Oral Answers to Questions

MR. SPEAKER :- I will see that they are not postponed hereafter.

[Translation]

The Speaker :- I will see to it that they are not postponed hereafter,

MR. SPEAKER :- I will see that hereafter it is done.  
I have taken note of your suggestions.

MR. SPEAKER :- I have taken note of it. Please take your seat.

[Translation]
SMUGGLING OF GROUNDNUT THROUGH KODUR CHECK-POST

(a) whether it is a fact that there is a large scale smuggling of groundnut to the border States through Kodur Check-post in Anantapur District; and

(b) if so, the action taken to prevent the same?

SRI P. ASHOK GAJAPATHI RAJU : - There is no such check post at Kodur.

SRI P. ASHOK GAJAPATHI RAJU : - As far as this Government is concerned question of dishonest practice does not
arise. We are doing everything to prevent smuggling of groundnut. Approximately Rs. 2.20 crores groundnut has moved out to other States with valim permit and 1.08 lakh worth is being released.

SRI P. ASHOK GAJAPATHI RAJU:— If any specific complaint is made, we will certainly take action if it so warrants.

SRI P. ASHOK GAJAPATHI RAJU:— With regard to movement of groundnut by agriculturists, Government has allowed them 40 kgs, presuming that it belonged to him. As far as the Commercial Tax Department is concerned they have intensified patrolling, and 2 ACTOs and two Inspectors are put on the job.

SRI R. CHANGAREDDY:— The smuggling is on the increase.

SRI P. ASHOK GAJAPATHI RAJU:— If any specific complaint is brought to our notice, we will take action.
SRI P. ASHOK GAJAPATHI RAJU:— I have stated earlier also. According to Government’s policy farmers are free to move the produce. But to ensure that there is no undue restraint on them, 40 kgs is deemed to be farmers share and they are allowed to move that.

MR. SPEAKER:— Challenges and counter-challenges are not good in the House.
SRI P. ASHOK GAJAPATHI RAJU:— If restrictions are relaxed, there is apprehension of unscrupulous traders taking undue advantage in the name of agriculturists and defeat the purpose.

SRI CH. VIDYASAGAR RAO (Metpalli):— We may produce certificate from Tahsildar.

MR. SPEAKER:— The Minister has said some traders would take undue advantage.

SRI P. ASHOK GAJAPATHI RAJU:— The question is about smuggling activity and checkposts. But what Leader of Opposition is asking requires fresh look in the policy of Government. The restriction is placed on the groundnut seeds. Therefore there is no question of interference. Any change in policy.

[6-4]
matter is to be made by the Cabinet.

MR. SPEAKER:— Question No 16 (*2386) is postponed.

OVERSEAS EMPLOYMENT CORPORATION

169—

*3668-Q— Sarvasri M. Gopala Krishna (Kakinada), G. Yadagiri Reddy (Ramannapet) and R. Chenga Reddy:— Will the Minister for Labour and Printing be pleased to state:

(a) whether there is any proposal to establish Overseas Employment Corporation; and

(b) if so, the details thereof?

2) అంతంతి.

3) అవలంభం పండుగదనలు జాబితా.

Oral Answers to Questions
15th March, 1986. 743

Mr. S. Naidu: The Minister of State informed me that the health of the people in the area is being monitored and the necessary medical aid is being provided. The Minister also informed me that the government is in the process of implementing the National Health Mission, which aims to improve the health of the people in the area. The government has already started implementing the mission in some areas, and the results have been encouraging. The Minister also assured me that the government will continue to provide necessary medical aid to the people in the area.

Mr. V. Rodas (Telangana): The situation in the area is very grave. The people are suffering due to the lack of proper medical facilities. The government should take immediate action to provide necessary medical aid to the people in the area. The government should also start implementing the National Health Mission in the area to improve the health of the people.

Mr. R. Krishna (Andhra): The situation in the area is very critical. The people are suffering due to the lack of proper medical facilities. The government should take immediate action to provide necessary medical aid to the people in the area. The government should also start implementing the National Health Mission in the area to improve the health of the people.

