(ii) 5. Demands (Budget Estimates) 1986-87:

As per the previous year’s estimates, the demands for grants have been
justified. However, it has been observed that the demands have
exceeded the estimated expenditure. The following table
summarizes the demands for grants.

<table>
<thead>
<tr>
<th>Department</th>
<th>Demand (Rs)</th>
<th>Actual (Rs)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Education</td>
<td>121,000</td>
<td>100,000</td>
</tr>
<tr>
<td>Health</td>
<td>40,000</td>
<td>50,000</td>
</tr>
<tr>
<td>Agriculture</td>
<td>60,000</td>
<td>70,000</td>
</tr>
<tr>
<td>Projects</td>
<td>10,000</td>
<td>20,000</td>
</tr>
</tbody>
</table>

It is observed that the demands have increased by 15% compared to the
previous year. The reasons for the increase are as follows:

1. Increased expenditure on education due to the introduction of
new courses.
2. Increased expenditure on health due to the expansion of
health care services.
3. Increased expenditure on agriculture due to the
extension of farming activities.
4. Increased expenditure on projects due to the
expansion of development activities.

In conclusion, the demands for grants have been justified, but
there is a need for careful scrutiny to ensure that the
expenditure is within the estimated limits.
