditure, so the Board was able to save money. The Board was happy with the results.

The Government wants to make a viable commercial project. Directorate of medical & health family planning etc. will be merged in this commissionerate. The Government is planning to make a viable commercial project. Directorate of medical & health family planning etc. will be merged in this commissionerate.

5-10 p.m.
Mr. Speaker, Sir, I have read the Bill. One gets an impression that we have entered an era of commissionerates. Only, day before yesterday we passed a Bill for commissionerate on higher education. Now, this Bill is for the commissionerate of hospitals to be precise.

The basic feature of our Constitution is that the Members elected through General Election form the Legislative Assembly, and a person from the majority party is elected the Leader of the House. And this leader and his Government is responsible to the Assembly.
Now, with the creation of so many commissionerates (what the Government calls autonomous bodies), they are bringing down, both the image and power of the Assembly. In the commissionerates all the people will be the appointees and supporters of the TDP, and the Government is thus surrendering the power of the Assembly - a forum where actually the Government is expected to come and discuss issues and take counsel.

Section 3 (5) a,b,c: they all provide the procurement, stock and distribution of linen, etc. to the hospitals and dispensaries. strangely enough there is no provision about the procurement, stock and dispensing of medicines, which is actually the prime function of the hospital.

Under Section 11 (b) (ii), you want to transfer to the University of Health Sciences, all the Medical Colleges, Teaching Hospitals, Dental College, Nursing Colleges and Nursing schools. We have passed a separate Act for the creation of a Ministry of Health Sciences. Is it a supplemental provision to that Act; if so, then it should have been specifically so stated, and brought as an amendment to that Act, instead of bringing a separate Act in this fashion.

The commissionerate is said to be an independent and autonomous body, but strangely enough all the members are going to be appointed by the Government, and they will be fully under the control of Government being their appointees. So, the basis purpose of independence and autonomy is badly defeated.

The basic ideology is ‘health for all the people’. But, are we having sufficient hospitals, dispensaries, buildings, equipments, medicines, linen, and staff to cater to the health needs of the poor and downtrodden at all levels (Village, Panchayat Samithi, and Zilla Parishad) in the State. We import latest equipments, medicines and drugs. If the poorest of the poor is not going to be benefited by the ‘Government Hospitals,’ then all our laws, legislation, and commissionerate are only a big waste and a mere show.

I request that the Government withdraw this Bill, and they could achieve the same Purpose through an executive order.
The Andhra Pradesh Vaidya Vidhana Parishad Bill, 1986. (Passed)

Government Bills:

Mis. Marjorie M. Godfrey (Nominated):—Establishing this commissionerate goes to prove that the present medical system in the State is in shambles. It would have been much better if the system was revamped rather a new commissionerate was to be created. Better medical facilities could be provided for the poor.
Government Bills:  

There is no need to form another body which is going to look after the health needs of our people. We have a medical system. We have medical departments. We have the required hospitals, dispensaries, medicines and other things. Why not we see that these are put to function in the proper way?

I am sorry to find here—one has to defray the operatives expenses—and to ensure better upkeep of hygienic conditions, the patients will have to pay for their treatment in the hospitals. This will give a loophole for the doctors charging exorbitant fees for the people who are to be operated. You cannot put a full-stop anywhere and poor people who cannot afford to go to private practitioners, and who would like to go to the Government Hospitals. If they have to pay for their services and medical attendance and other things—then, I do not think we are doing a service to our people in the State. It will be better if we could provide them with more free hospitals, free dispensaries, free treatment and other medical care which will then, of course, help us and help our people. This type of taking money from the people will really encourage—as we will see the donations, which will encourage other ways of matching money—and depriving the poor of their rights. So, I would request that this clause i.e. "they should pay for their services that are rendered to them" should be deleted. At least for the poor people, I would like that this clause should be deleted.