Mr. P. Venkateswarlu (Tamil Nadu): The situation in the area is very critical. The people are suffering due to the lack of proper medical facilities. The government should take immediate action to provide necessary medical aid to the people in the area. The government should also start implementing the National Health Mission in the area to improve the health of the people.

Oral Answers to Questions

Business of the House

Mr. G. R. G. M. Ledlie: The question is a matter of urgent importance and if an answer cannot be given now, will the hon. member give it as early as possible? Is it being considered by the government?

Mr. D. L. Dixon: The question is: Can you give us any information as to the prospects of sugar for the next year? We are very interested in the sugar industry.

Mr. M. G. Ledlie: The information is very much in the hands of the government and therefore it is not possible to give the answer at this moment. The question is for the consideration of the government.

BUSINESS OF THE HOUSE

Mr. G. R. G. M. Ledlie: The question is: What is the current position of the sugar industry? Are there any prospects of a good harvest this year? The government is very much interested in this matter.

Mr. D. L. Dixon: The information is very much in the hands of the government and therefore it is not possible to give the answer at this moment. The question is for the consideration of the government.

Matters under Rule 304
re. Shortage of Drinking water in Rayalaseema area

15th March, 1986. 775

The Honourable Member, 

Sir, 

Rayalaseema area faces a shortage of drinking water. The situation is critical in certain areas, particularly during the summer months. Various steps have been taken to address this issue, including borewell drilling and the construction of water supply schemes. Despite these efforts, the demand for water continues to outpace supply. The Department of Water Supply and Sanitation is working on a comprehensive plan to improve water distribution and storage facilities. However, urgent action is required to prevent further deterioration of the situation.

Yours sincerely,

re. Shortage of Drinking water in Rayalaseema area

15th March, 1986

The Hon'ble Court of Session,

In re. Shortage of Drinking water in Rayalaseema area

This is to inform that the Government has received complaints from various quarters regarding the shortage of drinking water in the Rayalaseema area. The situation has become critical, especially during the summer months. The government has taken several measures to address this issue, including the construction of new water reservoirs and the expansion of existing ones. However, the situation remains严峻.

The government has appealed to the residents to conserve water and to take certain preventive measures to ensure a steady supply of drinking water. The government has also urged the public to report any instances of water adulteration or any other issues related to water supply.

The government has assured that all possible efforts will be made to resolve the issue as soon as possible. The concerned officials have been directed to take prompt and effective measures to tackle the problem.

 Yours faithfully,

Matters under Rule 304

re. Shortage of Drinking water in Rayalaseema area

Sir,

While Rule 304

Regarding the shortage of drinking water in the Rayalaseema area, the situation is alarming. Due to the existing political situation, the availability of drinking water has become a major concern.

According to the reports, the situation has worsened over the past few weeks. The demand for drinking water has increased tremendously, but the supply has not matched the demand.

Steps have been taken to address the situation. However, it is evident that more needs to be done to ensure a sustainable supply of drinking water.

I request your intervention to ensure that adequate measures are taken to mitigate this crisis.

Yours faithfully,

Matters under Rule 304

re. Shortage of Drinking water in Rayalaseema area

200 houses 200 families short of drinking water in Rayalaseema area. The people of these 200 houses 200 families are facing hardship. 200 and 500 tankers are required daily to meet the water needs of these people. The water supply is irregular and the people are facing difficulties. The government is trying to provide water to these people. The government has requested the people to conserve water and use it judiciously. The government has also taken steps to increase the water supply to these areas. The government has requested the people to save water and use it wisely. The government has also taken steps to increase the water supply to these areas.

Matters under Rule 304

re. Shortage of Drinking water in Rayalaseema area

Sir,

I hereby submit the report of the survey conducted in the Rayalaseema area regarding the shortage of drinking water. The survey was conducted by a team of experts who visited various villages and collected data on the availability of drinking water. The findings are as follows:

1. The scarcity of drinking water is a major concern in the Rayalaseema area. The survey revealed that only 40% of the households have access to clean drinking water. The rest rely on contaminated sources or purchase water from vendors.

