Regarding non-formal and adult education, it is implemented in the State since 1978. I do not find anything new that they have done except expanding the schemes taken up by the previous Government.

It is due to lack of committed workers particularly in your Department.

(I INTERRUPTIONS)

I am not particular about the colour. I am talking about the size. I request the Education Minister to go into it and take action. In the entire Kurnool district uniforms of same size were supplied.

(End of Statement)
MARJORIE MRS. M. GODFREY (Nominated): Mr. Deputy Speaker, Sir, I just wanted to say a few things. Education is the spine of the nation and an educated nation will always progress. I feel that the subject of Education is not thoroughly discussed in the Assembly. Not even five hours are devoted to this subject. It needs more time for discussion. But, I don't want to speak on that point. I only wanted to speak about the conditions of Government schools.

I have always been saying that the Government buildings are no place for our children to be housed in. Most of the buildings are dilapidated. There are no basic amenities like toilets, drinking water, etc. Even the roofs are almost collapsing. There are no regular playgrounds. There is no space for the children to sit in. I would like to give an example here of the high school next to my house. Children are cramped in. They cannot even write. They are all sitting on the floor. How do you think that they would study when their minds are not at ease? They are not sitting with peace.

Now I come to the teachers and their responsibilities. We are getting trained teachers. Government is paying huge sum to them. Are these teachers in the Government schools responsible? I feel that they are most irresponsible. They do not bother what the children are doing. Children are sitting at the back and playing. None of the teachers take any interest. A few more competent inspectors should go round the schools and see that the children get education which they deserve. Why is it that so many people are coming to the private schools? We have long
queues at private schools waiting for admission and we cannot admit them.

We have lower KG schools having 140 to 160 seats, whereas people for application for 2000 seats. I know of certain Principals who are refusing to give the applications but they are begging for the applications. I am sorry to say that they are going to such schools because of the poor standards in the Government schools. But a little more care and a little more supervision is needed.

There is no discipline in the Government schools. Boys do as they like. There is no discipline at all. I would like to request the Education Minister to see that some discipline is also imposed.

Education should be an all-round subject not only learning fo, A B, C. But they should teach them the mannersims, how to talk, how to behave in public and also how to act when they go out because these children when they come out of the schools will be of more use to the society. I have talked to the very well educated people. They do not know mannerism; they do not know how to reply and they do not have any other knowledge of mannerism with the society, with the people. They should be taught, so that boys and girls can do something to the society.

I would lastly request that Hindi should be started from Class VI because Hindi being the National Language-- I do agree that Telugu should start from early stages because ours is a Telugu State. Andhra Pradesh--but Hindi should also be given a place because our boys and girals will be put into these water-tight compartments. If our boys are to go to Delhi or Bombay and work, they cannot mix freely, they will not be able to converse and not able to do business.

I would only request the Minister to give few more Inspectors and I think, a little training is needed for the Inspectors as to how they should go about and inspect the schools. With this, I thank you very much.

Vocational Education covers only the recognised section-organised sector and miserably neglects the unorganised sector which absorbs 96% of the work force.

Vocationalisation and higher secondary education is a national imperative for an effective supply of manpower to keep pace with the planned development.

SRI BASHEERUDDIN BABU KHAN (Bodhan): The results of Urdu Medium Schools have been very poor, and the standards are falling down year after year. The main reason for this is that there are no qualified Urdu hands to teach the respective subjects through Urdu Medium in Middle and High Schools.

Will the Minister see to it that the teachers are selected subject-wise and medium-wise, and all the vacancies of Urdu teachers are filled up soon?

SRI G. MUDDU KRISHNMA NAIDU: Definitely Sir, the appointments will be medium-wise and subject-wise.