Then, we should also see that the cleanliness, hygienic drugs that are supplied to the people are in conformity with the Drug Control Rules. Sir, I read in the paper the other day that spurious drugs were being administered particularly in the hospitals. I do not want to give my own experience that I had. I had taken an injection of calcium (Intravenous) and it disagreed with me and I really fainted. That shows that the hospitals are stocking old stock of drugs and they will, perhaps, take materials and medicines from the people who are under-rated. I would really like that a very keen watch should be kept on the medicines that are being supplied in these hospitals, because most of our people—poor people will go to these Government hospitals. Now I find many of the nurses are telling me that they are afraid so much to give an injection to anybody. Because the injections and drugs that are being supplied to these hospitals are spurious drugs or out-dated and the drugs which are not conformable to the diseases with which the patient it suffering. So I request that the people should be at least cared for, when they are sick and when they are in need of help and when they are really coming to Government hospitals with all their sorrows and sufferings. So, for these,
I would request you not to charge the poor people for the services rendered in the Government hospitals, particularly and also to see that the drugs supplied in all hospitals are really worth and really upto the mark.

Besides this, now they are giving disposable syringes and needles. I would request that these disposable syringes and needles should be purchased as many as possible for all hospitals to prevent any other disease infected to healthy persons. Also in the Blood Banks, they should have a very thorough check up, so that these Rikshaw-pullers etc., who come for giving blood for a little money should be thoroughly checked and I request our Honourable Minister for Health to look carefully into these aspects to see that these people who have infected blood, should not be allowed to give blood and they should not be taken even into the Blood Banks. Then also, the conditions in our hospitals are really not upto what we would expect. There are about two nurses for the entire ward when there are about 50 patients. They are understaffed and the hospitals are not supplied with enough linen and enough of other things for cleaning and servicing their wards. Is it possible for these two nurses to give care for the 50 patients?

I would request that some more staff should be recruited so that better care would be given to our people.

Thank you.

Dr. V. Kesanna (Gorantla) :—Sir, the creation of the Post of Commissioner to look after the medical institutions, is a welcome step taken by this Government. At present the Directorate is empowered with the administration of these medical institutions and it has to work within the financial limits given by the Government. Now the Commissionerate is empowered to raise loans and even to take donations to improve these
institutions. No doubt, with these financial help, the Commissionerate will be in a position to improve all the district headquarters hospitals and elsewhere, including Taluks hospitals—and the people can expect better services hereafter in these institutions.

Sir, with the starting of these Medical Universities, in due course all the teaching hospitals should have to be transferred to this Medical University.

The Government have started a firm of its own for the manufacture of drugs. We have received so many complaints from the hospitals about this inferior quality of the drugs. Now, the Commissionerate will be in a position to supply good drugs that are manufactured from its own firm and it will obviate the malpractices in supply of these drugs hereafter. There cannot be any misappropriation of the funds, as pointed out by our members, as the Government have full powers to audit its accounts and it has been made a statutory that the Commissionerate has to submit its accounts every year to the Legislature.

Now, Family Welfare Programme is gaining momentum in our State. I came to know that the Central Government has increased allocations to our State to the tune of Rs. 1 million. The Director of Family Welfare will be over-burdened if he looks after the Welfare Programmes and also the Medical Institutions at the district headquarters. With this, idea, our Government has taken a right step in creating the Commissionerate to look after the district and Taluk Hospitals.

Sir, I thank you for giving me this opportunity.

BUSINESS OF THE HOUSE.

THE ANDHRA PRADESH MUNICIPAL LAWS (AMENDMENT) BILL, 1986.

Mr. Speaker:—I now request the Minister for Municipal Adminis-
tration to move the Bill for consideration.

Minister for Municipal Administration (Sri K. Kala Venkata Rao):—
Sir, I beg to move:

"That the Andhra Pradesh Municipal Laws................."
“Provided that no such motion shall be made until after copies of
the Bill have been made available for the use of members and that any
member may object to any such motion being made unless copies of the
Bill have been so made available for two days before the day on which
the motion is made and such objection shall prevail unless the Speaker
allows the motion to be made.”

My submission to the Honourable Speaker is this Bill has far-reaching
consequences and we have to study the Bill so as to be able to put forth
our arguments before the House. The time is not sufficient and the Bill
need not be taken up today.