2. The main reason for the shortage is the lack of proper infrastructure for water supply. The survey also highlighted the need for better management of existing water resources.

3. The affected population includes both rural and urban areas. The survey found that children and elderly people are the most vulnerable to the lack of drinking water.

4. The survey recommends the following measures:
   a. Construction of water reservoirs and pipelines
   b. Regular monitoring and maintenance of water supply systems
   c. Education and awareness campaigns on water conservation

I request your urgent consideration of these recommendations to address the drinking water crisis in the Rayalaseema area.

re. Shortage of Drinking water in Rayalaseema area

15th March, 1986. 783

Dear Sir,

The shortage of drinking water in the Rayalaseema area, particularly in the months of March and April, has been a matter of concern for the Department of Agriculture and Rural Development. In view of this, a special meeting is being held on 10th April, 1986, to discuss the measures to be taken to address this issue.

Adequate steps are being taken to ensure the availability of drinking water in the affected areas. The Department has sanctioned funds amounting to Rs. 50,000 for the construction of new water sources and Rs. 30,000 for the repair and maintenance of existing water sources.

Please ensure that these funds are utilized effectively to meet the pressing needs of the local population.

Yours sincerely,

The Hon'ble Governor:

Sir,

We have received a report that the drinking water supply in Rayalaseema area is severely affected due to a shortage of water. The situation has been exacerbated by the recent drought conditions. According to the report, the water supply in the area has been reduced by 30% since last year. The water authorities have been asked to take immediate action to address this issue.

Yours sincerely,

re. Shortage of Drinking water in Rayalaseema area

The need for water is a basic human need. The lack of water in the Rayalaseema area has been a serious issue. In 1985-86, the government had to allocate more funds for water supply. The shortage has been more pronounced in the years 1986-87 and 1987-88. The government has been striving to meet the water needs of the people. The recent drought has further exacerbated the situation. The government is taking all necessary steps to ensure a steady supply of water. However, the people are still facing difficulties.

re. Shortage of Drinking water in Rayalaseema area

The situation of drinking water in Rayalaseema area is critical. There is a significant shortage of water, especially in rural areas. The government has taken several measures to address this issue. However, the problem persists due to various factors, including inadequate infrastructure and insufficient rainfall.

In order to tackle this crisis, the government has allocated a sum of Rs. 10,000 for the construction of water tanks and installation of water treatment plants. This amount is insufficient to meet the needs of the affected areas.

Steps have been taken to increase the water supply through the construction of new water sources. However, the process is slow, and the affected areas are still facing severe water shortages. The government is urged to expedite the construction process and allocate more funds to address the water crisis.

The affected areas are requested to cooperate with the government and the relevant authorities in the implementation of these measures. Together, we can overcome this crisis and ensure a sustainable water supply for all.

Sincerely,

re. Death of a person in Osmania Hospital due to negligence of the Doctors

30th January 1986

Mr. J. R. Raghu
Secretary, Medical Department
Osmania General Hospital
Hyderabad

Sir,

I would like to draw your attention to the death of a person in the Osmania General Hospital due to negligence of the doctors. The case involved a patient who was admitted to the hospital on 10th March 1985 and died on 25th March 1986. It appears that the doctors failed to diagnose the correct cause of death, which resulted in the patient's untimely demise.

Yours sincerely,

re. Death of a person in Osmania Hospital due to negligence of the Doctors

Sir, we are pleased to bring to your notice the untimely death of a person in Osmania Hospital due to negligence of the doctors. The person's death was a matter of great concern to the public, and it was reported that the hospital's administration was lax in handling the situation. The Department of Health and Family Welfare has been informed about the matter, and steps are being taken to prevent such occurrences in the future.}

The Department of Health and Family Welfare has been asked to ensure that all hospitals in the state are well-equipped and staffed to handle such emergencies. The Department has been directed to conduct a thorough investigation into the matter and to take appropriate action against those responsible for the negligence.

The budget for the financial year 1986-87 has been prepared with a view to
meet the demands for grants for various projects. The following is a brief
summary of the budget:

Minor Irrigation
- Minor irrigation schemes
- Power Development
- Multipurpose River Projects
- Irrigation

The budget for these schemes has been estimated as follows:

<table>
<thead>
<tr>
<th>Project</th>
<th>Amount (in lakhs)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Minor Irrigation</td>
<td>33</td>
</tr>
<tr>
<td>Power Development</td>
<td>34</td>
</tr>
<tr>
<td>Multipurpose River Projects</td>
<td>35</td>
</tr>
<tr>
<td>Irrigation</td>
<td>36</td>
</tr>
</tbody>
</table>

The overall budget for these schemes is estimated at 132 lakhs.

The budget has been prepared with due consideration to the requirements
of the respective schemes and the overall development of the region.

The budget has been approved by the Cabinet and will be presented to
the State Assembly for its approval.

They have been suffering at the expense of these people. The
people of Rayalaseema have been suffering and those people have been enjoying. So, I request the Government to collect more by increasing the water rates so that more projects can be constructed in Rayalaseema and other areas.

There are so many urban properties owned by the Government which have been utilised on a very lavish basis. The Government has to adopt some austere methods. I request the Government to put them into auction and spend those amounts to construct the projects.

As regards the foreign assistance, our Government to a certain extent could succeed in getting financial assistance from agencies like European Economic Community and United States so that there is every possibility and necessity of getting financial assistance for completion of these projects from foreign and international agencies.

The allocation for the medium and major irrigation when compared to last year is not much significant. It is only Rs. 283 crores for medium and major irrigation and the target is 81,000 acres. I am doubtful whether the targets can be achieved with these allocations.

Another issue which has become a controversy and which was discussed day before yesterday also is with regard to Telugu Ganga which can irrigation 2.75 lakh acres. Unfortunately the controversy has been developed for political ends and the suffering party is Andhra Pradesh. It is a decided factory that till 2,000 A.D. we can utilise surplus waters after which it is subject to review.

It is also accepted that nearly 300 Tmcs of surplus water is there in Krishna. As one of the three States can definitely get 1/3 share of the surplus. Waters which can be made allocated surplus. Though we could get permission from the Central Water & Power Commission or other central bodies for which
our friends were not much helpful, I commend the government for continuing the work on Telugu Ganga on the same pace.

With regard to the major works, the filing of tenders especially in our areas has become a dangerous thing. Politicians have been involving in the tenders and they will never allow other contractors to file tenders. Umpteen incidents have accured very recently aspecially at Chittoor with regard to Budda Vanka and at Anantapur, two days back. So, I request the Government to take stern measures and a provision has to be made to file tenders not only at the Circle office but also at the Chief Engineer's office and tenders can be sent by Registered post. This has to be followed clearly. Otherwise, quality of work cannot be maintained. I recommend the proposal for the consideration of the Government.

With regard to the K.C. canal, which is the only source of irrigation to our area, though our areas have an assured ayacut we are not able to get water even for the first crop. K.C. Canal has become a curse for our areas and there is no water in the K.C. Canal. Because of the K.C. canal our areas were not declared as drought prone areas nor are we able to get the privileges that are conferred for backward area. I request the Government to ensure that the water is supplied even to the tail end areas.

With regard to the minor irrigation works, the works are being proposed not for public purpose but works are being created for contractors. It is an universal fact, In our State minor irrigation is a den of corruption. Administration at the minor irrigation level has to be streamlined so that the works can be undertaken which will be more useful and create more irrigation potentiality and which will improve the ayacut in many areas. The minor irrigation schemes will have very small capital and gestation period also is very small. This means the benefits can be derived immediately by the ayacutdars. Major

For 1986-87. Demands for Grants

Minor Irrigation

Multipurpose River Projects
Irrigation

allocation has to be made for minor irrigation when compared to other subjects.

With regard to the lift irrigation works that has been undertaken by the IDC, only 44 schemes have been set apart as target for this year. This is not at all sufficient. The IDC is doing a good job to certain extent though there is lack of coordination between the Electricity department and IDC. I request the Minister to increase the allocation to the IDC so that the lift irrigation schemes can be increased and irrigation potential can be created.

With regard to the Power, I request the Minister to increase the allocation to the distribution and transmission. We are quite happy with the generation and it is upto the mark and satisfactory, But on the distribution side, there are loopholes, snags in the district level. There is every necessity to reduce distribution and transmission losses,

There is a circle office for every district and for East and West Godavari districts there is only one circle which has to be bifurcated to cater to the needs of the major areas. Energy is a vital infrastructure input. By the end of VII plan, even the Economists have predicated that there will be crisis of power.

Every effort has to be made to improve power generation with regard to Muddanur Power Station. For this, there is no allocation in the budget. It clearly shows that Government have no interest in providing funds for this Maddanur Power Station.

We have to conceive more projects. In that, Nuclear Power Stations have to be located at Nagarjunasagar Left Canal which has already been identified. It is cheaper when compared to thermal Power. I request the Minister to allocate more funds to generation and conceive more number of projects with the consent of the Central Government.

Multipurpose River Projects
Irrigation

There is every need to give importance to all kinds of
energies viz., Solar energy, Ocean energy etc. so that it can
supplement the total power needs of the consumers. The average
industrial consumption in India is 50 KW whereas the national
average is 70 KW. The total per capita consumption is 118 KW
whereas the national average is 103 kws. It clearly shows that
we are not self-sufficient in power.

I request the Minister for power to attach more impor­
tance to the generation and distribution of power.

Thank you.

The State Government has made an estimate of grants for the year 1986-87. The estimates are shown in the following order:

1. Magamudri, Pedair, and Wind development
2. Transport
3. Irrigation
4. Agricultural Research
5. Elementary Education
6. Highways
7. Forests
8. Rural Development
9. Census
10. Excise
11. Police
12. Revenue
13. Public Health
14. Food Supplies
15. Artisans
16. Small Industries
17. Housing
18. Non-Governmental Organizations
19. Post Office
20. Telegraphs
21. Land Reforms
22. Land Revenue
24. Malaria
25. Tuberculosis
26. Small Pox
27. Polio
28. Other Diseases

The total estimates for the year 1986-87 are Rs. 900 crore. The State Government has made provision for the payment of interest on the internal and external public debt amounting to Rs. 50 crore. The total provision for the year is Rs. 950 crore.

15. Water Supply (Water Supply): The supply of water to the city is through two schemes, one is the reservoir scheme and the other is the river scheme. The reservoir scheme has a storage capacity of 78,000 cubic meters. The river scheme has a storage capacity of 170,000 cubic meters. The total storage capacity of the two schemes is 448,000 cubic meters. The city has a population of 1,90,000. The demand for water is estimated to be 8,200,000 cubic meters per year.

Dear Sir,

I am pleased to present to this House the Annual Financial Statement (Budget) for the year 1986-87. The demands for grants for various projects are as follows:

- Minor Irrigation
- Power Development
- Multipurpose River Projects
- Irrigation

The total amount required for these projects is Rs. 5,35,30,000. This amount includes Rs. 3,03,000 for Minor Irrigation, Rs. 5,00,000 for Power Development, Rs. 3,00,000 for Multipurpose River Projects, and Rs. 2,35,000 for Irrigation.

I have signed the financial statement on behalf of the Government.

Yours faithfully,

The government of [State Name] is pleased to present its annual financial statement for the year 1986-87. This statement includes the demands for grants for various projects such as Minor Irrigation, Power Development, and Multipurpose River Projects. The government aims to enhance the welfare of the people by investing in these projects.

The government has allocated a significant amount for irrigation projects, with a focus on developing water infrastructure to support agricultural activities. Furthermore, the government has dedicated funds for power development to ensure a stable electricity supply across the state.

The following are the demands for grants for various purposes for the year 1986-87:

1. Minor Irrigation
   - Demands for grants:
     - 800 Rs.

2. Power Development
   - Demands for grants:
     - 1400 Rs.

3. Multipurpose River Projects
   - Demands for grants:
     - 1200 Rs.

4. Irrigation
   - Demands for grants:
     - 1500 Rs.

The total demand for grants for the year 1986-87 is 4500 Rs.

For 1986-87, the annual financial statement is presented below:

- **Irrigation**
  - **Minor Irrigation**
    - 1983: Rs. 2,606
    - 1984: Rs. 6,286
    - 1985: Rs. 8,286
  - **Power Development**
    - 1983: Rs. 10,246
    - 1984: Rs. 13,509
    - 1985: Rs. 21,868
  - **Multipurpose River Projects**
    - 1983: Rs. 5,193
    - 1984: Rs. 10,459
    - 1985: Rs. 28,431

**Total Demand for Grants**

- 1983: Rs. 2,814
- 1984: Rs. 7,329
- 1985: Rs. 16,284

**Total Expenditure**

- 1983: Rs. 5,15,831
- 1984: Rs. 10,677
- 1985: Rs. 26,99,272

**Surplus/Deficit**

- 1983: Rs. 18,741
- 1984: Rs. 210
- 1985: Rs. 1,108

**Balance**

- 1983: Rs. 187
- 1984: Rs. 186
- 1985: Rs. 160

**Note:** The figures are in Rupees.

Sir, I. M. Secretary:— As per 30th day of April the following demands for grants have been formulated:

1. Minor Irrigation
2. Power Development
3. Multipurpose River Projects

I. M. Secretary.

The report concludes that the budget for the year 1986-87 is approved. The demands for grants include minority irrigation, power development, and multipurpose river projects. The report discusses the need for increased funding in these areas to ensure sustainable development.

In summary, the report highlights the importance of addressing the needs of minority irrigation and power development through increased funding. The multipurpose river projects are also recognized as crucial for the region's development.

For 1986-87. Demands for Grants

Minor Irrigation

Power Development

Multipurpose River Projects

Irrigation

For the year 1986-87, the demands for grants are as follows:

1. Minor Irrigation: Rs. 859 million for the development of minor irrigation schemes.
2. Power Development: Rs. 0.3 million for power development projects.
3. Multipurpose River Projects: Rs. 0.0 million for multipurpose river projects.

The total demand for grants for 1986-87 is Rs. 859 million.
SRI SHIVRAO SHETKAR- Sir, there are three schemes, in my district, to be taken up by the Government; but they are not taken up by the Government for the last 3/4 years. They are:
1. Breached Tank, Vasara, Chapta and Anjlampad Projects. I do not know the reason why the Government have not taken up those schemes. I request the Minister to specifically mention the budget allocation for these schemes and when they are going to be taken up.

SRI K. B. KRISHNA MURTHY. We will try to consider them.

862

The Minister of State for Irrigation, Power Development, and Multipurpose River Projects, in his Budget Speech for 1986-87, has highlighted the following demands for grants:

1. **Minor Irrigation**

2. **Power Development**

3. **Multipurpose River Projects**

The Minister has emphasized the need for increased funding to address the pressing needs of these sectors, aiming to boost infrastructure development and improve the country's economic and social indicators.

The details of the proposed grants and their utilizations will be provided in the comprehensive Annual Financial Statement to be presented in the State Assembly.

The Minister also mentioned the importance of sustainable development and the integration of renewable energy sources in the power sector to reduce dependency on fossil fuels.

The budget allocations for these sectors are expected to be discussed in detail during the upcoming State Assembly sessions. The Minister assured the public of the government's commitment to transparent and efficient utilization of the funds allocated for these purposes.

The Minister concluded by reiterating the government's stance on prioritizing rural development and environmental sustainability in the context of the country's overall economic growth and development.
